

Pro Special Paddles

paddlepalace.com

#### Welcome, Paddle Palace Friends!

We want to thank you our wonderful table tennis community for your support over the years. 2023 marks our 50th year as Paddle Palace!

Fifty years ago, in autumn of 1973, the original Paddle Palace opened in downtown Portland, Oregon. It was the first full-time professional table tennis club in the USA. Open seven days a week, 12 hours a day, Paddle Palace attracted players from all over the country and the world. The most premier table tennis club in its time, it was named "Paddle Palace" because the main playing room was in a former ballroom of an historic Elk's Club building, a "palace" with Greek-style columns, chandeliers, and carved angels in the ceiling.

Paddle Palace has always supplied table tennis equipment for our customers, and in the late 1970's our equipment division became a full-time endeavor, first as a mail order company with monthly newsy catalogs and full-time phone customer service, then adding a website as soon as internet technology was available. Paddle Palace grew to be the trusted #1 North American Distributor for the major brands of table tennis. Staying true to our roots, we opened our latest professional Paddle Palace Club next door to our equipment division after we moved to our beautiful new building in 2015.

To celebrate the 50th Anniversary of Paddle Palace, we are very excited to bring you a whole new line of Pro Special Paddles! Since we are players and lovers of table tennis, just like you, we are offering the blade/rubber combinations our Paddle Palace staff plays with as a new line of Pro Specials. Please check out our Staff Pro Specials (pgs 8-9), plus the new Champion Pro Specials (pgs 10-11), in addition to our traditional Tournament Pro Specials (pgs 4-7)!

Table tennis is our life and passion, and we are dedicated to continuing to offer outstanding products and service to our customers.

Thank you again for your support!

Best Regards,

Judy Hoarfrost, President

We have assigned an overall speed and spin rating for each Pro Special. These ratings take into consideration the combined characteristics of the blade, rubber, and sponge thickness. The ratings are intended as a tool only for comparing these particular blade/ rubber combinations. Choose the **Pro Special** that is best for your game, and enjoy great savings!

# STIGA CYBERSHAPE CARBON (flared or penhold) with DNA Platinum XH Rubber (2.3mm sponge)

Playing Style: Aggressive Offense Overall Rating: Speed: **97** Spin: **98** 

Step into the future with this unique Pro Special! This is the same combination used by Trüls Moregardh, 2021 World Championship Silver Medalist. The ideal choice for dominating offensive players, with the increased sweet spot in the hitting area.

[Shakehand Item# ZZSSCYB312 | Penhold Item# ZZPSCYB312]

\$335.95 (reg \$394.85)

# STIGA CLIPPER CLASSIC (flared or penhold) with DNA Platinum M Rubber (2.1mm sponge)

Playing Style: Modern Offense Overall Rating: Speed: **91** Spin: **98** 

Combined, this is the absolute choice for playing a

fast offensive topspin game.

[Shakehand Item# ZZSSCLIN311 | Penhold Item# ZZPSCLIN311]

\$**186.95** (reg \$219.85)

## STIGA ALLROUND CLASSIC (flared or penhold)

with DNA Future M Rubber (2.1mm sponge)

Playing Style: Allround Control Overall Rating: Speed: **76** Spin: **82** 

Together this combination is ideal for allround players, and especially recommended for those looking for their first competition paddle.

[Shakehand Item# ZZSSALCN309 | Penhold Item# ZZPSALCN311]

\$**114.95** (reg \$134.85)

#### ANDRO SYNTELIAC ZCO OFF/S (flared)

with Rasanter R53 Rubber (max sponge)

Playing Style: Modern Offense Overall Rating: Speed: **98** Spin: **97** 

This combination is recommended for aggressive offensive players who require excellent control at high speeds.

[Item# ZZSASZ0312]

\$238.95 (reg \$280.85)

#### DONIC ORIGINAL CARBOSPEED (flored)

with Bluestar A1 (max sponge)

Playing Style: Aggressive Offense Overall Rating: Speed: **98** Spin: **99** 

This paddle is recommended for all out attacking players with heavy topspins.

[Item# ZZSDOVP303]

\$174.95 (reg \$204.85)

#### DONIC PERSSON POWER ALLROUND (flared)

with Desto F4 Rubber (2.0mm sponge)

Playing Style: Allround Spin

Overall Rating: Speed: 78 Spin: 88

This combination allows easy transition and is ideal for those who seek accurate placement and variation in their play.

