PADDLE PALACE
NEWS & HAPPENINGS

Welcome, Paddle Palace Friends!

As we look ahead to 2026, I want to take a moment to thank you for your continued trust and enthusiasm. Paddle Palace has always been about more than equipment. It’s about people, passion, and performance. Together, we’ve built a community that celebrates the joy of table tennis at every level.

The new year marks an exciting new chapter as we roll out our brand new, upgraded website designed to make your experience smoother, faster, and more interactive. Whether browsing the latest rubbers, comparing blades, or exploring training tools, our goal is to help you find exactly what you need to improve your game.

Partnerships continue to strengthen our connection to the sport’s growth. We are proud to support Major League Table Tennis (MLTT) as the league’s official fulfillment partner. Our NCTTA partnership ensures that the next generation of collegiate athletes has the top-quality products and resources they need to thrive. And through our long-standing collaboration with USA Table Tennis (USATT), we remain committed to supporting tournaments, athletes, and coaches nationwide.

On the equipment front, innovation continues to drive everything we do. We’re thrilled to introduce several cutting-edge products this season, including:

- The Paddle Palace X2W Rally Pro Robot, the most affordable training partner yet
- Stiga’s Cybershape series and the new Helix rubber
- Nittaku’s 44mm larger balls, a favorite among senior and recreational players
- Tibhar’s Lebrun Brothers blades, engineered for play of Alexis and Félix Lebrun, and new Pro level Hybrid K3 rubber
- Donic’s Zhang Jike signature blades and rubber, blending Chinese touch with European craftsmanship

And there’s more to come! Our mission remains simple — to provide the best products, service, and support to every player who shares our love for the game.

Best Regards,

Ryan

Ryan Hoarfrost, President

From Family Legacy to Future Vision:
Ryan Hoarfrost Takes the Helm at Paddle Palace

We are pleased to announce that Ryan Hoarfrost is the new owner of Paddle Palace Table Tennis as of August 22nd, 2025. He now owns 100% of the stock. Our previous owner, Judy Hoarfrost, is retiring from the company.

Judy stated, *“It is time for the younger generation to bring fresh energy and ideas into the future. Ryan has already proven his abilities by taking on the major managerial role in recent years. Paddle Palace is dear to my heart, and I am excited to see Paddle Palace as it grows with Ryan at the helm.”*

We are the distributor for the major brands of table tennis, as well as selling online directly to the public at paddlepalace.com. In addition, next door to our equipment warehouse is Paddle Palace Club, a professional table tennis club offering lessons, tournaments, leagues, classes, and drop-in play. Paddle Palace began as a table tennis playing facility in Portland, Oregon in 1973, and expanded to become the premier distributor of table tennis products in North America. We moved to our current location in October 2015, in downtown Tigard in the suburbs of Portland.

Ryan Hoarfrost has been involved with Paddle Palace and the sport of table tennis his whole life. Even at the age of 9, he performed on national TV in China, doing an exhibition match. One of the top players in Oregon, he has a USATT rating of 2200. After graduating from Oregon State University in 2011, Ryan has been employed full-time at Paddle Palace. As a businessman and as a player, Ryan is respected as a foremost expert in table tennis equipment.

Ryan Hoarfrost stated, *“Our staff and I care deeply about serving the needs of the table tennis community and providing the best quality table tennis products at a fair price. I greatly appreciate all the support of our sports community and loyal customers. I am looking forward to honoring the legacy of Paddle Palace as we look to the future.”*

Paddle Palace STAFF PRO SPECIALS

Meet our Paddle Palace Staff!

Paddle Palace prides itself on exceptional customer service. Our staff are also players and passionate about our sport. Their expert knowledge on table tennis equipment can help you advance in the sport with just the right recommendations for your playing style.

RYAN HOARFROST
Vice President
[Modern Offense Playing Style]
- 2022 Men's Singles Oregon State Champion
- 2200+ Rating

HUNTER APEX AC (flared)
with Stiga DNA Dragon Grip (2.3mm, black)
& Donic Bluestar A2 Rubber (2.0mm, red)
Ryan's Setup: "As an offensive player that requires heavy topspin attacks and high quality variable serves and receives, this combination is the perfect set up. The Apex AC provides excellent power while retaining a comfortable solid feeling for touch shots. The DNA Dragon Grip provides extreme spin for forehand serves and opening loops while the Donic Bluestar A2 provides precise placement with reserve power for the backhand."

SEAN O'NEILL
Media Manager / Marketing
[Offensive Playing Style]
- 2-time Olympian ('88 & '92) / 5x US Men's Singles National Champion
- US Table Tennis Hall of Fame Member

STIGA PURE CYBERSHAPE CWT (flared)
with Stiga DNA Helix Platinum H (2.2mm, black & red)
Sean's Setup: "The Pure Cybershape CWT brings the legendary STIGA feel I've trusted my entire career into a modern, balanced design. The Custom Weight Technology allows me to fine-tune my setup for perfect stability and touch. I pair it with DNA Helix Platinum H on both sides for explosive third-ball attacks and a crisp, direct feel in every rally."

AYLLON GILADI
Product Specialist / Customer Service / Coach
[Modern Defense Playing Style]
- 2022 US Nationals Champion (U2000)
- 2000+ Level Player

STIGA DESTINY CARBON CYBERSHAPE (flared)
with Donic BlueGrip J2 (2.0mm, black)
& Dr. Neubauer Desperado Reloaded (OX, blue)
Ayllon's Setup: "The Stiga Destiny Carbon is a fantastic blade for aggressive allround players looking for versatility and a large sweet spot. My long pip game is nasty as ever, now that I am using Desperado Reloaded with no sponge. Paired with the Donic Bluegrip J2, my setup is capable of achieving balance any situation - perfect for an allrounder like myself."

RYAN GIBSON
Product Specialist / Customer Service / Coach
[Defensive Blocker Playing Style]
- 2018 US Open Hardbat Champion
- 2000 Level Player

HUNTER FLAME (flared)
with Dr. Neubauer Defence Master (1.5mm, black)
& Tibhar Grass D.TecS Rubber (ox, red)
Gibson's Setup: "As a close-to-the-table blocker, having a light setup is critical to my reflexive play style. Hunter Flame, with its Balsa characteristics, enhances blocking while keeping everything lightweight. Dr. Neubauer Defence Master rubber allows me to easily place the ball while retaining good feeling for spin. I continue to choose Tibhar Grass D.techs in OX because it is simply the best weapon for a disruptive blocking game near the table."

