PADDLE PALACE PRO SPECIALS

These blades and rubbers are popular with tournament-caliber players and are well-suited to a wide range of playing styles. All are custom pre-assembled with smooth, inverted ITTF-approved rubber with red on one side and black on the other.

Playing Style:
Offense, Spin & Control

JUIC EXACTA **\$109⁹⁵** reg. \$159.85

Playing Style: Offense, Spin & Control
Blade: Juic Exacta (Flared Handle)

Overall Rating: Speed 87 Spin 95
Rubber: Juic Air Condle (2.0 sponge)

The Exacta is one of Juic's newest blades and comes assembled with Air Condle. It is light, all-around, and with a new handle design that absorbs shock and protects the player's wrist when serving. Exacta is suited to the developing player, or the experienced player who values touch and control. Air Condle combines spin, power and durability into an excellent offensive rubber. This blade and rubber combine for a setup which emphasizes control, touch, spin, and attacking power.
Item: ZZSJXA293

Playing Style:
Allround Spin & Control

JUIC LIGHT OFFENSE III **\$92⁹⁵** reg. \$137.85

Playing Style: Allround Spin & Control
Blade: Juic Light Offense III (Flared Handle)

Overall Rating: Speed 86 Spin 90
Rubber: Juic Shenron (Max sponge)

The Juic Light Offense III blade is assembled with Shenron rubber. The blade is lighter than average and allows a versatile game that combines loops, counter-drives and blocks. The Shenron rubber offers great power for a variety of shots and a distinct sound when hitting the ball. Together, they make a combination ideal for the offensive finesse player who uses a variety of shots.
Item: ZZSJL3293

PLAYING STYLE:
Allround Offense & Drive

NITTAKU KASUMI BASIC **\$89⁹⁵** reg. \$130.85

Playing Style: Allround Offense & Drive
Blade: NITTAKU Kasumi Basic (Flared handle)

Overall Rating: Speed: 90 Spin: 90
Rubber: NITTAKU Hammond Pro Alpha (2.1 sponge)

The Kasumi Basic blade comes assembled with Hammond Pro Alpha rubber. This is a great choice for the player with an allround offensive game who desires a good amount of touch and control. The blade is notable for its well-balanced offensive and defensive capabilities. The Hammond Pro Alpha rubber is fast with amazing feel. It has great power and at the same time fantastic control. Overall, this combination is outstanding for offensive-minded topspin drivers and hitters.
Item: ZZSNKAS290

Playing Style:
Allround Offense & Spin

NITTAKU TESURA **\$89⁹⁵** reg. \$135.85

Playing Style: Allround Offense & Spin
Blade: NITTAKU Tesura (Flared handle)

Overall Rating: Speed: 90 Spin: 93
Rubber: NITTAKU Hammond X (2.1 sponge)

The Tesura blade comes assembled with Hammond X rubber. This combination is an excellent choice for the player who plays both allround and offensive styles and who loves spinny rubber. It is perfectly suited for the player who uses a variety of shots from drive to smash to loop and even chop.
Item: ZZSNTSU290

PLAYING STYLE:
**Allround Offense,
Control & Spin**

STIGA ALLROUND CLASSIC **\$84⁹⁵** reg. \$97.85

Playing Style: Allround Offense, Control, & Spin
Blade: STIGA Allround Classic (Flared Legend handle)

Overall Rating: Speed: 78 Spin: 86
Rubber: YASAKA Mark V (2.0 sponge)

The Allround Classic blade comes assembled with Mark V rubber. This is a great pairing for just about every playing style. The Allround Classic is one of the best-selling blades in the world, and the Mark V rubber also is one of the best-selling rubbers in the world. You can't go wrong with this winning combination!
Item: ZZSSALCN291

Super Deals on selected blade + rubber combinations! Choose the Pro Special that suits your style!

ZZSDPP1292	DONIC Persson Powerplay Senso V1 + Baracuda	FL	2.0	90	93	Offense & Loop	\$136.85	\$99.95

We have assigned an overall speed and spin rating for each combination. These ratings take into consideration the combined characteristics of the blade, rubber, and sponge thickness. The ratings are intended as a tool only for comparing these particular blade/rubber combinations. Choose the combination that is best for your game, and enjoy a great savings!

STIGA HYPERTECH CR 35/45 WRB

\$99⁹⁵

reg. \$156.85

Playing Style: Offense, Spin & Drive

Overall Rating: Speed 89 Spin 87

Blade: STIGA Hypertech 35/45 WRB (Flared Handle)

Rubber: Boost TC (MAX sponge)

The Stiga Hypertech CR 35/45 blade comes assembled with Boost TC rubber. The blade uses Stiga's CR technology to make one side harder than the other, giving you one side with increased speed and the opposite side with better control. The Boost TC rubber has a soft sponge that gives a clear sound on ball contact along with excellent touch and feel. In combination, they are perfect for a fast, offensive drive game with increased control for your less aggressive side.