[Item# ZZSDPPO304]

\$94.95 (reg \$109.85)

# Nittaku

#### NITTAKU ACOUSTIC CARBON LG GRIP (flored)

with Fastarc G-1 (2.0mm sponge)

Playing Style: Modern Offense Overall Rating: Speed: **94** Spin: **96** 

This paddle is the perfect combination for offensive minded players that want to dominate counter looping rallies.

[Item# ZZSNACL308]

\$237.95 (reg \$279.85)

#### NITTAKU LATIKA LIGHT (flared)

with Factive (2.0mm sponge)

Playing Style: Allround Offense Overall Rating: Speed: **87** Spin: **92** 

Recommended for the allround or intermediate level player looking for a balance of offensive capability and excellent control.

[Item# ZZSNLAL311]

\$122.95 (reg \$144.85)

#### TIBHAR FORTINO FORCE (flared)

with Hybrid K1 Rubber (max sponge)

Playing Style: Offensive Spin Overall Rating: Speed: **93** Spin: **97** 

The combination of catapult and extremely high rotation, due to the sticky rubber surface, opens up to all topspin players undreamt-of possibilities, from half distance and even close to the table.

[Item# ZZSTFFC309]

\$188.95 (reg \$221.85)

#### TIBHAR SAMSONOV FORCE PRO (flared)

with Evolution MX-P Rubber (2.1mm sponge)

Playing Style: Aggressive Offense Overall Rating: Speed: **96** Spin: **96** 

This combination is recommended to the offensive player that wants to excel in the aggressive topspin game.

[Item# ZZSTSAF298]

\$152.95 (reg \$179.85)

#### TIBHAR STRATUS POWER WOOD (flared)

with Evolution FX-S Rubber (2.1mm sponge)

Playing Style: Modern Offense Overall Rating: Speed: **91** Spin: **97** 

This combination is ideal for a wide range of offensive players that use spin to take the initiative.

[Item# ZZSTSPW305]

\$155.95 (reg \$182.85)

# **Yasa**ка

#### YASAKA MA LIN EXTRA OFFENSIVE (flared or penhold)

with Mark V Rubber (max sponge)

Playing Style: Allround Offense Overall Rating: Speed: **85** Spin: **80** 

This combination is recommended for a wide variety of allround to offensive players focused on controlled shots.

[Shakehand Item# ZZSYMAE299 | Penhold Item# ZZPYMAEC299]

\$108.95 (reg \$127.85)

## RUBBER

# HOW TO CHOOSE

Rubber sheets come as a square in a sealed package. The rubber is custom-assembled to a blade after the player makes their blade and rubber choices. Paddle Palace will assemble rubber to the blade as a free service upon request.

One rubber sheet covers one side of a blade, two rubbers are required to cover both sides. ITTF regulations require black rubber on one side and a contrasting color on the other.

#### **4 MAIN RUBBER TYPES:**

- **Smooth:** Most players use smooth (also called "inverted") rubber. The surface is smooth with a layer of sponge underneath. Smooth rubber provides the most spin and is used by over 85% of tournament players.
- Short Pips, or "pimpled" rubber, has a bumpy surface and usually has a layer of sponge underneath. It is used by players who do not execute a great deal of spin in their game. It often provides more control if you have difficulty playing against spin. "Hard rubber" is the term for short pips rubber with no sponge, used primarily for Classic or Hardbat play.
- Long Pips rubber has extra-long pips that reverse the spin of the opponent. Unpredictability of spin from long pips can give the player an advantage over the opponent who has not learned to read the spin. It is difficult to play offensively with long pips, so most players who use long pips only use it on one side.
- Anti-Topspin rubber has a smooth surface and does not generate much spin/speed. Anti rubber neutralizes opponent's spin. Most players using anti block with it on one side and use different rubber on the other.