JIWEL XIA
Paddle Palace Club Head Coach
[Offensive Spin Playing Style]
- Former member of Beijing Men's Team / Multiple National titles in Japan
- Star Player on MLTT Team, Portland Paddlers

NITTAKU GYO-EN (flared)
with Nittaku Hurricane Pro III Turbo Orange (2.0mm, black)
& Nittaku Genextion V2C (2.0mm, red)
Jiwei's Setup: "I rely on precision and a relentless offensive style. Generating an incredible amount of velocity requires a very dense rubber such as Nittaku Hurricane Turbo Orange in order to withstand and cope with the energy transferred to the ball. This equipment allows me to make full use of my advanced technique while maintaining the control and feeling required to play with finesse when needed."

CHRISTIAN LILLIEROOS
Paddle Palace Club Coach / Instructor
[Modern Offense Playing Style]
- Head Coach MLTT Portland Paddlers / 16 titles as Head Coach at Texas Wesleyan
- US Table Tennis Hall of Fame Member

STIGA AURA HYBRID CARBON CYBERSHAPE (fl)
with Stiga Helix Platinum H (2.2mm, black)
& Stiga DNA Platinum M (2.3mm, red)
Christians' Setup: "The Cybershape Aura Hybrid blade is amazing. I can achieve better control with this version. Stiga DNA Helix Platinum Hard sponge gives me good control for blocks and more response when I loop hard. My backhand loop has less acceleration, so I like the DNA Platinum Medium for that."

BURKE WALLS
Paddle Palace Club Managing Partner / Coach
[Combo Offensive Playing Style]
- 1600+ Level Player
- Multiple PPC Tournament Event Champion

TIBHAR SAMSONOV PURE WOOD (flared)
with Nittaku Fastarc G-1 (2.0mm, black)
& Tibhar Ellen Defense (2.0mm, red)
Burke's Setup: "I love how this setup gives me full control over the rhythm of the rally. The Fastarc G-1 lets me attack with confidence, while the Ellen Anti breaks the tempo and forces my opponent to rethink their next shot. It's the perfect mix for a combo player who likes to change pace and keep opponents guessing."

MAJOR LEAGUE TABLE TENNIS & PADDLE PALACE

A great parntership with America’s first professional table tennis league

Major League Table Tennis (MLTT) launched in 2023 thanks to the vision of software entrepreneur and lifelong table tennis player Flint Lane. His mission was simple – bring professional team table tennis to the United States for the first time. Within six months, the dream became reality. The league’s inaugural season kicked off in Daytona Beach, Florida in September 2023, following its national debut on ESPN’s Ocho Day. A year later, MLTT returned to “the Ocho” expanding its reach and excitement across the country.

Now entering Season 3, MLTT has attracted world-class talent and major investors. NBA Hall of Famer Manu Ginobili co-owns the Florida Crocs, while World Top-10 star Dima Ovtcharov joined as a co-owner of the Princeton Revolution. With elite players, dynamic match formats, and national exposure, MLTT is fast becoming one of the most innovative leagues in American sports.

- MLTT’s unique format features:**
- Golden Points and Golden Games deciding matches in thrilling fashion
 - Open Serve Doubles, keeping strategy front and center
 - Instant Replays and live broadcasts on TableTennis.TV
 - Integration with MiLTT, Spindex Ratings, and Ratings Central to track player performance

Paddle Palace continues to extend the partnership beyond the league. The Paddle Palace Fall Open and Golden Game Teams Tournament, both sponsored by MLTT, offered \$4,800 in prize money, blending professional energy with community engagement.

SHOW YOUR MLTT PRIDE WITH PADDLE PALACE: OFFICIAL PARTNER OF MLTT

Paddle Palace proudly serves as the official fulfillment partner of Major League Table Tennis. Fans can shop exclusive MLTT team jerseys, hats, and hoodies, available only at PaddlePalace.com.

Fans can gear up with the official MLTT apparel collection, including Team Jerseys, featuring the same professional-grade fabric and design worn by MLTT athletes on tour, from the Bay Area Blasters, Atlanta Blazers, Carolina Gold Rush, Chicago Wind, Florida Crocs, Portland Paddlers, Princeton Revolution, Los Angeles Spinners, Texas Smash, and New York Slice.

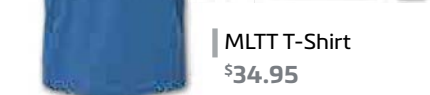

MLTT Team Jerseys \$59.95

MLTT Hat \$29.95

MLTT Hoodie \$49.95

MLTT T-Shirt \$34.95

Join the movement and represent your favorite team on and off the court! Together, Paddle Palace and MLTT are building the future of professional table tennis in America.

PADDLE PALACE STAFF REPRESENTS IN MLTT!

Players like Jiwei Xia of the Atlanta Blazers represent the league’s elite talent, while Christian Lillieroos, head coach of the Portland Paddlers, brings his deep experience to the bench. Sean O’Neill, U.S. Olympian and Hall of Famer, brings every rally to life as MLTT’s Western Conference color commentator on CBS Sports Network.

TABLE TENNIS RUBBER

Rubber sheets come as a square in a sealed package. The rubber is then custom-assembled to a blade. We will assemble rubber to the blade as a free service upon request. One rubber sheet covers one side of a blade, two rubbers are required to cover both sides. ITTF regulations require black rubber on one side and a contrasting color on the other.

4 MAIN RUBBER TYPES:

- **Smooth**, or “inverted”, provides the most spin and is used by over 85% of tournament players.
- **Short Pips**, or “pimpled”, has a bumpy surface and does not create a lot of spin and often provides more control. “Hard Rubber” is the term for short pips with no sponge, used primarily for Classic or Hardbat play.
- **Long Pips** has longer pips that reverse the spin of the opponent. It is difficult to play offensively with long pips, so most players only use it on one side.
- **Anti-Topspin** has a smooth surface and does not generate much spin/speed. Anti rubber neutralizes opponent’s spin. Most players use it on one side.

