# Paddle Palace

CATALOG #302 ● WINTER 2015-2016

## Dear Paddle Palace Friends,

We have a new Paddle Palace Logo! After the recent move to our beautiful new building, we felt it was time to update our look to go with our new home. We worked with a wonderful artist to create an updated logo that is modern, clean, sporty, and friendly, while retaining elements we love that honor our history and identity as Paddle Palace. We hope you like the new logo and the updated look of our catalog.

Our building is new and our logo is updated, but Paddle Palace is the same company, growing along with the sport of table tennis. We are a family-owned third-generation company with newer staff working alongside people who have been with us for decades. As we grow, we strive to also facilitate the growth of the sport. We try our best to offer our customers excellent products and exceptional customer service, implementing new technology and the best resources from our community. We remain dedicated to elevating the sport of table tennis!

Paddle Palace, USATT, and Nittaku announce that the Nittaku 3-Star Premium 40+ is the Official Ball of USA Table Tennis through 2019, a continuation of our long-time partnership. Nittaku has been the Official Ball of USATT since 1980. See the article on page 91.

We have a new formula Paddle Palace Rubber Cleaner! (page 83 & 109) We are excited that the new special ingredients clean rubber better than ever, while also being VOC-compliant.

This means it is healthier for players and the environment, and there is no risk that the cleaner will cause a failed racket test. We are also excited that our cleaner is locally produced, in USA. For an article on how to take care of your rubber, see page 63.

China is favored to win the World Team Championships taking place Feb. 28 - March 6, 2016, in Kuala Lumpur. However, there are individual contenders who have many wins against China's best! Ranked #4 in the World is European Champion Dima Ovtcharov, who has set a goal of winning gold at the 2016 Olympics in Rio. See article on page 70.

As we head into a new year, we wish to thank all of our long-time table tennis friends, and those who have newly discovered our beloved sport. We very much appreciate your business and your energy and support. You are our important partners in elevating the sport of table tennis!

Sincerely,

Judy Hoarfrost, President/CEO

# PADDLE PALACE PRO SPECIALS

## What is a Paddle Palace Pro Special?

Paddle Palace has created brilliant blade+rubber combinations with an emphasis on perfectly matching your playing style – and for a super special price! All of these blade/rubber combinations are popular with tournament-caliber players and are well-suited to a wide range of playing styles. Each Pro Special paddle is custom pre-assembled with smooth, inverted ITTF-approved rubber, with red on one side and black on the other.

# STIGA®

Playing Style:  
Offensive Speed & Spin

## STIGA CARBO 7.6 WRB

**\$144.95** reg. \$193.85

Playing Style: Offensive Speed & Spin

Overall Rating: Speed: 93 Spin: 91

Blade: STIGA Carbo 7.6 WRB (flared master or penhold)

Rubber: STIGA Calibra LT (Max sponge)

### AVAILABLE IN SHAKEHAND AND PENHOLD

The Stiga Carbo 7.6 WRB blade is assembled with Calibra LT rubber. The Carbo 7.6 WRB has six plies of carbon combined with seven plies of wood, giving it amazing speed potential and consistency. It is optimized for speed and gives the player greater distance and a longer trajectory on all their shots. This combination is perfect for the topspin player who is comfortable away from the table and is looking for greater range. Shakehand Item: ZZSSCA7302 | Penhold Item: ZZPSCA7W302

Playing Style:  
Modern Offense

## STIGA CLIPPER CLASSIC

**\$129.95** reg. \$179.85

Playing Style: Modern Offense

Overall Rating: Speed: 93 Spin: 97

Blade: STIGA Clipper Classic (flared legend or penhold)

Rubber: STIGA Airoc Astro M (Max sponge)

### AVAILABLE IN SHAKEHAND AND PENHOLD

The Stiga Clipper Classic blade comes assembled with Stiga Airoc Astro M rubber. The Clipper Classic blade is famous throughout the world for its combination of speed and feeling. It is particularly appreciated by players who want extra power behind their strokes. The Airoc Astro M rubber utilizes Stiga's new OCS sponge technology (Oxygen Capsule System) to increase catapult effect without changing the spin ratio. This allows aggressive players to maintain the same spin/speed proportions with the new poly ball that they have always enjoyed. This combination is recommended for the aggressive offensive player to excel in the new poly ball era. Shakehand Item: ZZSSCLIN302 | Penhold Item: ZZPSCLIN302

Playing Style:  
Classic Allround

## STIGA ALLROUND CLASSIC

**\$79.95** reg. \$96.85

Playing Style: Classic Allround

Overall Rating: Speed: 72 Spin: 75

Blade: STIGA Allround Classic (flared legend)

Rubber: STIGA Mendo Energy (Max sponge)

The Stiga Allround Classic blade comes assembled with Stiga Mendo Energy rubber. The Allround Classic blade is definitely a classic! A perfect balance between speed, weight, and feel lies behind the Allround Classic's enormous popularity among allround and introductory players. The Mendo Energy rubber has been developed in cooperation with world leading players to develop a Power-Soft rubber that creates maximum friction on the ball. Together this combination is ideal for all allround players, and especially recommended for those looking for their first competition paddle. Item: ZZSSALCN299

Prices subject to change without notice

See PaddlePalace.com for latest SPECIALS

# DONIC

## DONIC BAUM ESPRIT

**\$129<sup>95</sup>** reg. \$169.85

Playing Style: Modern Offensive Spin

Overall Rating: Speed: 91 Spin: 96

Blade: DONIC Baum Esprit (flared handle)

Rubber: DONIC Bluefire M2 (Max sponge)

The Donic Baum Esprit comes assembled with Bluefire M2 rubber. The Baum Esprit is the blade used by European star Patrick Baum. Constructed with aramid/carbon and high quality wood plies ensures maximum speed and ball control in any playing situation. The Donic Bluefire M2 rubber is unbelievably fast with a characteristically high arc that enables maximum spin on topspin shots. This combination of blade and rubber is ideal for a wide range of offensive styles that put an emphasis on spin.

Item: ZZSDBES297

## DONIC WALDNER LEGEND CARBON

**\$134<sup>95</sup>** reg. \$178.85

Playing Style: Aggressive Offense

Overall Rating: Speed: 95 Spin: 96

Blade: DONIC Waldner Legend Carbon (flared handle)

Rubber: Bluefire M1 (Max sponge)

The Donic Waldner Legend Carbon blade comes assembled with Donic Bluefire M1 rubber. The Waldner Legend Carbon is a fast and extremely light offensive blade with a larger "sweet spot" to ensure premium control. The Bluefire M1 rubber development resulted with a perfect combination of the large pored blue sponge with an extremely spiny top surface. Above all, the Bluefire is unbelievably fast with a characteristic high arc when top-spinning that enables maximum spin and increased speed. This combination is recommended for the offensive player that wants to excel in the aggressive topspin game.

Item: ZZSDWLC301

## DONIC BLUEFEELING

**\$129<sup>95</sup>** reg. \$163.85

Playing Style: Allround Loop & Spin

Overall Rating: Speed: 84 Spin: 97

Blade: DONIC Bluefeeling (flared handle)

Rubber: DONIC Bluefire JP 03 (2.0 sponge)

The Donic Bluefeeling blade comes assembled with Donic Bluefire JP 03 rubber. The Bluefeeling blade has a sensational feel and unique design - a blue grain in the ply! This hi-technology 5-ply allround blade has outstanding control and sufficient speed for an allround attacking player. The Bluefire JP 03 rubber combines an extremely grippy, taut, and elastic top surface with a soft version of the proven blue sponge to produce maximum spin under control. The paddle is the perfect choice for power allround players who value maximum spin and control to return the ball under pressure in any situation.

Item: ZZSDBLU301

# TIBHAR

## TIBHAR SAMSONOV FORCE PRO

**\$129<sup>95</sup>** reg. \$173.85

Playing Style: Aggressive Offense

Overall Rating: Speed: 96 Spin: 96

Blade: TIBHAR Samsonov Force Pro (flared handle)

Rubber: TIBHAR Evolution MX-P (Max sponge)

The Tibhar Samsonov Force Pro blade comes assembled with Tibhar Evolution MX-P rubber. The Samsonov Force Pro is the new blade of the multiple European and World Cup Champion, Vladimir Samsonov. Its powerful seven ply wood construction provides varied speed reserves and excellent ball control to put your adversary under pressure. It is combined with the dynamic Tibhar Evolution MX-P rubber. Evolution MX-P makes no concessions in speed and spin, and with the perfectly adjusted pimple geometry, it allows for more flexibility and extra energy conferred to attacking balls. This combination is recommended to the offensive player that wants to excel in the aggressive topspin game.

Item: ZZSTSAF298

## TIBHAR STRATUS POWER WOOD

**\$119<sup>95</sup>** reg. \$154.85

Playing Style: Controlled Offense

Overall Rating: Speed: 89 Spin: 93

Blade: TIBHAR Stratus Power Wood (flared handle)

Rubber: TIBHAR Genius+Optimum Sound (Max sponge)

The Tibhar Stratus Power Wood blade comes assembled with Tibhar Genius + Optimum Sound rubber. The Stratus Power Wood blade distinguishes itself by an unlimited flexibility. From the hard flip to a precise topspin with lots of rotation, you will be able to realize the whole range of stroke play for the offensive game! The Genius+ Optimum Sound rubber has an extremely strong catapult effect paired with a light playing sensation. You'll be able to feel the energy transfer from your bat to the ball. This combination is ideal for the player looking for a consistent offensive paddle with incredible feeling.

Item: ZZSTSPW301

## TIBHAR DEFENSE PLUS

**\$104<sup>95</sup>** reg. \$138.85

Playing Style: Defense with Spin

Overall Rating: Speed: 60 Spin: 92

Blade: TIBHAR Defense Plus (straight handle)

Rubber: TIBHAR Super Defense 40 (1.7 sponge)

The Tibhar Defense Plus blade comes assembled with Tibhar Super Defense 40 rubber. This combination was specially designed for the modern defensive game. The Defense Plus blade makes chopping easy by delivering braking effect when with defensive spin. The Super Defense 40 rubber gives defensive players definitive ball control allowing the player to cut the ball spin with extra spin. The resulting combination is the optimum choice for defensive chopping players.

Item: ZZSTDEP301

Playing Style:  
Modern Offensive Spin

Playing Style:  
Aggressive Offense

Playing Style:  
Allround Loop & Spin

Playing Style:  
Aggressive Offense

Playing Style:  
Controlled Offense

Playing Style:

## Nittaku®

**\$94<sup>95</sup>** reg. \$120.85

### NITTAKU RISING

Playing Style: Allround Control

Overall Rating: Speed: 81 Spin: 81

Blade: NITTAKU Rising (flared handle)

Rubber: NITTAKU Nodias (2.0 sponge)

The Nittaku Rising blade comes assembled with Nittaku Nodias rubber. The Rising blade is a light-weight, medium speed allround blade. Its amazing control and feel on ball contact makes it well suited for a wide variety of playing styles. The Nodias rubber is produced with a precise mixture of natural rubber gum and results in giving superior grab and ideal balance between speed, spin, and pin-point control. This combination is excellent for a wide range of allround players that require a paddle that reacts in any situation.

Item: ZZSNRIS301

Playing Style:  
Allround Control

**\$132<sup>95</sup>** reg. \$176.85

### NITTAKU FLYATT CARBON

Playing Style: Offensive Drive

Overall Rating: Speed: 87 Spin: 94

Blade: NITTAKU Flyatt Carbon (flared handle)

Rubber: NITTAKU Flyatt Soft (2.0 sponge)

The Nittaku Flyatt Carbon blade comes assembled with Nittaku Flyatt Soft rubber. The Nittaku Flyatt Carbon blade is a versatile offensive blade. It is thin, light-weight, and loaded with 2 plies of thin carbon to secure its speed and power performance. Combined with Flyatt Soft rubber, produced with high grade natural rubber and "Active Charge Technology" to create outstanding speed and spin with an ideal ball trajectory. This combination is the choice for the driving offensive player.

Item: ZZSNFLY301

Playing Style:  
Offensive Drive

**\$142<sup>95</sup>** reg. \$189.85

### NITTAKU FLAME CARBON

Playing Style: Aggressive Offense

Overall Rating: Speed: 96 Spin: 96

Blade: NITTAKU Flame Carbon (flared handle)

Rubber: NITTAKU Fastarc S-1 (2.0 sponge)

The Nittaku Flame Carbon blade comes assembled with Fastarc S-1 rubber. The Flame Carbon blade has been developed using Nittaku's "burning wood" technology, which hardens the outer wood ply and increases speed. Add two plies of kevlar/carbon, and the result is a blade optimized for speed. We combined this blade with the popular Fastarc S-1 rubber – favored for its amazing spin capabilities. This rubber utilizes a grippy topsheet and soft tension sponge for explosive spin + power. Recommended for the offensive player that demands high speed and spin to put pressure on their opponent.

Item: ZZSNFLC297

Playing Style:  
Aggressive Offense

## Yasaka

**YASAKA MA LIN EXTRA OFFENSIVE** **\$99<sup>95</sup>** reg. \$127.85

Playing Style: Allround Offense

Overall Rating: Speed: 85 Spin: 80

Blade: YASAKA Ma Lin Extra Offensive (flared or penhold)

Rubber: YASAKA Mark V (Max sponge)

The Yasaka Ma Lin Extra Offensive blade comes assembled with Yasaka Mark V rubber. The Ma Lin Extra Offensive is the blade used by 2008 Olympic Gold Medalist Ma Lin. It has a large sweet spot and excellent speed performance in attacks. Also excels in the important blocking play. The Mark V rubber is a classic allround offensive rubber and is still one of our top-selling rubber sheets because of its versatility and performance. This combination is suited to employ a variety of offensive spin shots while maintaining excellent control. Recommended for a wide variety of allround to offensive players focused on controlled shots.

Shakehand Item: ZZSYMAE299 / Penhold Item: ZZPYMAEC299

Playing Style:  
Allround Offense

Prices subject to change without notice

Playing Style:  
Offense Loop & Drive

### XIOM STRADIVARIUS

**\$159<sup>95</sup>** reg. \$219.85

Playing Style: Offense Loop & Drive

Overall Rating: Speed: 94 Spin 96

Blade: XIOM Stradivarius (flared or penhold)

Rubber: XIOM Omega V Pro (Max sponge)

AVAILABLE IN SHAKEHAND AND PENHOLD

The Xiom Stradivarius blade comes assembled with Xiom Omega V Pro rubber. The Stradivarius blade has two plies of Aramid Carbon (mix of vibration-absorbing soft Aramid and highly elastic carbon) to boost speed while creating a solid, stable feeling on contact. The Omega V Pro rubber maximizes spin and speed at higher swing speed for top players and professionals. Solid clicking, energy-charged repulse, and precise energy transfer allows the advantageous edge in small and big shots. This combination is best suited for the high level offensive player.

Shakehand Item: ZZSXSTV301 | Penhold Item: ZZPXSTVC301

Playing Style:  
Allround Spin & Control

### XIOM ALLROUND S

**\$109<sup>95</sup>** reg. \$134.85

Playing Style: Allround Spin & Control

Overall Rating: Speed: 78 Spin: 90

Blade: Xiom Allround S (flared handle)

Rubber: Xiom Vega Europe (2.0 sponge)

The Xiom Allround S blade comes assembled with Vega Europe rubber. The Allround S blade is a classic allround blade with lowered and controlled speed that provides the opportunity to manage and direct a game. Solid and clear feel connects the ball with the player's senses. The Vega Europe rubber is equipped with Xiom's "Carbo Sponge" and "Hyper Elasto" topsheet that have combined to create a rubber with innovative spin performance as well as the largest "safe zone" or sweet spot to minimize mistakes. This combination is best for traditional allround players and those looking for their first competition paddle. Item: ZZSXALS297

We have assigned an overall speed and spin rating for each combination. These ratings take into consideration the combined characteristics of the blade, rubber, and sponge thickness. The ratings are intended as a tool only for comparing these particular blade/rubber combinations. Choose the combination that is best for your game, and enjoy a great savings!

## ABOUT PRE-ASSEMBLED PADDLES

Paddles in this department are pre-assembled at the factory and are designed for players who are newer to the sport, or who primarily play recreationally. The characteristics and prices are well-suited for developing players in schools, homes, and recreation centers. The Speed Ratings in this department are on a different scale from the speed ratings in the blade and rubber departments, and are intended only for comparison with other pre-assembled recreational paddles. The pre-assembled paddles are generally slower, impart less spin, and have more control than the pro gear. Choose the pre-assembled paddles with thicker sponge for more speed and spin.

**ABOUT  
BLADE  
SELECTION  
AND COMBO  
SPECIALS**

**Combo Specials**

Combo Specials are a great bargain for professional blades with rubber. We offer a selection of the most popular blades as Combo Specials. The price includes everything you need for a complete paddle: blade and two sheets of rubber. Penhold Combo Specials include penhold blade and either one or two rubbers, as indicated. Assembly (cutting and gluing the rubber to the blade) by our expert staff is free, or you can choose to receive it unassembled. We apply free edge tape, and shipping is free to USA for all Combo Specials. Rubber options include all rubbers from STIGA, NITTAKU, TIBHAR, JUIC, DR NEUBAUER, DONIC, DHS, YASAKA, HALLMARK and XIOM. NO EXTRA charge for any rubber with current price under \$50. Over \$50 there is an extra charge per sheet.

**Pro Specials**

Pro Specials include a specific combination of a professional blade and two rubbers pre-assembled at Paddle Palace. See pages 4-7 for details.

**Blade Selection Guide**

■ **Blade style**

Shakehand and Penhold are the two basic blade types. If you hold the paddle like you are shaking hands, then you should choose a Shakehand blade. Over 90% of the blades we sell are Shakehand style. If you hold your paddle like you would hold a pen or chopsticks, then you should choose a Penhold blade. There are two styles of penhold blades: Chinese and Japanese. Chinese style normally has a rounded head, similar to a shakehand blade head but often somewhat smaller. The Chinese-style handle is smaller and shorter than the shakehand. Japanese-style penhold handles have a protrusion on one or both sides around which the player wraps the index finger. The Japanese-style blade head is often more square in shape than the Chinese-style, but it can vary from roundish to squarish, so check the image. (See the Penhold Blade section on pages 55 to 63).

■ **Handle style**

Handle style is a personal decision – shape and size that feels best in your hand is what you should use. For shakehand players, flared handles are the most popular, followed by anatomic and straight. The code for flared is FL, straight is ST, anatomic is AN, and conic is CO. STIGA offers two sizes of flared handles, Flared-Large (aka Legend) and Flared-Small (aka Master). The codes for these are FL (lg) and FL (sm). The DONIC Dotec blades have a unique cork handle that is designed for either a left-hander or right-hander. The code is LEFT and RIGHT. NITTAKU offers a few blades with a unique ergonomic handle, ERGO, which is comfortable for using with both a shakehand or penhold grip. Penhold blades are available in either Chinese-style or Japanese-style. Chinese-style is the most popular (C) and are suitable for one or two rubbers on the blade. Some Japanese-style penholds are designed for applying just one rubber (J-1), and some are suitable for applying either one or two rubbers (J-2).

■ **Speed**

The CLASS speed ratings of the blades range from the fastest (OFF+) to the slowest (DEF-). OFF means offensive, ALL means allaround, and DEF means defensive). In general, offensive-style players prefer blades ranging from OFF+ to ALL+. Allround players prefer blades ranging from OFF- to ALL-. Defensive players prefer ALL to DEF- blades.

Besides CLASS ratings, Paddle Palace has a universal number rating system for speed and control so that blades from all the various brands can be compared on the same scale. In basic terms, the faster the speed rating, the farther the ball bounces off of the blade, given an equal amount of force. Keep in mind that generally the faster the blade, the more skill it takes to control it. Also, the rubber applied to the blade makes a huge difference in the speed and control of the paddle. A player's skill level, playing style, rubber used, and interaction of those factors, impact the amount of speed and control that a player experiences. Therefore, the speed and control ratings are only a general tool for choosing a blade.

■ **Weight**

Most blades weigh between 70 and 100 grams before rubber is applied. An average weight is around 86 grams. Some players feel that a heavier blade provides more power but other players would disagree. Some players feel that a lighter blade is quicker, but again, there are varying opinions on this. Remember: power and quickness are not just functions of the blade, but mainly the skills of the player. Like handle style, ideal blade weight is the weight that feels best. Note: individual blade weight may vary slightly.

■ **Plies**

The number of plies (wood layers) of a blade normally ranges from one to seven, with five being the most common. Over 70% of players use an all-wood blade. There are many blades on the market that add thin plies of materials such as carbon, glass fibre, titanium or kevlar to an otherwise all-wood blade. These non-wood plies may add speed or a different feel to a blade. Some players feel that mixed-ply blades offer a larger sweet spot, and/or possibly result in added control. With or without non-wood plies, every blade has a unique feel, and only by experimenting will you discover what works best for you. We indicate the number and composition of the plies: W=Wood, C=Carbon, G=Glass Fibre, X=Texalium, T=Titanium, U=Aluminum, K=Kevlar, S=Synthetic, A=Arylate, R=Aramid.

Official blade supplier to the Chinese National Team

For the new Carbonado blades STIGA has taken carbon blade manufacturing to a new level by using a made in Sweden carbon technology known as TeXtreme®. The blades are built with five layers of wood and two layers of lightweight TeXtreme® Spread Tow Carbon fibers. This unique and patented carbon is the first of its kind and has never before been experienced in Table Tennis.

The special TeXtreme® Spread Tow Carbon is flexible in only one direction, either flexural or torsional, making it possible in the manufacturing process to adjust and improve the ball trajectory and speed to accommodate playing style. The two layers of carbon are applied in a 45 degree angle or a 90 degree angle.

The Carbonado blades offer the player a personalized Sweet Spot. The Carbonado 190 with flexural bendability gives a higher Sweet Spot.

# CARBONADO

THE DIFFERENCE IS IN THE ANGLES

### Carbonado 190

Constructed with carbon layers in a 90 degree angle with flexural bendability, giving the blade a stiff feel with great stability and high speed. The longer and flatter trajectory makes it an excellent choice for players who want to dominate play with high speed strokes. The Carbonado 190 with flexural bendability gives a higher Sweet Spot. Handle FL(lg), FL(sm), AN,ST / Wt 90 / Plies 5W,2C / Item SSC190

**OFF+** 98 60 Blade \$179.95

### Carbonado 145

Constructed with carbon layers in a 45 degree angle with torsional bendability, giving the blade more flexibility and increased stiffness. The high trajectory makes it a perfect choice for the offensive player who looks for good speed and stability combined with excellent control. The Carbonado 145 with torsional bendability gives a wider Sweet Spot. Handle FL(lg), FL(sm), AN,ST / Wt 90 / Plies 5W,2C / Item SSC145

**OFF+** 98 60 Blade \$199.95

### Emerald VPS V

Lightweight 5-ply offensive blade with Diamond Touch is built around two hand-selected middle veneers that have special temperature treatment (VPS). This gives the blade a unique stability. Combined with the new, beautiful green Ebenholz outer veneers, the Emerald VPS V offers sensational feeling, ideal for offensive players who demand great speed combined with control. The final finish with Diamond Touch technology gives the outer surface extra hardness and an incredibly smooth finish. Handle FL(lg), FL(sm), AN,ST / Wt 90 / Plies 5W / Item SSEMR5

**OFF** 92 63 Blade \$169.95

### Ebenholz NCT V

A speed elastic blade, suitable for all playing strategies. The high quality, unique combination of the best 5-ply wood guarantees maximum control even with many variations of speed and strokes. This well-balanced state of the art blade enables players of all abilities to play to their full potential. Handle FL(lg), FL(sm), AN,ST / Wt 87 gm / Plies 5W / Item SSEB5N

**OFF** 88 67 Blade \$169.95

### Ebenholz NCT VII

Special hand-selected high quality wood plies of different hardness are combined for this 7-ply masterpiece, along with a secret ingredient-- for precision, power, control, and most of all, enjoyment. Extreme speed and stiffness, optimum acceleration without speed glue. Handle FL(lg), FL(sm), AN,ST / Wt 89 gm / Plies 7W / Item SSEB7N

**OFF+** 94 62 Blade \$189.95

COMBO SPECIAL with 2 rubbers

**\$139.95**

Item XSSINF5

### Infinity VPS V COMBO SPECIAL

Diamond Touch technology gives the outer veneers extra hardness and the surface an incredibly smooth finish. With VPS (Veneer Precision System), the result is an offensive, light blade with outstanding solid touch, feel to master key elements in the modern game: aggressive receives to help you gain an early upper hand, and the ability to follow up with powerful, aggressive topspins. Developed with top players from the Chinese National Team. For the offensive minded player with powerful topspin strokes. Handle FL(lg), FL(sm), AN,ST / Wt 83 / Plies 5W / Item SSINF5

**OFF** 88 65 Blade \$74.95

### Offensive Classic Carbon

For an offensive game with feeling! This update of the world-famous Offensive Classic adds two carbon layers, giving extra power and stability for modern offensive play. Retains the classic STIGA design with the famous outstanding feel and balance, but provides an additional carbon dimension to your offensive arsenal. Handle FL(lg), FL(sm), AN,ST / Wt 79 gm / Plies 5W,2C / Item SSOFC

**OFF** 93 62 Blade \$89.95

**Sense 7.6**

**Fast offensive blade with fantastic feeling and sound!**

Helps the offensive player retain the upper hand in fast rallies. Very beautiful, built with a special outer veneer produced through a very long drying process. Has 7 wood and 6 carbon layers, and based on the very popular and world-famous STIGA Carbo 7.6. Handle FL (lg), FL (sm), AN, ST / Wt 85 gm / Plies 7W, 6C / Item SSSE7

**OFF+ 98 57 Blade \$94.95**

**Offensive Classic**

After the worldwide success of the STIGA Allround Classic, STIGA decided to create a blade specifically for the more aggressive player. The result was the Offensive Classic, which became the choice of the attacking player. Its winning design blends optimum speed, weight, and feel. Handle FL (lg), FL (sm), AN, ST / Wt 81 gm / Plies 5W / Item SSOFFN

**OFF- 82 74 Blade \$45.95**

**Offensive Classic WRB**

Specifically created for the more aggressive player. The choice of the attacking player. Its winning design blends optimum speed, weight, and feel. WRB system which accelerates the blade face for faster returns, more power and extra sensitivity of touch. Handle FL (lg), FL (sm), AN, ST / Wt 78 gm / Plies 5W / Item SSOFFW

**OFF- 84 72 Blade \$48.95**

**INTENSITY NCT**

**21ST CENTURY LIGHTWEIGHT WEAPON!**

**Intensity Carbon NCT**

The light weight, speed, and fantastic trajectory are enhanced by adding two carbon layers. This adds superb power and speed to all of your strokes. Competitors who play an intense offensive game will take advantage of the extra touch and speed of the Intensity Carbon to rise to their highest level. Handle FL (lg), FL (sm), AN, ST / Wt 85 gm / Plies 5W, 2C / Item SSINCN

**OFF 91 65 Blade \$137.95**

**Intensity NCT**

The 21st century light weight weapon! Fantastic trajectory and good speed, while the light weight enhances the performance in all the best ways. If you are a controlled attacker you will like the outstanding balance between trajectory and control. Handle FL (lg), FL (sm), AN, ST / Wt 82 gm / Plies 5W / Item SSINTN

**OFF- 88 68 Blade \$109.95**

Used by World Ranked #1 player XU XIN

**STIGA ROSEWOOD -- Science meets Nature!**

**MAPLEWOOD NCT - Outstanding Trajectory!**

**Maplewood NCT V**

Exceptional 5-ply blade for an aggressive game with control. The Maplewood NCT V is a new addition to the Hardwood blade series that includes Rosewood and Ebenholz. An outstanding long trajectory when hitting spiny balls is a great strength of this blade, while extra touch makes execution of your shots a dream come true. Handle FL (lg), FL (sm), AN, ST / Wt 84 gm / Plies 5W / Item SSMA5N

**OFF 89 67 Blade \$112.95**

**Maplewood NCT VII**

A 7-ply blade with inherent offensive potential well-suited to highly skilled players. Unique, hand-selected woods and very well-balanced. Outstanding long trajectory for spiny balls, and experienced players will love the blade's perfect response to the mental flow of the game. Handle FL (lg), FL (sm), AN, ST / Wt 95 gm / Plies 7W / Item SSMA7N

**OFF+ 93 70 Blade \$134.95**

**Rosewood XO**

**For the attack player with finesse!**

Exclusive Rosewood outer veneers, aged and seasoned since the introduction of Rosewood NCT blades in 2008. Extraordinary high quality wood with beautiful pattern and excellent construction provides outstanding feel and touch with a smooth sound, for performance equal to its beauty. Extra speed/feel compared to Rosewood NCT V. Handle FL (lg), FL (sm), AN, ST / Wt 79 gm / Plies 5W / Item SSROX

**OFF 89 64 Blade \$179.95**

**Rosewood NCT V**

Designed for modern attacking game and aggressive play that depends on speed with long trajectory to win. 5-ply blade with exceptional balance of speed, weight, control and trajectory. Item XSSACTN

**Active**

**COMBO SPECIAL**

A 7-ply offensive power-house! Fast and stable blade. Handle FL(sm), AN, ST / Wt 89 gm / Plies 7W / Item SSACTN

**OFF-** 87 69 Blade \$35.95

**Hypertech CR 35/45 WRB**

Stiga began with the legendary Allround Classic veneers and made one side of the blade UV-finished with 45° hardness (equals very high speed) and the other side is UV-finished with 35° hardness (equals very good control). You get speed on the forehand and control on the backhand. Handle FL(lg), FL(sm), AN, ST / Wt 81 gm / Plies 5W / Item SSHYPW

**ALL/ALL+** 74/79 77/70 Blade \$53.95

**CC SERIES (Crystal Carbo)**

Developed in close cooperation with members of the Chinese National team, the CC Series is focused on the importance of ball trajectory. Longer trajectory lets you push your opponent away from the table and take control of rallies and the game. The CC5 and CC7 were developed to meet those demands. Both blades have carbon layers inside, with STIGA's famous NCT and Crystal treatment on the surface.