Item: ZZSSHYP293

**Playing Style:
Offense, Speed & Drive**

DONIC PERSSON POWERPLAY SENSO V1

\$99⁹⁵

reg. \$136.85

Playing Style: Offense & Loop

Overall Rating: Speed 90 Spin 93

Blade: DONIC Persson PowerPlay Senso V1 (Flared handle)

Rubber: DONIC Baracuda (2.0 sponge)

The Persson PowerPlay Senso V1 blade comes assembled with Baracuda rubber. This is a great combination for the offensive player who hits and loops. The Persson PowerPlay Senso V1 blade has aggressive allround characteristics and perfect ball control. The Baracuda rubber has awesome spin potential, creating powerful ball rotation that stabilizes the shot and increases speed without affecting control. Overall, this blade and rubber combination is the spin offensive player's dream come true!

Item: ZZSDPPP293

**PLAYING STYLE:
Offense & Loop**

TIBHAR SAMSONOV ALPHA

\$97⁹⁵

reg. \$124.85

Playing Style: Offense, Speed & Drive

Overall Rating: Speed: 89 Spin: 87

Blade: TIBHAR Samsonov Alpha (Flared handle)

Rubber: TIBHAR Rapid (MAX sponge)

The Tibhar Samsonov Alpha blade comes assembled with Rapid rubber. This combination is ideal for the fast attacking player looking for good speed and touch, with enough grip to generate good spin on serves and topspin on drives. The Samsonov Alpha uses classic 5-ply construction with a strong middle layer to create a balance between power and control. Rapid rubber combines an elastic top sheet with a softer sponge, giving good speed and spin without giving up touch and control.

Item: ZZSTSAM-292

**PLAYING STYLE:
Offense, Speed & Drive**

TIBHAR LEBESSON

\$99⁹⁵

reg. \$158.85

Playing Style: Offense, Spin, Loop

Overall Rating: Speed: 88 Spin: 95

Blade: TIBHAR Lebesson (Flared handle)

Rubber: TIBHAR Genius Sound (2.0 sponge)

Tibhar Lebesson blade in combination with Genius Sound rubber is the perfect combination for the controlled looping player. The blade is ideal for the modern athletic player who uses rapid movement and up tempo play to keep their opponent under constant pressure. Genius Sound combines the popular Genius topsheet with a softer sponge, giving it a greater potential for spin and a sharper sound. If you want to loop against loop and play from a variety of distances, look no further.

Item: ZZSTLEB292

**PLAYING STYLE:
Offense, Spin & Loop**

ABOUT PRE- ASSEMBLED PADDLES

Paddles in this department are pre-assembled at the factory and are designed for players who are newer to the sport, or who primarily play recreationally. The characteristics and prices are well-suited for developing players in schools, homes, and recreation centers. The Speed Ratings in this department are on a different scale from the speed ratings in the blade and rubber departments, and are intended only for comparison with other pre-assembled recreational paddles. The pre-assembled paddles are generally slower, impart less spin, and have more control than the pro gear. Choose the pre-assembled paddles with thicker sponge for more speed and spin.

ABOUT COMBO SPECIALS AND BLADE SELECTION

Combo Specials

Combo Specials are a great bargain for professional blades with rubber. We offer a selection of the most popular blades as Combo Specials. The price includes everything you need for a complete paddle. The Shakehand Combo Specials include shakehand blade and two sheets of rubber. The Penhold Combo Specials include penhold blade and either one or two rubbers, as indicated. Assembly (cutting and gluing the rubber to the blade) by our expert staff is free, or you can choose to receive it unassembled. We apply free edge tape, and shipping is free to USA for all Combo Specials.

Rubber options include all rubbers from STIGA, NITTAKU, TIBHAR, JUIC, DR NEUBAUER, DONIC, YASAKA, and HALLMARK. NO EXTRA charge for any rubber with current price under \$40. Over \$40 there is an extra charge per sheet (see chart).

Pro Specials

Pro Specials include a specific combination of a professional blade and two rubbers pre-assembled at Paddle Palace. See pages 2-3 for details.

Blade Selection Guide

● Blade style

Shakehand and Penhold are the two basic blade types. If you hold the paddle like you are shaking hands, then you should choose a Shakehand blade. Over 90% of the blades we sell are Shakehand style. If you hold your paddle like you would hold a pen or chopsticks, then you should choose a Penhold blade. There are two styles of penhold blades: Chinese and Japanese. The Chinese style normally has a rounded head, similar to a shakehand blade head but often somewhat smaller. The Chinese-style handle is smaller and shorter than a shakehand handle. The Japanese-style penhold blade has a handle with a protrusion on one or both sides around which the player wraps the index finger. The Japanese-style blade head is often more squarish in shape than the Chinese-style penhold, but it can vary from roundish to squarish, so check the image. (See the Penhold Blade section on pages 40 to 45).