CHOOSING RUBBER:

- **Speed vs. Spin:** The Paddle Palace Rubber Ratings are a good place to start. Offensive players who use topspin, drive, loop, and smash usually prefer rubber with a high speed rating, while defensive players who primarily use underspin, chop, push, and block usually prefer slower rubber. Loopers and choppers prefer rubber with a high spin rating.
- **Sponge Thickness** affects the speed of the rubber. Offensive players prefer 1.8 to 2.5mm. Allround players prefer 1.5 to 2.0mm. Defensive players prefer OX (no sponge) to 1.6mm. Loopers prefer thicker sponge. Choppers prefer thinner sponge. Developing players needing more control should choose a thinner sponge that fits their playing style.
- **Sponge Hardness** affects spin, speed, control, and feeling. A soft sponge offers the most control and feeling and often suits beginners and intermediate players. Medium sponge suits players with an allround game who appreciate touch/control but also like powerful strokes. Harder sponge brings the most power and speed, and is favored by aggressive, well-practiced, higher level players trying to win the point outright with powerful strokes.

TAKING CARE OF YOUR TABLE TENNIS RUBBER

Table tennis rubber is one of the biggest investments players make in the sport. A brand new sheet of rubber is beautiful, clean and fresh. As soon as you play with it, dirt, oil, dust, grime, nicks, and dead spots find their way onto your originally pristine rubber. Without proper cleaning and care, your rubber will get old quickly. Eventually you will need to change your rubber or get a new paddle. But if you take care of it, your rubber will last much longer!

CLEAN YOUR RUBBER

- Dirty rubber will cause the surface to be less tacky and spinny and will also play inconsistently. This results in a lack of touch.
- It is best to use a cleaner that is specifically made for table tennis rubber (see page 54).
- Spray one or two sprays of cleaner on one rubber, then wipe it with a table tennis sponge or lint-free cloth (see page 54).
- Always clean your rubber at the end of each playing session, and any time it seems dirty.

COVER YOUR RUBBER

- When rubber is covered, it stays new much longer.
- We like adhesive protection sheets because they actually stick to the rubber. Protection sheets come in squares. You can cut it to fit the size of your rubber, or leave it as is.

KEEP YOUR PADDLE IN A CASE

- The best case is one that has a wide opening and is roomy enough to insert and remove your paddle by the handle, so you don’t need to touch or inadvertently scrape the rubber against the case.
- Keep your paddle at room temperature and away from sunlight. Do not leave rubber sheets or your paddle in a hot car.

USE EDGE TAPE

- Edge tape makes a significant difference in the number of nicks and splits on your blade edge and it helps keep your rubber edges from chipping.
- We prefer edge tape that covers some or all of the rubber in addition to the blade edge.

HOW TO READ THE RUBBER COMPARISON CHARTS

Rubber Comparison Charts are listed by brand, and are included on each page of the specific brand section.

Paddle Palace will glue rubber to the blade at no extra charge upon request. No returns on custom-made paddles.

SPEED/SPIN/CONTROL RATINGS are on a scale of 10 to 99, with the higher the rating, the higher that attribute. Paddle Palace ratings use a universal scale which differs from manufacturers’ ratings, so that the rubbers from all the brands can be compared. Ratings are intended only as a tool to help select rubber. Naturally, speed, spin, and control are affected by a player’s skill, strokes, and playing style. The faster or spinnier a rubber is, the harder it is to control. and is also more affected by the opponents’ spin.

SPONGE HARDNESS is indicated with the relative values: S = Soft, MS = Medium-Soft, M = Medium, MH = Medium-Hard, and H = Hard.

SPONGE THICKNESS is shown in millimeters. The measurement includes only the sponge (not the topsheet). Thicker sponge = more speed and spin. Thinner sponge = more control. Thicker sponge adds weight to the paddle and gives a more cushioned feel. Thinner sponge is lighter and gives a woodier feel. Often the manufacturer indicates “MAX” for the thickest sponge available for a rubber. MAX thickness can vary from brand to brand, but usually means the sponge is approximately 2.2 to 2.3mm. MAX means sponge and topsheet together measure 4.0mm, which is the maximum thickness allowed under ITTF regulations. All rubber sheets at Paddle Palace are of ITTF-legal sponge thickness.

COLOR: Rubber sheets are available in both black and red unless otherwise indicated. Some rubbers have additional colors available. Look for the color square (■ ■ ■ ■) next to the chart listing.

Go to PaddlePalace.com for interactive filters of all the rubber attributes, viewable from both a Thumbnail View or Chart View.

BLUE GRIP J RUBBER SERIES

A new level of stickiness. Co-developed by Chinese superstar Zhang Jike! Combines the strengths of Bluestar with BlueGrip C1.

BlueGrip J1 NEW

Extremely dynamic with powerful catapult, with exceptional spin potential, guaranteeing high precision in ball placement. Recommended for ambitious, uncompromising attacking players.

SPEED **95** || SPIN **98** || CONTROL **69**

SPONGE - [H] 2.0 / Max

\$56.95 (#RDBGJ1)

BlueGrip J2 NEW

Very dynamic and catapult-strong, extremely spin-friendly, guaranteeing high precision in ball placement. Recommended for modern, offensively oriented players.

SPEED **91** || SPIN **98** || CONTROL **71**

SPONGE - [H] 2.0 / Max

\$56.95 (#RDBGJ2)

BlueGrip J3 NEW

Dynamic and powerful catapult, yet easy to control, well balanced, guaranteeing high precision in ball placement. For moderate attackers and offensively oriented allrounders who demand a perfect balance between speed and control.

SPEED **88** || SPIN **98** || CONTROL **73**

SPONGE - [H] 2.0 / Max

\$56.95 (#RDBGJ3)

BlueGrip S1

Harder than S2, but softer than C1 & C2. Balanced ratio of speed and control.