**CC5**

A unique blade that balances control with long trajectory and power. This blade is for the control minded player who still wants to have power when striking the ball. Handle FL(lg), FL(sm), AN, ST / Wt 96 gm / Plies 5W, 2C / Item SSCC5

**OFF** 89 62 Blade \$132.95

**CC7**

A more powerful blade than the CC5, the CC7 is recommended for highly skilled attackers with excellent technique. Outstanding when you are playing back off the table and getting into topspin rallies. With CC7 you can feel the long trajectory in your topspin strokes and gain control over the game. If you like to play topspin against topspin, then this is the blade for you. Handle FL(lg), FL(sm), AN, ST / Wt 99 gm / Plies 5W, 2C / Item SSCC7

**OFF+** 94 58 Blade \$148.95

**OPTIMUM**

**Optimum Sync**

Designed with the ideal mix of speed and control. Experienced players get needed lethal attacking shots, and defensive and counter loops and smashes. Handle FL(lg), FL(sm), AN, ST / Wt 88 gm / Plies 5W / Item SSOPTN

**OFF-** 88 71 Blade \$61.95

**Optimum PLUS**

Crystal Technology + Offensive Classic wood in a very popular 5-ply blade. Same outer plies as the Offensive Classic, but faster and lighter. The Crystal Technology process hardens the blade surface to increase speed. Amazing crystalline appearance of blade! You get extra zip on all your shots. Handle FL(lg), FL(sm), AN, ST / Wt 80 gm / Plies 5W / Item SSOPPN

**OFF** 90 68 Blade \$64.95

**Titanium 5.4 8  
Titanium 5.4 WRB**

Extreme speed, but no loss of feeling or control. Four non-solid titanium layers + 5 layers of wood veneer. Titanium powder mixed with unique bonding glue for consistent playing surface with more power. WRB: accelerates the blade for speed & power. FL(lg), FL(sm), AN, ST / Plies 5W, 4T.

TITANIUM 5.4: Wt 86 gm / Item SSTI5N

**OFF** 91 60 Blade \$87.95

TITANIUM 5.4 WRB: Wt 83 gm / Item SSTI5W

**OFF** 93 59 Blade \$90.95

**Offensive CR**

The STIGA-sponsored Chinese National Table Tennis Team specifically asked STIGA to produce this blade. It is fast and perfect for attack play. CR system provides speed + the STIGA touch. FL(lg), FL(sm), AN, ST / Plies 5W / Wt 81 / Item SSOFFCN

**OFF-** 85 71 Blade \$51.95

**Offensive CR WRB**

The STIGA-sponsored Chinese National Table Tennis Team specifically asked STIGA to produce this blade. It is fast and perfect for attack play. CR System helps maintain "Stiga touch" despite increased speed. WRB creates a lighter blade w/hollow handle. FL(lg), FL(sm), AN, ST / Plies 5W / Wt 78 gm / Item SSOFFCW

**OFF-** 86 70 Blade \$54.95

Super Fast Blades with plies of Hinoki wood

### H-1-9

One-ply, super-fast blade based on the Hinoki wood blade, but revised in shape and weight to be thoroughly modern. Very fast and hard for offensive play. Handle FL, AN, ST / Wt 87 gm / Plies 1W / Item STH19

OFF+ 97 56 Blade \$148.95

### H-3-9

Reintroducing the newly modernised H-3-9 Hinoki wood blade. This design comprises of 1 thick middle ply and 2 thinner outer plies. Although this blade is very fast, it will give you a very high degree of feeling. Handle FL, AN, ST / Wt 89 gm / Plies 3W / Item STH39

OFF+ 96 57 Blade \$148.95

### IV-L Balsa

**Heart of Balsa!** A superior allround blade for players wanting maximum ball contact and control. Soft, fast outer layers of Ayous wood enable a variety of active and passive strokes. Balsa and occumé wood make a very light blade with exceptional touch. Handle FL, AN, ST / Wt 69 gm / Plies 6W / Item STIVB

ALL+ 80 78 Blade \$54.95

### ComBAT

This 7-ply wood blade with stiff outer layers and relatively soft inner layers is the ideal weapon for a topspin-rich offensive game. Grip and racket shape are perfectly harmonized, giving extraordinary balance. Varnished surface, strong and long-lasting blade. Handle FL, AN, ST / Wt 85 / Plies 7W / Item STCOM

OFF 92 62 Blade \$49.95

## White Sword

Extraordinary sensation and high dynamic make White Sword a pure spin weapon! This offensive blade with 2 plies carbon fibre and 3 wood plies is secure and stable for service, and has increased Sweetspot (optimised ball/bat contact zone) and outstanding precision for your game. The medium soft outer and heart layers of White Sword confer a great playing sensation. Handle FL, AN, ST / Wt 88 gm / Plies 3W, 2C / Item STWSD

OFF- 90 71 Blade \$108.95

## SGS BLADES

These fantastic blades from TIBHAR feature the newest technological breakthrough TIBHAR'S SGS [Super Grip System] with unique foam rubber insert in the handle for super control and ball feeling.

### Samsonov Alpha SGS

Fine 5-ply wood meant for the diversified and attacking offensive allrounder. It offers extraordinary ball control and optimal speed potential. If you focus on precision, this blade is made for you. Handle FL, AN, ST / Wt 85 / Plies 5W / Item STSSG

OFF- 86 69 Blade \$54.95

### Samsonov Carbon SGS

If you place speed and aggressiveness in your game above everything else, then this blade is made for you. Soft-fast Ayous layers, combined with 2 additional carbon layers results in this fabulous and fast blade with the SGS grip that gives good feedback while maintaining control; at ball contact, the blade will not feel too stiff. Handle FL, AN, ST / Wt 89 / Plies 7W, 2C / Item STSCS

OFF+ 98 56 Blade \$89.95

### IV-L SGS

Includes the newly developed comfort grip system, SGS (Sponge-Grip-System), this blade is an update to TIBHAR's classic IV-L blade. IV-L SGS retains the classic composition of unique and specially selected Ayous layers. Developed in cooperation with world class players, this racket shape, adapted to the grip shape, increases control and acceleration. The player gets excellent feel and feedback. Handle FL, AN, ST / Wt 88 / Plies 4W / Item STILS

ALL 80 72 Blade \$49.95

### IV-S SGS

Updates TIBHAR's classic IV-S blade construction using Ayous outer layers with the new Sponge-Grip-System (SGS) design. The racket shape is optimized to work in tandem with the grip shape to permit full use of your offensive potential without having to give up the unique soft, but fast, playing sensation. Handle FL, AN, ST / Wt 88 / Plies 5W / Item STISS

ALL+ 88 69 Blade \$49.95

### Balsa SGS COMBO SPECIAL

The perfect mix between lightness and offensiveness, conferring an extraordinary ball rebound and direction. It is the ideal blade for playing a counter and offensive game at the table with very precise topspin strokes. The SGS-System provides the requested comfort and confers a good balance between speed and control.

Handle FL, AN, ST / Wt 75 / Plies 5W / Item STBAS

**Samsonov Alpha**

COMBO SPECIAL

Champion Vladimir Samsonov developed this offensive blade himself. Precious wood outer plies + extra strong middle layer guarantees resilience with control. For controlled, spin-oriented attack w/lots of pressure. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item STSAM

OFF- 86 69 Blade \$52.95

TEXO BLADES

**Texo C7**

A 7-ply carbon wood loaded with lots of sensation and outstanding topspin qualities, but it has good control thanks to its soft center. Reliable for the whole stroke range from the service, the short game, and the block all the way through the dynamic topspin game at half distance. The light carbon layers confer hardness and decisiveness to your strokes, even when the ball is not hit right. Handle FL, AN, ST / Wt 85 / Plies 5W, 2C / Item STTEC

OFF 91 65 Blade \$104.95

**Texo OFF**

Elegant and powerful offensive blade with outstanding control, it dominates in ball exchanges for the player who wills himself to be in charge. Perfectly adapted to high speed and aggressive strokes and topspins. This is the variable weapon for the offensive playing system, offering the ideal balance between speed and sensation. Handle FL, AN, ST / Wt 85 / Plies 6W / Item STTEO

OFF- 87 66 Blade \$64.95

**Texo ALL**

5-ply classic, based on control and stability. Perfectly adapted to controlled, variable, spin-oriented strokes. Permits all the techniques of the game ranging from block, push, counter, topspin or shot. Balance is the key word to describe this straight-forward blade. Handle FL, AN, ST / Wt 88 / Plies 5W / Item STTEA

## DIMA OVTCHAROV:

blade: DONIC Dima Original Senso Carbon  
rubber: DONIC Bluefire M1 Turbo

- 2015, 2013 European Champion
- 2012 Olympic Bronze Medalist
- 3x World Team Championships Silver Medalist

## Ovtcharov Original Senso Carbon

Used by Dima Ovtcharov, European Champion. A unique new ply formation maximizes the sweet spot. Two separate Ayous layers are treated and glued at high temperature pressure, then cooled before the next stage. This forms the core.

These plies are surrounded by two carbon plies for stability and hardness. Senso handle design allows for precise return of ball. Dima Ovtcharov commented,

"This blade was a huge help to me on my way to the world's elite. DONIC's 'know-how' and the Swedish blade technicians

have created a blade precisely to suit my game. As a result of their expertise I can develop top speeds when attacking but am able to retain super control when under pressure. This blade was made for me!"

Handle FL / Wt 90 / Plies 6W, 2C / Item SDOVO

OFF 90 70 Blade \$79.95

PRO SPECIAL with

## Blue Feeling

PRO

This "made in Sweden" high tech 5-ply allround blade has a specially created Ayous outer ply, suitably colored and glued with special procedures, dried for a long time and pressed under heavy pressure. The result is a sensational feel and unique design - a blue grain in the ply! Slightly thicker inner ply, fairly hard Limba plies and specially treated outer ply results in outstanding control and speed for attack play. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDBLU

ALL+ 80 75 Blade \$59.95

## Donic Crest Blades

NEW

Crest stands for perfection, the absolute top of the range. Experience the unique feel of the Crest blades. Nine perfectly adjusted and precisely processed plies are the secret of these absolute top class offensive blades: Fast, excellent feel, very solid and relatively light despite the nine plies. The extremely thin carbon layers guarantee a much larger sweetspot, the Carbon ZF-ply create stability and flexibility.

## Crest AR+

The more allround speed version of the Crest blades.

Handle FL, AN, ST / Wt 85 / Plies 5W, 2C, 2Z-C / Item SDCRA

ALL+ 84 75 Blade \$174.95

## Crest OFF

The faster speed version of the Crest blades.

Handle FL, AN, ST / Wt 85 / Plies 5W, 2C, 2Z-C / Item SDCRO

OFF 95 70 Blade \$174.95

## Ovtcharov Feat

Extremely light 75 gm blade guarantees that you can use your whole strength to play your strokes. Manufactured to the highest quality using the innovative Spruce Pressing technology, which drastically reduces the moisture content. Hand made in Germany with selected sawn veneers, it has qualities which will improve your play: Quality, lightness and a special feel. The flawless round handle fits comfortably into the hand due to the ergonomic shape.

Handle FL, ST / Wt 75 / Plies 5W / Item SDOVF

OFF- 90 70 Blade \$129.95

The new World Champion 89 blade series celebrates the 25th anniversary of Sweden's World Championships Team win in Dortmund in 1989 (in a historic 5-0 final win against China). These blades honor the superstar legends Jan-Ove Waldner, Jorgen Persson, and Mikael Appelgren. Hand-crafted with modern precision and technical know-how, all three models incorporate an Italian Spruce ply which is over 200 years old, combined with a 3mm strong center veneer of Kiri (and for the Appelgren ALL+ model, a layer of Ayous), plus a new Carbonfleece Zylon (CFZ) webbing, exclusive for DONIC. Specially developed drying procedure reduces moisture content, resulting in stability and lightness, and each blade is subjected to a special cold press for 24 hours. The unique 3D-technology and more recent bio technology ensures that the handle is a perfect shape.

## WORLD CHAMPION 89

### DONIC blade series

Top workmanship, made in Germany!

MORE DONIC BLADES ON NEXT PAGE >>

**DOTEC TECHNOLOGY**

The DONIC Dotec System is the wood technology without awkward edges. Since the human hand does not have hard edges, DONIC wanted to develop a smooth blade without sharp edges to ensure a completely smooth transition between blade and handle. The DONIC Dotec system is the technology that provides a blade with a perfectly smooth handle - a joy to grip. Choose between Right-Handed and Left-Handed versions.

DONIC continues to build on many years of success of its DOTEK series with three newest Ovtcharov blades: Off, All+ and All. Ovtcharov Dotec blades incorporate the brand new CBF technology. Vulcanized artificial plies have been carefully glued and put together with top quality plies to ensure extremely good feel and precise return of the ball.

**Ovtcharov Dotec OFF**

The fastest in the Ovtcharov Dotec series. It is really fast but has excellent control. Best suited for attackers and allround players with power who like to loop or counter-attack close or away from the table. Handle LEFT, RIGHT / Wt 80 gm / Plies 5W / Item SDODO

**OFF-** 88 67 Blade \$72.95

**Ovtcharov Dotec ALL+**

Slightly less powerful and little softer than the Ovtcharov Dotec OFF version. This blade has fantastic control but is still quite fast. Suitable for allround players with power and spin who require maximum control when under pressure. Handle LEFT, RIGHT / Wt 80 gm / Plies 5W / Item SDODP

**ALL+** 81 73 Blade \$72.95

**Ovtcharov Dotec ALL**

The easiest blade to control from the Ovtcharov Dotec series. Top control and a particularly good feel guarantee the best possible allround qualities. Especially recommended for allround players who like to block and chop in defensive situations. Handle LEFT, RIGHT / Wt 80 gm / Plies 5W / Item SDODA

**ALL** 78 75 Blade \$72.95

**Persson Dotec OFF**

Great offensive blade for players of every ability, with DONIC Dotec technology. Super versatility with top speed + fantastic feel in every playing situation. Covering of legendary Japanese Hinoki wood, with Dotec-Balsa and Koto plies. Available in LEFT- or RIGHT-handed version. Handle LEFT, RIGHT / Wt 75 gm / Plies 7W / Item SDPDO

**OFF-** 91 67 Blade \$78.95

**Waldner Dotec Carbon**

A 4mm core of Balsa surrounded by carbon and Limba plies give this Dotec blade enormous potential for speed, quick topspin and smashes while maintaining remarkable control. Handle LEFT, RIGHT / Wt 85 gm / Plies 5W,2C / Item SDWDC

**OFF** 93 66 Blade \$92.95

**Waldner Dotec AR**

Limba/Balsa combination produced by DONIC Dotec Technology, results in a perfect, fast, all round blade. Amazing touch! Available in LEFT-handed or RIGHT-handed version. Handle LEFT, RIGHT / Wt 70 gm / Plies 7W / Item SDWDA

**ALL+** 81 74 Blade \$72.95

**Appelgren Dotec Control**

The last word in control and accuracy! Easy control and good feel. Ideal for those who want more ball control without loss of speed necessary for attack. DOTEK fiber is placed between a limba cover and an ayous inner ply. Middle core consists of a DOTEK balsa layer. Handle LEFT, RIGHT / Wt 70 gm / Plies 7W / Item SDADC

**ALL+** 79 76 Blade \$65.95

**Wang Xi Dotec Control Plus**

Fine touch and precise placement for for the defensive player! Provides not only control but reserves of speed to enable positive all-round players to go on the attack. Ideal for players who value control but not at the loss of attack play. This blade is available with a straight handle, making it easier for defenders to "twiddle" their racket. Handle LEFT, RIGHT, ST / Wt 80 / Plies 7W / Item SDXDP

**PRO**

### Baum Espirit

The blade of European star, Patrick Baum. Aramid-Carbon fiber in combination with high quality wood plies ensure a precise ball return and outstanding offensive quality to the blade. Very fast, but the blade design maximizes ball control in every playing situation. It is particularly suited for counter top-spinning and for touch play.

Handle FL, ST / Wt 89 / Plies 5W, 2C / Item SDBES

**OFF 89 61 Blade \$65.95**

 PRO SPECIAL with  
DONIC Bluefire M1 Rubber

**\$134<sup>95</sup>**

See Page 5

### Waldner Legend Carbon **PRO**

A fast, extremely light offensive blade with a larger "sweet spot" for premium control. Blade has been designed with great care. The choice of wood plies - Hinoki outer ply in combination with carbon layers and a soft inner ply provide stiffness for good topspin. Especially effective for players who like to dominate close to the table. Handle FL, ST / Wt. 85 / Plies 5W, 2C / Item SDWLC

**OFF 93 66 Blade \$74.95**

## EXCLUSIVE BLADES

### Persson Exclusive OFF

Unbeatable value. The fastest of the Exclusive blades, with great power for effective fast top-spin and hard smash. Plus, it provides first class control with all types of spin. Recommended for hard-hitting attackers. Handle FL, AN, ST / Wt 85 / Plies 5W / Item SDPEO

**OFF- 80 73 Blade \$32.95**

### Waldner Exclusive AR+

Offensive power with ball feeling of an allround blade. For offensively oriented all-round players who use variable topspin close to the table and half-distance, with no loss of control. Handle FL, AN, ST / Wt 85 / Plies 5W / Item SDWEP

**ALL+ 76 74 Blade \$32.95**

### Appelgren Exclusive AR

Highly recommended for all-round players who value control when blocking but especially wish to incorporate variations of spin into their play. Handle FL, AN, ST / Wt 80 / Plies 5W / Item SDAEA

**ALL- 65 85 Blade \$31.95**

## DONIC BURN SERIES

Thermal treatment of the veneers results in extremely high stability, similar to features of high-quality tropical woods. Blades are exposed to 200 degrees centigrade for 24 hours to harden the wood and remove humidity. The resulting playing characteristics of these blades are unique.

### Burn OFF

Stiff and fast with excellent control and an outstanding sweet spot. It is not top heavy even used with heavy and hard rubbers. Handle FL, AN, ST / Wt 90 gm / Plies 5W / Item SDBUO

**OFF 94 65 Blade \$49.95**

### Burn OFF-

More controllable than the Burn OFF blade. In harmony with the thinner middle ply it is slightly more elastic. With softer rubbers imparts slightly more spin than the OFF version. Beautiful blade, excellent sweet spot. Handle: FL, AN, ST / Wt: 85 gm / Plies: 5W / Item: SDBUM

**OFF- 89 68 Blade \$49.95**

### Burn AR+

Priority for this blade series is ease of control and feel. The thinner Kiri center ply offers great control, and at 80 gms, it is relatively light. Use with harder attacking rubbers for fantastic speed or use softer rubbers for greater spin. Handle: FL, AN, ST / Wt: 80 gm / Plies: 5W / Item: SDBUA

**ALL+ 81 73 Blade \$49.95**

### Persson Seven

Developed especially for modern, dynamic top spin players. This 7-ply blade (Limba-Ayous-combination) has good feel and is very apt at producing spin. It also offers excellent control when hard top spins are required. Handle: FL, ST / Wt: 90 / Plies 7W / Item SDPE7

**OFF- 88 67 Blade \$49.95**

### Ovtcharov Carbospeed

Very fast carbon blade with great stiffness and durability. High class Hinoki outer ply. Recommended for all out attackers with hard top-spins who prefer to counter-attack.

Handle FL, ST / Wt 85 / Plies 3W, 2C / Item SDOVP

**OFF+ 95 55 Blade \$74.95**

### Waldner Senso Carbon

Perfect for attack and aggressive allround play. Two high-tec Carbon layers with time-proven Swedish allround construction result in an ideal balance of speed+control. With Senso V1 hollow handle technology. Elastic component gives you the essential touch. Handle FL, AN, ST / Wt 85 gm / Plies 5W, 2C / Item SDWSC

**OFF- 86 70 Blade \$59.95**

### Waldner Senso Ultra Carbon

Legendary blade, improved in collaboration with the great J.O. Waldner. Faster than Waldner Carbon and light with impressive ball control and feel. Hard Carbon plies increase speed. Inner/outer veneers of varied hardness for superb touch! Handle FL, AN, ST / Wt 80 gms / Plies 5W, 2C / Item SDWUC

**OFF 89 70 Blade \$60.95**

### Waldner Black Devil CB

A Champion's blade! Outstanding for attack! Advanced technology + revolutionary 7-ply design: as exuberant as the playing style of the Master. Carbon, soft Balsa core + Koto plies = super control, power + speed with an enlarged sweet spot. Handle FL, AN, ST / Wt 80 gm / Plies 5W, 2C / Item SDWBD

**OFF+ 96 59 Blade \$86.95**

### Waldner Diablo Senso

Two plies of glass fibre with wood provide stability, larger sweet spot, more rigidity and speed, but with the good feel of a wood blade. Senso hollowed-out handle. Handle FL, AN, ST / Wt 85 gm / Plies 3W, 2G / Item SDWDB

**OFF- 88 64 Blade \$57.95**

### Waldner Dicon

DICON stands for Direct CONtrol. Parts of the handle are removed with a milling tool, providing direct contact between the player's hand, arm, and blade to improve feel of power and speed, giving you more control. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDWDI

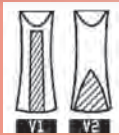

**OFF- 87 66 Blade \$43.95**

**DONIC SENSO V1 and V2:**

The V1 hollow space (see sketch) leads to more speed, with identical control to the original blade. The V2 hollow space increases the control with identical speed.

V1 = optimum speed

V2 = optimum control

**Ovtcharov Senso V2**

This power allround blade has a mahogany outer ply, softer than hard mahogany outer ply of the Ovtcharov Senso V1. This solid blade has a perfect combination of specially chosen medium-hard plies which ensure a high degree of control. Recommended for the player who especially values control but still requires power and speed when attacking. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDOV2

OFF- 88 70 Blade \$58.95

**Ovtcharov Soft Carbon V1**

**Offense with feeling!** Based on best-selling Ovtcharov Senso V1 and Waldner Senso Carbon, this carbon blade has relatively soft feel on contact. Walnut outer-veneers provide speed+hardness for attack. Med.-hard Scandinavian pine mid-veneer gives high tension dynamics+power. Fast, offensive blade, but good ball control. Thin carbon mid-layers and Abachi middle veneer. Senso handle creates great feel. Handle FL, AN, ST / Wt 90 gm / Plies 5W, 2C / Item SDOV5

OFF- 84 67 Blade \$74.95

**Waldner Allplay**

Dark natural wood handle incorporates the well known "Waldner Design". Classic Swedish blade - best seller world-wide. Best ball control, speed, flexible for all playing situations. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDWAL

ALL 72 84 Blade \$37.95

**Waldner Senso V1 & V2**

Well-rounded speed, Classic Swedish construction with speed and fantastic control. Perfection for all offensive and aggressive allround players.

**Senso V1:** Optimum speed with identical control. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDWS1

OFF- 81 73 Blade \$49.95

**Senso V2:** Optimum control with identical speed. Handle FL, AN / Wt 85 gm / Plies 5W / Item SDWS2

ALL 79 75 Blade \$49.95

**Appelgren Allplay & Allplay Senso V1 & V2**

**Highly sensitive Swedish allround blade.** Suitable for all modern strategies where ball control is most important. It provides high acceleration reserves for a fast spin game. Handle FL, AN, ST / Plies 5W

**Appelgren Allplay:** Wt 81 gm / Item SDAAL

ALL 73 82 Blade \$37.95

**Senso V1:** Wt 80 gm / Item SDAV1

ALL+ 77 79 Blade \$44.95

**Senso V2:** Wt 80 gm / Item SDAV2

ALL 74 79 Blade \$44.95

**Powerplay Senso V1 & Powerplay Senso V2**

Popular fast 7-ply offensive blade has great touch and control, thanks to 4 thin outer layers and a special thin layer of foil. Made in Sweden. Both V1 and V2 versions have ingenious hollowed spaces in handle which transmits ball feeling from

**Senso V1:** Handle FL, AN, ST / Wt 80 gm / Item SDPS1

OFF 92 63 Blade \$49.95

**Senso V2:** Handle FL, AN, ST / Wt 85 gm / Item SDPS2

OFF 91 64 Blade \$49.95

**Persson Power Allround**

Aggressive allround characteristics. Perfect ball control. A Donic best-seller for many years. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDPP0

ALL+ 78 78 Blade \$39.95

COMBO SPECIAL with 2 rubbers

\$123.95

Item XSDOV1

**Ovtcharov Senso V1**

COMBO SPECIAL

Fantastic feel and power. 7-ply blade with a hard walnut outer designed for high speed smash and topspin. Inner plies are medium hard and medium soft veneers. Gluing technology results in added rigidity. Handle FL, AN, ST / Wt 90 gm / Plies 7W / Item SDOV1

OFF+ 95 64 Blade \$58.95

**Cayman**

Great all-round blade with good feel! Lightweight, high rigidity and excellent control. Hard outer plies are especially suitable for players using short or long pips. Amazing control, with no loss of speed. Handle FL, AN, ST / Wt 70 gm / Plies 5W / Item SDCAY

ALL+ 80 76 Blade \$52.95

**Defplay Senso**

Awesome for versatile defense! World's most successful veneer combo (5-ply allround) has two dampening, elastic outer plies (Gabon and Anegre). Vibration/speed of blade is reduced by increasing blade size by 3mm. Unbelievable control for defense + fantastic offensive acceleration. FL, AN, ST / Wt 85 gm / Plies 5W / Item SDDEF

DEF+ 63 94 Blade \$49.95

**Alligator Combi**

The main feature of this blade is the difference in speed between forehand and backhand sides. The 5-ply ALL+/DEF+ blade creates perfect harmony between playing styles. Soft Balsa core makes the blade light and relatively stiff. Amazing possibilities with anti and long pips rubbers. Handle: FL, ST / Wt: 80 gm / Plies: 5W / Item: SDALG

ALL+/DEF+ 76/66 75/90 Blade \$52.95

**Baum Carrera Senso**

Hard, thick 7-ply offensive blade. Great for aggressive player like World Jr Champ Patrick Baum: fast topspin from both wings, hard smashes, power flips + blocks. Handle FL, AN, ST / Wt 90 gm / Plies 7W / Item SDBCA

OFF+ 98 58 Blade \$52.95

**Dima Sawtec AR**

Ovtcharov's extreme adaptability at the table inspired this combination of woods for every stroke: flick, push, block, topspin, loop, smash. Excellent control+speed, with DONIC Cork-Covered handle. Handle FL / Wt 85 gm / Plies 5W / Item SDDSA

ALL+ 83 74 Blade \$48.95

See Page 6

### Flame Carbon

Includes "burning wood" technology and loaded with kevlar/carbon. The result is an incredible offensive blade with increased speed. The Flame Carbon is a new approach to carbon table tennis blades. Handle FL, ST / Wt 85 / Plyes 5W, 2C/K / Item SNFLC

**OFF+ 96 60 Blade \$99.95**

PRO SPECIAL  
with Nittaku Flyatt Soft Rubber

**\$132.95**

See Page 6

### Flyatt Carbon

A versatile light-weight offensive blade. It is easy to handle, achieved by setting the board thickness at a sleek 6.0mm, and light weight around 82g. The speed performance and power are secured with the loading of two thin carbon layers in combination with the five all wood plyes. Outstanding when combined with Nittaku's Flyatt rubbers. Handle FL, ST / Wt 82 / Plyes 5W, 2C / Item SNFLY

**OFF- 85 78 Blade \$84.95**

### Flyatt Carbon Pro

Solid, strong, powerful feel on impact, with very fast speed. Nice feel on ball impact due to two layers of kevlar/carbon. The hard surface material, with the 5 plyes of wood and two plyes of kevlar/carbon combines for the best weapon for the fast offensive game. Includes a "Wood Edge Guard" for added stability and strength. Handle FL, ST / Wt 85 / Item SNFLP

**OFF+ 96 61 Blade \$97.95**

# FINELY TUNED INSTRUMENTS

## ACOUSTIC CARBON & ACOUSTIC CARBON LARGE GRIP

Made with special wood lamination technology originally used in stringed instrument production, and incorporated with new FE-carbon material. This construction creates a solid feel and even more power. Feel the blade in every part of your hand. Thicker wood produces solid feeling for close-to-table topspin play. Available in Standard and Large Grip. The Large Grip is normal sized—just a little larger. See below for handle dimensions.