● Handle style

Handle style is a personal decision. The shape and size of the handle that feels best in your hand is what you should use. For shakehand players, flared handles are the most popular, followed by anatomic and straight. The code for flared is FL, straight is ST, anatomic is AN, and conic is CO. STIGA offers two sizes of flared handles, Flared-Large (aka Legend) and Flared-Small (aka Master). The codes for these are FL (lg) and FL (sm). The DONIC Dotec blades have a unique cork handle that

is designed for either a left-hander or right-hander. The code is LEFT and RIGHT. NITTAKU offers a few blades with a unique ergonomic handle, ERGO, which is comfortable for using with both a shakehand or penhold grip. Penhold blades are available in either Chinese-style or Japanese-style. Chinese-style is the most popular. All Chinese-style penhold blades (C) are suitable for putting either one or two rubbers on the blade. Some Japanese-style penhold blades are designed for applying just one rubber (J-1), and some are suitable for applying either one or two rubbers (J-2).

● Speed

The CLASS speed ratings of the blades range from the fastest rating of OFF+ to the slowest rating of DEF-. (OFF means offensive, ALL means allaround, and DEF means defensive). In general, offensive-style players prefer blades ranging from OFF+ to ALL+. Allround players prefer blades ranging from OFF- to ALL-. Defensive players prefer ALL to DEF- blades.

Besides the CLASS ratings, Paddle Palace has a universal number rating system for speed and control so that blades from all the various brands can be compared on the same scale. In basic terms, the faster the speed rating, the farther the ball bounces off of the blade, given an equal amount of force. Keep in mind that generally the faster the blade, the more skill it takes to control it. Also, the rubber applied to the blade makes a huge difference in the speed and control of the paddle. A player's skill level, playing style, rubber used, and interaction of those factors, impact the amount of speed and control that a player experiences. Therefore, the speed and control ratings are only a general tool for choosing a blade, as they are not an inherent quality of the blade.

● Weight

Most blades weigh between 70 and 100 grams before rubber is applied. An average weight is around 86 grams. Some players feel that a heavier blade provides more power but other players would disagree. Some players feel that a lighter blade is quicker, but again, there are varying opinions on this. Remember that power and quickness are not just functions of the blade, but mainly the skills of the player. Like handle style, the ideal blade weight is the weight that feels best. Note: individual blade weight may vary slightly.

● Plies

The number of plies (wood layers) of a blade normally ranges from one to seven. Five-ply blades are the most common. Over 70% of players use an all-wood blade. There are many blades on the market that add thin plies of materials such as carbon, glass fibre, titanium or kevlar to an otherwise all-wood blade. These non-wood plies may add speed or a different feel to a blade. Some players feel that mixed-ply blades offer a larger sweet spot, and/or possibly result in added control. With or without non-wood plies, every blade has a unique feel, and only by experimenting will you discover what works best for your game. For each we indicate the number and composition of the plies. These are: W=Wood, C=Carbon, G=Glass Fibre, X=Texalium, T=Titanium, U=Aluminum, K=Kevlar, S=Synthetic, A=Arylate, R=Aramid

HANDLE SHAPES: Shakehand

BLADE: OFFENSIVE WOOD NCT
NUMBER: BOOST TX

MAPLEWOOD NCT

Outstanding Long Trajectory!

NEW

Maplewood NCT V

Exceptional 5-ply blade for playing an aggressive game with control. The Maplewood NCT V is a new addition to the Hardwood blade series that includes Rosewood and Ebenholz. An outstanding long trajectory when hitting spinny balls is a great strength of this blade, while extra touch makes execution of your shots a dream come true. Handle FL(lg), FL(sm),AN,ST,CO / Wt 84 gm / Plies 5W / Item SSMA5N

OFF 89 67 Blade \$118.95

Maplewood NCT VII

This 7-ply blade has inherent offensive potential well suited to highly skilled players. Unique, hand-selected woods and very well-balanced. Outstanding long trajectory when hitting spinny balls, and experienced players will love the feeling that the blade responds perfectly to the mental flow of the game. Handle FL(lg), FL(sm),AN,ST,CO / Wt 95 gm / Plies 7W / Item SSMA7N

OFF+ 93 70 Blade \$144.95

STIGA ROSEWOOD -- Science meets Nature!

Balance speed, weight, flexibility and trajectory combine for an unbeatable formula: a completely new mixture of unique and rare Rosewood, enhanced with STIGA's scientific engineering and NCT (Nano Composite Technology). Each ply of Rosewood is carefully handpicked to ensure the best wood grain and quality. Production of these blades is time-consuming and labor-intensive but the results are worth it!