SPEED **93** || SPIN **97** || CONTROL **70**

SPONGE - [MH] 1.8 / 2.0 / Max

\$48.95 (#RDBGS1)

BlueGrip S2

Sticky top sheet & a powerful sponge. Extremely grippy and easy to control.

SPEED **90** || SPIN **98** || CONTROL **71**

SPONGE - [MS] 1.8 / 2.0 / Max

\$48.95 (#RDBGS2)

BlueGrip C1

Hard full tension sponge with tacky topsheet, for more speed.

SPEED **98** || SPIN **98** || CONTROL **67**

SPONGE - [H] 2.0 / Max

\$52.95 (#RDBGC1)

BlueGrip C2

Slightly softer & lighter than C1, for the softer playing feel.

SPEED **94** || SPIN **98** || CONTROL **68**

SPONGE - [H] 2.0 / Max

\$25.95 (#RDBGC2)

BLUESTORM RUBBER

A storm brews! All Bluestorm Z rubbers are available in Blue color.

Bluestorm Pro

Very fast, ensuring max speed and spin.

SPEED **99** || SPIN **98** || CONTROL **68**

SPONGE - [H] 2.0/Max

\$59.95 (#RDBZPR)

Bluestorm Pro Am

Balance between dynamism, control and rotation.

SPEED **97** || SPIN **98** || CONTROL **69**

SPONGE - [MH] 2.0/Max

\$59.95 (#RDBZPA)

BLUESTAR RUBBERS

With the latest Optimized Energy Sponge technology.
Available in Blue!

PRO SPECIAL

Bluestar A1

Sets new standards with fantastic catapult and speed characteristics. Only slightly sticky but extremely grippy topsheet.

SPEED **98** || SPIN **99** || CONTROL **68**

SPONGE - [H] 2.0 / Max

\$69.95 (#RDBSA1)

Bluestar A2

Slightly softer than Bluestar A1, this sets standards in terms of elasticity and shock absorbing level.

SPEED **97** || SPIN **99** || CONTROL **69**

SPONGE - [H] 2.0 / Max

\$69.95 (#RDBSA2)

Bluestar A3

The softest of the Bluestar rubbers. Extremely catapult-strong, dynamic, perfect balance between speed, spin and control.

SPEED **92** || SPIN **99** || CONTROL **70**

SPONGE - [MH] 2.0 / Max

\$69.95 (#RDBSA3)

PRO SPECIAL

Desto F4

Great for those who seek targeted placement and variation in play.

SPEED **79** || SPIN **88** || CONTROL **77**

SPONGE - [S] 2.0 / Max

\$34.95 (#RDDF4)

GENEXTION RUBBER SERIES

A revolutionary rubber that will capture the next generation.

Genextion V2C NEW

Employs the perfect blend of micro-adhesiveness to ensure the right contact time between the ball and the rubber. Firmly grips the ball, allowing for high-quality counterattacks at an early impact point. For players who use high-quality tabletop techniques and counter-attacks as weapons.

SPEED **97** || SPIN **98** || CONTROL **67**
SPONGE - [H] 1.8 / 2.0
\$**63.95** (#RNGXV)

Genextion PRO SPECIAL

The newly developed “dual sponge” is approximately 11% more energy efficient than conventional sponges. While it is powerful with its heavy drives and strong pulls, which are characteristics of hard rubbers, it also has a soft feel on impact and is easy to operate.

SPEED **98** || SPIN **97** || CONTROL **67**
SPONGE - [H] 1.8 / 2.0
\$**63.95** (#RNGXT)

FASTARC TECHNOLOGY

Fastarc is *Fast* with an *Arc*. For players who desire high speed balls, ideal arc, and powerful topspin and touch for all your strokes.

Fastarc G-1

This is the “Grip First” version of Fastarc. Features a Tension Spin top sheet and Strong Sponge. For players who desire high speed balls, ideal arc, powerful topspin, and touch for all strokes of your game.

SPEED **95** || SPIN **96** || CONTROL **68**
SPONGE - [MH] 1.8 / 2.0 / Max
\$**49.95** (#RNFG1)

Fastarc C-1

Ingenious creation from Nittaku combining a tension spin topsheet with a soft strong sponge. This combination creates incredible grip and speed to allow players to create artistic shots.

SPEED **96** || SPIN **95** || CONTROL **68**
SPONGE - [M] 1.8 / 2.0
\$**49.95** (#RNFC1)

Fastarc S-1

Speed-First version of Fastarc, features a Tension Speed top sheet and soft strong sponge. Great for high speed balls, ideal arc, powerful topspin, and excellent touch for all strokes.

SPEED **97** || SPIN **94** || CONTROL **68**
SPONGE - [M] 1.4 / 1.8 / 2.0
\$**44.95** (#RNFS1)

NEW Hurricane 8-80 Power

By incorporating Active Charge (AC) into the Hurricane 8-80 Power, a rubber with excellent resilience was born. While maintaining the rotational force unique to Hurricane, it also demonstrates its capabilities on the back side to enable powerful and fast drives.

SPEED **95** || SPIN **98** || CONTROL **68**
SPONGE - [MH] 2.0
\$**54.95** (#RNH88P)

HURRICANE PRO 3 TURBO

A tacky/sticky topsheet made in China is combined with high-quality, high-elasticity sponge made in Japan.

Hurricane Pro 3 Turbo Blue

Harder sponge than Turbo Orange and gives extra power. Only available in black.

SPEED **94** || SPIN **99** || CONTROL **69**
SPONGE - [H] 1.8 / 2.0
\$**54.95** (#RNH3B)

Hurricane Pro 3 Turbo Orange

Active Charge (AC) technology improves speed performance. Available in red & black.

SPEED **93** || SPIN **98** || CONTROL **70**
SPONGE - [H] 1.8 / 2.0
\$**54.95** (#RNH3T)

Hammond Z2

Fantastic “bulkhead” sponge, creates max power while reducing energy loss, and strengthening repulsive force. Provides a superior grab feeling.

SPEED **98** || SPIN **96** || CONTROL **67**
SPONGE - [H] 1.8 / 2.0 / Max
\$**59.95** (#RNHZ2)

PRO SPECIAL Factive

Great tension rubber! Top sheet has special materials that enable strong power, with inward pimples shaped to provide a good bite feeling.