#### **CHOOSING RUBBER:**

- **Speed vs. Spin:** With so many rubber sheets, how do you choose? The Paddle Palace Rubber Ratings are a good place to start. Look at the speed/spin ratings of the rubber and match one to your playing style. Offensive players who use topspin, drive, loop, and smash usually prefer rubber with a high speed rating, while defensive players who primarily use underspin, chop, push, and block usually prefer slower rubber. Loopers and choppers prefer rubber with a high spin rating. The faster or spinnier a rubber is, the harder it is to control. and is also more affected by the opponents' spin.
- Sponge Thickness affects the speed of the rubber. Thicker sponge = more speed and more spin. Thinner sponge = more control. Thicker sponge adds weight to the paddle and gives a more cushioned feel. Thinner sponge is lighter and gives a woodier feel. Offensive players prefer 1.8 to 2.5mm. Allround players prefer 1.5 to 2.0mm. Defensive players prefer OX (no sponge) to 1.6mm. Loopers prefer thicker sponge. Choppers prefer thinner sponge. Developing players needing more control should choose a thinner sponge that fits their playing style.
- Sponge Hardness affects spin, speed, control, and feeling. A soft sponge offers the most control and feeling and often suits beginners and intermediate players. Medium sponge suits players with an allround game who appreciate touch/control but also like to place powerful strokes. Harder sponge brings the most power and speed, and is favored by aggressive, well-practiced, higher level players trying to win the point outright with powerful strokes, and who need additional power when playing back from the table.

#### **RUBBER RATINGS:**

Rubbers are assigned ratings for Speed, Spin, & Control on a scale of 10 to 99. The higher the rating, the higher that attribute. Paddle Palace ratings use a universal scale which differs from the manufacturers' ratings so that rubbers from all brands can be compared.

Ratings are intended only as a tool for helping to select rubber. Naturally, speed, spin, and control are greatly affected by an individual player's skill, strokes, playing style, and blade.

This Paddle Palace catalog includes **Comparison Charts** with all the rubber ratings, so you can see it at a glance.

Go to **PaddlePalace.com** for interactive filters of all the rubber attributes, viewable from both a Thumbnail View or Chart View.

#### TAKING CARE OF YOUR

# TABLE TENNIS RUBBER

Table tennis rubber is one of the biggest investments players make in the sport. A new sheet of rubber, right out of the package, is beautiful and clean and fresh. As soon as you play with it – in no time at all – dirt, oil, dust, grime, nicks, and dead spots find their way onto your originally pristine rubber. Without proper cleaning and care, your rubber will get old quickly. So it is a good idea, both performance-wise and budgetwise, to do everything you can to prolong the life of your rubber.

#### **CLEAN YOUR RUBBER!**

Dirty rubber will cause the surface to be less tacky and spinny. It will also play inconsistently due to the surface of some areas being different from others. This results in a lack of touch. When you see players breathe on the racket and wipe it with their hands, usually it is because they have noticed their rubber has a dirty spot, or they are ensuring against it. Although in a pinch it is tempting to clean your rubber in this way, it is not recommended! The less you touch the surface of your rubber, the longer it will last.

It is best to use a cleaner that is specifically made for table tennis rubber. People sometimes ask if it is ok to use household detergent.

We advise against this, because these often have chemical elements that can leave unwanted residue on your rubber, can cause it to deteriorate too quickly, and/or it can have solvents that will fail a racket test. Using plain water is a safe option. However, water will not remove some oils from your rubber. It does not give the desired back-to-newer-condition that rubber cleaner does.

Spray one or two sprays of cleaner on one rubber, then wipe it with a sponge or lint-free cloth. Most kitchen sponges won't do because they leave bits of sponge on your rubber, and many towels are too abrasive or leave pieces of lint. For this reason, we recommend a table tennis sponge. Check our Paddle Care section (pg 54) for an assortment of sponges.

Always clean your rubber at the end of each playing session, and any time it seems dirty or you notice decreased or inconsistent performance.

#### **COVER YOUR RUBBER!**

As soon as you open a new rubber sheet, it starts to lose its newness. Even new and unused paddles will deteriorate over time. When rubber is covered, it stays new much longer. The plastic protects the rubber surface from air and elements, and keeps it from inadvertently rubbing up against anything, including your paddle case.

We like adhesive protection sheets because they actually stick to the rubber. No air gets to the rubber and the sheet stays on. Protection sheets come in squares. You can cut it to fit the size of your rubber, or leave it as is.