Rosewood NCT V

Designed for the modern attacking game. It is ideal for aggressive players who depend on fast speed with long trajectory to gain the upper hand. This 5-ply blade offers exceptional balance of speed, weight, control and trajectory. Hand-picked Rosewood combined with STIGA's scientific engineering and NCT technology brings together the very best of Science and Nature! Handle FL(lg), FL(sm),AN,ST,CO / Wt 93 gm / Plies 5W / Item SSRO5

OFF- 86 69 Blade \$123.95

Rosewood NCT VII

This is the blade for players who demand high speed, but won't tolerate a loss of feeling, control and trajectory. The unique combination of 7 plies of high-quality Rosewood, with distinctive technology and craftsmanship, dramatically increases the sweet spot and trajectory and maximizes power. With Rosewood NCT VII a player gains maximum control when executing many variations of speed and strokes. Rosewood NCT VII -- where Science meets Nature! Handle FL(lg), FL(sm),AN,ST,CO / Wt 97 gm / Plies 7W / Item SSRO7

OFF 91 60 Blade \$136.95

INTENSITY NCT

21st Century Lightweight Weapon!

NEW

Intensity Carbon NCT

The light weight, speed, and fantastic trajectory are enhanced by adding two carbon layers. This adds superb power and speed to all of your strokes. Competitors who play an intense offensive game will take advantage of the extra touch and speed of the Intensity Carbon to rise to their highest level. Handle FL(lg), FL(sm),AN,ST,CO / Wt 85 gm / Plies 5W,2C / Item SSINCN

OFF 91 65 Blade \$142.95

STIGA Shakehand blades that are available as Penholds!

Look for this sign for blades that are available as PRO SPECIALS. Details on pages 2-3.

CC Series (Crystal Carbo)

Developed in close cooperation with members of the Chinese National team, the CC Series has focused on the importance of the trajectory of the ball. With a longer trajectory you can push your opponent away from the table and take control of rallies and the game. The CC5 and CC7 blades were developed to meet those demands. Both blades have carbon layers inside, along with STIGA's famous NCT and Crystal treatment on the surface.

CC5

A very unique blade that balances control with long trajectory and power. This blade is for the control minded player who still wants to have power when striking the ball. Handle FL(lg), FL(sm), AN, ST, CO / Wt 96 gm / Plies 5W, 2C / Item SSC5C

OFF 89 62 Blade \$128.95

CC7

A more powerful blade than the CC5, the CC7 is recommended for highly skilled attackers with excellent technique. Outstanding when you are playing back off the table and getting into topspin rallies. With CC7 you can feel the long trajectory in your topspin strokes and gain control over the game. If you like to play topspin against topspin, then this is the blade for you. Handle FL(lg), FL(sm), AN, ST, CO / Wt 99 gm / Plies 5W, 2C / Item SSC7C

OFF+ 94 58 Blade \$138.95

Offensive Classic & Offensive Classic WRB

After the worldwide success of the STIGA Allround Classic, STIGA decided to create a blade specifically for the more aggressive player. The result was the Offensive Classic, which became the choice of the attacking player. Its winning design blends optimum speed, weight, and feel. Handle FL(lg), FL(sm), AN, ST, CO / Plies 5W

OFFENSIVE CLASSIC: An attacking, lightweight blade. Offensive Classic is built to suit fast, technical attack play. Wt 81 gm / Item SSOFFN

OFF- 82 74 Blade \$39.95

OFFENSIVE CLASSIC WRB: COMBO SPECIAL
The great attacking, lightweight Offensive Classic with the WRB system, which accelerates the blade face for faster returns, more power and extra sensitivity of touch. Wt 78 gm / Item SSOFFW

OFF- 84 72 Blade \$44.95

Ikarus ALX COMBO SPECIAL

Composed of 7 layers wood plus 2 layers aluminum. The combination of rather soft wood essences such as Ayous, Kiri with aluminum results in a blade full of sensation and providing lots of security in a passive game and a high tempo potential in offensive topspin strokes. Combined with the right rubber this blade is made for all the modern game strategies. Ideal for topspin and counter topspin rallies. Handle FL, AN, ST / Wt 84 gm / Plies 5W, 2U / Item STIKA

OFF- 83 67 Blade \$69.95

Karas OFF COMBO SPECIAL

Aleksandar Karakasevic, nicknamed Karas, is known for his delicate hand and good acceleration potential in both passive and active games. All these characteristics are now concentrated in the Karas Off blade. Although it is composed of 5 exquisite veneers with 4 carbon layers, the contact of the ball onto the blade remains soft, making this blade the ideal weapon for players willing to take charge of the game. Handle FL, AN, ST / Wt 86 gm / Plies 5W, 4C / Item STKAR

OFF 93 63 Blade \$79.95

Balsa Carbon

This carbon blade is characterized by a hard contact with the ball. It provides the tempo that enables the player to play any kind of balls. The sophisticated blade shape combined with the revolutionary AVB (Anti-Vibration Ball Grip system) guarantees excellent ball rebound. The Balsa Carbon is the ideal instrument for executing aggressive strokes. Handle FL, AN, ST / Wt 80 gm / Plies 5W, 2C / Item STBAC