### Acoustic Carbon

Large FL: 100 x 22mm  
Large ST: 100 x 23mm  
Handle FL, ST / Wt 90 / Plies 5W,2C / Item SNACC

OFF 92 65 Blade \$179.95

### Acoustic Carbon Large Grip

Large FL: 101 x 24.5mm  
Large ST: 101 x 23.5mm  
Handle FL, ST / Wt 92 / Plies 5W,2C / Item SNACL

OFF 92 65 Blade \$179.95

## DEVELOPED FOR NEW POLY BALL

### Latika Carbon

Developed for the new plastic poly ball. This is a thin and stiff blade with Nittaku FE Carbon layers. Recommended for the versatile offensive game, and very effective for the short game and blocking. An outstanding sense of balance is a key feature, giving stability and momentum for a wide range of players.

Handle FL, ST / Wt 85 / Plies 5W,2C / Item SNLAC

OFF- 88 77 Blade \$179.95

## OUT-OF-THIS-WORLD PERFORMANCE

### Adelle

Powerful speed, exceptional balance and stability in a 7-ply blade thru Masterful Nittaku craftsmanship. Medium weight. Out-of-this-world performance. Handle FL, ST / Wt 85 / Plies 7W / Item SNADE

OFF 89 61 Blade \$144.95

### Tenor

#### Speed and Performance!

The speediest of the musically manufactured blades by NITTAKU. Offensive players will love the special feel and performance when executing all the nuances of loop, counter-attack, and all touch shots. Tenor is made with the highest quality wood utilizing the same technology and care as that used with the manufacturing of stringed instruments. Handle FL, ST / Wt 92 gms / Plies 5W / Item SNTNR

OFF 90 63 Blade \$199.95

### Acoustic

#### Special Lamination

Made with special plywood lamination technology originally used in stringed instrument production. Feel the blade in every part of your hand. Thicker plywood gives solid feeling for close-to-table top-spin play. Handle FL, ST / Wt 88 gms / Plies 5W / Item SNACO

OFF 86 67 Blade \$164.95

### Vioncello

#### Work of Art!

**ANOTHER WORK OF ART FROM NITTAKU!** Same high class wood and production used in manufacturing stringed instruments. Fantastic vibration absorption results in excellent offense and defense. After feeling this one you can never go back! Handle FL, ST / Wt 92 gms / Plies 5W / Item SNVIC

DEF+ 67 90 Blade \$164.95

### Violin Fine Craftsmanship

## SHAKEHAND BLADES FROM XIOM

### Vega Blades - Zephylium + X-Carbon

#### Vega Europe

Offensive blade made with 5-ply wood and 2-ply Zephylium/X-Carbon construction. The Zephylium allows for maximum spin and control, and the X-Carbon allows for maximum catapult effect. Each veneer is made of single piece wood; they are not jointed from two to one. This gives better feeling and vibration to the player. A T-foil rubber protection sheet is included, for maintenance of rubber and blade.

Handle FL, ST / Wt 90 / Plies 5W, 2 Z/C / Item SXVGU

OFF- 89 65 Blade \$139.95

#### Vega Pro

Offensive speed with good feel, made with five ply wood and 2 composite Zephylium / X Carbon layers. This new era blade has good feel and is offensive in speed. It is sensitive to the new plastic ball and is ready to enhance your game. Made with jointless wood veneers, which is a first for the table tennis industry. This adds extra stability and consistency. The carbon plies are thin, reducing weight without reducing power or touch. Comes with removable T-Foil plastic layer to protect the top layer from scratching during packaging or transit. T-Foil layer can then be used to protect the rubber sheet after assembly.

Handle FL, ST / Wt 88 / Plies 5W, 2 Z/C / Item SXVGP

OFF 91 64 Blade \$179.95

#### Hayabusa Z

The Xiom Hayabusa Z blade is constructed with a harmonious synergy of wood and composite material. Zephylium not only improves ball speed, but defines the vibration better. Sharp and clear vibrations of Hayabusa Z upgrades the control phase of you game. Spin loading was also eased by a new unique construction of layers. Wood-like flexibility of Hayabusa Z makes the ball contact feel very natural and solid. Well balanced power and top spin control of Z make the player keep up with a longer continuous rally.

Handle FL, ST / Wt 85 gms / Plies 5W, 2Z / Item SXHZ

OFF- 88 65 Blade \$164.95

#### Hayabusa Zi

Hayabusa Zi is constructed with a creative synergy of wood and composite material. Zephylium in new construction makes Hayabusa Zi feel natural yet sharper than all wood blades. Leveraged spin loading and increased ball energy are made easily by the unique construction inside. Flexible, yet solid contact with the ball to generate heavy spins identifies Zi as the new European power-blade.

Handle FL, ST / Wt 85 gms / Plies 5W, 2Z / Item SXHZI

OFF- 90 64 Blade \$164.95

#### Hayabusa Z+

The Hayabusa Z+ blade is constructed using a superb synergy of wood and composite material. Hayabusa Z+ has restructured wood and composite layers to create extra synergies, while maintaining the original woody character. Zephylium tuned with other layers provides sensibly sharp feel at ball contact. Unique feel properties improve the control phase of your game and eventually your opportunities to win. Powerful spin dynamics from the unique offensive construction of Z+ are intimidating to opponents.

Handle FL, ST / Wt 85 gms / Plies 5W, 2Z / Item SXHZP

OFF 92 63 Blade \$164.95

#### Hayabusa ZX

Xiom's Hayabusa ZX is constructed with a powerful synergy of wood and composite material. Zephylium carbon character in the third layer makes Hayabusa ZX feel sensibly sharp, yet unbelievably softer than other composite blades. Flexibility was kept by the re-construction of the inside layers, regardless of non-wood material. This allows for continuous top spins with extra power. The control phase of your game improves along with your winning opportunities.

Handle FL, ST / Wt 85 gms / Plies 5W, 2Z/C / Item SXHZX

OFF 94 62 Blade \$164.95

#### Hayabusa ZXi

The Hayabusa ZXi has an amazing synergy of wood and composite material. Revolutionary Zephylium Carbon towards the center of the blade makes ZXi feel more solid, but very genuine. Spin loading is leveraged and easily performed due to this new construction. Accurate, powerful ball control helps you keep up and win in longer rallies. The control phase of your game will improve along with the winning opportunities.

Handle FL, ST / Wt 85 gms / Plies 5W, 2Z/C / Item SXHZXI

OFF 96 60 Blade \$179.95

**\$159.95**

See Page 7

**Stradivarius PRO**

Two plies of Aramid Carbon (a mixture of vibration-absorbing soft Aramid and highly elastic Carbon), provides ideal performance for professional offensive players. The blade catches the ball deeply with minimal residual vibration after impact. Results are a combination of exceptional spin and stable feel. Players can feel the moment of impact directly and clearly without any irritating vibration. Topspin attack close-to-table or from mid-distance is very powerful and secure.

Handle FL, ST / Wt 85 gms / Plies 5W, 2A/C / Item SXSTV

**OFF 91 64 Blade \$99.95**

**Zetro Quad**

This is the blade for topspin. Zylon fiber is directly placed under the top layers to increase the ability to grab the ball. Soft carbon fiber under the middle layers adjusts the overall performance, and the top layer of selected Kiso Hinoki wood guarantees comfortable feel. Making heavy topspin is effortless, and even secure. Players can take the initiative in the game with effective preparatory topspin attack, and keep the initiative with continuous topspin from any distance. Handle FL, ST / Wt 92 gms / Plies 5W, 2C, 2Z / Item SXZEQ

**OFF 93 63 Blade \$114.95**

**V1**

Hard, fast, lightweight carbon blade with a thickness of only 5.4 mm, which allows sufficient deformation required by modern aggressive top-spin players. Special hard wood on the surface and "Energy Carbon" directly under the surface, results in a combination of high speed and compact feel. Both close-to-table topspin and hard smash are very easy. Excellent for precise ball placement with blocks. Stability and security of V1 even gives players the advantage in topspin vs. topspin. Handle FL, ST / Wt 85 gms / Plies 5W, 2C / Item SXV1C

**OFF- 88 65 Blade \$84.95**

**V1 Quad**

High-tech blade provides both super power and precise control. Utilizes advanced "Quad" technology. Two layers of "Energy Carbon" with very high energy transfer efficiency are used directly under the hard surface woods. Another two layers of soft carbon are used inside for adjusting the balance and performance. Lightweight, with extremely large sweet spot and unique feel allowing for very precise control, as well as superb power. Handle FL, ST / Wt 88 gms / Plies 5W, 2C, 2Z / Item SXV1Q

**OFF+ 95 62 Blade \$109.95**

**Axelo**

Named for "acceleration". Top layer is Kiso Hinoki wood, which provides a very high level of energy efficiency as well as a comfortable feel. Newly developed Energy Carbon is inserted under this layer, which also provides very high energy efficiency. Overall thickness is about 7.5mm, which makes this a very powerful blade. Amazing speed, but also very good for top-spin or passive blocking. Strong topspin from any distance is the most important advantage.

Handle FL, ST / Wt 92 gms / Plies 3W, 2C / Item SXAXE

**OFF+ 97 59 Blade \$94.95**

**Strato**

Newly developed Energy Carbon layers for a new level of performance and feel. Improved efficiency of energy transfer for more powerful strokes. Kiso Hinoki wood for the outer layers provides a very comfortable and mild feel. Improved control, and excellent for all-round play though it is very fast blade. Topspin is more stable than players expect, and it draws a very sharp trajectory with good control. Handle FL, ST / Wt 88 gms / Plies 3W, 2C / Item SXSTR

**OFF+ 97 60 Blade \$94.95**

**Ignito**

The blade for passionate and aggressive table tennis. Ideal weapon for aggressive, close-to-table top-spin play. Excellent for hitting the ball on the rise from the bounce to easily put a lot of pressure on the opponent. Light in weight, it needs less energy to swing fast, but due to the high energy efficiency of Energy Carbon and Kiso Hinoki wood, more energy is transferred to the ball during impact. Recommended for players migrating from all-wood offensive blades. Handle FL, ST / Wt 88 gms / Plies 3W, 2C / Item SXIGN

**OFF 94 61 Blade \$94.95**

XIOM VEGA EUROPE Rubber

**\$109<sup>95</sup>**

See Page 7

**PRO**

### Allround S

Xiom Allround S is a classic allround blade of European style construction. Lower and controlled speed provides the opportunity to manage the game against your opponent. Slightly bigger and thinner face combines well with soft /max sponges. Solid and clear feel connects the ball with the player's senses. Perfect for the traditional allround player. Handle FL, ST / Wt 85 gms / Plies 5W / Item SXALS

**ALL 73 77 Blade \$54.95**

### Offensive S

Perfect for speedy drives with great speed performance and excellent control from both forehand and backhand. Soft touch at contact offers amazing ball control. Excellent for both modern offensive players with higher/speedy hits and also traditional style players with lower/controlled hits.

Handle FL, ST / Wt 87 gms / Plies 5W / Item SXOFS

**OFF- 82 74 Blade \$54.95**

### Extreme S

Piercing speed and destructive power in this classic offensive 7-ply all wood blade. Special layer construction is focused on providing very sharp and delicate control for top-spin drives and defensive blocks. Superb fit for both mid-distance power play and close to the net speed play.

Handle FL, ST / Wt 92 gms / Plies 7W / Item SXEXS

**OFF+ 95 61 Blade \$59.95**

### Solo

Unique 7-ply blade developed for continuous topspin or all-round strategic play. Though it has a 7-ply construction it is soft, mild, balanced, and full of stability. The linear relationship between impact strength and the level of rebound provides ideal predictability with exceptional stability. Every technique of table tennis is so easy with Solo. Topspin is quite easy and full of rotation. Hard smash is very safe and full of speed. Block is secure and full of variation.

Handle FL, ST / Wt 91 gms / Plies 7W / Item SXSOL

**OFF- 84 67 Blade \$64.95**

### Fuga

Recommended for aggressive players whose strategy is close-to-table top-spin. Everything is optimized for hitting the ball on the rise from the bounce. Hard wood was selected as the material for the thin outer layer for sharp and compact feel but also has overall flexibility and stability. Aggressive close-to-table top-spin is very secure and effective. Players will be able to dominate a fast game as well as every technique in table tennis with ease.

Handle FL, ST / Wt 81 gms / Plies 5W / Item SXFUG

**ALL+ 81 74 Blade \$54.95**

### Aria

One of the most powerful all-wood 5-ply blades, recommended for skilled players. Excellent for all-round power play from close to mid to far distance from the table. Thick, medium soft wood outer layer provides a neutral feel and the second layer provides clear feel and optimal balance. Overall thickness is 6.4mm. Hard and fast, but able to catch the ball softly and release it with great control, especially when players attack with topspin.

Handle FL, ST / Wt 84 gms / Plies 5W / Item SXARI

**OFF- 86 68 Blade \$64.95**

### Aria Lite

Lighter weight version of the Aria. Thickness is 5.8 mm for optimal stability and aggressive topspin strategy. Great for powerful close-to-table topspin. Weight is reduced and control is significantly enhanced. Allows for easy stroke right off the bounce, and for heavy and sharp topspin. Optimized performance for aggressive, close-to-table play. Recommended for aggressive topspin players and for the modern all-round strategic game.

Handle FL, ST / Wt 80 gms / Plies 5W / Item SXARL

**OFF- 82 74 Blade \$54.95**

## Maple Shot

**Maple wood for solid speed.** Unique two outer plies of maple wood. Great offensive capability with controlled speed for the offensive and spinning game. Handle FL, ST / Wt 80 gm / Plies 5W / Item SJMAP

**OFF-** 88 64 Blade \$49.95

## Wish-Carbo

**Fantastic Carbon Control for Allround Game!** Outstanding allround blade with 2 plies carbon close to the playing surface. Wood ply surface layer is thin, giving great sense of control and easy handling for attack/loop all-around game. Handle FL, ST / Wt 84 gm / Plies 3W, 2C / Item SJWIS

**ALL+** 78 77 Blade \$62.95

## HINOKI WOOD BLADES

## Hinoki 3

**3-PLY HINOKI FOR INCREDIBLE FEEL!**

Hinoki (cypress) wood has a special feel for the table tennis player. And you will love the feel of this 3-ply hinoki blade. Each layer is a substantial thickness (no super-thin layers), which contributes to the outstanding offensive capability and power in a light weight weapon. Handle FL, ST / Wt 83 / Plies 3W / Item SJH13

**OFF** 94 67 Blade \$104.95

## Hinoki Carbon III

The power and large sweet spot of carbon is combined with the superior touch and feel of Hinoki cypress outer plies to create this fast, stable blade with the flexibility needed to generate superior ball rotation. Handle FL, ST / Wt 83 gm / Plies 3W, 2C / Item SJHC3

**OFF** 95 62 Blade \$69.95

## Hinoki One-Ply

**Super speed, quickness, and power!**

Superb feel of a thick one-ply Hinoki wood blade. Handle FL, ST / Wt 99 gm / Plies 1W / Item SJHIN

**OFF+** 96 53 Blade \$73.95

## TITANIUM BLADES

## Titanium Turbo

**Turbo Charged Play!** The fastest JUIC Titanium blade! Meshed Titanium+wood with an electric-drying process that reduces the blade's weight by 10-15%. Excellent power and speed even with its lightness. Highly recommended with the JUIC Ultima rubber series. Handle FL, AN, ST / Wt 87 gm / Plies 5W, 2T / Item SJTIT

**OFF+** 97 53 Blade \$99.95

## Titanium II Allround

Allround wood with flecks of titanium in between the wood plies. Great feel/touch for allround/offensive play. Handle FL, AN, ST / Wt 81 gm / Plies 5W, 2T / Item SJTIA

**ALL+** 79 70 Blade \$99.95

## Titanium Chop

A relatively fast defensive blade. The JUIC Titanium series, with the combination of meshed Titanium and wood, has been greatly improved with weight and grip. The process of electric-drying system reduces weight by 10-15% and the meshed titanium provides excellent power and speed even with its lightness. Highly recommended with the JUIC Ultima rubber series. Handle ST / Wt 87 gm / Plies 5W, 2T / Item SJTIC

**ALL-** 69 80 Blade \$99.95

Paddle Palace: Sole North American Distributor for JUIC

**Duo**  
*COMBINATION BLADE FOR SPEEDY FOREHAND AND CONTROL BACKHAND!*

The forehand and backhand sides have a different wood ply formation, an adjustment of the thickness of the wood plies resulting in the perfect blade that provides a speedier forehand and extra touch and control on the backhand. Two plies of titanium contribute to the special feeling and performance.

Handle FL, ST / Wt 85 / Plies 5W, 2T / Item SJDUO

OFF-/ALL 83/75 67/75 Blade \$134.95

**Exacta**

Excellent light weight blade for all-round play with precision and control. New handle design incorporates an anti-shock cushion pad at the end to absorb vibration and protect the player's wrist when serving. A wood edge protector reduces the possibility of damaging the paddle during play. Perfect for the developing or junior player, or the player who values touch and feel for exacting control. Handle FL, ST / Wt 65 gm / Plies 5W / Item SJEXA

ALL 76 83 Blade \$39.95

**Cortan Super Light**

*Super Light!!* This 5-ply blade with a center core of balsa is very light in weight with a soft feeling that you will never miss! Imagine a blade that directs the ball wherever your mind tells it to go. Allround in speed and suited for players who incorporate all strokes in their game. The handle is made of cork and is exceptionally comfortable and absorbant. Handle: FL / Wt: 65 gms / Plies: 5W / Item: SJCOR

ALL 75 81 Blade \$129.95

**Fracta**

*Soft Feel and Special Touch for Allround and Offensive Game.* This 5-ply blade has a soft feel and is outstanding for the allround and offensive game. Stellan Bengtsson reports, "With Fracta, I feel the ball in a great way. The blade has a very nice arc and is actually quite fast on the offensive." Handle FL, AN, ST / Wt 80 / Plies 5W / Item SJFRA

ALL+ 79 76 Blade \$69.95

**LIGHTWEIGHT DEFENSIVE BLADE**

**Ghost**

Great lightweight blade for versatile defensive play! Weighs only 72 grams with oversized head. Excellent for chop, push, block, controlled countering, and surprising smash. Handle ST / Wt. 72 gm / Plies 5W / Item SJGHO

DEF+ 59 92 Blade \$84.95

**Lafita**

*Fast with Great Arc for the Offensive Game!*

This 7-ply blade is stiff and fast, with a great arc and surprising control. Coach Stellan Bengtsson said, "I am happy to recommend the Lafita as a very good blade. It is very fast with great arc and great control. It is a little stiffer than other JUIC blades but the feel of the ball is very good. The ball rebounds quickly with a higher arc than the Alpha and Balsa-C." Handle FL, AN, ST / Wt 85 / Plies 7W / Item SJLAF

OFF 92 63 Blade \$84.95

**Progress**

Light-weight medium-speed blade, great for allround play. Good control and feel. Optimal for quick offense, block, hitting, countering, pushing. Slightly shorter handle, and slightly smaller head. Handle FL / Wt 80 / Plies 5W / Item SJPRO

ALL+ 76 77 Blade \$36.95

**Kalinic**

*The System that Can't Be Beat!*

Five plies of wood produce a medium-fast blade for a wide variety of playing styles. Players love this blade for its quality and performance. Handle FL, ST, AN, CO / Wt 91 gm / Plies 5W / Item SJKAL

ALL+ 81 74 Blade \$49.95

**Ma Lin Extra  
Offensive PRO**

Used by 2008 Gold Medalist Ma Lin! (Penhold version) Excellent speed performance in attacks as well as in the important blocking play. Large sweet spot. Surface is lacquered at factory to improve speed and durability. Handle FL,AN,ST / Wt 84 grams / Plies 5W / Item SYMAE

OFF 89 67 Blade \$51.95

**BLADES FROM YASAKA**

**Extra Offensive 7 Power**

Superior offensive weapon. Very hard outer veneer combined with a med. hard second veneer and light layer of carbon. The gluing and pressing process is developed to improve the balance between the speed and control characteristics. Comes with a lacquered surface. FL, AN, ST / Wt 92 gm / Plies 5W,2C / Item SYE07

OFF+ 96 62 Blade \$69.95

**Galaxy**

Developed by Yasaka's Swedish factory in collaboration with Japanese players for a fast, powerful blade to challenge the ultimate offensive game. This 7 layer blade has inner veneers that give basic power characteristics. Med. soft outer veneers add great ball feel. Double lacquered surface. FL, AN, ST / Wt 92 gm / Plies 7W / Item SYGLX

OFF 95 64 Blade \$69.95

**Silver All Wood**

Unique, attractive high tech allround blade. Hard outer veneer increases the size of the sweet spot (hitting area with maximum control). Middle veneer (the core) is of select medium density wood, slightly thicker than most allround blades. You get excellent ball feel, and power for attack. FL, AN, ST / Wt 87 gm / Plies 5W / Item SYSLW

ALL+ 83 75 Blade \$59.95

**Silver Carbon**

Many carbon blades are fast and hard to handle, but the Silver Carbon is different. Two thin carbon layers are applied with a cutting-edge gluing process to maintain the control. Hard outer veneers + carbon layers make for a large sweet spot. Technical players have a weapon useful for both attack and fast, controlled counter block. FL, AN, ST / Wt 90 gm / Plies 5W, 2C / Item SYSLC

OFF 94 65 Blade \$79.95

**Extra Special**

The ultimate pure all-wood blade for demanding players who like strong power strokes. Combines harder inner veneers with softer middle veneer for optimal power without vibration. Surface veneers are select hard walnut. Handle FL,AN,ST / Wt 90 / Plies 7W / Item SYEXT

OFF 92 64 Blade \$74.95

COMBO SPECIAL  
with 2 rubbers

**\$117<sup>95</sup>**

Item XSYMKV

**Mark V Special Edition  
COMBO SPECIAL**

High-tech, fast blade, with great control for offensive play. Well-balanced, ultra-touch power blade, made to dominate a power loop, smash, or loop-drive with precise blocking, or to counter any shot. Handle FL,AN,ST / Wt 84 gms / Plies 5W / Item SYMKV

OFF- 87 67 Blade \$52.95

**SUPER FAST FOR ATTACK!**

**Max Carbon 3D**

Many players are looking for a faster blade, especially with the new glue regulation. The Max Carbon 3D offers power for fast attacks. 3D construction adds flexibility to the rigid plywood. FL,AN,ST / Wt 90 gms / Plies 7W,2C / Item SYMXC

OFF+ 97 53 Blade \$64.95

**Dynamix 17**

State of the art! A never seen before 17 extremely thin layers of wood plies, yet it weighs only 90 grams. Another powerful weapon you can depend on. FL,AN,ST / Wt 90 gms / Plies 17W Item SYDYN

OFF+ 96 55 Blade \$79.95

**Synergy**

Powerhouse design of 11 plies of wood might feel heavy but Balsa inner plies and thin outer plies = only 82 grams. Very fast. Handle FL, AN, ST / Wt 82 gm / Plies 9W, 2S / Item SYSYN

OFF- 89 63 Blade \$69.95

**Allround Plus**

Awesome for allround play with more power. Two hard veneers with a light middle veneer give added speed. Unique gluing process in Yasaka's Swedish blade factory guarantees control. Handle FL,AN,ST / Wt 88 gms / Plies 5W / Item SYALP

ALL+ 81 67 Blade \$47.95

**Yasaka Balsa**

Strong outer veneer with inner Balsa = light weight powerful blade, with excellent control for allround game! Handle FL,AN,ST / Wt 69gm / Plies 5W / Item SYBAL

OFF 89 61 Blade \$47.95

**Balsa +**

For those who love low weight and special feeling. If you find traditional Balsa blades too slow, Yasaka has an answer by combining the best Balsa with Scandinavian Pine for more speed, but light weight. FL,AN,ST / Wt 68 gms / Plies 5W / Item SYBAP

OFF 91 59 Blade \$49.95

# Dr. Neubauer

## Matador

For use with pips-out or anti-spin rubbers If you want a fast blade, with high control and disruptive effect, special plywood composition provides astounding power for a modern attack. Rigid but with "touch" for the ball and good control for all strokes. Handle FL,AN,ST/Wt 88/ Plies 7W/ Item SUMAT

OFF- 90 68 Blade \$64.95

## Hercules Unique wood composition

Legendary Kiso-Hinoki wood + new type of artificial fiber. Great match for any pips-out and Anti-Spin rubber. Excellent for highly disruptive balls while blocking close-to-table. Great control, excellent feeling, for strong hitting and fast looping. Handle FL,AN,ST/Wt 85 gm / Plies 5W / Item SUHRC

ALL 82 77 Blade \$151.95

## Phenomenon Symbiosis of disruptive effect and control!

Highly disruptive effect with pips-out or Anti-Spin rubbers. Very low bounce for block of attacks. Excellent control + feeling, plus speed for attack or counter-attack. Handle FL,AN,ST/Wt 78 gm / Plies 7W / Item SUPHN

ALL 80 79 Blade \$74.95

## Kung Fu Allround blade for the combination player.

Great for anti-spin and pips-out rubbers. Softer, better control than Dr Neubauer's Gladiator, but just as effective, and can be used for powerful attacks. Handle FL,AN,ST / Wt 85 gms / Plies 7W / Item SUKUN

ALL 76 74 Blade \$77.95

## Titan "Combination" blade - fast forehand speed on backhand.

Disruptive effect w/long pips or anti-spin rubber. Dynamic attack w/pips-out or smooth rubber. Control + feeling. FL,AN,ST/Wt: 65 gms / Plies: 7W / Item: SUTIA