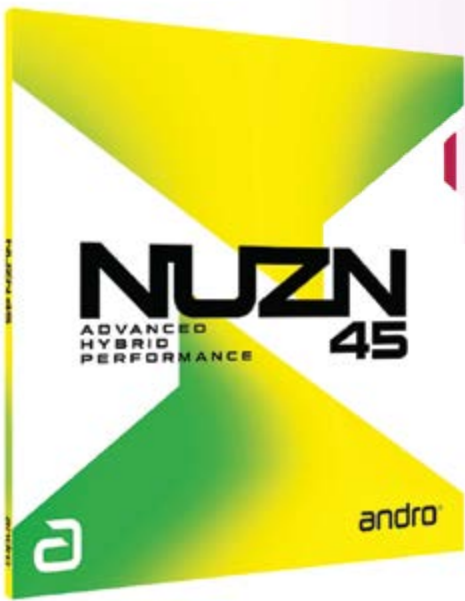

SPEED **92** || SPIN **92** || CONTROL **71**
SPONGE - [M] 1.4 / 1.8 / 2.0
\$**39.95** (#RNFTV)

NUZN RUBBER... Extended durability. All science. No Fiction.

NEW

NUZN 45

Andro has succeeded in transferring the features of the ground-breaking NUZN technology to a precisely controllable rubber for ambitious players in the more intermediate level. Advanced Hybrid Performance – a slightly sticky top rubber combined with a controlled, finely balanced tensor sponge.

SPEED 94 || SPIN 97 || CONTROL 71

SPONGE - [MS] 1.9 / 2.1

\$52.95 (#RANZ45)

NUZN 50

For a precise, ultra-modern topspin game. The remarkably high dynamics are activated by technically clean strokes. The 50° hard sponge make it possible to reach new performance levels with an unimaginably long lifetime.

SPEED 97 || SPIN 98 || CONTROL 70

SPONGE - [H] 2.0 / Max

\$69.95 (#RANZ50)

NEW

NUZN 48

NUZN 48 is for ambitious players who want to take their game to the next level with the groundbreaking NUZN technology without compromising on precision and control. Experience the best of both worlds: The slightly sticky topsheet ensures optimum grip, while the proven NUZN pimple geometry is responsible for an explosive flight curve.

SPEED 96 || SPIN 97 || CONTROL 71

SPONGE - [MH] 1.9 / 2.1

\$59.95 (#RANZ48)

NUZN 55

For a merciless, ultra-modern topspin game. An enlarged sweetspot, makes it possible to give the ball maximum spin and arc even under time pressure. The spinny top sheet and 55° hard sponge make it possible to reach new levels.

SPEED 98 || SPIN 98 || CONTROL 69

SPONGE - [H] 2.0 / Max

\$69.95 (#RANZ55)

SHAKEHAND BLADES

If you like to hold a paddle like you’re shaking hands, then these are the blades for you!
Over 90% of the blades we sell are Shakehand style.

Blade Selection Guide

HANDLE STYLE

Handle style is a personal decision – shape and size that feels best in your hand is what you should use. For shakehand players, flared handles are the most popular, followed by anatomic and straight. The code for flared is FL, straight is ST, anatomic is AN. The Donic Dotec blades have a unique cork handle that is designed for either a left-hander or right-hander. The code is LEFT and RIGHT. Nittaku offers a few blades with a unique ergonomic handle, ERGO, which is comfortable for using with both a shakehand or penhold grip.

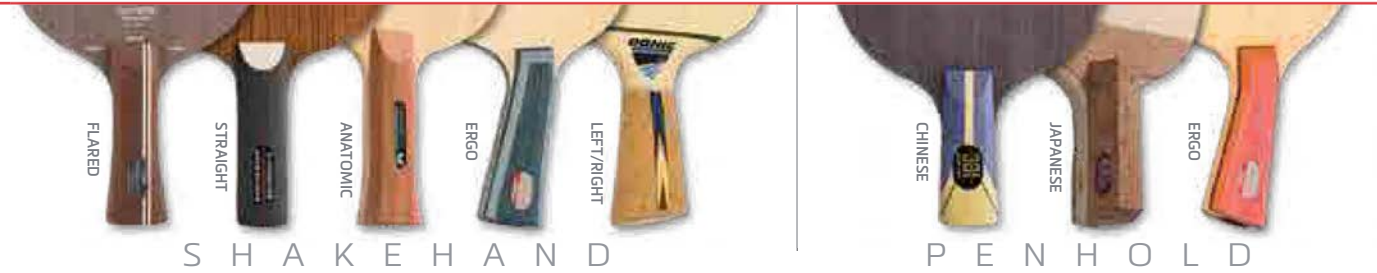

SPEED

The CLASS Speed ratings of the blades range from the fastest (OFF+) to the slowest (DEF-). OFF means offensive, ALL means allaround, and DEF means defensive. In general, offensive-style players prefer blades ranging from OFF+ to ALL+. Allround players prefer blades ranging from OFF- to ALL-. Defensive players prefer ALL to DEF- blades.

Besides CLASS ratings, Paddle Palace has a universal number rating system for speed and control so that blades from all the various brands can be compared on the same scale. In basic terms, the faster the speed rating, the farther the ball bounces off of the blade, given an equal amount of force. Keep in mind that generally the faster the blade, the more skill it takes to control it. Also, the rubber applied to the blade makes a huge difference in the speed and control of the paddle. A player’s skill level, playing style, rubber used, and interaction of those factors, impact the amount of speed and control that a player experiences. Therefore, the speed and control ratings are only a general tool for choosing a blade.

BLADE HANDLE COMPARISON CHART KEY

FL = Flared / ST = Straight / AN = Anatomic / ERGO = Ergonomic / CH = Penhold Chinese Style / J-1, J-2 = Penhold Japanese-style

WEIGHT

Most blades weigh between 70 and 100 grams before rubber is applied. An average weight is around 86 grams. Some players feel that a heavier blade provides more power but other players would disagree. Some players feel that a lighter blade is quicker, but again, there are varying opinions on this. Remember: power and quickness are not just functions of the blade, but mainly the skills of the player. Like handle style, ideal blade weight is the weight that feels best. Note: individual blade weight may vary.