OFF 94 62 Blade \$69.95

Nimbus VIP

Tibhar used newly developed carbon fibres to create this blade that balances stiffness with a softer feel than other carbon blades. It achieves a pleasant sound and a lot of feeling at contact. Lightweight and flexible with dynamic rebound. Special varnish on the surface provides optimal protection against rubber removal and glue remains. Ideal combined with the Tibhar rubbers Nimbus and Nimbus VIP. Handle FL, AN, ST / Wt 89 gm / Plies 5W, 2C / Item STNIV

OFF+ 95 60 Blade \$50.95

Nimbus Allround

Especially created for the spin dynamic ALL/OFF game. Balanced speed-control ratio. With this lightweight blade, the player will feel comfortable in any situation. It is an awesome combination with the softer rubbers of the Nimbus family: Nimbus Soft and Nimbus Sound. Special surface varnish protects against rubber removal and glue remains. Handle FL, AN, ST / Wt 85 gm / Plies 7W / Item STNIA

ALL+ 75 76 Blade \$48.95

Nimbus Offensive

This 6-ply offensive wood blade remains very controllable even at high speed. It is developed for the modern offensive game style and makes large spin varieties possible. Ideally suited for combining with the semi soft Nimbus rubbers. Special surface varnish protects against rubber removal and glue remains. Handle FL, AN, ST / Wt 89 gm / Plies 6W / Item STNIO

OFF 90 62 Blade \$39.95

Black Carbon

Developed in collaboration with blade specialists from China and Korea, this stiff blade offers extreme acceleration + a brand new carbon concept. Dexterous, lightweight design, with new optical highlight due to its new carbon design and speed factor. Even without speed glue there is no loss of speed. Ideal complement to Tibhar's high-tech SPL and D.TecS technology rubber ranges. Handle FL, AN, ST / Wt 85 gm / Plies 7W, 2C. Item STBLC

OFF+ 96 58 Blade \$76.95

Black Gold

Semi-hard 6-ply offensive blade with distinct, attractive gold design. Provides a high ball rebound -- an essential criteria for fast, effective topspins -- delivered by the strongly glued Ayous layers. A winning design! Also, you can attack with strong topspins and returns with a large variety of spins. Special treatment on the surface gives the softer Ayous layers a harder touch. Handle FL, AN, ST / Wt 85 gm / Plies 6W. Item STBLG

OFF 88 68 Blade \$49.95

Black Silver

Light, 5-ply allround blade does it all! Soft outer layers provide amazing ball sensation and absolute control with full potential for the modern allround game. With the right rubber, this blade is perfect for all game strategies. Special treatment of the surface provides dynamic acceleration. Very attractive Silver look. Handle FL, AN, ST / Wt 80 gm / Plies 5W. Item STBLS

ALL+ 78 77 Blade \$49.95

TIBHAR Continued

Stratus Blades from TIBHAR!

Stratus Samsonov Carbon

The blade used by Champion Vladimir Samsonov

Tibhar selected high-quality wood types and combined them with a new generation of Kevlar carbon: the ideal prerequisite for an offensive but still controllable game. The carbon permits the needed hardness and stability in your strokes. Great playing sensation! Handle FL, AN, ST / Wt 85 gm / Plies 5W, 2C/K / Item STSST

OFF 93 57 Blade \$95.95

Stratus Power Wood

Unlimited flexibility sets this 5-ply offensive power wood blade apart for the rest! From the hard flip to a precise topspin with lots of rotation, you will be able to realize the whole range of stroke play for the offensive game with Stratus Power Wood! Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item STSPW

OFF- 87 68 Blade \$49.95

Stratus Power Defense

This relatively hard defensive blade was built for a modern defensive game. The blade head is a little bit bigger than the norm. This lightweight wood will enable the player to react fast to his adversary's strokes and put him under pressure, no matter where the player is situated at the table. Handle FL, AN, ST / Wt 80 gm / Plies 5W / Item STSPD

DEF+ 67 86 Blade \$49.95

Feel the Difference!

TIBHAR Sensitec blades have a revolutionary 9-layer grip for unbelievable ball sensation. The heart of the grip doesn't swing as much as the 5-layer racquet shape.

Xeon Sensitec

Sensitive offensive blade for a variable attacking game. Extreme security and effectiveness for serving or blocking. Xeon is the perfect balance between speed and control for a controlled offensive game. Handle FL, AN, ST / Plies 5W / Wt 85 gm / Item STXEO

OFF- 88 74 Blade \$59.95

Icon Sensitec

Sensitive, light and handy blade for the spirited players who like to play a wider range of spin strokes, without loss of precision and power! Also provides great security and effectiveness in short exchanges in the passive game. For players who more than anything else want to make the point! Handle FL, AN, ST / Plies 5W / Wt 85 gm / Item STICO

ALL+ 79 77 Blade \$59.95

Sigma Sensitec

Fast blade with specially glued plies with good control thanks to the Sensitec system. Very precise, powerful strokes thanks to the integrated Sensitec-Feeling and the resulting catapult effect of the ball. Handle FL, AN, ST / Plies 5W / Wt 85 gm / Item STSIG

DONIC Ovtcharov Soft Carbon V1

OFFENSE WITH FEELING!