ALL+/ALL- 80/66 69/85 Blade \$177.95

## Bulldog Fast allround blade - light, with control for all shots.

Long pips or anti-spin rubbers slow ball for short shots. Short pips produce deadly shots while straight hitting. With fast inverted rubber, you get a powerful topspin weapon. Handle: FL,AN,ST/ Wt: 68 gms / Plies: 7W / Item: SUBUL

ALL+ 87 69 Blade \$63.95

## Barricade Maximum Defense, Excellent Control!

For short blocking close-to-table and safe yet dangerous chopping. For all rubber types. Attack by looping or hitting to confuse your opponent. Effective for passive /active strokes. FL,AN,ST / Wgt 58 gm / Plies 7W / Item SUBAR

DEF+ 65 88 Blade \$63.95

## Special The magical blade yet improved!

Maximum effects and very short blocking w/long pips. Excellent touch due to Balsa wood handle. Easy, effective counter-attack, push and lift w/long pips. Thick 7-ply blade w/large handle. FL,AN,ST / Wt. 68 gm / Plies 7W / Item SUSPE

OFF- 88 68 Blade \$190.95

## Combination Effect

Different speeds on the two sides of the blade using unique wood composition. Low rebound on one side slows the ball, allowing short return shot with a maximum spin reversal on block. FL,AN,ST / Wt. 70 gm / Plies 6W / Item SUCOM

ALL+/ALL- 79/66 70/84 Blade \$179.95

## High Technology Plus Offense, Excellent Control!

For all strokes. Gluing technique+Balsa handle, gives great ball feeling. Effective attack with long pips through push/lift and counter-attack, with safe returns on block. Super acceleration. FL, AN, ST / Wt. 65 gm / Plies 5W / Item SUHIP

ALL+ 89 64 Blade \$89.95

## Firewall Plus Similar to Firewall, but no weight shakers.

Modified plywood composition enables dynamic offense w/smooth or short pips rubber. Balsa core for speed on hit/loop. Good feel. High spin reversal + fast attack w/long pips. FL,AN,ST / Wt. 65 gm / Plies 5W / Item SUFIP

ALL 79 73 Blade \$68.95

## World Champion Fast OFF- for Dynamic Attack!

For attack hitting/looping (topspin), close-to-table or mid-distance and for combination players w/pips out or anti-spin rubbers. Special heat treatment gives soft feeling+control. Handle FL, AN, ST / Wt 80 / Plies 5W / Item SUWOR

OFF- 86 71 Blade \$69.95

# HALLMARK

## Combination

Specially selected wood plies to a blade with the two sides of the blades with different speeds. The backhand is slower with more control and the forehand is faster. This light weight blade has proved popular with reverse rubber players and combination players who require more speed on one side of the bat. Handle FL,AN,ST / Wt 76 / Plies 5W / Item SHCOM

OFF-/DEF 88/65 62/85

Blade \$57.95

## Ultra

Five-ply large oversize blade with thick balsa core for the offensive player looking for a "club". Large handle and head size, with thick blade, but lightweight. Great attacking properties, but is very easy to hit any ball consistently. Devastating effect when used with long pips rubber. ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wt 73 / Plies 5W / Item SHULT

OFF 90 60 Blade \$57.95

## Carbon Extreme

Unique 7-ply combination of balsa, carbon, abachi and limba. Balsa gives speed and a layer of the special carbon veil on top gives excellent control. Result: a lightning fast blade with good control and a massive sweet spot for over the table play. Has Hallmark's ACT system (Anti-Vibration Cork Technology). Handle FL,AN,ST / Wgt 80 gm / Plies 3W, 2C / Item SHCAE

OFF+ 99 53 Blade \$74.95

## Enigma

Oversize blade with thick double balsa core that's excellent for attacking play, even with pimple rubbers. Outstanding control, incredible attacking properties with long pimples. Very light in weight. Three plies of wood is thick in width. Has Hallmark's ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wgt. 63 / Plies 3W / Item SHENI

OFF- 84 72 Blade \$57.95

## Aurora

The Aurora is a great combination blade, with faster forehand side for attacking and slower backhand side for defense. Light blade with thick 5-ply wood construction. Has Hallmark's ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wgt. 70 / Plies 5W / Item SHAU

OFF-/DEF+ 88/67 68/84

Blade \$45.95

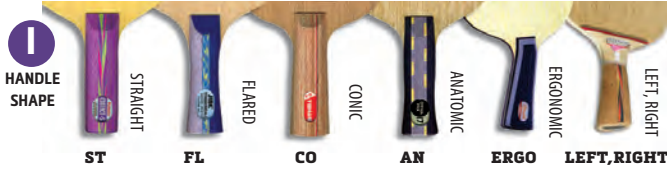

## Strategy

A five ply slow oversized blade, great with long pips rubbers for close-to-table play. Reverse rubber can be used on the other side for good contrast between attack and defence. The blade is very popular with Super Special and Original users. Has Hallmark's new ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wt 93 / Plies 5W / Item SHSTR

ALL- 66 84 Blade \$44.95

HOW TO READ THE SHAKEHAND BLADES CHART

Turn to page 15 for Blade Selection

- 1 HANDLE SHAPE
- 2 PLY (Number of layers or plies) W=Wood, C=Carbon, G=Glass Fibre, X=Texalium, T=Titanium, U=Aluminum, K=Kevlar, S=Synthetic, A=Arylate, R=Aramid, Z=Zylon
- 3 THICKNESS [ Thickness of blade, shown in millimeters. ]

Paddle Palace is happy to assemble new blades with rubber at no extra charge upon request. One rubber sheet will cover one side of a blade. Rubber comes in red and black. No returns on custom-made paddles.

- 4 BLADE MEASUREMENTS: LENGTH/WIDTH/HANDLE LENGTH  
The length, height, and width of the blade and handle length are shown in centimeters.
- 5 WEIGHT: The average weight of each blade is indicated in grams. Individual weights may vary.
- 6 CLASS: OFF = offensive blade ALL = allround blade DEF = defensive blade. The class of blade ranges from fastest [OFF+] to slowest [DEF-]. The rubber sheet that is applied to the blade will naturally affect the speed of the paddle.
- 7 SPEED: The higher the number, the greater the speed, meaning bounce per force input. Use to compare relative blade speeds.
- 8 CONTROL: The higher the number, the greater the control. Use to compare relative blade control. Naturally, control ultimately is most dependent on player's skill.

# JJIC® PENHOLD BLADES

Penhold Combo Specials are offered with either 1 or 2 rubber sheets. See page 15 for details

## ABOUT PENHOLD BLADES

There are two main styles of penhold blades: Chinese and Japanese. The Chinese style normally has a rounded head, similar to a shakehand blade head but often somewhat smaller. The Chinese-style handle is smaller and shorter than a shakehand handle. The Japanese-style penhold has a handle with a protrusion on one or both sides around which the player wraps the index finger. The Japanese-style blade head is often more squarish in shape than the Chinese-style penhold, but it can vary from roundish to squarish, so check the image. Penhold-style blades are used by fewer than 10% of players in North America, although the popularity in Asia is 20% to 40%, with the younger players favoring the shakehand style.

All Chinese-style penhold blades (C) are suitable for putting either one or two rubbers on the blade. Some Japanese-style penhold blades are designed for applying just one rubber (J-1), and some are suitable for applying either one or two rubbers (J-2).

See the Blade Selection Guide on page 15 for information about choosing Blades and Combo Specials, and see page 59-61 for the Penhold Blades Comparison Chart.

### Stellan Bengtsson Balsa-C

With thick balsa core and 2 layers of carbon, this blade is 10mm thick and lightweight. Fast with great feeling and touch. Former World Champ and full-time coach Stellan Bengtsson said, "My Balsa-C blade is very fast but I can still feel the ball. The ball gets a great arc and I can create good spin. Unlike some balsa blades, the feeling is very solid. Blocking is fast and with great control. The light weight makes it easy to have fast arm speed." Handle C / Wt 72 gms / Item PJBEC

OFF- 88 69 Blade \$93.95

### Stellan Bengtsson Alpha

Chinese-style penhold version of the blade designed and used by former World Champion Stellan Bengtsson ("71). Stellan is a world-renowned coach and one of the most highly respected players in table tennis. This is an ALL+ allround blade, medium weight, fast allround in speed, with 5 plies wood and two layers of carbokev (carbon/kevlar). Very little vibration and a fantastic, huge sweet spot. Excellent for any player. Handle C / Wt 82 gms / Plies 5W, 2C / Item PJBEA

ALL+ 82 76 Blade \$78.95

COMBO SPECIAL

\$134.95

Item XPJISC2  
with 2 rubbers

### Iseki Carbon COMBO SPECIAL

Chinese-style Iseki Carbon penhold is an allround blade with 2 plies wood and 2 plies carbon. Very consistent bounce, stable well-balanced feel, and large sweet spot result in control and power for allround and offensive play. Medium weight + super performance. Handle C / Wt 84gm/Plies 5W, 2C / Item PJISC

ALL+ 80 79 Blade \$69.95

### Bamboo Shot

Item PJBAMC

ALL- 72 78 Blade \$53.95

## CARBONADO

The Carbonado blades offer the player a personalized Sweet Spot. The Carbonado 190 with flexural bendability gives a higher Sweet Spot.

### Carbonado 145

Constructed with carbon layers in a 45 degree angle with torsional bendability, giving the blade more flexibility and increased stiffness. The high trajectory makes it a perfect choice for the offensive player who looks for good speed and stability combined with excellent control. The Carbonado 145 with torsional bendability gives a wider Sweet Spot. Handle C / Wt 87 gm / Plies 5W,2C / Item PSC145

**OFF+** 93 60 Blade \$199.95

### Carbonado 190

Constructed with carbon layers in a 90 degree angle with flexural bendability, giving the blade a stiff feel with great stability and high speed. The longer and flatter trajectory makes it an excellent choice for players who want to dominate play with high speed strokes. The Carbonado 190 with flexural bendability gives a higher Sweet Spot. Handle C / Wt 87 gm / Plies 5W,2C / Item PSC145

**HOW TO READ THE PENHOLD CHART**

- 1 HANDLE** C=Chinese style. J-1=Japanese style designed for one rubber. J-2=Japanese style designed for either one or two rubbers. Ergo FL = Ergonomic.
- 2 PLY** [ Refers to number of layers or plies ] W=Wood, C=Carbon, G=Glass Fibre, X=Texalium, T=Titanium, U=Aluminum, K=Kevlar, S=Synthetic, A=Arylate, R=Aramid, Z=Zylon
- 3 THICKNESS** [ Thickness of blade, shown in millimeters. ]
- 4 BLADE MEAS.: LENGTH / WIDTH** The length [height] and width of the blade are shown in centimeters.
- 5 WEIGHT:** The average weight of each blade is indicated in grams. Individual weights may vary.

**1 Handle Shapes**

- 6 CLASS:** OFF = offensive blade ALL = allround blade DEF = defensive blade. The class of blade ranges from fastest [OFF+] to slowest [DEF-]. Rubber sheets that are applied will affect the speed of the paddle.
- 7 SPEED:** The higher the number, the greater the speed, meaning bounce per force input. Use to compare relative blade speeds.
- 8 CONTROL:** The higher the number, the greater the control. Use to compare relative blade control. Naturally, control ultimately is most dependent on player's skill.

## ABOUT RUBBER

### How To Choose

Rubber sheets come as a square in a sealed package. The rubber is custom-assembled to blade after the player makes their blade and rubber choices. Paddle Palace will assemble rubber to the blade as a free service upon request. One rubber sheet covers one side of a blade, so shakehand blades require two rubbers. ITTF regulations require red rubber on one side and black on the other.

#### 4 Main Rubber Types – Smooth, Short Pips, Long Pips, and Anti-Topspin

■ **Smooth:** Most players use smooth rubber, also called “inverted” rubber. The surface is smooth with a layer of sponge underneath. Smooth rubber provides the most spin and is used by over 85% of tournament players. Hitters, loopers, all-around players and defensive players all use smooth inverted rubber.

■ **Short Pips,** or “pimpled” rubber, has a bumpy surface and usually has a layer of sponge underneath. It is used by players who do not execute a great deal of spin in their game. Some close-to-the-table hitters, all-around players, and defensive players use short pips. Short pips often provide more control for players who have difficulty playing against spin. “Hard rubber” is the term for short pips rubber with no sponge, used primarily for “Classic” or “Hardbat” play.

■ **Long Pips** rubber has extra-long pips that reverse the spin of the opponent. The unpredictability of the spin from long pips can give the long pips player an advantage over the opponent who has not learned to read the spin. It is difficult to play offensively with long pips, so most players who use long pips only use it on one side.

■ **Anti-Topspin** rubber has a smooth surface and does not generate much spin or speed. Anti rubber neutralizes the spin of the opponent. Most players who use anti, block with it on one side and use a different rubber on the other.

#### Choosing Rubber

■ **Speed vs. Spin:** With so many rubber sheets, how do you choose? The Paddle Palace Rubber Ratings are a good place to start. Look at the speed and spin ratings of the rubber and match one to your playing style. Offensive players who use topspin, drive, loop, and smash usually prefer rubber with a high speed rating, while defensive players who primarily use underspin, chop, push, and block usually prefer slower rubber. Loopers and choppers prefer rubber with a high spin rating. The faster or spinnier a rubber is, the harder it is to control. Rubber that is spinny also is more affected by the opponents’ spin.

■ **Sponge Thickness** affects the speed of the rubber. Thicker sponge = speed and somewhat more spin. Thinner sponge = more control. Thicker sponge adds weight to the paddle and gives a more cushioned feeling. Thinner sponge is lighter and gives a woodier feeling. Offensive players prefer 1.8 to 2.5mm. Allround players prefer 1.5 to 2.0mm. Defensive players prefer OX (no sponge) to 1.6mm. Loopers prefer thicker sponge. Choppers prefer thinner sponge. Developing players who need more control should choose a thinner sponge that fits their playing style.

#### Rubber Ratings

Rubbers are assigned ratings for Speed, Spin, & Control on a scale of 10 to 99. The higher the rating, the higher that attribute. Paddle Palace ratings use a universal scale which differs from the manufacturers’ ratings so that rubbers from all brands can be compared. Ratings are intended only as a tool for helping to select rubber. Naturally, speed, spin, and control are greatly affected by an individual player’s skill, strokes, playing style, and blade.

Each Paddle Palace catalog includes a comparison chart of all the rubbers so you can see them at a glance. Go to PaddlePalace.com and click on “Chart View” for an interactive comparison chart. You can view by categories or brands, and click on columns to numerically order the ratings for each attribute. We also have charts online for blades, tables, and paddles.

### Is Your Rubber Legal?

The USATT and ITTF have several regulations to determine if a rubber sheet is legal to use in sanctioned competitions. To be legal, a rubber sheet must meet all of the following conditions:

Each side of the blade used for striking the ball must be covered with ITTF approved rubber, either pimpled rubber (long pips or short pips), or inverted rubber (smooth or anti-spin). A list of ITTF-Approved rubbers is published on the ITTF (International Table Tennis Federation) website at [www.ittf.com](http://www.ittf.com). If a rubber is ITTF-Approved, then it is also approved for USATT sanctioned events.

The rubber on one side of the blade must be red and the other side must be black. If you only use one side of the blade for striking the ball, you do not need rubber on the other side. For example, some penhold players only hit with one side of the blade and they only put rubber on one side. In this case, the unused side must be colored the opposite color (either red or black) from the side with rubber. Many penhold players use a “paint sheet” on their blade to comply with this rule. However, if you hit the ball with the side that does not have rubber, you lose the point!

Rubber sheets must extend up to, but not beyond, the limits of the blade face, except that the part nearest the handle and gripped by the fingers may be left uncovered or covered with any material. The rubber (and all layers of the blade) must be continuous and of even thickness throughout. The surface must be matte (not shiny). Slight deviations from continuity of surface or uniformity of color due to accidental damage or wear may be allowed provided that they do not significantly change the characteristics of the surface.

Pimpled rubber (pips out) must have the pimples evenly distributed over its surface at a density of not less than 10 per cm<sup>2</sup> and not more than 30 per cm<sup>2</sup>. Length of the pips must be uniform and no longer than 2mm.

Inverted (smooth) rubber may have a total thickness no more than 4mm, including sponge and rubber together. The rubber layer (not including sponge) may have a thickness no more than 2mm. There is no maximum thickness stipulated for the sponge thickness alone.

Rubber sheets may not have any physical, chemical or other treatment applied that affects the characteristics of the rubber or sponge. This means no more speed glue! Speed glue and elements such as baby oil that expand the sponge, or sticky solvents used on the surface of the rubber, change the characteristics of the rubber and make it illegal for use in USATT and ITTF sanctioned events.

Confused by all the regulations? Don’t be uncertain. If you buy rubber at **Paddle Palace** you know it is legal! Paddle Palace only carries USATT and ITTF approved rubbers.

Go to [PaddlePalace.com](http://PaddlePalace.com) to our News section for more info including:

- Official Rules of Table Tennis
- ITTF Racket Testing Video

The ITTF Racket Testing Video shows an official performing and explaining the step-by-step racket testing for an international competition. He checks for ITTF rubber approval then does the four tests for Flatness, Thickness, VOC gas, and Gloss.

## Taking Care of Your Table Tennis Rubber

Table tennis rubber is one of the biggest investments players make in the sport. A new sheet of rubber, right out of the package, is beautiful and clean and fresh. As soon as you play with it – in no time at all – dirt, oil, dust, grime, nicks, and dead spots find their way onto your originally pristine rubber. Without proper cleaning and care, your rubber will get old quickly. So it is a good idea, both performance-wise and budget-wise, to do everything you can to prolong the life of your rubber.

### Clean your rubber!

Dirty rubber will cause the surface to be less tacky and spinny. It will also play inconsistently due to the surface of some areas being different from others. This results in a lack of touch. When you see players breathe on the racket and wipe it with their hands, usually it is because they have noticed their rubber has a deader spot, or they are ensuring against it. Although in a pinch it is tempting to clean your rubber in this way, it is not recommended! The less you touch the surface of your rubber with your fingers, the longer it will last.

It is best to use a cleaner that is specifically made for table tennis rubber. People sometimes ask if it is ok to use household detergent. We advise against this, because these often have chemical elements that can leave unwanted residue on your rubber, can cause it to deteriorate it too quickly, and/or it can have solvents that will fail a racket test.

Using plain water is a safe option. However, water will not remove some oils from your rubber. It does not give the desired back-to-newer-condition that rubber cleaner does.

Spray one or two sprays of cleaner on one rubber, then wipe it with a sponge or lint-free cloth. Most kitchen sponges won't do because they leave bits of sponge on your rubber, and many towels are too abrasive or leave pieces of lint. For this reason, we recommend a table tennis sponge. Players here like the Nittaku Clean Sponge because it is good quality, small, dense, and has just the right amount of absorbency. It also comes in a clear soft plastic case that keeps it clean between uses. Many people like bigger, fluffier sponges like the Tibhar Combi Sponge. Use one side of a sponge to spread the cleaner on the rubber, and the other side to wipe off excess cleaner in long straight strokes.

When should you clean your rubber? Always clean it at the end of each playing session. Also clean it any time it seems dirty or you notice decreased or inconsistent performance.

### Cover your rubber in plastic!

As soon as you open a new rubber sheet, when it is no longer covered in the plastic package, it starts to lose its newness. Even new and unused paddles will deteriorate over time. When rubber is covered in plastic, it stays new much longer. The plastic protects the rubber surface from air and elements, and keeps it from inadvertently rubbing up against anything, including your paddle case.

Our favorite plastic covering is adhesive rubber protectors, like the Nittaku Adhesive Rubber Protector, or Donic Formula Protection Sheets, or DHS Adhesive Rubber Protectors. We like adhesive protection sheets because they actually stick to the rubber. No air gets to the rubber and the sheet stays on. Protection sheets come in squares. You can cut it to fit the size of your rubber, or cut it slightly bigger than your rubber, or leave it in squares as long as it fits in your paddle case.

### Keep your paddle in a case!

After you clean your rubber and cover it in plastic, then put it in a paddle case. Cases provide padding and protection, they keep the paddle out of direct sunlight, and they help keep it clean. The best case is one that is roomy enough to insert and remove your paddle without the rubber being rubbed against the case. We also recommend using a case with an opening that allows you to insert and remove the paddle by the handle so that it is not necessary to touch the rubber.

Keep your paddle at room temperature and away from sunlight. Do not leave rubber sheets or your paddle in a hot car.

### Use edge tape!

Edge tape around the edge of your paddle makes a significant difference in the number of nicks and splits on your blade edge and it helps keep your rubber edges from chipping. Our pros at Paddle Palace prefer edge tape that covers some or all of the rubber in addition to the blade edge.

Eventually you will need to change your rubber or get a new paddle. But if you take care of it, your rubber will last a whole lot longer!

# TIBHAR®

## THIS IS THE NEW AGE.

### INNOVATIVE RUBBER FROM TIBHAR

EVOLUTION MX-S: chosen by most TIBHAR Bundesliga and National Players!

#### Evolution MX-S

This spin-oriented dynamic version of the EVOLUTION rubber series possesses a much longer bat/ball contact time, thanks to the especially developed pimple geometry of the rubber surface. Players who use a more physical body action, with acceleration of arm and wrist, can activate the enormous potential of the MX-S. At the table or at half distance, this rubber realizes an even and consistent outstanding performance. Sponge 1.7, 1.9, 2.1 Item RTEVS

97 99 67 \$54.95

**PRO**

Available with TIBHAR Force Pro blade as part of a professional blade/rubber PRO SPECIAL. See page 5

#### Evolution MX-P

Fastest, most dynamic of the EVOLUTION rubber family. Perfect adjustment of pips geometry gives more flexibility and energy on attack. MX-P is well-adapted to any game in terms of speed and spin. The ball/bat contact time of the MX-P is a little bit longer than the reference time, thus conferring much more sensation. Chosen by topspin players willing to feel the necessary pressure of their strokes at the table and at half distance. Sponge 1.7, 1.9, 2.1 Item RTEVM

98 96 67 \$54.95

#### Evolution EL-P

The most elastic rubber of the Evolution rubber series. EL-P with its medium sponge perfectly fits in between the harder MX-P and the softer FX-P. The selected pimple geometry of the elastic EL-P does not even come close to the other Evolution versions in terms of Spin and speed. Very precise and powerful strokes can be realised at half distance or at the table. Evolution EL-P: chosen by most of the Topspin players for whom the MX version is too hard and the FX version too soft, however putting the emphasis on rotation and power! Sponge 1.7, 1.9, 2.1 Item RTEVE

96 97 67 \$54.95

#### Evolution FX-P

The most flexible, soft version of the EVOLUTION rubber family, FX-P confers a lot of sensation and control in any situation. FX-P is a high-performing rubber proven by the enormous sound resulting from topspin strokes. The rubber surface is rich in spins and soft sponge with high catapult effect. You get the power necessary for a variable topspin game. The player who likes to attack near the table and is not willing to concede any ball while playing a risky game will enjoy the fine tuning of the rubber surface with the soft sponge of the EVOLUTION FX-P. Sponge 1.7, 1.9, 2.1 Item RTEVF

## QUANTUM FROM TIBHAR

The new Quantum rubbers put the focus on catapult response at the precise moment of bat/ball contact. Quantum and Quantum S will also allow you to keep the dynamics of your strokes even after switching over to plastic balls. The composition of the sponge produces fantastic playing sensation and a totally regular ball trajectory. Your strokes will be loaded with just the right amount of energy thanks to the perfect pimple/rubber partnership.

Q SERIES

OPTRA TECHNOLOGY (Optimized Trajectory - Optimized Ball Curve) plus SPI ADVANCED (Speed Effect Inside) guarantees maximum performance from these excellent rubber sheets.

\$49.95

5Q VIP **SPECIAL**

Many years of research & development were required to conceive a revolutionary surface with a new rubber mixture allowing optimization of ball contact and energy transfer in any type of exchange. However, the most remarkable point about this rubber is the sponge. The combination of open pores with an extremely elastic, but still tensioned rubber mixture, results in an explosive sponge simultaneously conferring power and playing sensation in all your strokes. Sponge 1.9, 2.1. Item: RT5QV

97 97 67 \$58.95

\$49.95

5Q Sound **SPECIAL**

The proven and highly flexible rubber surface of the TIBHAR 5Q was reworked, and the 5Q Sound offers approximately 15% more spin, and a sound that is very close to the sound of speed glued rubber. Combined with a softer sponge, it confers an extraordinary playing sensation fitting perfectly into a topspin game. Controlled, spin-friendly strokes, without a big speed loss, are the main characteristics. Sponge 1.9, 2.1. Item RT5QS

93 97 68 \$58.95

\$49.95

5Q **SPECIAL**

The softer version of the Q-rubber-family, 5Q has a medium-hard sponge that transfers lots of rotation to the topspin and counter-topspin shots at mid-distance. The rubber surface is full of sensation, supported by the SPI-Advanced-Technology, and giving a wonderful sound and a good handling. The newly conceived rubber surface allows lots of rotation and provides the necessary security when playing the large pallet of spins. Sponge 1.9, 2.1 Item RT5Q

96 97 70 \$58.95

1Q XD

This new version of 1Q possesses a higher potential of penetration. The adhering rubber surface and the harder sponge give more energy to strokes for topspin players making no concession. Supported by SPI-Advanced-Technology, 1Q XD is the ideal rubber for the professional player able to execute good arm and wrist acceleration for fast, aggressive play. Excellent balance for passive and aggressive strokes, resulting in outstanding precision at high speed! Sponge 1.9, 2.1 Item RT1QX

99 92 68 \$58.95

\$49.95

1Q **SPECIAL**

Thanks to SPI Technology Optimization, 1Q has the greatest speed glue effect of all, resulting in a fast, dynamic rubber with a high ball curve. Robust rubber surface enables an explosive game rich in spins. The basic principle of OPTRA technology (Optimized Trajectory - Optimized ball curve) was also improved for longer trajectories although ball curve is very high. Opponents will have a hard time controlling and returning the ball, putting you at the edge of your potential without passing your limits! Sponge 1.9, 2.1 Item RT1Q

98 90 69 \$58.95

1Q Sound

Features a soft and elastic rubber surface, and an extraordinary sound when striking the ball. This soft version of the TIBHAR 1Q has more playing sensation and control. Aggressiveness and sound are the main characteristics of this rubber. This is the ideal weapon to execute attacking and balanced strokes. Sponge 1.9, 2.1. Item RT1QS

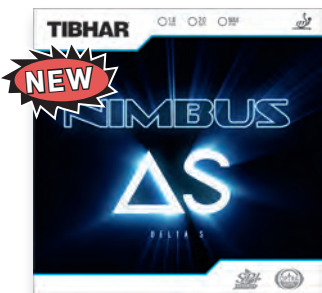

96 96 68 \$58.95

NIMBUS DELTA

Nimbus Delta S & Delta V

The new Delta rubbers are the result of Tibhar's decision to produce a new generation of rubbers that focus the three fundamental characteristics of the highly successful NIMBUS rubber family: speed, playing sensation, and control. Compared to the original NIMBUS ranges, both of the new versions - Delta V and Delta S - have new pip orientation providing more dynamic and extreme catapult reaction to the ball.

Delta S

More feeling and playing sensation, for the player striving to play a spinnier game. Sponge 1.8, 2.0, Max Item: RTNDS

88 90 72 \$49.95

Delta V

For speed -- the player's first choice if he privileges a fast game. Sponge 1.8, 2.0, Max Item: RTNDV

90 87 71 \$49.95

NIMBUS RUBBER

Nimbus Sound

Thanks to the new SPI technology, the playing sensation and sound are highly emphasized. The extremely soft sponge gives this rubber an extraordinary sound and high spin. It also gives players high potential for flexibility in stroke play. Especially designed for players who look for more than just speed in a rubber. You get extreme spin rotation which improves delivery of strong offensive stroke play. Sponge 2.0, MAX. Item RTNIO.