#### **KEEP YOUR PADDLE IN A CASE!**

After you clean your rubber and cover it in plastic, then put it in a paddle case. Cases provide padding and protection, they keep the paddle out of direct sunlight, and they help keep it clean. The best case is one that is roomy enough to insert and remove your paddle without the rubber scraping against the case. We also recommend using a case with an opening that allows you to insert and remove the paddle by the handle so that it is not necessary to touch the rubber. Keep your paddle at room temperature and away from sunlight. Do not leave rubber sheets or your paddle in a hot car.

#### **USE EDGE TAPE!**

Edge tape around the edge of your paddle makes a significant difference in the number of nicks and splits on your blade edge and it helps keep your rubber edges from chipping. Our pros at Paddle Palace prefer edge tape that covers some or all of the rubber in addition to the blade edge.

Eventually you will need to change your rubber or get a new paddle.
But if you take care of it, your rubber will last much longer!

#### How to read the

# **RUBBER CHARTS**

**SPEED/SPIN/CONTROL** Ratings are on a scale of 10 to 99, with the higher the rating, the higher that attribute. These ratings use a universal scale which differs from manufacturers' ratings, so that the rubbers from all the brands can be compared. Ratings are meant only as a tool to help select rubber. Naturally, speed, spin, and control are affected by a player's skill, strokes, and playing style.

**SPONGE THICKNESS** is shown in millimeters. The measurement includes only the sponge (not the topsheet). Often the manufacturer indicates "MAX" for the thickest sponge available for a rubber. MAX thickness can vary from brand to brand, but usually means the sponge is approximately 2.3 to 2.5mm. MAX means sponge and topsheet together measure 4.0mm, since this is the maximum thickness allowed under ITTF regulations. All rubber sheets at Paddle Palace are of ITTF-legal sponge thickness.

**SPONGE HARDNESS** is indicated with the relative values: S = Soft, MS = Medium-Soft, M = Medium, MH = Medium-Hard, and H = Hard.

**COLOR:** Rubber sheets are available in both black and red unless otherwise indicated. Some rubbers have additional colors available. Look for the color dot ( • • • • ) next to the chart listing. One package contains one rubber, and will cover one side of a blade.

Rubber Comparison Charts are listed by brand, and are included on each page of the specific brand section.

Paddle Palace will glue rubber to the blade at no extra charge upon request.

One rubber sheet will cover one side of a blade. No returns on custom-made paddles.

#### **ALL NEW BLUESTAR RUBBERS**

With the latest Optimized Energy Sponge technology!

#### Bluestar A1

Sets new standards with fantastic catapult and speed characteristics. Only slightly sticky but extremely grippy topsheet.

SPEED .....98 SPIN ......99 CONTROL .... 68 Hardness ..... H Thickness .... 2.0 / Max

Item# RDBSA1 \$64.95

#### Bluestar A2 NEW

SPEED ......97 SPIN ......99 CONTROL .... 69 Hardness ..... H Thickness .... 2.0 / Max Item# RDBSA2

#### Bluestar A3 NEW

The softest of the Bluestar rubbers. Extremely catapult-strong, dynamic, perfect balance between speed, spin and control

SPEED ..... 92 SPIN ......99 CONTROL .... 70 Hardness .... M Thickness .... 2.1 / Max Item# RDBSA3 \$64.95

#### All Donic Bluestorm Z Rubbers are available in Blue color.

\$64.95

#### Bluestorm Z1 Turbo

POWER PERSONIFIED! For uncompromising attackers!

SPEED ......98 SPIN ......97 CONTROL .... 67 Hardness ..... H Thickness .... 2.1 / Max Item# RDBZT \$52.95

#### Bluestorm Z1

A LIGHTNING STRIKE! The hardest and fastest of the Bluestorm Z versions.

SPEED ......97 SPIN ..... 97 CONTROL .... 69 Hardness ..... MH Thickness .... 2.1 / Max Item# RDBZ1 \$52.95

#### Bluestorm Z2

A POWERFUL STORM! Great speed, enormous rebound.

SPEED ......95 SPIN ......97 CONTROL .... 70 Hardness .... MH Thickness .... 1.9 / 2.1 / Max Item# RDBZ2

#### Bluestorm Z3

A THUNDERBOLT! Considerably softer sponge for topspin.

SPEED ......91 SPIN ......97 CONTROL .... 73 Hardness .... MS Thickness .... 1.9 / 2.1 / Max Item# RDBZ3

#### Bluestorm Pro

Very fast, ensuring may speed and spin

# TIBHAR TICHOOSE YOUR EVOLUTION

#### **Evolution EL-D**

Newly developed sponge offers higher dynamics with a softer feel and shows its enormous power especially in topspin.