Based on the best-selling Ovtcharov Senso V1 and Waldner Senso Carbon blades, this is a carbon blade with relatively soft feeling on contact with the ball. Walnut outer-veneers provide speed and hardness for an attacking, offensive game. The medium-hard Scandinavian pine middle veneer results in high tension for dynamics and power. A fast, offensive blade, but with exceptional feeling and ball control. Two thin carbon mid-layers and Abachi middle veneer complete this top quality blade that is in a class of its own. Senso handle technology creates extremely good feeling. Slightly more direct when hitting the ball than the Waldner Senso Carbon. Handle FL,AN,ST/Wt 90 gm / Plies 5W,2C/Item SDOVS

OFF- 84 67 Blade \$74.95

Dima Ovtcharov

The DONIC DOTEK SYSTEM: DONIC Dotec blades have a totally different handle -- perfectly smooth with no sharp edges, giving a smooth transition between blade and handle. The handle is made in one piece, surrounded by natural cork. Different versions for right and left handers.

Ovtcharov Senso Carbon

Extremely fast, powerful offensive blade, designed to win the point during a fast rally, and for attacking at every opportunity. With this blade, aggressive, continued attack is ensured by light carbon material and hard and softer plies, without loss of the famous control of the DONIC Senso blades. Handle FL, AN, ST / Wt 90 gm / Plies 5W, 2C / Item: SDOVC

OFF+ 97 58 Blade \$66.95

Ovtcharov Senso V1

Fantastic feel and power. 7-ply blade with a hard walnut outer designed for high speed smash and topspin. Inner plies are medium hard and medium soft veneers. New gluing technology results in additional rigidity to each single ply. Handle FL,AN,ST / Wt 90 gms / Plies 7W / Item SDOV1

OFF+ 95 64 Blade \$67.95

DONIC Burn Series

Thermic Burn Technology! A thermal treatment of the veneers results in extremely high stability, similar to features of high-quality tropical woods. Blades are exposed to 200 degrees centigrade for 24 hours. This process hardens the wood and removes any humidity. The resulting playing characteristics of these blades are unique. DONIC Burn Series, the new blade generation for modern table tennis!

Burn OFF

A stiff, fast blade with relatively excellent control and an outstanding sweet spot. It is not top heavy even used with heavy and hard rubbers. Handle FL, AN, ST / Wt 90 gm / Plies 5W / Item SDBUO

OFF 94 65 Blade \$49.95

Burn OFF-

More controllable than the Burn OFF blade. In harmony with the thinner middle ply it is slightly more elastic. With softer rubbers imparts slightly more spin than the OFF version. Beautiful blade, excellent sweet spot. Handle: FL, AN, ST / Wt: 85 gm / Plies: 5W / Item: SDBUM

OFF- 89 68 Blade \$49.95

Burn AR+

The design priority for this blade series is ease of control and feel. The thinner Kiri center ply offers great control, and at 80gms, it is relatively light. Use this relatively stiff blade with harder attacking rubbers for fantastic speed or use softer rubbers for greater spin. Handle: FL, AN, ST / Wt: 80 gm / Plies: 5W / Item: SDBUA

ALL+ 81 73 Blade \$49.95

Waldner Dotec Carbon

A 4mm core of Balsa surrounded by carbon and Limba plies give this Dotec blade enormous potential for speed, quick topspin and smashes while maintaining remarkable control. Handle LEFT, RIGHT / Wt 85 gm / Plies 5W,2C / Item SDWDC

OFF 93 66 Blade \$95.95

Waldner Dotec AR

Limba/Balsa combination produced by DONIC Dotec Technology, results in a perfect, fast, all round blade. Amazing touch! Available in LEFT-handed or RIGHT-handed version. Handle LEFT, RIGHT / Wt 70 gm / Plies 7W / Blade only \$72.95 / Item SDWDA

ALL+ 81 74 Blade \$72.95

Persson Dotec OFF

Great offensive blade for players of every ability, with DONIC Dotec technology. Super versatility with top speed + fantastic feel in every playing situation. Covering of legendary Japanese Hinoki wood, with Dotec-Balsa and Koto plies. Available in LEFT- or RIGHT-handed version. Handle LEFT, RIGHT / Wt 75 gm / Plies 7W / Blade only \$78.95 / Item SDPDO

OFF- 91 67 Blade \$78.95

Appelgren Dotec Control

The last word in control and accuracy! Easy control and good feel. Ideal for those who want more ball control without loss of speed necessary for attack. DOTEK fiber is placed between a limba cover and an ayous inner ply. Middle core consists of a DOTEK balsa layer. Handle LEFT, RIGHT / Wt 70 gm / Plies 7W / Blade only \$65.95 / Item SDADC

ALL+ 79 76 Blade \$65.95

Black Thunder Senso V1

Carbon fiber glued around the middle ply together with hard walnut plies produces speed and stiffness. With Senso V1 technology, for excellent feel. Handle FL, AN, ST / Wt 90 gms / Plies 7W,2C / Item SDBV1