PLIES

The number of plies (wood layers) of a blade normally ranges from one to seven, with five being the most common. There are many blades on the market that add thin plies of materials such as carbon, glass fibre, titanium or kevlar to an otherwise all-wood blade. These non-wood plies may add speed or a different feel to a blade. Some players feel that mixed-ply blades offer a larger sweet spot, and/or possibly result in added control. With or without non-wood plies, every blade has a unique feel, and only by experimenting will you discover what works best for you. We indicate the number and composition of the plies: W=Wood, C=Carbon, G=Glass Fiber, F=Fiber, D=Dyneema Fiber, Z=Zylon, T=Titanium, K=Kevlar, A=Arylate.

PRO SPECIAL See pages 4-7 for full details

Paddle Palace PRO SPECIALS

Paddle Palace has created brilliant blade+rubber combinations with an emphasis on perfectly matching your playing style – and for a super special price!

These blade/rubber combinations are popular with tournament-caliber players and are well-suited to a wide range of playing styles. Each Pro Special paddle is custom pre-assembled with smooth, inverted ITTF-approved rubber, with black on one side and red (or alternate color) on the other.

COMBO SPECIAL

Paddle Palace COMBO SPECIALS

Combo Specials are a great bargain for professional blades with rubber. We offer a wide selection of popular blades as Combo Specials.

The price includes everything you need for a complete paddle: blade and two sheets of rubber. Penhold Combo Specials include penhold blade and either one or two rubbers, as indicated. Assembly (cutting and gluing the rubber to the blade) by our expert staff is free, or you can choose to receive it unassembled. We apply free edge tape, and shipping is free to USA.

Rubber options include all rubbers from STIGA, NITTAKU, TIBHAR, JUIC, DHS, DONIC, ANDRO, DR NEUBAUER, and YASAKA. No extra charge for any rubber with current price under \$55. Over \$55, there is an extra charge per sheet.

* Extra charge for each rubber priced over \$55:
Up to \$55 = no extra charge // Any rubber over \$55, will be charged the difference in price.

How to read the BLADES CHARTS

HANDLE SHAPE: FL = Flared / ST = Straight / AN = Anatomic / ERGO = Ergonomic

PLY (number of layers + type): W=Wood, C=Carbon, G=Glass Fiber, T=Titanium, K=Kevlar, A=Arylate, Z=Zylon, F=Fiber, D=Dyneema Fiber

THICKNESS: Thickness of blade, shown in millimeters.

WEIGHT: The average weight of each blade is indicated in grams. Individual weights may vary.

CLASS: OFF = offensive blade, ALL = allround blade, DEF = defensive blade. The class of blade ranges from fastest [OFF+] to slowest [DEF-]. The rubber sheet that is applied to the blade will naturally affect the speed of the paddle.

SPEED: The higher the number, the greater the speed, meaning bounce per force input.

CONTROL: The higher the number, the greater the control. Use to compare relative blade control. Naturally, control ultimately is most dependent on player’s skill.

Blade Comparison Charts are listed by brand, and are included on each page of the specific brand section.

Paddle Palace is happy to assemble blades with rubber at no extra charge upon request. One rubber sheet will cover one side of a blade. No returns on custom-made paddles.

CYBERSHAPE BLADES & CWT TECHNOLOGY

Custom Weight Technology innovation allows you to adjust the weight and balance of the blade

Cybershape Carbon CWT Truls Edition

Developed with vice-world champion Truls Möregårdh, this Cybershape design is combined with Stiga CWT. Specially designed weights for Truls's three favorite shots: the chop, push, and slap. Unique lens and printed, gold-coloured design featuring Truls's characteristic victory stance. Includes a fan card featuring Truls.

NEW ZHANG JIKE BLADES

Developed with the Chinese World Champion and Olympic Gold Medalist, a new line of premium blades from Donic.

NEW

Zhang Jike New Era

Offers the perfect balance between speed and control, excellent ball feedback creates a great feel. Recommended for the modern allround and offensive players who value a good balance between speed and control in both offensive and passive play. Features not the usual two, but three finely interwoven synthetic fibers, giving this blade an even finer feel for the ball.

CLASS **OFF-** || SPEED **92** || CONTROL **67**

PLIES - 5W, 2C/F || WT - 85g || FL/ST

\$169.95 (#SDZJNE)

NEW

Zhang Jike Original Carbon

Dynamic, powerful, has sensitive touch at impact and excellent feedback. Recommended for dynamic offensive players who play with powerful shots but expect good control. An inner veneer of extremely light Kiri wood, covered by Ayous veneers and two layers of cured aramid carbon. The outer veneer consists of two layers of hard African Koto wood.

CLASS **OFF** || SPEED **95** || CONTROL **65**

PLIES - 5W, 2C/A || WT - 85g || FL/ST

\$179.95 (#SDZJOC)

Anders Lind Hexa Carbon

A premium 7-ply offensive blade, dedicated to the highly talented Danish player. Achieve creative and sensitive shots, like Anders Lind, thanks to the considerable penetrating power.

CLASS **OFF** || SPEED **93** || CONTROL **71**

PLIES - 5W, 2A/C || WT - 87g || FL/ST

\$106.95 (#SDLHC)

Defplay Inner Carbon

An innovative defensive blade that features an inner carbon layer. For modern defensive players who want to surprise with attacking strokes.

CLASS **DEF+** || SPEED **70** || CONTROL **80**

PLIES - 5W, 2C || WT - 85g || FL/ST

\$68.95 (#SDDIC)

Dotec True Carbon Inner

The classic True Carbon Inner, offered with the Dotec cork handle. Manufactured without disturbing edges. Provides the necessary power with a particularly pleasant feeling.

CLASS **OFF-** || SPEED **92** || CONTROL **69**

PLIES - 5W, 2C/K || WT - 87g || LEFT/RIGHT

\$124.95 (#SDDTC)

ORIGINAL BLADE SERIES

Original True Carbon Inner

Fast, semi-hard, controlled with good feel. For attackers looking for consistency.