\$64.95

#### **Evolution FX-D**

Plays noticeably different than the FX-P and FX-S versions in terms of performance, spin and speed.

#### **Evolution MX-D**

Optimal balance between the power of Evolution P rubbers with the spin of the S rubbers.

#### Evolution MX-P 50°

Noticeably different than the original MX-P, with increased forward and direct trajectory & speed.

#### **Evolution MX-P**

Perfect blend of pips geometry gives more flexibility and energy on attack.

\$59.95

Thickness .... 1.5 / 1.7 / 1.9 / 2.1 Item# RTEVMP

EVOLUTION INJA-VAV

#### **Evolution MX-S**

Spin-oriented dynamic rubber.

#### **Evolution EL-P**

Most elastic of Evolution series.

#### **Evolution EL-S**

High grip Pro top sheet, max spin.

SPEED ........96 SPIN .......97 CONTROL ....69 Hardness .... M Thickness .... 1.7 / 1.9 / 2.1 Item# RTEVES \$59.95

#### Evolution FX-S PRO SPECIAL

Flexible medium sponge, max spin SPEED ......94 SPIN .....97

\$59.95

#### **Evolution FX-P**

Delivers sensation & control.

# WAR T

#### Hybrid MK NEW

Combines everything that defines top player Kenta Matsudaira's playing style: extraordinary touch, high spin potential, a long contact time and enough reserves in speed to put the pressure on your opponent.

#### Hybrid K3

Enormous tackiness combined with powerful catapult effect.

#### Hybrid K1 PRO

# Nittaku

#### **FASTARC** TECHNOLOGY

Fastarc is *Fast* with an *Arc.* For players who desire high speed balls, ideal arc, and powerful topspin and touch for all your strokes.

#### PRO SPECIAL

#### Fastarc G-1

This is the "Grip First" version of Fastarc. Features a Tension Spin top sheet and Strong Sponge. For players who desire high speed balls, ideal arc, powerful topspin, and touch for all strokes of your game.

The grippy topsheet teamed with the explosive sponge makes Fastarc G1 the #1 rubber worldwide that combines speed, spin, and precision. It is a very popular rubber among players of all levels. Particularly known for its excellent spin generation. The topsheet is very grippy and allows players to put a lot of spin on their shots, even when looping against backspin.

#### Fastarc C-1

Ingenious creation from Nittaku combining a tension spin topsheet with a soft strong sponge. This combination creates incredible grip and speed to allow players to create artistic shots.

\$49.95

#### Fastarc P-1

Power-first version generates explosive power along with great spin. Features a Tension Power topsheet and strong sponge.

Item# RNFP1 \$49.95

#### Fastarc S-1

Speed-First version of Fastarc, features a Tension Speed top sheet and soft strong sponge. Great for high speed balls, ideal arc, powerful topspin, and excellent touch for all strokes.

#### Hammond Z2

Fantastic "bulkhead" sponge, creates max power while reducing energy loss, and strengthening repulsive force. Provides a superior grab feeling.

Thickness .... 1.8 / 2.0 / Max

Item# RNHZ2 \$59.95

#### **Factive**

PRO

Great tension rubber! Top sheet has special materials that enable strong power, with inward pimples shaped to provide a good bite feeling.

Item# RNFTV \$39.95

#### Sieger PK50

Sieger means "winner" in German. The "S touch sheet" with high spin performance and grab and fly PK50 pink sponge.

#### **HURRICANE PRO 3 TURBO**

A tacky/sticky topsheet made in China is combined with high-quality, high-elasticity sponge made in Japan.

#### Hurricane Pro 3 Turbo Blue

Harder sponge than Turbo Orange and gives extra power. Only available in black.

#### Hurricane Pro 3 Turbo Orange

Active Charge (AC) technology improves speed performance. Available in red & black.

\$49.95

# SHAKEHAND BLADES

If you like to hold a paddle like you're shaking hands, then these are the blades for you!

Over 90% of the blades we sell are Shakehand style.