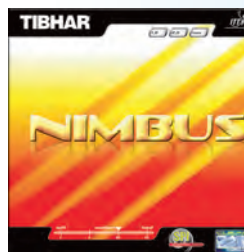

75 81 83 \$45.95

Nimbus Soft

The soft version of Nimbus will definitely impress players who like very soft offensive rubbers. Nimbus Soft with its 37.5 degree sponge hardness has exceedingly perceptive ball control and was developed in such a way that, even in extreme playing situations it provides a large margin for technical error. Sponge 2.0, MAX. Item RTNIS

79 78 84 \$45.95

Nimbus

No need for speed glue! NIMBUS-SPI includes TIBHAR's newly developed 'speedglue integrated configuration' giving you all the essential factors of speedglued rubber. Incredible spin-speed dynamic plus typical sound and ball contact feeling. With a 45 degree sponge hardness it is not only the hardest Nimbus rubber, but also the fastest. Sponge 2.0, Max. Item RTNIM.

84 78 79 \$45.95

# TIBHAR®

## GENIUS RUBBER

### Genius+ Optimum

A premium rubber with Optra and Speed Effect Inside Technologies. The pimple structure is a little bit different and smaller than that of Genius, thus conferring more rotation and an unbelievable dynamic for the topspin game.

Sponge 2.0, Max. Item RTGOP

94 91 70 \$49.95

Available with TIBHAR Stratus Power Wood blade as part of a professional blade/rubber PRO SPECIAL. See

**PRO**

### Genius+ Optimum Sound

Soft version of Genius+ Optimum. Extremely strong catapult effect paired with a light playing sensation. Energy-loaded sponge and rubber surface offers an optimal mixture of dynamism, playing sensation, sound and control. Sponge 1.8, 2.0, Max. Item RTGOS

91 93 71 \$49.95

### Genius Sound

Softer and reworked version of Genius. Ideal for a very dynamic game, and allowing a brand new variety of strokes at mid-distance. The combination of newly developed sponge and spin-rich surface give you a rubber rich in sensation, with great sound, fast and full of spin. Sponge 1.8, 2.0, Max. Item RTGES

89 95 71 \$49.95

### Genius

Rich in spin for the offensive game!

Obviously focused on spin--and more spin in this case also signifies more speed. More spin also means that the angle of the ball rebound is more upright, conferring a bow-formed ball curve, giving more precision to your strokes and putting your adversary under pressure. Sponge 1.8, 2.0, Max. Item RTGEN

91 87 73 \$49.95

VLADIMIR SAMSONOV:

blade: TIBHAR Samsonov Force Pro Black Edition

rubber: TIBHAR Evolution MX-P

- 3 x European Champion
- 3 x World Cup Champion

## MORE SMOOTH RUBBER

## AURUS

### Aurus

For the ambitious player striving to play topspin strokes in any situation. Ultra soft rubber surface provides outstanding spin and playing sensation, allowing a secure and aggressive game. The integrated SPI (Speedglue-Effect-Inside) technology confers an extreme catapult reaction to the ball. Sponge 1.9, 2.1. Item RTAUR

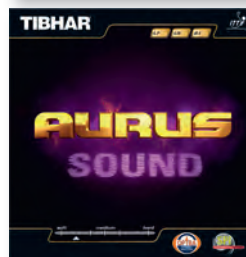

96 89 70 \$49.95

### Aurus Soft

Softer version of Aurus, offering better control with a high ball rebound. An energy-loaded rubber ideal for spin-rich strokes and secured topspins with good control. Very well adapted to each game level for an optimal performance. Sponge 1.9, 2.1. Item RTAUS

92 94 70 \$49.95

### Aurus Sound

The softest version of Aurus produces a great sound and pure playing pleasure. Balanced playing sensation of the soft sponge and the elastic rubber surface were adapted to players who want to use energy-loaded strokes with greater accuracy.

Sponge 1.9, 2.1. Item RTAUO

89 96 70 \$49.95

## SINUS RUBBERS

### Sinus Alpha

Softer sponge than Sinus provides even better control. Not as fast as its harder twin but with unequalled precision on fast topspins and blocking balls. Balls have longer, evenly curved trajectory, for more pressure on the opponent. For players looking for dependability + acceleration. Sponge 2.0, Max. Item RTSIA

88 82 79 \$54.95

### Sinus Sound

The "loud" variety of the SINUS series. Great sound with ball contact+amazing speed glue effect! Pronounced ball curve forgives mistakes. Integrated speed-glue-effect sponge is softer than Sinus or Sinus Alpha. You get great game sensation, optimal contact, and maximum spin + speed, even during slow topspin exchanges. Sponge 2.0, Max. Item RTSIS

83 84 78 \$54.95

### Sinus

NO LIMITS! Developed for high-performance with harder sponge for powerful play. Unsurpassable, with tremendous ball speed. Great rotation during topspin, service and short exchanges. Also provides the ever popular fresh-glue sound. Sponge 2.0, Max. Item RTSIN

91 79 83 \$54.95

**Grip-S Europe**

High performance rubber with high catapult effect and dynamic speed. Great ball contact in fast play. RPS (Red Power Sponge) Technology enables energy transfer with optimal effect on the speed of the ball bounce and trajectory. With GRIP-S Europe you are best equipped for a variety-rich serve and return game. Sponge 1.8, 2.0, Max. Item RTGRE

91 93 71 \$54.95

**Grip-S Europe Soft**

Softer RPS sponge version of the Grip-S confers more sensation and flexibility. Conceived for the player favoring a mid-distance game, allowing dynamic topspins, good control, and lots of spin rotation. Sponge 2.0, Max. Item RTGRS

85 98 72 \$54.95

**Rapid D.TecS Soft**

**Dynamic Technology!** SOFT version is even more advanced than the normal D.TecS rubber. The sound is fantastic and the speed is extreme, even without speed glue. Sponge Max. Item RTRADS

80 76 80 \$44.95

**Rapid**

Vladimir Samsonov helped develop this rubber. Soft sponge+very elastic rubber provide speed, spin and lots of ball feeling with optimum control. Sponge 1.8, 2.0, Max. Item RTRAP

69 58 91 \$35.95

**Legend**

An extremely adhering surface, which when combined with a very soft sponge allows this high quality Chinese rubber to play more like its European counterparts. This then makes it the ideal rubber for players looking to produce much rotation and benefit from feeling. Sponge 2.0, MAX Item RTLEG

61 58 94 \$27.95

Available with TIBHAR Defense Plus blade as part of a professional blade/ rubber PRO SPECIAL. See page 5

**Super Defense 40**

**PRO**

**The best super defense!** Developed expressly for defense with pimple geometry and extremely thin smooth rubber surface, plus special sponge. Definitive ball control allows you to cut the ball spin with extra spin. Item RTDEF. Sponge 0.5, 0.9, 1.3, 1.5, 1.7, 1.9.

62 92 83 \$46.95

**Super Defense 40 Soft**

The soft version of Super Defense 40 offers even better control with excellent spin variations. Effective for close-to-table strategies. Put your adversary under pressure, applying even more tactical force in Allround defensive play. Sponge 1.3, 1.6. Item RTDES

60 95 84 \$46.95

**Volcano**

A high quality Allround attacking rubber at a competitive price. But do not let the excellent price mislead you! Volcano is top-notch with its superior adhering surface and typical "characteristics" of rubbers made in Germany. Sponge 2.0, MAX. Item RTVOL

84 65 84 \$23.95

**UNBEATABLE IN SPEED!**

**Nianmor**

Perfect for the mid-distance offensive game, with topspin + counter topspin strokes. Mix of natural and synthetic caoutchouc in the sponge plus a new arrangement of pips, offers highest standards of Japanese rubber technology and gives you topspin with high catapult level + speed and rotation. Great for the new offensive game! Sponge 2.0, Max. Item RTNNM

97 86 71 \$54.95

**LONG PIPS RUBBER**

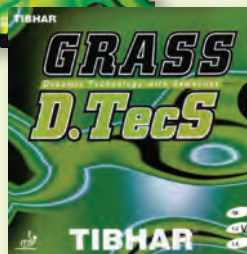

**Grass Defense**

The wave of the longest (and legal) Japanese long pips is similar to waving grass in the wind. The Defense version has a soft sponge and is easy to play with.

GRASS DEFENSE 1.0 or OX [no sponge] Item RTGRDE

54 61 86 \$41.95

**Grass D.TecS**

D.TecS effect integrated into classical long pips rubber. You get new ways to cut the ball and counter destabilizing strokes. Softer pips provide amazing control plus speed to destabilize the opponent with nervous aggressive shots during attacks. Sponge 1.2, 1.6, OX [no sponge]. Item RTGRDT

56 67 83 \$44.95

**SHORT PIPS RUBBER**

**Speedy Soft**

Broad, short pips for highest speed on counter attack or block at the table. Soft sponge gives maximum ball control, without affecting the popular "naps effect." Sponge 1.0, 1.5, 2.0. Item RTSSO

89 58 79 \$39.95

**Speedy Soft D.TecS**

D.TecS (Dynamic Technology with Samsonov) results in more speed and more danger for your opponent on block or counter balls! Sponge 1.5, 2.0. Item RTSSD

91 53 80 \$41.95

**ANTI TOPSPIN RUBBER**

**Ellen Defense & Ellen Offense**

**ELLEN DEFENSE**-Soft sponge for defense players sensitive to topspin. Has a distinct braking effect, to give unsurpassable ball control. Sponge 1.5, 2.0. Item RTELD

SPEED 51 CONTROL 89 \$29.95

**ELLEN OFFENSE**-Hard sponge for active anti game. Very strong against opponents' spin, w/ distinct braking effect, resulting in unsurpassable ball control. Sponge 1.5, 2.0. Item RTELO

SPEED 64 CONTROL 84 \$29.95

# ACUDA BLUE

The new Acuda Blue rubbers (P1, P2, P3) are a pleasure to play with, a rubber to be at ease with. It has the latest in sponge technology--the blue sponge with medium sized pores is softer than previous sponges, despite having a higher degree of hardness. Grippy smooth surface and new inner pimple geometry, extra space in between the inner longer pimples. Ball return is excellent, with maximum control and satisfying sound, and fine touch.

### Acuda Blue P1

Medium hard, the dynamic attacking version.

Sponge 1.8, 2.0, Max Item: RDAP1

96 96 72 \$53.95

### Acuda Blue P2

Medium soft, all-round attacking version, the gold standard of an all-round rubber.

Sponge 1.8, 2.0, Max Item: RDAP2

93 97 73 \$53.95

### Acuda Blue P3

Super soft, excellent control with satisfying sound, for all-round players.

Sponge 1.8, 2.0, Max Item: RDAP3

91 98 74 \$53.95

## ACUDA Formula High Spin

### Acuda S1 Turbo

Spiny, accurate, top class rubber for performance attack. Built-in speed glue effect enhances speed and acceleration. A precision rubber for accuracy at high speeds. Despite its speed, it has perfect feel -like earlier speed glue days. Good length when playing fast loops. Sponge 1.8, 2.0, MAX. Item RDACT

97 96 67 \$47.95

### Acuda S1

Close to or away from the table it is possible to play "loop-loop" as in the days of speed-glued rubbers. Despite a medium-hard sponge, ACUDA S1 is easily controllable and great feel, even in an awkward situation. Basic character: spin-focused, high precision fast rubber. Play style: aggressive, first ball attack, close to the table. Sponge 1.8, 2.0, MAX. Item RDACU

96 93 69 \$47.95

### Acuda S2

Ideal for attacking players who have used soft rubbers with speed glue. Spin-optimized and fast, with medium-soft, large-pored sponge, and precise feel. You get speed and a uniquely loud sound. Great for close to- and away from- the table for topspin/topspin duels. Great for power allrounders and attacking players. Sponge 1.8, 2.0, MAX. Item RDAC2

93 95 69 \$47.95

### Acuda S3

Acuda S3 is spin-optimized, fast, paired with perfect sound. The very soft sponge increases feel and sound, and offers sufficient speed for powerful spin and a positive block game. Unique sound! Recommended for players with an allround style who require excellent control. Sponge 1.8, 2.0, MAX. Item RDAC3

90 97 70 \$47.95

## TRACTION MS

### Traction MS Soft

Softer version, intended for spin/control. Great as a backhand rubber for top players. Compared to harder Traction MS Pro, TRACTION MS SOFT is somewhat more flexible. This rubber offers outstanding control, with a pleasant elasticity, yet it is very spiny. The sponge color is yellow. Sponge 2.1. Item RDTRS

88 96 71 \$56.95

### Traction MS Pro

The harder alternative for top class players. Taut top rubber surface and relatively hard sponge guarantee steep penetration and length with all top spin strokes. Ideal for aggressive serves and returns due to grippy top surface. Sufficient control for more defensive strokes. Sponge color is pink. Sponge 2.1. Item RDTRP

90 95 70 \$66.95

## TRACTION II

### Traction II

DONIC's successor to MSSoft and MSPro rubbers, a Chinese rubber specifically produced to fit European requirements. The result: Top acceleration and an excellent bounce off the blade, in addition to being very spiny. It is particularly suitable for topspin players who like to play close as well as away from the table. A perfect combination of a grippy top surface, ensuring speed, together with a medium hard, super-elastic sponge.

Sponge 2.1 Item: RDTR2

92 96 69 \$52.95

# bluefire

MAX CATAPULT      MAX ARC

## BLUEFIRE JP 01 TURBO • JP 01 O JP 02 O JP 03

**Bluefire JP 01 TURBO**  
High end rubber sheet at highest level. Small changes to the structure of the sponge combined with a new pimple formation ensure that this Turbo has enhanced dynamic and spin qualities. Same sponge hardness as JP 01 (47.5°). Recommended for offensive players who value good control.  
Sponge 1.8, 2.0, Max. Item RDBLJ1

97 98 67 \$53.95

**Bluefire JP 01**  
A very consistent rubber which is suitable for most players. The quickest and hardest sponge version (47.5°), especially recommended for close to the table attacking players as well as those who prefer to play away from the table.  
Sponge 1.8, 2.0, Max. Item RDBLJ1

97 97 67 \$51.95

**Bluefire JP 02**  
This rubber with open-pored sponge, in the medium hardness range (45°), produces a perfect combination of spin, speed and control. Ideally suited for attackers and powerful allround players who require all these qualities in one rubber.  
Sponge 1.8, 2.0, Max. Item RDBLJ2

95 97 68 \$51.95

Available with DONIC Bluefeeling blade as a blade/rubber PRO SPECIAL. See

**Bluefire JP 03**  
Extremely grippy, taut, though elastic top surface rubber is combined with a softer sponge (42.5°). Ensures outstanding feeling with maximum control. Recommended for attackers as well as powerful allround players who require maximum control to return the ball under pressure in any situation.  
Sponge 1.8, 2.0, Max. Item RDBLJ3

94 98 68 \$51.95

## BLUEFIRE M 1 TURBO • M1 • M 2 • M 3

**Bluefire M1 TURBO**  
High-end rubber sheet at highest level. Small changes to the structure of the sponge combined with a new pimple formation ensure that this Turbo has enhanced dynamic and spin qualities. Top surface rubber offers extra spin. Slightly harder sponge (50°). Recommended for powerful attackers and offensive players.  
Sponge 1.8, 2.0, Max Item RDBM1

98 98 66 \$53.95

Available with DONIC Waldner Legend Carbon blade as a blade/rubber PRO SPECIAL. See page 5

**Bluefire M1**  
With a medium hard sponge, very direct, highly dynamic, extremely spiny. Recommended for top players or players who practice a lot and prefer to use harder rubbers.  
Sponge 1.8, 2.0, Max Item RDBM1

98 96 66 \$51.95

Available with DONIC Baum Esprit blade as a blade/rubber PRO SPECIAL.

**Bluefire M2**  
With its medium sponge, it combines the perfect balance between speed, catapult effect, and feel. In combination with fast, stiffer blades, it presents its optimum potential. Recommended for players who like to play with medium hard rubbers and attach high importance to spin and speed with optimum feeling.  
Sponge 1.8, 2.0, Max Item RDBM2

95 97 68 \$51.95

**Bluefire M3**  
Combined with a soft, dynamic sponge. Perfect adjustment of the soft version has resulted in precise feel, excellent spin, and distinctive sound. Recommended for players who prefer soft rubbers with perfect control and good speed. Also for aggressive all-round players.  
Sponge 1.8, 2.0, Max Item RDBM3

93 98 70 \$51.95

Prices listed are for one rubber. One rubber covers one side of a blade. Rubbers are available in both red and black unless otherwise noted.

Sensa Carbon

rubber: Donic Bluefire M1 Turbo

# DIMA OVTCHAROV KING OF EUROPE

## On the Road to Rio

Last month, Dimitrij Ovtcharov defended and retained his title of European Men's Champion. His dominant performance extended to the team event as well, finishing without a single loss through a week of play against the best that Europe had to offer. With the title, Ovtcharov qualified for the 2016 Olympics in Rio de Janeiro, an opportunity to improve upon his 2012 Bronze medal in London.

He followed up his great results at the European Championships with a third place finish at the Men's World Cup in Halmstad, Sweden in October, 2015. His only loss was to World No.1 Ma Long.

### World Ranked #4

Ovtcharov has now matched his highest World Ranking. The Donic star has risen to No. 4 in the world, eclipsing the other European players. In fact, he trails only three Chinese players in the rankings.

He continues to work in the gym and at the table as he makes every effort to improve. He will return to his Chinese Super League team, Jiangsu, where he will face the world's best in regular competition. And he

has taken on Jorgen Persson as his personal coach, a coach with a long history of competing successfully against the Chinese.

Each of these efforts is designed to bring Ovtcharov to the next level. He will compete for Germany in the World Team Championships Feb. 28-March 6th in Kuala Lumpur, and he has a goal to reach peak performance next summer in Rio at the 2016 Olympic Games. ●

## VARIO SERIES

### Vario Sound

**Unique sound system!** Soft sponge and very elastic top surface rubber gives a distinctive loud sound when top-spinning. This rubber is the softest of the three Japanese Vario rubbers and is very spinny, with a high ball arc and fast topspin. Great for attack that combines stiff blade with soft rubbers, or for allround game of spin+control when striking the ball. Sponge 2.0, MAX. Item RDVAO

76 86 79 \$49.95

### Vario Big Slam

**Perfect feeling with fantastic sound!** First Vario rubber to be made in Germany, with world-famous Formula Donic technology with built-in speed glue effect for the modern game. Soft, 35 degree sponge gives perfect feeling for controlled all round play, with a tendency to an offensive game. Ideal for spin/rotation players who prefer soft rubbers with a fantastic sound when hitting the ball. Sponge 2.0, MAX. Item RDVAB

74 86 85 \$41.95

### Vario

One of the best selling rubbers world-wide. Semi hard sponge, high grip, outstanding spin elasticity, high speed, good control. As its name indicates, this rubber is recommended for all modern playing strategies. Sponge 2.0, MAX. Item RDVAR

72 82 79 \$32.95

### Akkadi Taichi

**Very grippy top surface for maximum spin, and rotation.** Used by many world top ranked Asian players on forehand. Special black sponge makes this harder and stiffer than the red version. Red Akkadi Taichi is more elastic with even better bounce of the ball. This black version is recommended for the forehand. Great for serve and the first top spin in the rally. Sponge 1.5, 1.8, 2.0. Item RDAKK

78 89 77 \$29.95

**COPPA Formula High Speed**

**Coppa**

For aggressive offensive play with topspin, counter topspin and block, & winning points with hard strokes. High-elastic, spiny surface with soft, dynamic sponge = outstanding control. One of Donic's best-selling rubbers. Used by J.O. Waldner and Jörgen Persson to win the World Champs titles in men's singles. Sponge 2.1, MAX. Item RDCOP

74 75 83 \$37.95

**Coppa Tenero**

Well liked soft-sponge version of the bestseller World Champion rubber, COPPA. Coppa Tenero has the same outstanding spin abilities. Due to its soft sponge it grants an absolute ball control with a slightly reduced speed. Excellent ball feeling. Sponge 2.1, MAX. Item RDCOT

74 88 79 \$44.95

**DESTO SERIES**

These rubber sheets have DONICFORMULA technology with strengthened inbuilt speed glue effect. Fast + spiny. DESTO F1 has even more speed. Improved durability.

**Desto F3 Big Slam**

Loud sound, without speed glue! Distinctive sound is permanently incorporated into BigSlam, which is softer but not slower than the popular DESTO F3. Amazing ball control with the same effect as optimum speed glue. For players who used speed glue and value sound and ball control qualities rather than maximum speed. Sponge 2.0, MAX. Item RDDFB

75 86 79 \$37.95

**Desto F1**

The fastest rubber from the DESTO Formula series! More speed and spin due to built-in speed glueing effect! A high-tech weapon for well-trained players of ability, who want more speed. Good sound, softness, plus speed and spin. Sponge 2.0, MAX. Item RDDF1

90 84 74 \$37.95

**Desto F2**

The bridge between F3 and F1, giving great control at high speed. F2 is soft, has a good feel and the full sound of speed glue. It produces more speed than traditional spin elastic rubber. Slower than F1.

Sponge 2.0, MAX. Item RDDF2

84 86 76 \$37.95

**Desto F3**

Built-in speed glue effect, with same speed but more control. Desto F3 is somewhat faster than a traditional spin elastic rubber. Soft, dynamic, w/excellent control, and great sound of speed glue. Speed glue must not be used. Sponge 2.0, MAX. Item RDDF3

76 87 78 \$37.95

**Liga Plus**

Combines the tried and tested Liga top sheet with a new more flexible sponge. This combination guarantees even more playing fun with relatively high grip and spin. The rubber with the perfect price-performance ratio.

Sponge 2.0 Item RDLIP

56 52 95 \$24.95

**Slice 40**

Smooth rubber with a sophisticated pips-in design, with a soft rubber surface tuned for defensive strategies. Quicker than the standard version Slice rubber. It offers more chop possibilities and more trickiness when defending with the 40 mm ball. Great control, but very good offensive characteristics for top-spin and counter attacks. Sponge 1.2, 1.5. Item RDLSI

52 79 90 \$42.95

**Baracuda Big Slam**

Now even more vicious: more sound & control due to softer sponge. Built-in speed glue effect produces fantastic spin. Ball leaves blade in a higher arc, with increased rotation to stabilize the flight and increase speed and placement even for top players. Topsheet minimizes abrasion for more playing hours. Sponge 1.8, 2.0, MAX. Item RDBAB

87 97 71 \$43.95

**Baracuda**

Built-in speed glue effect produces fantastic spin. When the ball leaves the blade, higher arc results in increased spin + rotation. The ball is stabilized, fast and accurate. Top rubber surface is more durable than similar rubbers and less prone to damage. Sponge 2.0, MAX. Item RDBAR

89 96 70 \$43.95

**SHORT PIPS RUBBER**

**Baxter F1-A**

Fast short pips-out rubber. The typical softness of the sponge gives a superb feeling for the ball. Baxter F1-A masters ball control in slow rallies, yet gives explosive power for fast strokes. This is the result of the integrated molecular tension of Formula Donic technology. Sponge 2.0. Item RDBAF

91 62 77 \$44.95

**LONG PIPS RUBBER**

**Piranja Tec**

The technic defense long pips rubber for classical defenders. Formula DONIC technology was introduced into a long pimped rubber, resulting in an exceptional long pips rubber which is soft, very elastic, with excellent gripping qualities. Enables the player to impart far more backspin against topspin than has been possible with other current rubber technology. The pimples are faster but easier to control because of their inbuilt "speed glue" effect, ensuring more accurate blocking, counter attacking and variations of spin.

The best weapon for the technically gifted classic defender, particularly effective when paired with modern sponge rubber on the other side.

Sponge OX, 1.2. Item RDPIR

65 75 77 \$45.95

**ANTI TOPSPIN RUBBER**

**Alligator Anti**

This is anti-loop rubber that is very troublesome for the opponent—it has a bite! The taut anti-spin top sheet and the hard sponge ensure that the ball is returned with speed, therefore putting the opponent under pressure. It enables using effective variations and dropping the ball short with good touch. The opponent's shots can be returned short or long with this effective weapon. Attack and counter-attack are easily possible. Sponge 1.0, 1.5. Item RDALL

59 86 \$39.95

SPEED CONTROL

**Anti Classic**

The elastic anti-spin top surface and the soft sponge make this the classic among anti-spin rubbers. Great for defenders who play with variety as well as allround players who attack close to the table. The outstanding control is apparent in all playing situations. Made in Japan.

Sponge 1.5, 2.0. Item RDANC

42 92 \$44.95

SPEED CONTROL

BUILDING WORLD CHAMPIONS SINCE 1944

**AIROC ASTRO M & AIROC ASTRO S**  
**ON SPECIAL**

**ASTRONOMICAL AMOUNTS OF SPEED!**

In Airoc Astro, STIGA has multiplied the amount of microscopic air bubbles (Oxygen Capsule System) in the sponge, creating more intense catapult effect and speed. The new topsheet transfers energy between sponge and ball, providing every stroke with precision and power. Developed with members of the Chinese National Team to take advantage of the new Poly Ball.

**\$49.95**

**POLY BALL OPTIMIZED**  
**AIROC** WITH **OCS** OXYGEN CAPSULE SYSTEM

**AIROC M & AIROC S**

**POWER IS IN THE AIR**

STIGA Airoc utilizes STIGA's new OCS sponge technology (Oxygen Capsule System) to increase catapult effect without changing the spin ratio. This allows aggressive players to maintain the same spin/speed proportions they have always enjoyed. The key to this evolutionary advancement is the delicate balance between the size of the air pockets within the sponge and the elasticity of the top sheet. STIGA's engineers tested many different pips designs and tensions to achieve the perfect rubber for the attacking player. Poly Ball Optimized!

**AIROC M**  
Medium sponge version. Airoc M increases the catapult effect without changing the spin ratio. Sponge 1.7, 1.9, 2.1. Item: RSARM

**98 97 67 \$54.95**

# CALIBRA TOUR

SPECIAL SURFACE GENERATES ULTIMATE BALL CONTACT

SPONGE: SOFT

## CALIBRA TOUR S

Soft sponge. Suitable for players with lower hitting power who need a rubber that helps generate extra speed with the exceptionally lovely sound of built-in speed glue effect. Sponge 1.7, 1.9, 2.1 Item RSCTS

95 97 68 \$54.95

SPONGE: MEDIUM

## CALIBRA TOUR M

Medium-hard sponge. Suitable for players with medium strong hitting power who need a rubber that helps generate a bit more speed with the lovely feeling of built-in speed glue effect.

Sponge 1.7, 1.9, 2.1 Item RSCTM

96 96 68 \$54.95

SPONGE: HARD

## CALIBRA TOUR H

Hard sponge. Suitable for players with strong hitting power who need a rubber with built-in speed glue effect that is reliable in all situations. Sponge 1.7, 1.9, 2.1 Item RSCTH

98 95 67 \$54.95

# CALIBRA

TAKE THE ULTIMATE STEP FOR LONG TRAJECTORY

Available with STIGA Carbo 7.6 blade as part of a professional blade/rubber PRO SPECIAL. See page 4

## Calibra LT

A medium hard sponge, suitable for the highly skilled player with excellent technique. Calibra LT is for advanced players who demand tremendous spin and speed, combined with a sensitive touch. If you want to advance your game, this is the rubber for you! Sponge 1.8, 2.0, MAX. Item RSCAL

96 91 70 \$52.95

Prices listed are for one rubber. One rubber covers one side of a blade. Rubbers are available in both red and black unless otherwise noted.

### PRO

## Calibra LT Sound

Made with soft sponge for all types of attacking game. With the softer sponge you get more control, especially for blocks and receiving serves, but you are still able to make lethal strokes to finish your opponent. The soft sponge of Calibra LT Sound will also give you a crisp clear sound when striking the ball. This is the closest you will get to the feeling and sound of speed glue! Sponge 1.8, 2.0, MAX. Item RSCAO

94 93 71 \$52.95

## Calibra LT Spin

Made with medium soft sponge, and recommended for highly trained attackers and loopers who emphasize tactical spin. You will have outstanding control for touch shots and service return, but when you are attacking you will experience new levels of possibility.