OFF+ 96 59 Blade \$74.95

COMBO SPECIALS

Combo Specials are custom-made racquets which include the shakehand blade plus two rubber sheets of your choice* from any of these brands:

- | | | |
|-------------|--------|----------|
| NITTAKU | TIBHAR | STIGA |
| JUIC | DONIC | HALLMARK |
| DR NEUBAUER | YASAKA | |

Good through 11/30/2011

* Extra charge for each rubber priced over \$40

Up to \$40 = no extra charge	(\$50 - \$55) = \$20
(\$40 - \$45) = \$10	(\$55 - \$60) = \$25
(\$45 - \$50) = \$15	(\$60 - \$65) = \$30

Defplay Senso

Truly awesome blade for versatile defense! World's most successful veneer combo (5-play allround) is made with two dampening, elastic outer plies (Gabon and Anegre). Vibration/speed of the blade is reduced by increasing the blade size by 3 mm. Unbelievable control for defense + fantastic offensive acceleration. Handle FL, AN, ST / Wt 85 gm / Plies 5W / Item SDDEF

DEF+ 63 94 Blade \$50.95

Alligator Combi

The main feature of this new blade is the difference in speed between forehand and backhand playing sides. The ALL+/DEF+ blade is made of a 5-ply combination to create perfect harmony between the different playing characteristics of each side.

Soft Balsa wood core makes the blade very light and relatively stiff. On the forehand side, two harder, faster veneers are used, and the backhand side has softer, slower veneers. You get outstanding power on topspin shots with the forehand side and fantastic control for your defensive game away from the table with the backhand side. The DONIC Alligator Combi complements both defensive play away from the table and attacking strokes and blocks close to the table. Players who using Anti and long pips rubbers will be especially amazed by the possibilities of this blade. Handle: FL, ST / Wt: 80 gm / Plies: 5W / Item: SDALG

ALL+/DEF+ 76/66 75/90 Blade \$43.95

Item XSPVEN

OFF- 85 66 Blade \$54.95

Hard-hitting Michael Bochenski recommends the Hunter Venom blade. "It's lethal!"

Venom

COMBO SPECIAL

All-wood versatile offensive blade with outstanding balance, speed, touch, and finesse. Offensive players who use a variety of strokes and strategies will love the extra kick the Venom provides just when it's needed to go in for the kill. The great feel of this 5-ply blade is provided from Kiri, Ayous, and Finition woods. Gray color. Attractive, professional look.

Handle: FL, ST, AN / Wt: 85 gm / Plies: 5W / Item: SPVEN

COMBO SPECIAL
with 2 rubbers

\$99⁹⁵

Item XSPFAN

OFF 89 67 Blade \$54.95

Hawk

COMBO SPECIAL

The Hawk blade is the Classic Player's dream! Two thin outer layers of poplar wood and a center ply of basswood gives this 3-ply blade extraordinary touch and finesse. Oversized head measures 16.4 cm wide by 17.6 cm tall. For the versatile defensive player, use thin sponge or no sponge with short pips or spinny smooth rubber. The Hawk is also favored by the combination player using long pips or anti on one side. Hawk is for the defensive player -- Cunning, patient, and always in control, waiting for its prey to make a mistake.

DR. NEUBAUER BLADES ON SPECIAL!

RATINGS KEY

CLASS **SPEED** **CONTROL**
 DR NEUBAUER BLADES COMPARISON CHART
 page 38

Dr. Neubauer

BLADE SPECIAL
\$67⁹⁵

KUNG FU BLADE
 Used by Dr. Herbert Neubauer with these Dr. Neubauer rubbers: [forehand] LEOPARD 1.5mm short pips and [backhand] ABS 1.2 or 1.5mm Anti Spin

Kung Fu BLADE SPECIAL

This allround blade is designed for the combination bat player, and is specially optimised for use with anti-spin and pips-out rubbers. Softer and offering slightly better control than Dr Neubauer's other combination blade, the Gladiator, it also enables the production of a game that is just as effective, and can be used for powerful attacking shots. Handle FL, AN, ST / Wt 85 gms / Plies 7W / Item SUKUN

ALL 76 74 Blade \$82.95

BLADE SPECIAL
\$151⁹⁵

Special BLADE SPECIAL

The magical blade yet improved! Maximum effects and very short blocking when used w/long pips. Excellent touch thanks to the Balsa wood handle. This blade enables easy and effective counter-attack, pushing and lifting w/long pips. Outstanding control + potential for rapid switch to deadly attack strokes. Thick 7-ply blade w/large handle. FL,AN,ST / Wt. 68 gm / Plies 7W / Item SUSPE

OFF- 88 68 Blade \$107.95

Combination Effect

The long-awaited new weapon for combination bat players! Different speed values on the two sides of the blade using a unique wood composition. Low rebound coefficient on one side slows the ball, allowing return short over the net with a maximum spin reversal on block. Float balls can be attacked through pushing and counter-attacking. The other side of the blade is faster for forceful attack by use of offensive rubbers. FL,AN,ST / Wt. 70 gm / Plies 6W / Item SUCOM