CLASS **OFF-** ||

LEBRUN BLADE SERIES

Tibhar's premium line of blades developed and designed by world top players, Felix & Alexis Lebrun from France.

Felix Lebrun Hyper Carbon

Developed according to the wishes of the young penholder from France. Synthetic carbon fibers provide the high stiffness that a fast-attacking blade requires.

CLASS **OFF** || SPEED **92** || CONTROL **68**
PLIES - 5W, 2C/F || WT - 85g || FL/ST
\$189.95 (#STLFH)

Alexis Lebrun Krypto Carbon

This blade developed with the French superstar, perfectly suits his spectacular offensive game with constant changes of speed and spin. Two layers of Krypto Carbon, form a power wood with fine feedback of the strokes.

CLASS **OFF** || SPEED **94** || CONTROL **66**
PLIES - 5W, 2C/F || WT - 85g || FL/ST
\$209.95 (#STLAK)

Kratos

The interplay of the high-energy carbon fiber layer and the energetic and fast Hinoki wood gives this blade an extremely powerful ball impact point. Ideal choice for the modern attacking player.

CLASS **OFF+** || SPEED **96** || CONTROL **63**
PLIES - 3W, 2C || WT - 85g || FL/ST
\$162.95 (#STKRT)

Felix Lebrun OFF-

For allrounders and offensive players who value a varied game. Has a good balance between speed, elasticity and ball feedback and yet remains absolutely controllable.

CLASS **OFF-** || SPEED **86** || CONTROL **71**
PLIES - 5W, 2F || WT - 85g || FL/ST
\$75.95 (#STLFO) **COMBO SPECIAL**

Felix Lebrun ALL

A great allround blade with exceptional dynamics and excellent control values.

CLASS **ALL** || SPEED **73** || CONTROL **80**
PLIES - 7W || WT - 85g || FL/ST
\$49.95 (#STLFA) **COMBO SPECIAL**

Alexis Lebrun ALL+

An allround wood blade with a crisp attack. Great if you are looking for a more powerful, variable allround blade.

CLASS **ALL+** || SPEED **78** || CONTROL **79**
PLIES - 5W || WT - 85g || FL/ST
\$53.95 (#STLAA)

Alexis Lebrun OFF

Medium hard blade for offensive players with the special touch! Layers of hybrid carbon fibers around the core for an optimized transfer of energy. Remains controllable with the large sweet spot.

CLASS **OFF** || SPEED **88** || CONTROL **70**
PLIES - 5W, 2C || WT - 85g || FL/ST
\$78.95 (#STLAO)

MK BLADES

Japanese craftsmanship developed by pro player Kenta Matsudaira.

MK Carbon

A special carbon structure results in a blade with a unique playing feel.

CLASS **OFF** || SPEED **93** || CONTROL **64**
PLIES - 5W, 2C/F || WT - 85g || FL/ST
\$214.95 (#STMKC)

MK 7

Ideal for players looking for a real offensive blade with high speed and spin qualities and outstanding ball feedback.

CLASS **OFF-** || SPEED **88** || CONTROL **70**
PLIES - 7W || WT - 85g || FL/ST
\$98.95 (#STMK7)

Zodiac Libra ZAC

The perfect balance between control & penetrative force, thanks to the new ZAC Composite Technology.

CLASS **OFF-** || SPEED **91** || CONTROL **66**
PLIES - 5W, 2C/Z || WT - 85g || FL/ST
\$219.95 (#STZLZ)

Dynamic JC

Power, control and flexibility are the main qualities of this blade by Darko Jorgic.

CLASS **OFF** || SPEED **91** || CONTROL **72**
PLIES - 5W, 2C/D || WT - 85g || FL/ST
\$157.95 (#STDJC)

CALDERA BLADES Feel the heat!

Caldera AC
Utilizing revolutionary AC carbon placed between the middle and inner layers to provide a softer touch and longer ball retention. Provides heavy topspins with flexibility and touch on your shots. For offensive players that demand heavy spin and consistency.

CLASS **OFF** || SPEED **91** || CONTROL **73**
PLIES - 5W, 2C/A || WT - 86g || FL/ST
\$159.95 (#SPCAC) **COMBO SPECIAL**

Caldera ZC
Caldera ZC can provide excessive spin with plenty of speed reserves. Employing ZC carbon fiber between the middle and inner layers to provide a softer touch. For offensive players that demand heavy spin and consistency.

CLASS **OFF** || SPEED **93** || CONTROL **71**
PLIES - 5W, 2C/Z || WT - 86g || FL/ST
\$159.95 (#SPCZC) **COMBO SPECIAL**

SABRE 7 BLADE

Named in honor of the very first Hunter blade, the Sabre, this all-wood blade sets a new standard.

Sabre 7
Sabre 7 is an all-wood blade that provides plenty of speed and power for your offense, along with outstanding touch for serve and control shots. 5 Ayous inner plies along with 2 Limba surface veneers gives the Sabre 7 the perfect tempo.

CLASS **OFF** || SPEED **90** || CONTROL **75**
PLIES - 7W || WT - 90g || FL/ST
\$59.95 (#SPSB7) **COMBO SPECIAL**

Power-Touch
Used by Judy Hoarfrost, our own Paddle Palace Past President, USTT Hall of Fame Member and 3-time U.S. Senior Champ. Has outstanding speed plus extra control. Lightweight, easy feel.

CLASS **OFF** || SPEED **89** || CONTROL **66**
PLIES - 5W, 2G || WT - 82g || FL/ST/AN
\$64.95 (#SPPOW) **COMBO SPECIAL**

Equalizer
Medium-fast with excellent control for the allround player.

CLASS **ALL+** ||
SPEED **78** || CONTROL **77**
PLIES - 5W || WT - 87g || FL/ST/AN
\$49.95 (#SPEQU) **COMBO SPECIAL**

Flame
Extremely light blade. Fantastic lightness and versatility.

CLASS **ALL+** ||
SPEED **79** || CONTROL **76**
PLIES - 5W || WT - 59g || FL/ST/AN
\$48.95 (#SPFLA) **COMBO SPECIAL**

Black Widow
Outstanding feel for the quick exchange. Great for the loop, counter-drive, kill-shot & drop-shot.