Sponge 1.8, 2.0, MAX. Item RSCAN

95 92 70 \$52.95

## Calibra LT Plus

Made with extra hard sponge that ensures tremendous power when hitting. This is an excellent choice for the highly skilled player who demands a professional combination of spin, speed, power and long trajectory.

Sponge 1.8, 2.0, MAX. Item RSCAP

97 91 69 \$52.95

**LONG PIPS RUBBER**

**Wallest**  
 Everything you ever wanted in a long pips rubber. Excellent spin reversal and control.

**Wallest One**  
 Everything you ever wanted in a long pips rubber. Excellent spin reversal and control. Wallest One is the no-sponge version of Wallest, resulting in less speed and more control.

**Wallest:** Sponge 1.0, 1.2. Item RNWLL

61 62 88 \$34.95

**Wallest One:** No Sponge. Item RNWLO

43 62 95 \$34.95

**Moristo LP**  
**2 Versions**  
**Moristo LP & Moristo LP One [No Sponge]**  
 The tremendous elasticity of this rubber produces fantastic control and the amazing unexpected wobble-effect!

**Moristo LP:** Sponge 1.0, 1.3. Item RNMOLP

61 68 81 \$39.95

**Moristo LP ONE:** No Sponge. Item RNMOL

42 71 86 \$39.95

**Screw Soft & Screw One**  
**Master of Deception!**  
 Legal and ready to go with the ultimate in long-pips deception. Reverses the opponents' spin, and gives you excellent control for your defense.

**Screw Soft** (1.0, 1.3 Sponge) Item RNSCR

47 59 89 \$31.95

**Screw ONE** (No-sponge) Item RNSCO

40 54 93 \$31.95

DOUBLE HAPPINESS RUBBER:  
THE MARK OF TIMELESS QUALITY

Paddle Palace, Sole North American Distributor for DHS

## SMOOTH RUBBER

### WANG HAO:

- 2 x Olympic Gold Medalist
- 9 x World Champion (1 Singles, 2 Doubles, 6 Team)

### Hurricane 3-50

First choice for players who prefer to drive-loop and topspin. It integrates a tacky rubber with elastic sponge. The #50 sponge is receptive to ball contact, while the Hurricane 3 rubber friction grips and holds the ball. Such a combination provides the player with great ball feeling with every shot and suits players who want to exert a fast, stable loop attack. Sponge 2.1. Item RCH35

90 92 73 \$29.95

### Hurricane 3 NEO

Powerful "NEO" sponge and Hurricane 3 rubber with special glutinosity creates stable and high-speed arc to improve player's scoring ability. Hurricane 3 NEO has a high speed and low fast loop, changeable arc, and stronger spin. Sponge 2.15. Item RCH3N

88 92 72 \$21.95

### Hurricane 2 NEO

With "NEO" sponge, Hurricane 2 NEO rubber breaks through the speed limit of water-based glue and keeps the speed, spin, and control of former versions. Quick attack, low arc, and strong low fast loop are the characteristics of Hurricane 2 NEO. Sponge 2.15. Item RCH2N

94 93 68 \$21.95

### Hurricane 3

Designed for players who mainly adopt a controlled playing style or have relatively weak attack. This rubber can add strength and produce a long arc, which increases ball control and fast attack and loop drive close-to-table. Hurricane 3 has been the choice for almost all of the Chinese players since the 2000 Olympic Games. Exclusive Hurricane 3, with increased tackiness, enhances the spin of 40+ celluloid-free balls. Sponge 2.15. Item RCH3A

86 92 73 \$21.95

### Hurricane 2

Hurricane 2, known for decisive blows with outstanding power, can create much higher speed and spin while maintaining stable control. In addition, it generates strong close to the table offensive power to make the ball fly in a low arc, which frustrates opponent's defenses. Exclusive new Hurricane 2, with increased tackiness, enhances the spin of 40+ celluloid-free balls. Sponge 2.15. Item RCH2A

91 93 68 \$21.95

### Hurricane 8

Hurricane 8 is a new generation of sticky-speed rubber. A new high-density sponge with "Macro-Cell" and "High-Elasticity Particle Osmosis" technology helps Hurricane 8 raise the elasticity by 15%. Hurricane 8 provides unique spin, changeable arc, and enhances shot speed significantly, giving a refreshing feeling for offensive players. Hurricane 8 is specially designed to enhance the spin and speed of 40+ celluloid-free balls. Sponge 2.15. Item RCH8A

92 98 74 \$44.95

### Skyline TG3 NEO

Continual quick loop performance stands out in Skyline 3 NEO. It has exquisite arc technology and acute ball feeling. The deformation of the "NEO" sponge on ball contact returns to original shape quickly to enhance loop attack. Skyline 3 NEO allows for outstanding style of continual, quick attack without any interspaces. Sponge 2.15. Item RCS3N

88 90 72 \$19.95

### Skyline TG2 NEO

The technology in Skyline 2 NEO can create strong and changeful spin by both friction and deformation methods. The ball on impact can penetrate into "NEO" sponge, which transfers the energy to give players power to create more aggressive spin. Sponge 2.15. Item RCS2N

84 95 73 \$19.95

### Skyline TG3

Fast, continual, and dense attack is characteristics of Skyline 3. It is made with a new technique to give quicker attacking power with loop drive. The deformation of the sponge on ball contact returns to original shape quickly to ensure continual loop attack. Then your opponent will be under continual attack pressure. Sponge 2.15. Item RCS3A

86 90 74 \$19.95

### Skyline TG2

Spin or not, strong or weak, delicate changes are achieved in a flash. Skyline 2 rubber is made by new technique brings fresh experience of loop with quick attack. Colloid with acerbity and glutinosity combined has completely different friction from traditional Chinese rubbers and can create powerful and changeful spin. Power and speed come out continually owing to the unique pimple structure and elastic colloid so that changeful spin is more steady and threatening. Sponge 2.15. Item RCS2A

82 95 73 \$19.95

**Gold Arc 3**

With Gold Arc 3 players can accurately show their playing techniques, even during high speed and powerful shots. This rubber also offers excellent allround ball control, due to the #50 sponge's outstanding flexibility. Sponge 2.1. Item RCG03

93 88 78 \$54.95

**Skyline 3-60**

Skyline 3-60 is designed with a unique sponge-rubber combination. It absorbs and responds rapidly on ball contact, providing excellent elasticity and speed. Such dynamic properties make Skyline 3-60 ideal for continuous, high-strength loop attacks with minimal effort. Players will not be limited to one certain type of loop, but have the option of varied loop techniques. Skyline 3-60 is the optimal combination of classic sticky rubber and elastic sponge. Sponge 2.15. Item RCS36

86 95 70 \$29.95

\$34.95

**TinArc 5 SPECIAL**

Combines great feeling with powerful elastic shots and allows the ball to absorb and penetrate easily, ideal for quick loops with feel, ball handling near the net, or off-court play. The outstanding elastic rubber and thick pimple design enables strong power with minimal effort. Specially designed to enhance the speed of 40+ balls. Sponge 2.1. Item RCT15

96 94 74 \$39.95

\$37.95

**TinArc 3 SPECIAL**

TinArc 3's pimple structure is specially designed for buffering and absorbing energy. This makes the rubber perform excellent in ball control and creates varying spin close to the table and generates power from mid to far distance. TinArc 3 incorporates 'Dual-Extreme' technology in rubber and sponge and is preferred by top players who play with loop and control drives. Sponge 2.1. Item RCT13

87 88 74 \$42.95

\$37.95

**TinArc SPECIAL**

TinArc incorporates 'Dual-Extreme' technology to create high elasticity in both rubber and sponge. This is combined with a specially designed 'speedy' pimple structure. Shot making has remarkable ball acceleration with a characteristic loud sound. The topsheet provides tackiness and spin when hitting or brushing the ball. Top players who are in pursuit of excellent power and speed, as well as spin will prefer TinArc rubber. Sponge 2.1. Item RCTIN

89 85 71 \$42.95

**SHORT PIPS RUBBER**

**Dragonow**

Special pimple design strengthens the friction of this rubber. It is easy for players to play 'small top-spin skill'. The rubber strengthens control of the ball route. Meanwhile, it has excellence of powerful rebound, high speed with smash sponge. Sponge 1.8, 2.0. Item RCDRA

88 78 74 \$12.95

**Sharping**

Sharping adopts special clear concave design on the top of pimples, which is contrary to traditional design. The special pimple strengthens friction and sensitivity when touching balls. The colloid has abundant elasticity with soft and flexible sponge. It can express power quickly and reduce wasted energy. This rubber makes the ball route monstrous and can control the point of fall. For offensive play. Sponge 1.8, 2.15. Item RCSHA

92 60 78 \$12.95

**G555**

High elastic rubber designed for backhand. New cementing agent with chemical technology and high elastic sponge. High strength and elasticity satisfies the backhand demands for high speed and strength on the medium-range and long-range distance from table, and makes up for the shortages of the backhand drive. Sponge 2.2 Item: RCG55

55 50 95 \$15.95

**LONG PIPS RUBBER**

**C8**

C8 has been called the "Chinese Magic Racket" or "Chinese T.T. Team Secret Weapon" by the world table tennis field. It makes a breaking effect due to its irregular swing of super long pimples. Sponge OX, 1.0, 1.2. Item RCC8A

54 66 76 \$13.95

**G888**

The performance of high elasticity and stickiness strengthens spin and speed while strengthening power far from the table so that G888 can be suited for quick-attack with loop and also mediate the relationship of "spin" and "speed". Sponge 2.1 Item: RCG88

58 55 92 \$15.95

**C7**

C7 rubber ensures the player can attack and defend at will. Sponge OX, 1.0, 1.2. Item RCC7A

52 64 78 \$13.95

**PF4**

PF4 is suitable for quick-attack with loop drive. It has accompanied many players to win the world championships. Sponge 2.0. Item RCPF4

75 79 80 \$13.95

**Cloud & Fog III**

Cloud & Fog III adopts a tough colloid that can make the shape change of pimples resume quickly to make the attack power stronger than normal long-pip rubbers. The super long pimples can create strong unorderly change and makes the ball route unexpected to fully puzzle opponents. This rubber is best for chopping and attack play. Sponge OX, 1.0. Item RCCLO

65 75 72 \$12.95

# XIOM®

## OMEGA V RUBBER from XIOM

Made with Dynamic Friction Technology and developed for the new plastic ball. Performance parameters of the plastic vary from the celluloid, which mostly impacts professional players. Dynamic Friction Technology originally adopted from the physics of snow tires makes the unprecedented level of friction for Omega V. Dynamic Friction of the table tennis is different from the normal friction because the rubber in the fast movement should make the proper friction against the also fast moving balls, without the decline of repulsive power. Dynamic Friction rubber grabs the slippery plastic balls far more firm and solid at contact. Control of your ball with Dynamic Friction is simply beyond your expectation. And as a consequence, it increases the spin rotation dramatically - at the same speed. Thanks to the higher friction you can also catch the ball at the extreme angle, which is truly a professional advantage.

### OMEGA V SERIES

#### Omega V Asia

- Plastic Ball Ready - For Top Professionals
- Dynamic Friction Against Slipperiness
- Unprecedented Control and Extreme Angle Shots

Sponge 2.0, Max. Item: RX05A

99 95 67 \$59.95

#### Omega V Euro

- Plastic Ball Ready - For Top Professionals
- Dynamic Friction Against Slipperiness
- Unprecedented Control and Extreme Angle Shots

Sponge 2.0, Max. Item: RX05U

95 98 67 \$59.95

#### Omega V Tour

- New Power Dynamics for Tour Professionals
- Hyper Charged Power and Spin
- Amazing Precision on Passive Shots

Sponge 2.0, Max. Item: RX05T

96 98 67 \$59.95

XIOM Omega V Pro Rubber is available with the XIOM Stradivarius Shakehand or Penhold blade as part of a blade/rubber PRO SPECIAL. See page 7

#### Omega V Pro

- New Power Dynamics for Professional Swing Speed
- Energized Ball Flight and Rebound
- Extra Precision on Passive/Offensive Shots

Sponge 2.0, Max. Item: RX05P

98 96 67 \$59.95

### OMEGA IV SERIES

#### Omega IV Pro

- Extra playing properties by new carbo sponge
- Additional clicking feel for sharper control
- Extra spins with new chemical composition

Based on 'Hyper Elasto' technology, the top sheet matched with an upgraded Carbo Sponge offers extraordinary playing properties. New chemical composition plus built-in tension makes the ball trajectory higher for more spin. You can return the ball fiercely after the bounce. Sponge 2.0, Max. Item: RX04P

92 92 71 \$49.95

#### Omega IV Asia

- For dynamic power-spin attackers
- Powered by extra-hard new Carbo sponge
- Extra spin by new built-in tension

Extreme power with extra spins in deadly aggression. Grippy top sheet with hard Carbo Sponge creates amazing power-spin performance. Omega IV Asia returns the ball aggressively and low with extra spin. Extra precision and superb consistency from solid construction benefits high-speed players. Sponge 2.0, Max. Item: RX04A

94 90 71 \$49.95

#### Omega IV Euro

- For technical style keen on balanced aggression
- Deeper and longer ball dragging at the surface
- Extra power spins from high-density carbo sponge

Newly integrated dynamics for reliable control. Integrated dynamics and perfect hardness for reliable control. Solid ball-capturing at the surface and perfectly matching sponge hardness promote extra spins and control at contact. Aggressive launch and clicking sensation at ball contact reflects maximized built-in tension, simulating full speed-glue effect. Sponge 2.0, Max. Item: RX04U

90 94 71 \$49.95

#### Omega IV Elite

- Designed for modern allround pros
- Longer ball dragging at contact with softer feel
- Very precise and consistent control

Higher ball trajectory with extra spin performance. Balanced towards full "speed-glue" feel. New top sheet matched with upgraded soft Carbo Sponge offers amazing spin and feel. Bigger window over the net with high spinning trajectory. Extra spin capability, precision, and consistency benefit modern allround pros. Sponge 2.0, Max. Item: RX04E

86 96 71 \$49.95

Prices listed are for one rubber. One rubber covers one side of a blade. Rubbers are available in both red and black unless otherwise noted.

VEGA SERIES

**Vega China**

- Max built-in tension by German Tensor Bios technology
- Combination of sticky surface top sheet with a softened hard sponge. Composed with world renowned Tensor Bios technology, to reach the proper elasticity. Sponge Max. Item: RXVGC

85 94 72 \$44.95

**Vega Japan**

- True Innovation - Hyper Elasto IMB technology for Vega
- Super Dynamics - Engineed by Black Carbo Sponge
- New Era, New Shape - Celebrating Vega's "Win Fit" design
- Internal Mechanic Boost of Hyper Elasto IMB generation opens the new opportunity for Vega users. Tuned to make more spin energy easier, Vega Japan makes the power-charged spin and allows for flexible control. Ball capturing at the contact is very solid, yet also superbly comfortable. Sponge 2.0, Max. Item: RXVGJ

90 90 72 \$44.95

**Vega Asia**

- Spin Weapon with upgraded speed
- Higher success rate with "big window" over the net
- Black Carbo sponge generates more power
- Unique "Carbo Sponge" provides the most energy efficiency. The pips on Vega Asia have a special structure to create more trampoline effect and feeling at impact. It also has a bigger safe zone (window) above the net, for topspin attack. Sponge 2.0, Max. Item: RXVGA

90 88 73 \$39.95

RUBBER RATINGS KEY

SPEED SPIN CONTROL PRICE

XIOM COMPARISON CHART pages 93-94

XIOM Vega Europe Rubber is available with the XIOM Allround S blade as part of a professional blade/rubber PRO SPECIAL.

PRO

**Vega Europe**

- Safer Spin Attack with upgraded control
- More chances and fewer miss-shots with "big window"
- Black Carbo sponge generates more power

Softest of the Vega series, for an exciting feel, plus the same level of energy efficiency as the harder Vega Pro and Asia. Special sponge and top layer give great control, and spin performance. Perfect for modern European play style, with controlled topspin. Sponge 1.8, 2.0, Max. Item: RXVGU.

86 92 73 \$39.95

**Vega Elite**

- Super balance for all levels of players
- Spin, speed, control, and softness
- Dynamic sound for pure pleasure of table tennis

Soft version of the Vega series provides super balance for all levels of players. It provides great stability and dynamic sound for pure pleasure of table tennis. The ball from Vega Elite draws sharper and higher ball-trajectory to create larger safe zone (BIG WINDOW) above the net. Sponge 2.0, Max. Item: RXVGE

84 84 76 \$39.95

**Vega Pro**

- Professional Spin Weapon
- Innovatively enlarged attack window over the net
- New Black Carbo sponge to generate more power

Extreme topspin performance is realized by the mixture of Hyper-Elasto and Carbo Sponge technologies. Pips are densely arranged for a harder, more direct feel. The ball draws a higher, sharply curved arc that enlarges the "safe zone" above the net. Precise response lets you lead the game. Sponge 2.0, Max. Item: RXVGP

88 90 73 \$39.95

See the article:

Taking Care of Your Table Tennis Rubber

Table tennis rubber is one of the biggest investments players make in the sport. A new sheet of rubber, right out of the package, is beautiful and clean and fresh. As soon as you play with it - in no time at all - dirt, oil, dust, grime, nicks, and dead spots find their way onto your originally pristine rubber. . . . [Read more on page 63](#)

Paddle Palace Rubber Cleaner

This new formula, VOC compliant table tennis rubber cleaner cleans and rejuvenates your rubber. It removes oils and contaminants from your rubber surface for optimal consistency and performance. New ingredients provide outstanding rubber cleaning properties, without VOC's. Non-aerosol pump spray bottle. Made in USA. Item: EPPF

4 oz/118 ml bottle \$7.95

**NEW FORMULA!**

## RUBBER RATINGS KEY

SPEED SPIN CONTROL PRICE

YASAKA COMPARISON CHART pages 93-94

## MA LIN:

blade: YASAKA Ma Lin Carbon

rubber: YASAKA Rakza 7

Olympic Gold Medalist in Singles, Doubles, and Team

## PUSH YOUR LIMITS RAKZA X + RAKZA X SOFT

This is the latest addition to the popular and highly successful RAKZA series of Yasaka rubbers. The top sheet is made of natural rubber, employing a new production method. The result is a top surface with exceptional grip enabling both phenomenal spin and speed. These qualities reduce the margin for error. This top sheet is then combined with "Power Sponge". This combination of a faster sponge and high grip top sheet enables you to place the ball accurately with a high degree of success. Serves and short returns are both very sharp, similar to the Rakza 7 and Rakza 9.

## RAKZA X

Medium-hard sponge version.

Sponge 1.8, 2.0, Max Item: RYRAX

94 95 71 \$54.95

## RAKZA X SOFT

Soft sponge version. Sponge 1.8, 2.0, Max

Item: RYRXS

93 96 71 \$54.95

## RAKZA 9

Improved speed characteristics! The surface rubber of Rakza 9 has a newly developed formula/rubber combination on surface rubber, and a new sponge made of a more homogenous material with larger pores. Rakza 9 is the fastest of Yasaka's Hybrid Energy rubbers and is suitable for technical offensive players, using both high speed and spin to win the point. Sponge: 1.8, 2.0, Max Item RYRA9

95 93 71 \$52.95

## RAKZA 7

Natural rubber gum in the top sheet dramatically improves grip and spin. Top sheet is combined with the new Power Sponge to produce Yasaka's newest Hybrid Energy rubber. When you hit the ball hard, the rubber grips the ball so you can place the ball accurately, both in direction and length. Serve and short returns are sharp and easy to control. Natural gum also improves durability. A winning combination! Sponge: 1.8,2.0,MAX Item: RYRAK

93 94 70 \$52.95

## RAKZA 7 SOFT

Yasaka Rakza 7 Soft uses the same top sheet as Rakza 7, but with softer sponge, giving the rubber more sound and built-in speed glue effect plus increased control. After hitting a topspin shot, the curve of the ball is slightly higher, giving little bit bigger margins in the game. In the short return play, the ball feel is better. Sponge: 1.8,2.0,MAX Item: RYRAS

88 96 71 \$52.95

Mark V is available with YASAKA Ma Lin Extra Offensive blade as part of a professional blade/rubber PRO SPECIAL combination. See page 6

Mark V **PRO**

Many championships have been won with Mark V, which represents the absolute highest quality of rubber production. For the aggressive player who masters the modern, fast technique close to the table, Mark V gives unique possibilities. Sponge: 1.0, 1.5, 1.8, 2.0, MAX. Item: RYMKV

79 79 80 \$37.95

## Mark V M2

Made for Maximum Speed. Based on the incomparable technical features of Mark V, but with slightly harder sponge. Gives the ball sharp spin and ultimate speed. Sponge: 2.0, MAX. Item: RYMKM

92 74 77 \$39.95

**Mark V HPS & Mark V HPS Soft**

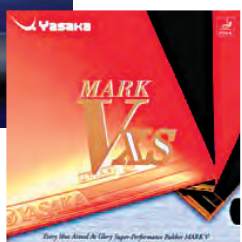

Outstanding top-of-the-range fast rubber has all the characteristics required for advanced offensive play. The HPS (Hybrid Power Sponge) technology is the result of the newest advances in Japanese rubber technology. It provides improved dynamics in the sponge, and more speed and spin, without higher weight.

**MARK V HPS** has a medium-hard sponge, suitable for aggressive play close to the table. Sponge: 2.0, MAX. Item RYMKH

83 83 77 \$47.95

**Mark V HPS SOFT** has a slightly softer sponge than the regular Mark V HPS, suitable for offensive allround players.

81 89 76 \$47.95

**Mark V XS**

Newest rubber sheet from Yasaka: Mark V XS. This highest quality rubber is ideal for the aggressive player who masters the modern, fast technique close to the table. Sponge: 2.0, MAX. Item: RYMKX

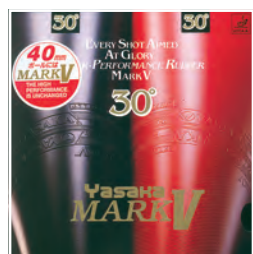

81 79 79 \$45.95

**Mark V GPS**

Same quality surface rubber as Mark V with softer sponge, giving more "feeling" and "control". Sponge: 1.8, 2.0, MAX. Item: RYMKG

69 84 82 \$37.95

**Mark V 30**

Double glue absorption, improved spring capacity due to maintaining the sponge hardness levels at 30 degrees. Sponge: 2.0, MAX. Item: RYMK3

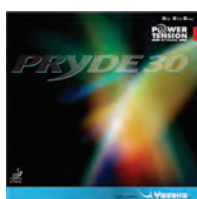

68 82 83 \$37.95

**Pryde 30**

**Maximum sound and spin!** Pryde 30 is a new, softer sponge version of Yasaka Pryde. Combines the built in speed glue effect of Yasaka's Power Tension technology with an elastic sponge for maximum sound and spin, with great built-in speed-glue effect, plus more control for greater variation in offensive play. Sponge: 2.0, Max Item: RYPR3

84 89 75 \$49.95

**Pryde 40**

**Feel the speed, recognize the sound!** Pryde 40 is a superb new rubber from Yasaka using the latest technology. Newly developed medium-soft sponge creates better speed and bigger sound for a fast attacking game. Power Tension rubber does what traditional rubbers and other tension rubber cannot do: gives you outstanding performance without the need for speed glue. It's the perfect mix of speed, spin, sound and feeling. You will love it! Sponge: 2.0, Max Item: RYPR4

91 87 73 \$49.95

**Fusion**

Three different synthetic rubbers are mixed with natural rubber, each with unique characteristics for speed, spin and durability—"Energy Fusion Rubber". Fusion contains synthetic rubber for speed glue effect - very elastic feeling and strong sound! Sponge: 2.0, MAX. Item: RYFUS

83 82 78 \$38.95

**Pryde**

**Delivering the devastating energy of POWER TENSION!** Yasaka's powerful reply to the speed glue ban. The characteristic speed and touch of speed glue - without speed glue. You feel the powerful speed and you'll recognize the sound! Sponge: 2.0, MAX. Item: RYPRY

97 85 71 \$49.95

**V-Stage**

For players looking for powerful spin and speed. V-Stage is produced by simultaneously vulcanizing high-friction coefficient rubber to improve spring and high elasticity. Sponge: 2.0, MAX. Item: RYVST

89 85 74 \$52.95

**X-Tend HS The Spin Machine!**

No speed glue needed! STS (Spin-Tension-System) technology by Yasaka gives 2/3 of the tension energy to spin and 1/3 to speed. Topsheet and sponge deliver high-power speed with easy handling-- just what the players asked for. Do NOT apply speed glue, as it will destroy the rubber. Xtend HS is made to be fast without speed glue. Sponge: 2.0, MAX Item: RYXTH

84 83 77 \$43.95

**X-Tend**

The Spin Machine! No speed glue needed! "Tension increase" gives you 2/3 more spin and 50% more speed. Sponge: 2.0, MAX. Item: RYXTE

82 85 77 \$43.95

**PIPS & ANTI RUBBERS**

**Anti Power [Anti]**

Neutralizes spin, thanks to low friction and the moderating qualities of the outer rubber. Anti Power is best used by offensive combination players, since the sponge is fast compared to other anti rubber. Sponge: 2.0. Item: RYANT

SPEED 61 CONTROL 85 \$32.95

**Phantom Infinity [Long Pips]**

Regulation length long soft pips: Deadly weapon for any defensive player. Neutralize opponent's spin and use the effect of the spin to benefit your own returns. Design of the top of the pips aid attack. 0011 Sponge: 1.0. Item: RYPH1

49 58 88 \$34.95

0012 No sponge. Item: RYPH2

42 65 88 \$32.95

**Yasaka A-1 [Short Pips]**

Short pips rubber with no sponge. Approved for hardbat play by the USATT Hardbat Advisory Committee. Has a cloth backing for easy glue application. This is a favorite rubber for US classic hardbat players and defensive players. Works well with defensive blades like the Hunter Hawk. Sponge: OX Item: RYA1

40 40 98 \$16.95

## DR. NEUBAUER

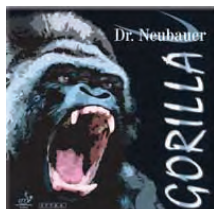

## ANTI TOPSPIN RUBBER

**New Gorilla**  
Gorilla with a slow dampening sponge = better control, while producing good spin reversal in blocking spinny topspin balls. The 1.2mm sponge is

the slowest and most effective for short close-to-table blocking, and 1.5 and 1.8mm sponge give a decisive disruptive effect for blocking but with better attack with aggressive pushing and lifting. Sponge 1.2, 1.5, 1.8 (PINK color). Item RUGON

SPEED **42** CONTROL **92** \$54.95

**Gorilla**

- Outstanding playing characteristics for blocking and chopping.
- Excellent disruptive effect with good control.
- Enables a versatile game using aggressive pushing and lifting.

This rubber enables highly effective blocking, even against strong topspin, and offers a disruptive effect because the ball can be returned short or long over the net, with the ball staying low after the bounce, making it hard for an opponent to keep looping the ball. Good control on return of serve, either passively or aggressively. The best disruptive effect is created when using it with 0.6mm sponge. Sponge 0.6, 1.0 (CREAM color) Item RUGOR

SPEED **49** CONTROL **90** \$54.95

**Grizzly ABS Sponge**

Slower than the original version, topsheet produces good spin reversal on topspin balls with a lot of rotation. The ball bounces very low on the other side of the table. A.B.S. has a dampening effect to reduce rubber speed but with remarkable control. Sponge 1.2, 1.5, 1.8 (PEACH color). Item RUGRN

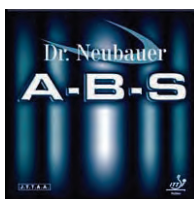

● Please note: Packaging for original and new versions of Grizzly are the same. The sponges are different colors – original sponge is white, new A.B.S. sponge is peach.