#### **Blade Selection Guide**

#### HANDLE STYLE

Handle style is a personal decision – shape and size that feels best in your hand is what you should use. For shakehand players, flared handles are the most popular, followed by anatomic and straight. The code for flared is FL, straight is ST, anatomic is AN. The Donic Dotec blades have a unique cork handle that is designed for either a left-hander or right-hander. The code is LEFT and RIGHT. Nittaku offers a few blades with a unique ergonomic handle, ERGO, which is comfortable for using with both a shakehand or penhold grip.

#### **SPEED**

The CLASS Speed ratings of the blades range from the fastest (OFF+) to the slowest (DEF-). OFF means offensive, ALL means allaround, and DEF means defensive. In general, offensive-style players prefer blades ranging from OFF+ to ALL+. Allround players prefer blades ranging from OFF-to ALL-. Defensive players prefer ALL to DEF- blades.

Besides CLASS ratings, Paddle Palace has a universal number rating system for speed and control so that blades from all the various brands can be compared on the same scale. In basic terms, the faster the speed rating, the farther the ball bounces off of the blade, given an equal amount of force. Keep in mind that generally the faster the blade, the more skill it takes to control it. Also, the rubber applied to the blade makes a huge difference in the speed and control of the paddle. A player's skill level, playing style, rubber used, and interaction of those factors, impact the amount of speed and control that a player experiences. Therefore, the speed and control ratings are only a general tool for choosing a blade.

#### **WEIGHT**

Most blades weigh between 70 and 100 grams before rubber is applied. An average weight is around 86 grams. Some players feel that a heavier blade provides more power but other players would disagree. Some players feel that a lighter blade is quicker, but again, there are varying opinions on this. Remember: power and quickness are not just functions of the blade, but mainly the skills of the player. Like handle style, ideal blade weight is the weight that feels best. Note: individual blade weight may vary.

#### **PLIES**

The number of plies (wood layers) of a blade normally ranges from one to seven, with five being the most common. There are many blades on the market that add thin plies of materials such as carbon, glass fibre, titanium or kevlar to an otherwise all-wood blade. These non-wood plies may add speed or a different feel to a blade. Some players feel that mixed-ply blades offer a larger sweet spot, and/or possibly result in added control. With or without non-wood plies, every blade has a unique feel, and only by experimenting will you discover what works best for you. We indicate the number and composition of the plies: W=Wood, C=Carbon, G=Glass Fiber, F=Fiber, D=Dyneema Fiber, Z=Zylon, T=Titanium, K=Kevlar, A=Arylate.

#### **BLADE HANDLE COMPARISON CHART KEY**

FL = Flared / ST = Straight / AN = Anatomic / ERGO = Ergonomic / CH = Penhold Chinese Style / J-1, J-2 = Penhold Japanese-style

#### Paddle Palace **PRO SPECIALS**

Paddle Palace has created brilliant blade+rubber combinations with an emphasis on perfectly matching your playing style – and for a super special price!

These blade/rubber combinations are popular with tournament-caliber players and are well-suited to a wide range of playing styles. Each Pro Special paddle is custom pre-assembled with smooth, inverted ITTF-approved rubber, with black on one side and red (or alternate color) on the other.

#### Paddle Palace COMBO SPECIALS

Combo Specials are a great bargain for professional blades with rubber. We offer a selection of the most popular blades as Combo Specials.

The price includes everything you need for a complete paddle: blade and two sheets of rubber. Penhold Combo Specials include penhold blade and either one or two rubbers, as indicated. Assembly (cutting and gluing the rubber to the blade) by our expert staff is free, or you can choose to receive it unassembled. We apply free edge tape, and shipping is free to USA.

Rubber options include all rubbers from STIGA, NITTAKU, TIBHAR, JUIC, DHS, DONIC, ANDRO, DR NEUBAUER, and YASAKA. No extra charge for any rubber with current price under \$55. Over \$55, there is an extra charge per sheet.

\* Extra charge for each rubber priced over \$55: Up to \$55 = no extra charge // Any rubber over \$55, will be charged the difference in price.

#### How to read the

# **BLADES CHARTS**

**HANDLE SHAPE:** FL = Flared / ST = Straight / AN = Anatomic / ERGO = Ergonomic

**PLY** (number of layers + type): W=Wood, C=Carbon, G=Glass Fiber, T=Titanium, K=Kevlar, A=Arylate, Z=Zylon, F=Fiber, D=Dyneema Fiber

THICKNESS: Thickness of blade, shown in millimeters.