CLASS **OFF+** ||
SPEED **96** || CONTROL **59**
PLIES - 5W, 2C || WT - 90g || FL/ST/AN
\$74.95 (#SPBLA) **COMBO SPECIAL**

PENHOLD BLADES

If you hold your paddle like you would hold a pen or pencil, then you should choose a Penhold blade. There are 2 main styles of penhold blades: Chinese & Japanese.

Chinese Style... normally has a rounded head, similar to a shakehand blade head, but often somewhat smaller. The Chinese-style handle is smaller and shorter than a shakehand handle.

All Chinese-style penhold blades (C) are suitable for putting either one or two rubbers on the blade.

Japanese Style... has a handle with a protrusion on one or both sides around which the player wraps the index finger. The Japanese-style blade head is often more squarish in shape, but it can vary from roundish to squarish.

Some Japanese-style penhold blades are designed for applying just one rubber (J-1), and some are suitable for applying one or two rubbers (J-2).

Penhold-style blades are used by fewer than 10% of players in North America, although the popularity in Asia is 20-40%, with younger players favoring the shakehand style.

See the Blade Selection Guide on page 30 for information about choosing Blades and Combo Specials.

Felix Lebrun Hyper Carbon

Developed with the young penholder from France.

CLASS **OFF** ||

REC PADDLES

Rec Paddles are pre-assembled by the manufacturer and are designed for players who are newer to the sport, or who primarily play recreationally.

The characteristics and prices are well-suited for developing players in schools, homes, and rec centers.

The Class ratings here are on a different scale from the ratings of blades and rubbers, and are intended only for comparison with other pre-assembled Rec Paddles.

Rec Paddles are generally slower, impart less spin, and have more control than the pro gear. Choose a Rec Paddle with thicker sponge for more speed and spin.

TABLE TENNIS
ROBOTS

FREE SHIPPING ON ALL ROBOTS.
For owners manuals and details go to PaddlePalace.com

THROW WHEELS – One, Two, Three or Four?
Robots with one throw wheel can shoot topspin, underspin, and sidespin. Two throw wheels make it possible for independent spin and speed settings. This results in a great range of spin options – light to heavy topspin, underspin, or sidespin – or no spin shots. Three and Four throw wheels provides the greatest versatility of all, including serve and volley in the same training sequence.

OSCILLATION: Random, Controlled, Programmable:
Controlled Oscillation means you can set the robot to hit alternately only to the two widest points in the angle range, plus you can set the width of the angle.

With Random Oscillation, the robot hits to the inner angles as well as the widest angles. Where the ball lands depends on the frequency and speed settings you have chosen. **Programmable Oscillation** is the most versatile. It achieves everything Controlled and Random Oscillation does, plus you can program sequences of your choice for where the ball lands.

LCD TOUCH SCREEN/SMARTPHONE APP:
The LCD Touch Screen or Smart Phone App is a very easy and intuitive menu-based interface to control all functions of the robot.

SERVE & RETURN SEQUENCES: The Robot can be set to serve and return in the same sequence. So, for example, you can set a sequence to begin with a serve, then shoot returns to specific landing spots with spins of your choice for a realistic training pattern.

TOPSPIN/UNDERSPIN SEQUENCE: Can shoot topspin shots and underspin shots (and other spins) in consecutive shots in the same sequence.

SPIN INDICATOR: A Spin Indicator light shows you what kind of spin is on the ball.

Paddle Palace Power Pong Robots
Unleash your inner champion with unrivaled precision and performance!

Introducing the ultimate table tennis robots from Paddle Palace & Power Pong. The 3-wheel design with its outstanding ball placement system is a superior solution for delivering realistic drills with different types of serves, lifelike game simulation and much heavier spin than any other design on the market.

PADDLE PALACE POWER PONG OMEGA ROBOT

- 45 pre-programmed drills are included and can be changed or adjusted
- Create drills with up to 8 balls with different types & amounts of spin, speed, trajectory, and placement
- Use tagging to identify different sets of drills for each family member
- Share drills with coaches and players from the app
- Set a ball's placement just by dragging it on the screen, and produce no-spin balls
- Randomize drills for irregular play to make ball placement less robotic
- Unlimited memory slots for saving your favorite drills, and grouping drills together

\$2395⁰⁰ (#OWVOG)

PADDLE PALACE POWER PONG DELTA ROBOT

- 40 pre-programmed drills are included and can be changed or adjusted
- Create drills with up to 8 balls with different types & amounts of spin, speed, trajectory, and placement
- Individual frequency control, and can produce no-spin balls
- Randomize drills for irregular play to make ball placement less robotic
- 99 memory slots for saving your favorite drills
- 10 cluster memory slots for grouping drills together, up to 32 saved drills can be placed in each slot
- Drills in cluster memory can be played in sequence, or random, and can start with a different serve

\$2177⁰⁰ (#OWVDT)

PADDLE PALACE POWER PONG ALPHA+ ROBOT

- 30 pre-programmed drills are included and can be changed or adjusted
- Create drills with up to 6 balls with different types & amounts of spin, speed, trajectory, and placement
- Can produce no-spin balls, and heavy topspin/backspin
- Randomize drills to make ball placement less robotic
- 50 memory slots for saving your favorite drills

PURCHASING YOUR TABLE

TABLE TOP: Thicker tops give a more consistent bounce and are less likely to warp after years of use. Paddle Palace recommends table tops of 3/4 inches or more.

TABLE TYPE (FOLD TYPE):

- 1 Stationary without wheels on undercarriage. Both halves fold and store separately.
- 2 Rollaway with two undercarriages and each half folds and rolls separately.
- 3 Rollaway with one undercarriage and each half folds independently.
- 4 Rollaway with one undercarriage and both halves always fold in and out together.

TABLE SHIPMENT: Tables are shipped by freight line. Delivery generally takes 2-3 weeks from date of order. The table is delivered to curbside and the delivery person will need assistance in unloading the table.

SHIPPING CHARGE: Price includes shipping to contiguous USA. Some locations may incur extra shipping charges. In that case, Paddle Palace will contact you before processing the order.