SPEED **44** CONTROL **91** \$54.95

**Grizzly**

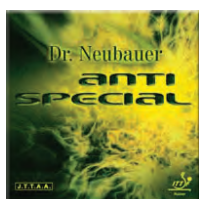

Innovative anti-spin rubber, adapted to an allround game. Offers good control and great disruptive effect and is also effective for classical defence by providing very good control and backspin variation. Even strong topspin shots can be returned with a flat flight path and a maximum of backspin. It is also effective for control and placing of service returns. Sponge: 1.0, 1.6, 2.0 (WHITE color). Item RUGRI.

SPEED **53** CONTROL **88** \$54.95

**A.B.S.**

**Control + good spin reversal!** For close to the table blocking. Distinctly slower than Gorilla and Grizzly and offers much better control. Very good spin reversal and attacking possibilities through aggressive pushing and lifting, especially against chop shots. Sponge 1.2, 1.5, 1.8 Item RUABS

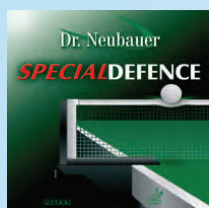

SPEED **36** CONTROL **95** \$54.95

**Anti Special**

Slower than Dr Neubauer's Gorilla and Grizzly, but with better control. Great for spin reversal for an effective blocking game close to the table. Provides good attack through aggressive pushing and lifting. Sponge 1.2, 1.5, 1.8. Item RUANT

SPEED **40** CONTROL **93** \$54.95

## SMOOTH RUBBER

**Special Defence**

High friction surface without being sticky. Effective in combination with pips or anti-spin rubber. Sponge 1.0, 1.2, 1.5. Item RUSPE

**79 92 86 \$49.95**

**Domination Speed**

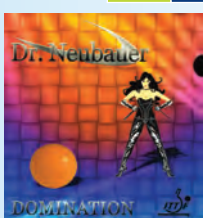

Inverted smooth rubber with "speed glue" tension in sponge & top sheet. Sponge 1.5, 1.8, 2.1. Item RUDOS

**92 80 76 \$49.95**

**Goliath Speed**

Speed glue effect without speed glue, for an extremely dynamic attacking game. Harder sponge allows more speed for attacks. Sponge 1.5, 1.8, 2.1. Item RUGOL

**93 77 76 \$49.95**

**Domination**

"Speed glue" tension in sponge and the top sheet. Elasticity and tension create acceleration. Sponge 1.2, 1.5, 1.8, 2.1. Item: RUDOM

**84 71 83 \$49.95**

NEW

**Buffalo**

Fantastic weapon for blocking close to the table. Combines the strong points of all the existing Anti-Spin rubbers, setting new benchmarks both for control and disruptive effect. Excellent spin reversal while blocking against topspin shots with a lot of rotation thanks to its completely frictionless surface. Also, control is enhanced to ensure safe and disruptive blocking close to the table. Produces deceptive attacking shots. The most effective technique is aggressive pushing on chopped balls, but counter-attacking against float balls will also put pressure on your opponent. Sponge 1.2, 1.5, 1.8 Item: RUBUF

SPEED **34** CONTROL **96** \$54.95

## SHORT PIPS RUBBER

NEW

**Killer Pro**

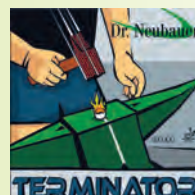

Great weapon for the aggressive game with short pips! Same topsheet as best-selling rubber Killer, but laminated with a revolutionary new sponge to enable disruptive blocking, counter-attacking, and hitting, with speed. Sponge 1.3, 1.5, 1.8, 2.0, MAX Item: RUKIP

**92 62 77 \$45.95**

**Killer**

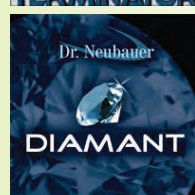

Combines short + medium pip rubbers for the best of both types. Great attack potential for modern game close to table, and for fast counter-attack. More disruptive than other short pip rubbers with very low bounce. Excellent control and "feel". Sponge 1.5, 1.8, 2.0, Max. Item RUKIL

**85 62 79 \$45.95**

**Terminator**

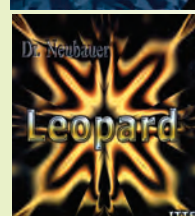

Differs from other short pips rubbers. Available exclusively with fabric reinforcement (no sponge) underneath to produce a float ball while blocking passively. Ball bounces low, drops on aggressive blocks. Enables dynamic, efficient play against chops and produces fast "dummy loop". Great for allround game. Sponge OX. Item RUTRM

**58 64 90 \$45.95**

**Diamant [Half-Long Pips]**

A multi-purpose weapon for serve return, block, attack and defense. Also great against chops: any backspin can be smashed for winner points. Sponge 1.2, 1.5, 1.8, 2.1 Item RUDIA

**70 59 86 \$45.95**

**Leopard [Short Pips]**

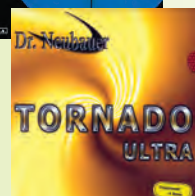

This rubber will be a real challenge for your opponents. Blocking with topspin or smash produces disturbing returns with the ball dropping and wobbling. A supreme weapon for block, counter-attack, and provides very good control for all blocking and attacking strokes. Sponge 1.0, 1.5, 2.0. Item RULEO

**61 61 88 \$45.95**

**Pistol [Short Pips]**

Fast, powerful, dynamic for fast attack - especially straight hitting and fast looping. Enormous speed with a disturbing "flat" effect. Sponge 1.0, 1.6, 2.0. Item RUPIS

**95 68 73 \$45.95**

**Tornado Ultra [Short Pips]**

Big spin/speed and tactically dynamic for blocking and counter-attack. Creates wobbling balls. Sponge 1.5, 2.0. Item RUTOR

**94 55 78 \$45.95**

**SPEED SPIN CONTROL PRICE**

DR NEUBAUER COMPARISON CHART pages 92-94

HERBERT NEUBAUER plays with the Dr. Neubauer Matador blade and uses Dr. Neubauer KILLER on forehand and NUMBER 1 rubber on backhand side.

**Number 1**

Rubber formula with vertical pip alignment. Softer pips enable you to reduce the speed of the game while blocking passively. Fantastic control at all levels. Very efficient for putting pressure on your opponent, and highly versatile for producing long pimple attacking shots with ease. Sponge OX, 0.6, 1.0 Item: RUNO1

**52 45 94 \$42.95**

**LONG PIPS RUBBER**

**Viper**

A major step forward for all long pip players blocking close to the table. Completely new rubber formula provides great control – even fast topspin shots can be handled easily. Soft pips help to dampen ball speed, producing a low bounce when blocking. Both passive- and chop-blocking provide a disruptive effect that will cause problems to your opponent. A highly interesting development in long pip rubber with friction. All standard attacking techniques with long pips can be performed quite easily. Sponge OX, 0.6, 1.0 Item: RUVIP

**55 82 85 \$45.95**

**Allround Premium**

Extraordinary Allround Weapon. Disruptive long pips rubber enabling aggressive blocks and hitting and counter-looping against topspin shots. Excels at passive shots with very low bounce. Great for classic defense with spin and control. Heavy chops and float balls can be performed interchangeably. Unusual pip geometry with vertical distribution. Sponge OX, 0.6, 1.0, 1.3 Item RUALL

**55 85 85 \$45.95**

**Desperado**

Long pips rubber from another dimension! Both versions without sponge (OX) and with sponge (0.6, 1.0mm) are very effective for chop-blocking close-to-table – passive or aggressive blocks against topspin with push-blocking technique where ball is “pushed down” while holding the bat at a closed angle. OX version is best for close-to-the-table block. Versions with sponge are better for action attacks and floating balls. Sponge OX, 0.6, 1.0 Item RUDES

**56 38 95 \$45.95**

**Inferno Classic**

Long pips rubber with friction, offering great disruption for surprise attack. Enables dangerous returns both through passive/active blocking (“chop-blocking”) with a very low bounce on the other side of the table. Good control and surprising attack through aggressive pushing and lifting, and also through classical defense since the rubber produces a lot of backspin. Sponge OX, 0.6, 1.0 Item RUINC

**56 40 93 \$45.95**

**Fighter**

Innovative rubber composition provides excellent control with good attacking possibilities through aggressive pushing and counter-attacking at the table. Sponge OX, 1.2 Item RUFIG

**57 42 91 \$38.95**

**Boomerang Classic**

Defence weapon! This long pips rubber is great for classic defense, and provides lots of backspin and disruption. Sponge: OX, 0.6, 1.0 Item RUBOC

**55 46 91 \$45.95**

**Monster Classic**

Monster Classic: Long pips with friction for an aggressive game close to the table. Special pimple geometry, rubber formula and sponge enables effective blocking and counter-attacking. Sponge: 1.0, 1.6, 2.0 Item RUMOC

**59 51 88 \$45.95**

**HALLMARK**

**RUBBER RATINGS KEY**

**SPEED SPIN CONTROL PRICE**

HALLMARK COMPARISON CHART pages 92-94

**Friction Special 2 [Long Pips]**

This long pimple rubber has full friction but still gives a good level of disruption to the flight of the ball and is slower than other long pips rubbers. Ideal for defensive players and for combination bat players who block with their backhand.

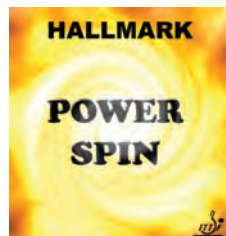

**45 59 89 \$54.95**

**Phoenix [Long Pips]**

Designed for close-to-table play against topspin. Special rubber formulation and geometry + Hallmark super anti sponge = high level of control. Returns are low over the net with some spin reversal obtained. Spin serves can be returned with ease and push and float balls can be attacked aggressively without problem with some spin generated from the rubber. Sponge: OX, 1.0, 2.0. Item RHPHO

**53 69 83 \$46.95**

**Power Spin [Smooth]**

This smooth inverted rubber produces very high levels of spin. The 2.0mm version is faster and better for top spin, 1.0 gives good control when chopping away from the table but still produces high level of back spin!!! Sponge 1.0, 1.5, 2.0. Item RHPW

**87 74 79 \$42.95**

**Panther [Medium Pips]**

Medium pips rubber. Get the tricky advantage of long pips and the offensive potential of short pips rolled into one rubber. Relatively wide pips. Slightly improved control and slightly reduced effect when compared to Half Long. Sponge OX, 1.0, 1.5, 2.0. Item RHPAN

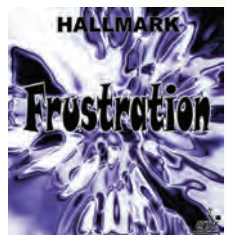

**61 55 90 \$36.95**

**Magic Pips [Short Pips]**

The 2.0mm version produces great top spin + excellent control for close to the table hitting and blocking. The 1.0mm produces less rotation but great blocking against topspin. Sponge OX, 1.0, 1.5, 2.0. Item RHMAG

**78 61 82 \$36.95**

**Frustration [Long Pips]**

A long pips rubber with a slightly sticky surface, it actually produces some rotations of the ball. Sponge OX, 1.0, 1.5, 2.0. Item RHFRU

**54 71 82 \$54.95**

Choice of World Champions

Paddle Palace: North American Sole Distributor for JUIC

**MIYUU KIHARA:**  
blade: JUIC Fracta  
rubber: JUIC NanoSpin  
Japan U-10 Girls Champion

**JUIC T+ PV**  
The "Power Version" with harder sponge for the power player.  
Sponge 2.0, Max. Item: RJTFV

97 89 71 \$54.95

**JUIC T+ FV**  
The "Flex Version" with softer sponge for the power spin player.  
Sponge 2.0, Max. Item: RJTFV

95 91 71 \$54.95

## T+ RUBBER = POWER+SPIN

The general characteristics of the new plastic ball are 1) less deformation of the ball at impact, and 2) less spin. With the classic approach, the spin factor is mostly highlighted to the rubber sheet. But with the change of the ball material, it is now critical to analyze the spin factor with a total topsheet and sponge approach. This is what JUIC has done with the T+ rubber.

The Juic T+, with its elasticity and softness, withholds the new ball at the impact, and spins and stabilizes the stroke with the arch of the ball. This speedy-allround power rubber leads the way into the plastic ball table tennis of the future.

## NANO SPIN RUBBERS

### NANO Spin II+S

Same Nano Spin II topsheet as the original, but with a softer sponge for even greater ball spin. Features of this rubber are the ball grip, control, and width of sweet spot. You get an amazing feel as if the rubber is an extension of the hand. Sharp topspins and surprising services are a breeze. NanoSpin II+S is a great weapon for the player seeking the best ball feeling! Sponge 1.8, 2.0, MAX. Item RJNSS

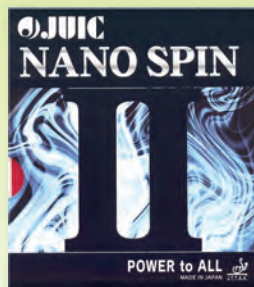

91 93 71 \$54.95

### NANO Spin +Flex

Grippy topsheet and soft-flexible tension sponge combine to give the ideal arc for topspin. Based on original Juic Nano Spin, the new +Flex version utilizes greater flexibility between sponge and topsheet to boost speed and spin. Light weight allows for higher swing speeds and greater ball rotation. Great for the player with allround-aggressive play. Sponge 1.8, 2.0, MAX. Item RJNAF

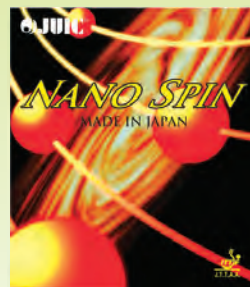

92 92 71 \$54.95

### NANO Spin II

Juic's Nano Technology gives Nano Spin II more power and sound for your game. Excellent spin and enhanced speed brings a new dimension to the spin attack game.  
Sponge 1.8, 2.0, MAX. Item RJNS2

93 91 71 \$54.95

### NANO Spin

Special JUIC Technology offers speedy play with tacky rubbers that tend to be most effective when serving or chopping, but Nano Spin enables outstanding all-round and offensive play close to and far from the table. Spin, speed and control: If you need the best of them all, Nano Spin is the rubber you are looking for! Sponge 1.8, 2.0, MAX. Item RJNAS

90 90 72 \$54.95

## AIR CONDLE

- + SPIN
- + CONTROL
- + POWER
- + DURABILITY

### Air Condle Speed

Highest offense rubber of the Air Condle Series. Topsheet provides outstanding grip + speed + control. Sponge 2.0, MAX. Item RJAIS

96 88 71 \$49.95

### Air Condle Sound

Most versatile rubber of the Air Condle Series. Precision + softness for outstanding feeling and control. Ideal rubber for allround game. Sponge 2.0, MAX. Item RJAIO

91 96 70 \$49.95

### Air Condle

Perfect balance of spin, control, power, and durability. Maximum tension in topsheet and sponge for offensive power and finesse. Sponge 2.0, MAX. Item RJAIR

96 90 70 \$49.95

Prices listed are for one rubber. One rubber covers one side of a blade. Rubbers are available in both red and black unless otherwise noted.

JUIC COMPARISON CHART pages 92-94

SMOOTH RUBBER

999 ELITE RUBBERS

\$33.95

**JUIC 999 Elite Ultima SPECIAL**  
 Fantastic! JUIC Ultima high tension sponge is combined with the popular, spinny, tacky, and fast JUIC 999 Elite topsheet to produce this 100% Made in Japan masterpiece! Sponge 2.0, MAX. Item RJ9EUL

85 93 73 \$37.95

**JUIC 999 Elite Ultima SV**  
 The great JUIC Elite Ultima rubber is available with softer SV Ultima sponge! Perfect if you want the Ultima sponge but with more softness, hanging spin, and control. Combined with the JUIC 999 Elite topsheet that is so popular for its outstanding tacky spin with speed. Sponge 2.0, MAX. Item RJ9EUS.

78 97 74 \$37.95

**JUIC 999 Elite**  
 JUIC 999 Elite is one of our hottest rubber sheets! Fantastic spin, but greater speed than other tacky rubber sheets. Long lasting spin characteristics but is lighter weight. Medium-soft sponge. Sponge 1.5, 1.8, 2.0, MAX. Item RJ9EL

82 89 75 \$37.95

**JUIC 999 Elite SV**  
 Same great topsheet as the JUIC 999 Elite, but even softer sponge. Sponge 1.5, 2.0, MAX. Item RJ9ES

79 95 74 \$37.95

**JUIC 999 Elite Defense**  
 Great tacky spin and quality of Juic 999 Elite, combined with super-soft control-type sponge to slow speed down to the level that defensive players love. Sponge 1.0, 1.5, 2.0. Item RJ9ED

57 96 82 \$37.95

JUIC 999 RUBBERS

**JUIC 999 Attack**  
 JUIC 999 Attack has a softer sponge than 999 Hardtype (but harder than 999 Elite). Slightly more super spin than the JUIC 999 hardtype but has slightly better control. Sponge 1.5, 2.0, MAX. Item RJ99A

72 91 78 \$34.95

**JUIC 999 Defense**  
 JUIC 999 Defense is made for the modern defensive player and has fantastic spin. Great versatility. Superb defensive control. Sponge 1.0, 1.5, 2.0. Item RJ99D

54 96 83 \$34.95

**999 Turbo**  
**Tension and Spin!** Juic 999 has dominated the table tennis scene with the top players. Now this ultimate version with Juic's original tension system in the sponge, and with greater rotation from the topsheet itself, Juic 999 Turbo offers players increased spin at serving and for topspin rallies, as well as great speed. Sponge 2.0, MAX. Item RJ99T

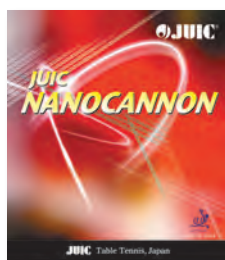

90 91 72 \$39.95

\$34.95

**JUIC 999 Elite Nano SPECIAL**  
 The world's first Nano-Tech tacky rubber from world-leading JUIC! Couga, the first Nano-Tech rubber, had a great impact on table tennis and inheritor of Nano-Technology, 999 Elite Nano, carries the power of Couga and the spin force of 999 Elite, creating a fantastic new dimension. Available in black only. Sponge thickness 1.5, 2.0, MAX. Item RJ9EN

89 86 74 \$39.95

**Nano Cannon**  
 With the newest Japanese nano-technology, and with the process of fusion-pulverization-reunion of nano level, Nano Cannon is produced. With nano-unification, the sponge and topsheet are far more flexible than regular rubbers, providing greater rotation and stability, while the ball hit by this rubber draws a sharp arch in the air with superb speed. Sponge 1.0, 1.5, 2.0, MAX. Item RJ9AN

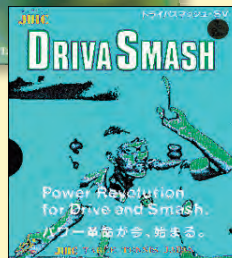

92 89 72 \$42.95

DRIVA SMASH RUBBERS

**Driva Smash Ultima**  
 Ultima high tension sponge is combined with fantastic Driva Smash topsheet. Results are WOW! Very powerful, and highly recommended for the advanced offensive player. Sponge thickness MAX. Item RJDRUL

82 80 79 \$35.95

**Driva Smash**  
 Cadillac of rubber sheets. Outstanding for offensive play, fast with excellent spin. Made for topspin play and good for smashing and counterdriving. Sponge 2.0. Item RJDRJ

84 73 80 \$35.95

**Spark**  
**Super control** with medium-fast speed and spin. Spark is great for the player who wants to wear down the opponent with consistency and accuracy of ball placement. You can hit the ball hard and still retain control. Sponge: 2.0. Item RJSPA

60 59 94 \$21.95

RUBBER RATINGS KEY

SPEED SPIN CONTROL PRICE

JUIC COMPARISON CHART pages 92-94

SPINSPIEL RUBBERS

**SpinSpiel**

A very popular world-wide. Sticky adhesive on the smooth inverted topsheet gives explosive spin, power drives, and stable control. Very tacky and spinny. For power players who need lots of spin, w/ medium-fast speed. Sponge 1.0, 1.5, 2.0, MAX. Item RJSSP

69 86 81 \$35.95

**SpinSpiel SV**

Great for even more tacky spin. Softer sponge results in slower speed, more contro. Sponge 2.0, MAX. Item RJSSS

64 89 82 \$35.95

SCRAMBLE + SCRAMBLE 21 EX ULT

**Scramble**

An all-time best seller! Inverted rubber made for aggressive offensive players. Great speed + spin + consistency. Similar to Mark V. Sponge 1.0, 1.5, 2.0, MAX. Item RJSCRA

77 75 82 \$34.95

\$29.95

**Scramble 21 EX ULTIMA SPECIAL**

For the 40mm ball. Inherent tension in rubber sheet improves attack and increases the offensive advantage. Durable & long lasting, even at the world-class level of play. Sponge 2.0, MAX. Item RJSCTW

89 71 79 \$35.95

**Dany V**

For the powerful allround player. Good spin and speed, but with more control than many other offensive rubbers. Dany V combines a topsheet balancing spin and control with a intermediate tension sponge, making it an excellent rubber for the player who uses a variety of techniques. Sponge 2.0 Item RJDAV

68 67 88 \$27.95

**Dany III**

Inverted rubber, excellent for the intermediate and developing player. Med. speed/spin, excellent control. Sponge 1.5, 2.0. Item RJJDAN

54 55 98 \$20.95

LONG PIPS RUBBER

**Leggy Defense**

**LONG PIPS**

Long pips rubber that complies with the new ITTF long pips rule. Pips have maximum legal pip length ratio. Deception and spin-reversal is great. Sponge is soft, giving you added control. Sponge OX, 1.0, 1.5, 2.0. Item RJLEG

54 61 86 \$30.95

SHORT PIPS RUBBER

**Pips Ace**

An allround pips out rubber. The O3 is excellent for all-around players and choppers. OX [No sponge], 1.0, 1.5, 2.0, MAX. Item: RJPIP

75 45 87 \$31.95

PATISUMA

BEST PIPS-OUT RUBBER FOR SPIN AND BLOCK!!

**Patisuma III**

The latest evolution of the Patisuma series! The Patisuma series is regarded as the best pips-out rubbers for spin and block. Now JUIC has added increased speed with Patisuma III. A soft but fast sponge with built-in tension produces the power longed for by pips-out players. Sponge: 2.0 Item: RJPA3

95 75 73 \$39.95

**Patisuma II**

Patisuma II is offered as a faster, quicker version with a harder sponge than Patisuma (but still relatively soft). High-friction material and perfect allocation of pips give superb spin. This is the rubber of choice for offensive-minded spin-minded pips players who want exceptional quickness, with outstanding <knuckle> ball when blocking, and powerful topspin ball and sharp smash. Sponge 2.0. Item RJPA2

91 74 73 \$35.95

ANTI TOPSPIN RUBBER

**Neo Anti**

Designed to kill the spin of your opponent's ball, and with its dead, slow speed gives incredible control. Elastic surface with special sponge gives added tricky spin when ball is hit hard. Sponge 1.0, 1.5, 2.0. Item RJNEO

57 87 \$36.95

SPEED CONTROL

## USA TABLE TENNIS EXTENDS PARTNERSHIP WITH NITTAKU AND PADDLE PALACE

### Nittaku 3-Star Premium 40+ Official Ball of USATT Through 2019

USA Table Tennis (USATT), Nittaku, and Paddle Palace jointly announced the extension of their long-time partnership as the Official Ball of USATT through 2019. The Nittaku 3-Star Premium 40+ will be the Official Ball of the US Open, US National Championships, US National Team Trials, and the 2016 United States Olympic Trials. Nittaku has been the Official Ball of USATT since 1980.

"Nittaku and Paddle Palace have been long-time supporters of USA Table Tennis, so it's very exciting for us to extend our strong working relationship for the next four years," commented Gordon Kaye, CEO of USATT. "Nittaku is known around the world as a leader and innovator in the table tennis ball market and we know through this partnership our players will be playing with the best at our events."

"Nittaku and Paddle Palace's commitment to table tennis in the United States extends beyond just our events," continued Kaye. "They have been dedicated and loyal supporters of the entire US table tennis community over the years, and we are excited to be working with them as we grow USATT and expand the great sport of table tennis in the United States."

"It's an exciting time to be part of the table tennis community," added Judy Hoarfrost, President and CEO of Paddle Palace. "There are many great things happening with our sport. Our on-going commitment to USATT, its members, and clubs reaffirms our belief that the best has yet to come for our sport in the United States. Nittaku and Paddle Palace are really looking forward to the next four years!"

### About USA Table Tennis

USATT is organized under the United States Olympic Committee as the National Governing Body for table tennis in the United States. As a member service organization, it promotes table tennis by creating opportunities for athletes and coaches of all backgrounds to participate through more than 250 clubs and over 350 tournaments across the nation annually. USA Table Tennis is a member of the International Table Tennis Federation (ITTF), and is responsible for selecting and training teams for international competition including the Pan American and Olympic Games. For more information on USA Table Tennis visit [www.usatt.org](http://www.usatt.org).

### About Paddle Palace

Paddle Palace Table Tennis is the leading supplier of table tennis products in North America. Since the 1970's, Paddle Palace has been dedicated to serving the equipment needs of players, as well as promoting and growing the sport. Paddle Palace is owned by a former member of the US Team and US Champion, and is staffed by table tennis experts and enthusiasts. For more information, visit [www.paddlepalace.com](http://www.paddlepalace.com).

### About Nittaku

Nittaku (Nippon Takkyu Co., Ltd.) established in 1920 in Tokyo, Japan, is a world leader in the sport of table tennis. Nittaku produces a complete range of quality table tennis products. They are famous for their Nittaku ball, first selected for the World Championships in 1971; and they continue to be dedicated to producing the finest table tennis balls in the world. For more info on Nittaku, contact Paddle Palace, sole North American Distributor, or visit [www.paddlepalace.com/Nittaku](http://www.paddlepalace.com/Nittaku).

## Visit Paddle Palace at our US Nationals Booth!

**2015 US NATIONALS:**  
Dec. 14 - 19, Las Vegas, NV

**2016 US NATIONALS:**  
July 4 - 10, Las Vegas, NV

**Paddle Palace is Proud to be a Sponsor of USA Table Tennis**

## Schedule Change for 2016 US Nationals and US Open!

The 2015 US Nationals will take place at the Las Vegas Convention Center Dec. 14-19. Caesars Palace and the LINQ return as host hotel partners for the 2015 National Championships. There are exciting plans for the finals, which include a post-finals bowling party.

USATT has announced that in 2016, the dates for the US Open and US Nationals will be switched. The 2016 US Nationals will take place July 4 - 10 in Las Vegas. The 2016 US Open is planned for mid-December.

## HOW TO READ THE RUBBER CHART ▶▶

*The Rubber Comparison Chart lists Smooth Rubber on pages 92-93. Short Pips, Long Pips, and Anti-Topspin Rubbers are on page 94. For more info on rubber types and how to choose rubber, see page 62.*

**Sponge Thickness** is shown in millimeters. The measurement includes only the sponge (not the topsheet). Often the manufacturer indicates "MAX" for the thickest sponge available for a rubber. MAX thickness can vary from brand to brand, but usually means the sponge is approximately 2.3 to 2.5mm. Often MAX means sponge and topsheet together measure 4.0mm, since this is the maximum thickness allowed under ITTF regulations. All rubber sheets at Paddle Palace are of ITTF-legal sponge thickness.

**Speed/Spin/Control Ratings** are on a scale of 10 to 99, with the higher the rating, the higher that attribute. These ratings use a universal scale which differs from manufacturers' ratings so that the rubbers from all the brands can be compared. Ratings are meant only as a tool to help select rubber. Naturally, speed, spin, and control are affected by a player's skill, strokes, and playing style.

Rubber sheets are available in red and black unless otherwise indicated. One rubber covers one side of a blade. Paddle Palace will apply rubber to the blade at no extra charge upon request. ●

## ROBOTS

AT AFFORDABLE PRICES!

### Paddle Palace A32W Pro

The Paddle Palace A32W Pro has many outstanding advanced robot features, but is offered at a very affordable price! Unlike other robots in this price range, it has two throw wheels controlled by two independent motors. This gives you great control over setting the variety and degree of spins including topspin, underspin, sidespin and no-spin. It includes an automatic ball recycle and net collection system. It has multiple oscillation options, and has convenient robot controls on the player's side of the table.