**WEIGHT:** The average weight of each blade is indicated in grams. Individual weights may vary.

**CLASS:** OFF = offensive blade, ALL = allround blade, DEF = defensive blade. The class of blade ranges from fastest [OFF+] to slowest [DEF-]. The rubber sheet that is applied to the blade will naturally affect the speed of the paddle.

**SPEED**: The higher the number, the greater the speed, meaning bounce per force input.

**CONTROL:** The higher the number, the greater the control. Use to compare relative blade control. Naturally, control ultimately is most dependent on player's skill.

Blade Comparison Charts are listed by brand, and are included on each page of the specific brand section.

TIBH

Paddle Palace is happy to assemble blades with rubber at no extra charge upon request.

One rubber sheet will cover one side of a blade. No returns on custom-made paddles.

#### **NEW CYBERSHAPE CWT** TECHNOLOGY

Custom Weight Technology innovation allows you to adjust the weight and balance of the blade

#### NEW

#### Cybershape Carbon CWT Truls Edition

Developed in cooperation with vice-world champion Truls Möregårdh, this offensive blade with the Cybershape registered design is combined with Stiga CWT. Specially designed weights for Truls's three favourite shots: the chop, push, and slap. Unique lens and printed, gold-coloured design featuring Truls's characteristic victory stance. Includes a fan card featuring Truls.

## Hunter

## **ALL NEW CALDERA** BLADES

FEEL THE HEAT with these new premium carbon blades.

## **A BRAND** APART

Our Hunter brand has a rich history. Developed in the 1980s, the original blades were made by hand in our Paddle Palace warehouse. Over the years, we expanded our line of blades to include the finest wood and carbon technology with premium construction and quality. We're excited to evolve our Hunter brand again, with a new logo and fantastic, top-of-the-line blades.

## **APEX** BLADES Reach the summit!

(includes 2

## **SABRE 7** BLADE

Named in honor of the very first Hunter blade, the Sabre, this all-wood blade sets a new standard.

## **Black Widow**

Outstanding feel for the quick exchange. Great for the loop, counter-drive, kill-shot & drop-shot.

## Equalizer

Medium-fast with excellent control for the allround player.

## Flame

Extremely light blade. Fantastic lightness and versatility.

CLASS ..... ALL+

## PENHOLD BLADES

If you hold your paddle like you would hold a pen or pencil, then you should choose a Penhold blade. There are 2 main styles of penhold blades: Chinese & Japanese.

Chinese Style... normally has a rounded head, similar to a shakehand blade head, but often somewhat smaller. The Chinese-style handle is smaller and shorter than a shakehand handle.

All Chinese-style penhold blades (C) are suitable for putting either one or two rubbers on the blade.

Japanese Style... has a handle with a protrusion on one or both sides around which the player wraps the index finger. The Japanese-style blade head is often more squarish in shape, but it can vary from roundish to squarish.

Some Japanese-style penhold blades are designed for applying just one rubber (J-1), and some are suitable for applying one or two rubbers (J-2).

Penhold-style blades are used by fewer than 10% of players in North America, although the popularity in Asia is 20-40%, with younger players favoring the shakehand style.

See the Blade Selection Guide on page 31 for information about choosing Blades and Combo Specials.

in a blade with a unique playing feel.
The extended ball/ sweet spot contact, you have better control

## **REC PADDLES**

Rec Paddles are
pre-assembled by
the manufacturer
and are designed for
players who are
newer to the sport,
or who primarily
play recreationally.

The characteristics and prices are well-suited for developing players in schools, homes, and rec centers.

The Class ratings here are on a different scale from the ratings of blades and rubbers, and are intended only for comparison with other pre-assembled Rec Paddles.

Rec Paddles are generally slower, impart less spin, and have more control than the pro gear. Choose a Rec Paddle with thicker sponge for more speed and spin.

## TABLE TENNIS

## ROBOTS

FREE SHIPPING ON ALL ROBOTS.

For owners manuals and details go to PaddlePalace.com

THROW WHEELS – One, Two, Three or Four? Robots with one throw wheel can shoot topspin, underspin, and sidespin. Two throw wheels make it possible for independent spin and speed settings. This results in a great range of spin options – light to heavy topspin, underspin, or sidespin – or no spin shots. Three and Four throw wheels provides the greatest versatility of all, including serve and volley in the same training sequence.