The A32W Pro is high quality, sturdy, reliable. It comes ready to play with virtually no assembly required, and it rolls from storage to table for very quick setup/take-down.  
Item OPVA3

- Two throw wheels, for multiple spin options
- Multiple Oscillation Options
- Very durable, made with high quality materials
- Ball Recycling and Net Collection System
- Rolls easily from table for easy storage
- No-Jam, easy-feed engineering

FREE shipping to contiguous USA!

Go to [PaddlePalace.com](http://PaddlePalace.com) for more details and the owner's manuals.

**\$795<sup>95</sup>**

### Paddle Palace Table Top Pro

The Paddle Palace Table Top Pro is an affordable and quality robot that delivers strong and consistent topspin, underspin, and sidespin shots. It is simple to use and is jam free. The frequency and speed of the shots are controlled by convenient robot controls on the player's side of the table. It can be set to hit to one spot on the table, and it also has multiple oscillation options, both controlled and random. It can be set to shoot serves or rally shots. It can be placed on any location on the table, or it can be set on a stand behind the table (stand not included). A ball collection net is available for an extra charge. The Paddle Palace Table Top Pro is the easiest robot to set up and use that we have ever seen! Item OPVTT

- Versatile, shoots from any location on the table
- Outstanding topspin, underspin, sidespin
- Multiple Oscillation Options
- Set for serves or rallies
- Easiest robot to set up and use
- Net not included. Nets available. See p. 106

## PADDLE PALACE H2W TOUCH PRO ROBOT

### The Most Versatile High-Tech Robot + Easy to Use!

The Paddle Palace H2W Touch Pro Robot is a very versatile and user-friendly high-tech robot. The new LCD Touch Screen makes operation and programming of all functions of the robot very easy! Get started in seconds using one of the 30 built-in ball sequences with just a few touches on the screen. Making your own custom sequences is also simple, as the Touch Screen walks you step by step through the setup. You can save up to nine of your own favorite custom sequences, and you can easily modify the 30 built-in sequences. Whether you use built-in sequences or your own custom sequences, start-up is easy every time you play.

The new Spin Indicator Panel located just below the shooting head on the robot shows you the spin for each ball before it shoots. This makes playing with the robot more like playing with a human partner, as you can visually anticipate the spins on the upcoming balls.

The H2W Touch Pro Robot has two throw wheels with independently programmed motors, allowing a great variety and degree of spins, including topspin, underspin, sidespin, and no-spin. Plus the robot can seamlessly shoot consecutive shots with different spins.

There are 22 possible landing spots on the table including short and long balls, making possible any combination of spins and landing spots you choose. The H2W Touch Pro Robot is designed for the player who wants a high-quality long-lasting robot that is easy to use, yet offers the sophisticated technology for practicing the ideal training patterns to take your game to the next level.  
Item OPVH2

#### H2W Touch Pro Robot includes:

- Net Collection & Ball Recycling System
- Free 120 Nittaku training balls
- Free Shipping to contiguous USA
- 30-day money-back Guarantee
- One year limited Warranty

#### Spin Indicator!

Spin Indicator panel on the robot shows you the spin for each ball before it shoots.

#### LCD Touch Screen!

Operation and programming of all functions of the robot is very easy with the new Touch Screen.

## PADDLE PALACE S4W PRO ROBOT

### Taking Robot Technology to the Next Level

The Paddle Palace S4W Pro has two heads, each with two throw wheels. Both heads, and the four throw wheels, are all independently programmable, allowing you great flexibility in designing playing patterns and practice options. You can program a seamless combination of topspin and underspin (or side-spin or no-spin) shots in the same play sequence. The S4W Pro comes with an easy to use, comprehensive control box that is conveniently located at the player's end of the table. This heavy duty robot is ready to use right out of the box - for club or home.

You can use either one or both heads to produce their desired practice patterns. Use the single head to set up a specific serve or volley, or employ both heads to alternate seamlessly between types of spin, short and long balls, strong and weak balls, or high and low balls. Plus, you choose the landing spots, as well as the speed and throw frequency. Another advantage is you can set up one head to reproduce a realistic serve that hits the robot side of the table first, then complete the sequence with volleys from the 2nd head. The S4W is easy to use, yet provides the sophisticated technology and flexible programming to be your ultimate training machine. Item OPVS4

\$1499.95

\* Includes Shipping

### PADDLE PALACE S4W ROBOT INCLUDES:

- Free 120 Nittaku Super Training Balls
- Free Ball Pick-up Net
- Free shipping to contiguous USA
- 30-day money-back Guarantee
- One year limited Warranty

See [PaddlePalace.com](http://PaddlePalace.com) for details and owner's manual.

#### Throw Wheels – One, Two, or Four?

Robots with one throw wheel can shoot topspin, underspin, and sidespin. With two throw wheels, the two independently controlled motors make it possible for independent spin and speed settings. This results in a great range of spin options – light to heavy topspin, underspin, or sidespin – or no spin shots. Four throw wheels provides the greatest versatility of all, including serve and volley in the same training sequence.

#### Oscillation: Random (R), Controlled (C), Programmable (P)

Controlled Oscillation means you can set the robot to hit alternately only to the two widest points in the angle range, plus you can set the width of the angle. With Random Oscillation, the robot hits to the inner angles as well as the

widest angles. With Random Oscillation, where the ball lands depends on the frequency and speed settings you have chosen. Programmable Oscillation is the most versatile. It achieves everything Controlled and Random Oscillation does, plus you can program sequences of your choice for where the ball lands!

#### LCD Touch Screen

The LCD Touch Screen is a very easy and intuitive menu-based interface to control all functions of the robot.

#### Serve & Volley Sequences

The Robot can be set to serve and volley in the same sequence. So, for example, you can set a sequence to begin with a serve, then shoot

volleys to specific landing spots with spins of your choice for a realistic training pattern.

#### Topspin/Underspin Sequence

The robot can shoot topspin shots and underspin shots (and other spins) in consecutive shots in the same sequence.

#### Spin Indicator

The Spin Indicator is located just under the shooting head. Before the ball shoots, it shows you the spin type on next shot: topspin, underspin, right-sidespin, left-sidespin, right-side/topspin, left-side/topspin, right-side/underspin, left-side/underspin, or no-spin/deadball.

Each product comes with a 30 day money-back guarantee, 1 year warranty and free 5 year service policy.

FOR CURRENT PRICING AND SPECIALS, GO TO PADDLEPALACE.COM

Paddle Palace always offers the latest NEWGY web specials and offers.

Newgy Robots are affordable robots that provide hours of table tennis fun for the whole family. All Newgy Robots have one throw wheel, and they can throw topspin, sidespin, and underspin. They throw one spin at a time. The robots can oscillate to different landing spots (except for the Robo-Pong 540)

\$899\*

Newgy Robo-Pong 2050

Newgy's top robot has digital technology for easy, precise regulation of ball speed, wait time, and landing location. Normal Mode gives you simple manual control over each function, while in Drill Mode you can run any of 64 drills stored on the controller. Use PC Mode to create and save drills using a simple interface, then run those drills direct from your PC. Setup Mode makes it easy to calibrate motors to a set standard and select your desired language. Intelligent design also allows selection for right-handers and left-handers alike. Item: ON5 Package Includes:

- Ball Thrower (w/Oscillation)
- Recycling Net System
- Side Net Extenders
- Rubber Tips Packet
- Full Size Digital Control Box
- Transformer
- Connector Cable
- Owner's Manual
- Set-up DVD
- 48 Orange 40mm Robo-Balls
- Training Book

\$599\*

Newgy Robo-Pong 1050

Identical to the Robo-Pong 2050 except it does not have the Recycling Net System. Purchase a Ball Catch Net (sold separately) for ball capture and manual recycling. Or later on, upgrade to full 2050 capabilities with the Newgy Recycling Net Upgrade Kit. The 1050 Ball Bucket holds 200 balls for several minutes of non-stop play. Position the robot anywhere on top of table or mount it back from the table in the optional Robo-Caddy (sold separately) to get a variety of angles and trajectories. Item: ON1050

\$399\*

Newgy Robo-Pong 1040

Includes all features of Robo-Pong 540 plus it includes oscillation and more powerful speed and frequency controls. Bucket Extender expands ball capacity for longer continuous play. Item: ON1040

\$699\*

Newgy Robo-Pong 2040

Includes recycling net and ball recycle system for non-stop action. Can oscillate back and forth or set it to shoot to one landing spot. Can shoot topspin, underspin, and sidespin. Shoots one spin at a time. You can set the frequency, speed, and oscillation. Item: ON4

\$299\*

Newgy Robo-Pong 540

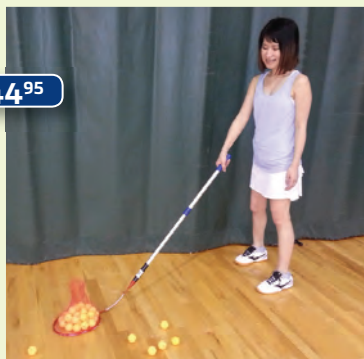

Ideal for the budget-minded recreational player. Lower speed and frequency ranges and static delivery accommodate untrained strokes. Set on top of table and twist base to change trajectory. Improved bucket design ensures reliable ball feed. Item: ON540

MORE COURT GEAR ON PAGES 106-107

My Ping Pong Buddy Ball Picker Upper

\$44.95

Quick, efficient way to pick up lots of table tennis balls off the floor. Long, length-adjustable aluminum handle makes it easy to reach balls under the table, under furniture, under feet, and all around the floor -- without bending over! Simply put the device over the balls, and they pop right into the net. If you use a robot or train with multi-ball, this table tennis ball collector will save you time, energy, and no straining your back! Made in USA. Item: MMCA

**STIGA - The Official Equipment Supplier to SPiN Galactic!**

SPiN Galactic is a galaxy of Ping-Pong social clubs. A place to hang out with old friends, meet new friends and play Ping-Pong while sipping a cocktail, or eating a snack, or perhaps watching a professional Ping-Pong match on SPiN's Center Court. Created by Academy Award-winning actress Susan Sarandon, Franck Raharinosy, Andrew Gordon, and Jonathan Bricklin; SPiN Galactic is spreading the love of ping pong around the world. Pictured at right is SPiN LA, state-of-the-art club in Los Angeles, California.

**PREMIUM COMPACT**

**The Ultimate in Table Design and Performance!**

Designed and engineered to combine a true tournament playing experience with the most efficient and user friendly chassis design ever produced by Stiga. The table ships 100% fully assembled from the factory. Commercial grade pistons engage when both opening and closing the table, which make this heavy-duty table feel almost weightless. Due to this innovative design, the table can be converted between play and storage position by only one person with minimal effort in less than 3 seconds. When in play position the table is rock solid from surface to ground and the 1" top surface is all you would expect from a flagship Stiga table that is ITTF approved. When placed into storage position, the table is extremely compact at only 22" wide and the machine grade 5" ball bearing casters make it effortless to move to about. Includes a tournament grade Premium VM net and post set. Size: 62 x 60 x 22 in folded position. Item: TEPC

**\$1799<sup>00</sup>**

ITTF Approved  
Made in Germany

**OPTIMUM 30**

The Stiga Optimum 30 sets a new standard for consistency and design in table tennis tables. With a 30 millimeter (1.2 inch) top, the thickest in the sport and 20% thicker than its closest competitor, the Optimum 30 has the most even and consistent bounce of any table. ITTF approved and made in Germany, this table represents the pinnacle of current table tennis tables.

The playing surface of the Optimum 30 is coated with a special varnish for the ideal amount of friction and the truest bounce. The edge and center lines are silk screened for even placement and professional appearance. The undercarriage features a 2.4 inch steel apron and 2.4 inch by 1.6 inch steel legs with levelers. The table separates into two halves, each with their own set of four 4 inch casters for easy movement and the two halves allow compact storage as well as use in playback position. The Optimum 30 also comes with a high-quality Stiga VM net set. Size: 61" x 60" x 26" in folded position. Item: TEOP3

## PERSSON 25

### Easy, Compact Storage!

This table has a 1" (25 mm) thick top and all-steel frame construction for durability. A unique undercarriage allows each table half to fold and roll individually, allowing for compact storage and easy rolling. The user can fold one side and use the table in playback position. Square steel legs, 2.25" x 1.5", and a total of eight wheels, four locking, ensure stability during play. Made in Germany. Measures 63" x 64" x 25" in folded positions. Item: TDPER

## ABOUT PURCHASING YOUR TABLE

### Table Top

Look for tables with thicker tops. Thicker tops give a more consistent bounce and are less likely to warp after years of use. The Paddle Palace recommends table tops of 3/4 inches or more.

### Net Set

Some tables have net posts permanently attached to the frame. These make setup and takedown a little quicker but may not be as adjustable or sturdy as separate net posts. Table price includes net set.

### Frame

Look for tables that have larger, sturdier legs and support frames. Sturdier frames contribute to a more consistent ball bounce and also help prevent top warpage. If you set up and store your table regularly, a larger frame increases durability.

### Wheels

Larger and stronger wheels are important particularly if you set up and store your table frequently.

### Table Shipment

Tables are shipped directly from the manufacturer by freight line. Delivery generally takes 2-3 weeks from the date of order. The delivery person will need assistance in unloading your table and will leave table at the curbside. Some tables require some assembly.

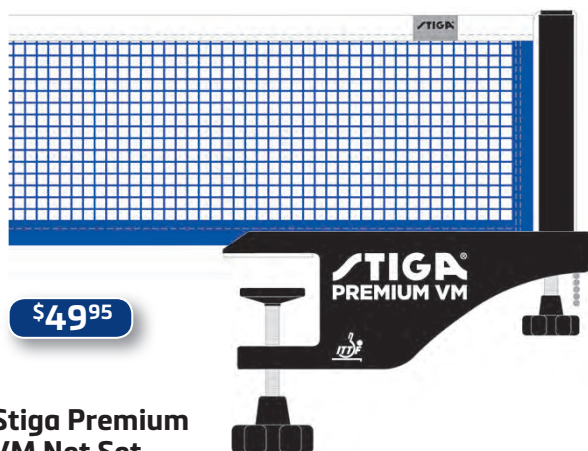

### Shipping Charge:

Price includes shipping!  
Some locations incur extra shipping charges. In that case, Paddle Palace will contact you before processing the order.

## SCOREBOARDS

**Stiga SensorScore \$99.95**

SensorScore by STIGA is the first and only hands-free, fully-automated table tennis scoring system. Utilizing innovative sensor technology, SensorScore turns the table tennis table playing surface into a nano-vibration detection field. Sensors attached under the table communicate contact data to the scoring unit which displays the score in real time. The system tracks and displays the score, announces the score and informs the players when it is time to change serve. Scores 11 or 21 points. Net set included. Net does not extend a full 6" from sides of table.

**SensorScore Features:**

- Digital scoring unit with vibrant led display and audio prompts
- Premium net and post set with integrated sensor
- Two surface vibration sensors easily mount under table
- Rail mounted master controller to control game settings
- Universal mounting design for regulation tables up to 1" thick
- Simple installation requiring only minutes to set up Item: MSSEN

**Stiga Scoreboard Large \$49.95**

Stiga Scoreboard Large is made of durable soft plastic. Scoring 0-21 points and game score from 0-5. Folds and snaps easily for storage. Length 49cm x width 23cm x height 27.5 cm. Color: Navy or Black. Item: MSSCL

**Tibhar Score Counter Time Out \$49.95**

Foldable plastic coated board with PVC numbers from 0 to 20 and 0 to 5(sets). Item: MTSCT

## BARRIERS

Barriers are sold in quantities of 3, 5, or 10

**Stiga Surrounds****Prices:**

BOOKS GREAT FOR GIFTS!!!

\$19.95

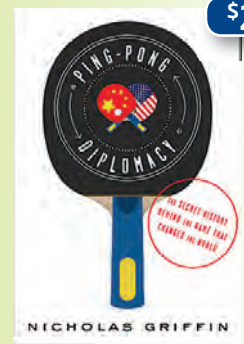

**Ping Pong for Fighters**

By Paralympic Gold Medalist Tahl Leibovitz  
Paperback. 152 pages / Foreword by Stellan Bengtsson

Tahl Leibovitz is known for his passionate play, creativity, and indomitable spirit. In **Ping Pong for Fighters**, he reveals the mind and heart of world-class table tennis – how champions think, act, and succeed, even when things don't go their way. Leibovitz identifies four main elements in competitive play: the environment, the ball, the opponent, and the self. If the player masters each element, he or she will eliminate unnecessary baggage from the game, finding themselves more resilient, focused, less frustrated, and better-equipped to handle the volatile nature of table tennis. In **Ping Pong for Fighters**, Tahl Leibovitz has developed a philosophy for the thinking and feeling player. Rather than teaching players to get into fights, **Ping Pong for Fighters** gives you tools to develop confidence, self-belief and a will-to-win that remains long after you've left the table. Here is what is being said about this book:

"For over a decade, Tahl and I competed together in international tournaments against the best players in the world. And while his magical hands and crazy shot-making skills are legendary, the one thing I can say for sure is that Tahl Leibovitz has the strongest will to win of any player I have ever seen. He is the ultimate ping pong fighter."  
– Mitchell Seidenfeld, World Champion and Paralympic Gold Medalist

\$25.95

**Ping Pong Diplomacy: The Secret History Behind the Game That Changed the World**

By Nicholas Griffin / 336 pages

Chosen Amazon Best Book of the Month January 2014. Hardbound. From Scribner.

Ping Pong Diplomacy tells the strange, tragic story of how the game was manipulated at the highest levels; how the Chinese government helped cover up the death of 36 million by holding the World Table Tennis Championships during the Great Famine; how championship players were condemned, tortured, and murdered during the Cultural Revolution; and, finally, how the survivors were reconvened in 1971 and ordered to reach out to their American counterparts. Through a cast of eccentric characters – from spies to hippies, ping pong-obsessed generals to atom-bomb survivors – Griffin explores how a neglected sport incited a realignment of world super powers. Price \$25.95. Item: MMBR

"Ping-Pong Diplomacy belongs in the category of 'you can't make this stuff up.' It reads more like a le Carré novel than diplomatic history. But the tale it recounts actually happened, and casts a new and provocative light on the U.S. Opening to China, one of the great foreign policy breakthroughs of the 20th century."  
– Anne-Marie Slaughter, author of A New World Order and The Idea That Is America

"Ping-Pong as a vehicle for international espionage? It's an idea so outlandish that, if it weren't true, some novelist would have to invent it. A remarkable story, well documented and excitingly told."  
– Booklist, starred review

NEW

**100 Days of Table Tennis**

By Samson Dubina, ITTF Coach, US National Team Member  
210 pages

Travel with top USA coach and player Samson Dubina on a 100-day table tennis journey. Each day, you will learn new skills about strokes, spins, drills, game tactics, training routines, and tournament performance. This book will give you the necessary tools to move past your competition both mentally and physically.

Here is what USATT National Coach and Hall of Famer Larry Hodges says about the book:

"One hundred days . . . if you live to be 82 years old, that's about 30,000 days. All Coach Samson asks is that you take just a few minutes an 1/3 of 1% of those days to learn something new.

"One hundred days . . . that's how long it'll take for coach and player Samson Dubina to lead you through these pages, a few minutes each day, with the goal of taking your game to the next level. He leads you

through eleven chapters: Beginnings, Strokes, Footwork, Serves &amp; Returns, Game Tactics, Practice, Tournaments, Mental Strength, Health, Equipment, and Your Future. Just reading the chapter titles gives you a pretty good idea of what you'll be doing. One hundred days . . . it starts with Basic Principles and Writing Out a Game Plan, and then you get to Strokes – which includes Body Position, Serve, Drive, Push, Loop, Block, Smash, Flip, Lob, Chop, Counterloop, The Perfect Strokes, The Important Shot, The Rocket Angle – and we're only through Chapter Two!

"One hundred days . . . it's a fraction of the time it takes a top coach like Samson to accumulate the knowledge and experience needed to coach at a high level, and it's yours for the price of this book and a few minutes for one hundred days.

"One hundred days . . . if FDR could push through most of the New Deal in that time, think what you could do with your table tennis game! It's about the right amount of time needed to learn and ingrain new techniques and begin the road to taking your game to the next level."

**Table Tennis Steps to Success**

Outstanding  
DVD!

\$58.95

INTERNATIONAL TABLE  
TENNIS SKILLS DVD

2 hours 17 min. \$58.95 Item: VMDDIN

Samson shares 19 years of knowledge that he has learned from 40 different coaches while traveling to Europe, Asia, and throughout North America. During the 2 hour 17 minute DVD, Samson explains each professional skill in a simple, step-by-step approach that you can be understood by all ages and all levels. Topics include - advanced footwork, drills, strokes, serve, serve return, looping, flipping, game strategy, training routines, mental strategies, and much more.

Here is what is being said about this DVD:

"Great tool to learn the proper technique and start playing table tennis like a pro!"  
- Doru Gheorghe (Olympic Coach)

"I had a chance to view your DVD a couple of times and plan to view the DVD several more times in the future. This video is a "one stop" shopping for those that want to improve their table tennis game either in practice or in tournaments!"  
- Philip Wu (Beginner Table Tennis Player)

"This fast-paced 2-hour DVD is packed full of expert coaching advice on strokes, mental game, and much more!"  
- Ariel Hsing (Olympian)

"What I like most about the DVD is Samson's ability to demonstrate the proper technique and how to apply it to match play!"  
- Sean O'Neill (Olympian)

"The DVD seems so personal. When I watch it, I feel like I'm getting a personal lesson just for me!"  
- Chris Jordan (recreational player)

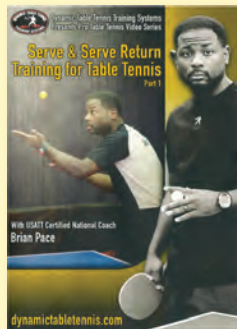

"This is one of the very best table tennis DVDs that I have ever watched!"  
- Carl Hardin (USATT Coach)

"Perfect for teaching the complicated table tennis technique in simple terms. Highly recommended to any athlete who wishes to improve their game and their knowledge of the sport!"  
- Richard McAfee (National Coach and Hall-of-Famer)

### PRO TABLE TENNIS SERVE RECEIVES

By Alpha. \$29.95. Item: VADSR

Serve receive is the most difficult part of competitive table tennis. This dvd shows over 250 examples of service returns executed by some of the best players in the world. The most popular options for receiving specific serves are included. The DVD is organized according to the type of service that is to be returned, whether long, short, underspin or topspin, to the forehand or the backhand. Alpha Productions shows the serve and the receive and how the point plays out. Then the sequence is repeated in slow and stop motion, occasionally employing graphics to illustrate the spin, and then it is played once more at regular speed. Commentary points out some of the significant factors for each receive. Item: VADSR

**\$14.95**

### TABLE TENNIS THE SPORT

51 mins. \$14.95. Item: VMDRTT

## NITTAKU 3-STAR PREMIUM 40+ BEST BALL BY ANY MEASURE

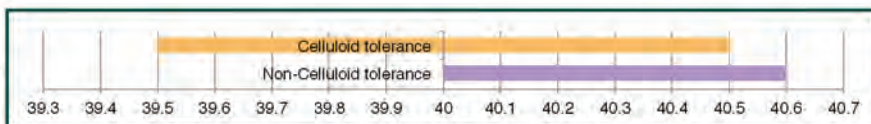

Poly balls were first approved by ITTF in 2014. Since that time there has been huge worldwide demand for the Nittaku 3-Star Premium 40+ ball, the only ITTF approved non-celluloid poly ball made in Japan. There are 218 member countries of the ITTF, among the highest international membership of any sport, so supplying this popular new ball is a tall order to fill. Throughout the process, Nittaku has never compromised on the quality of the ball that has made them famous. When you use the Nittaku Premium 40+ Ball, you know you are playing with the best.

What makes the Premium 40+ so great? As the saying goes, it is the Best Ball By Any Measure!

ITTF regulations for 40+ balls do not dictate the exact material it is made from, or how it is produced. In this regard, the only ITTF specifications are that the materials are not dangerous for health and they do not contain any celluloid. Nittaku uses the very finest material, unique to Nittaku, for their Japan-made Premium 40+ Ball.

For ITTF Approval, the new poly balls must conform to

	40	40+	Comparison
1. Weight	2.67 - 2.77 gm	2.67 - 2.77 gm	SAME
2. Rebound	240 - 260 mm	240 - 260 mm	SAME
3. Veer	Max 2 out of 24 balls may fail > 1x		SAME
4. Roundness	< 0.35 mm	< 0.25 mm	40+ is better
5. Diameter	39.5 - 40.5 mm(1.0 range)	40.0 - 40.6 mm (.6 range)	40+ more precise, Max slightly bigger
6. Hardness	P: 0.68 - 0.81 / S: 0.72 - 0.83	P: 0.68 - 0.81 / S: 0.72 - 0.83	SAME for seamed
		R: 0.70 - 0.90 (seamless)	Wider range for seamless than seamed

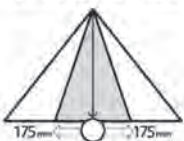

1. **Weight** must fall between 2.67-2.77gm.
2. **Rebound** after the ball is dropped from 305 mm to a steel plate must be between 240 – 260mm.
3. **Veer**: Ball rolls on 1 meter ramp at 14 degree incline with no more than 175mm deviation from center line.
4. **Roundness**: difference between maximum and minimum diameter on same ball cannot be more than .25mm (for 40 balls it is .35mm)
5. **Diameter**: plastic 40+ has more precise range and slightly higher maximum.
6. **Hardness**: Measured as indentation of ball at force of 50 Newton. (P: both poles, S: seam, R: random spots). Requirement is less strict for seamless ball: total variation seamed ball = 0.15 vs seamless ball = 0.20.

measurable standards for Weight, Diameter, Roundness, Rebound, Veer, and Hardness. See the chart above, showing a comparison of the old requirements and new requirements. The ITTF specifications for the new 40+ balls are the same as they were for the previous 40 balls, except they are more strict now for Diameter and for Roundness.

ITTF changed the 40+ poly ball diameter range to be stricter and the diameter maximum to be very slightly bigger (see Ball Diameter chart). Now the range is 40.0 – 40.6 whereas before it was 39.5 – 40.5. The reason given is that the manufacturers were making the celluloid balls smaller than 40.0 on the average. Since diameter is one of the easiest properties to control during production, ITTF decided to improve the requirements.

**VEER\***  
 $175 > \text{O} < 175 \text{mm}$   
 Incline 100mm at 14 degrees for 1,000 mm with no more than 175 mm deviation from center-line on a 350 mm track

As players know, Roundness greatly affects the consistency and playability of table tennis balls. ITTF made the Roundness specifications more strict, from a tolerance of <0.35 mm to <0.25 mm for the difference between the maximum and minimum diameter on the same ball. Roundness is also tested with the Veer test (see diagram at left). For this test, balls are rolled for one meter on a 14 degree

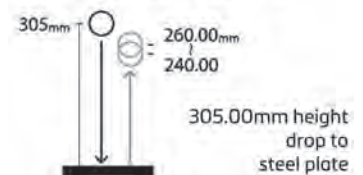

incline, and the rolling balls must not deviate outside of 175 mm from the center line.

Here again, with the Veer test and all others, Nittaku exceeds ITTF requirements. Nittaku is more strict with their own ball testing than ITTF. If a ball is not good enough, it simply does not become a Nittaku Premium 40+ ball.

Of course, what players really care about is how the balls play. Are they round? Are they consistent? How long do they last? Are they a pleasure to play with? The good news is YES, this ball exists! The Nittaku 3-Star Premium ball exceeds all ITTF specifications, plus of all poly balls it most closely resembles the playing characteristics that players appreciated about the old celluloid balls. For the Nittaku 3-Star Premium 40+ Ball, made in Japan by Nittaku, quality is never compromised. This is the Best Ball By Any Measure.

**BOUNCE\***

240.00~260.00mm  
 (Deviation: 0.20mm)