OSCILLATION: Random, Controlled, Programmable: Controlled Oscillation means you can set the robot to hit alternately only to the two widest points in the angle range, plus you can set the width of the angle.

With Random Oscillation, the robot hits to the inner angles as well as the widest angles. Where the ball lands depends on the frequency and speed settings you have chosen. Programmable Oscillation is the most versatile. It achieves everything Controlled and Random Oscillation does, plus you can program sequences of your choice for where the ball lands.

### LCD TOUCH SCREEN/SMARTPHONE APP:

The LCD Touch Screen or Smart Phone App is a very easy and intuitive menu-based interface to control all functions of the robot.

**SERVE & RETURN SEQUENCES:** The Robot can be set to serve and return in the same sequence. So, for example, you can set a sequence to begin with a serve, then shoot returns to specific landing spots with spins of your choice for a realistic training pattern.

**TOPSPIN/UNDERSPIN SEQUENCE:** Can shoot topspin shots and underspin shots (and other spins) in consecutive shots in the same sequence.

**SPIN INDICATOR:** A Spin Indicator light shows you what kind of spin is on the ball.

## **Paddle Palace Power Pong Robots**

Unleash your inner champion with unrivaled precision and performance!

Introducing the ultimate table tennis robots from Paddle Palace & Power Pong. The 3-wheel design with its outstanding ball placement system is a superior solution for delivering realistic drills with different types of serves, lifelike game simulation and much heavier spin than any other design on the market.

## PADDLE PALACE POWER PONG OMEGA ROBOT

- 45 pre-programmed drills are included and can be changed or adjusted
- Create drills with up to 8 balls with different types & amounts of spin, speed, trajectory, and placement
- Use tagging to identify different sets of drills for each family member
- Share drills with coaches and players from the app
- Set a ball's placement just by dragging it on the screen, and produce no-spin balls
- Randomize drills for irregular play to make ball placement less robotic
- Unlimited memory slots for saving your favorite drills, and grouping drills together

Item#OWVOG

## PADDLE PALACE POWER PONG **DELTA ROBOT**

- 40 pre-programmed drills are included and can be changed or adjusted
- Create drills with up to 8 balls with different types & amounts of spin, speed, trajectory, and placement
- Individual frequency control, and can produce no-spin balls
- Randomize drills for irregular play to make ball placement less robotic
- 99 memory slots for saving your favorite drills
- 10 cluster memory slots for grouping drills together, up to 32 saved drills can be placed in each slot
- Drills in cluster memory can be played in sequence, or random, and can start with a different serve Item#OWVDT

\$179500

## PADDLE PALACE POWER PONG ALPHA+ ROBOT

- 30 pre-programmed drills are included and
- can be changed or adjusted

   Create drills with up to 6 balls with different types
- & amounts of spin, speed, trajectory, and placement
   Can produce no-spin balls, and heavy topspin/backspin
- Randomize drills to make ball placement less robotic
- 50 memory slots for saving your favorite drills Item#OWVAP

## **PURCHASING YOUR**

## TABLE

TABLE TOP: Thicker tops give a more consistent bounce and are less likely to warp after years of use. Paddle Palace recommends table tops of 3/4 inches or more.

## TABLE TYPE (FOLD TYPE):

- 1 Stationary without wheels on undercarriage. Both halves fold and store separately.
- 2 Rollaway with two undercarriages and each half folds and rolls separately.
- **3** Rollaway with one undercarriage and each half folds independently.
- 4 Rollaway with one undercarriage and both halves always fold in and out together.

**NET SET:** Table price includes net set. Some tables have net posts permanently attached to the frame. These make setup and takedown a little quicker but may not be as adjustable or easy to replace as separate net posts.

FRAME: Sturdier frames contribute to a more consistent ball bounce and also help prevent top warpage. If you set up and store your table regularly, a larger frame increases durability.

WHEELS: Larger and stronger wheels are important particularly if you set up and store your table frequently.

**TABLE SHIPMENT:** Tables are shipped by freight line. Delivery generally takes 2-3 weeks from date of order. The table is delivered to curbside and the delivery person will need assistance in unloading the table.

SHIPPING CHARGE: Price includes shipping to contiguous USA. Some locations may incur extra shipping charges. In that case, Paddle Palace will contact you before processing the order.