ALL+/ALL- 79/66 70/84 Blade \$153.95

High Technology Plus BLADE SPECIAL

This second generation of Dr. Neubauer's offensive blade offers good control for all strokes. New gluing technique, plus existing Balsa handle, produce better ball feeling. HT Plus enables effective attack with long pips through pushing, lifting and counter-attack, with safe returns while blocking. Super acceleration and attacking through hitting/looping with smooth rubbers or short pips. FL, AN, ST / Wt. 65 gm / Plies 5W / Item SUHIP

ALL+ 89 64 Blade \$94.95

BLADE SPECIAL
\$86⁹⁵

Titan

This "combination" blade, with the forehand faster in speed than the backhand (ALL+ & ALL-), is devastatingly disruptive effect with with long pips and anti-spin rubbers. Dynamic attacks both with pips-out rubbers (counter-attacking, hitting) and with inverted rubbers (powerful topspin with a lot of spin). Astounding control and excellent feeling for the ball. Handle: FL, AN, ST / Wt: 65 gms / Plies: 7W / Item: SUTIA

ALL+/ALL- 80/66 69/85 Blade \$171.95

Bulldog BLADE SPECIAL

Relatively fast allround blade, lightweight, with wonderful control for all shots. With long pips or anti-spin rubbers, the ball is slowed down greatly, facilitating short shots with maximum disruption and spin reversal. At the same time the ball accelerates through aggressive pushing and lifting - even counter-attacking is possible. With short or half-long pips, deadly shots can be produced while straight hitting. With fast inverted rubber, Bulldog becomes a powerful weapon for topspin, close to the table and mid-distance. Handle: FL, AN, ST / Wt: 68 gms / Plies: 7W / Item: SUBUL

ALL+ 87 69 Blade \$61.95

BLADE SPECIAL
\$54⁹⁵

Firewall Plus BLADE SPECIAL

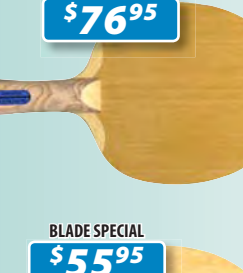

Similar to the Firewall, but without weight shakers. Slightly modified plywood composition but same excellent control. Enables dynamic offensive play w/ reversed rubbers or short pips. Balsa core gives easy acceleration for hitting and looping. Good feeling for all passive strokes. High spin reversal + fast attacking thru aggressive pushing or lifting with long pimples. FL,AN,ST / Wt. 65 gm / Plies 5W / Item SUFIP

ALL 79 73 Blade \$64.95

World Champion

Fast OFF- blade enables the player to engage in a highly dynamic attack game of hitting and looping (topspin), both close to the table and mid-distance. Also this is an excellent choice for combination bat players using pips out or anti-spin rubbers. The blade is relatively stiff and does not consist of balsa wood. Special heat treatment gives it both a soft feeling and outstanding control. Handle FL, AN, ST / Wt 80 / Plies 5W / Item SUWOR

OFF- 86 71 Blade \$69.95

BLADE SPECIAL
\$55⁹⁵

BLADE SPECIAL
\$76⁹⁵

BLADE SPECIAL
\$55⁹⁵

Gladiator BLADE SPECIAL

Maximum Effectiveness with Pimples! A normal sized blade of special non-balsa wood composition. Great control + maximum spin reversal in blocking close to the table with long pips. You can block the ball very short and low over the net, even against powerful topspins. Easy return of fast serves to deceive your opponent's third ball attack. FL,AN,ST / Wt. 79 gm / Plies 7W / Item SUGLA

ALL 86 70 Blade \$92.95

Barricade BLADE SPECIAL

A defensive blade with excellent control. Effective for short blocking close to the table and safe yet dangerous chopping. For all rubber types: Long pips (maximum spin reversal); short pips (high rotation while chopping). Attack by looping or hitting to confuse your opponent. Effective for all passive and active strokes. FL,AN,ST / Wgt 58 gm / Plies 7W / Item SUBAR

DEF+ 65 88 Blade \$64.95

COMBO SPECIAL

High-tech, fast blade, with great control for offensive play. Well-balanced, ultra-touch power blade, made to dominate a power loop, smash, or loop-drive with precise blocking, or to counter any shot. Handle FL,AN,ST / Wt 84 gms / Plies 5W / Item SYMKV

OFF- 87 67 Blade \$47.95

Max Carbon 3D

Many players are looking for a faster blade, especially with the new glue regulation. The Max Carbon 3D blade offers a really powerful weapon for fast attacks. 3D construction adds flexibility to the rigid plywood. FL,AN,ST / Wt 90 gms / Plies 7W,2C / Item SYMXC

OFF+ 97 53 Blade \$58.95

Dynamix 17

State of the art product! A never seen before 17 extremely thin layers of wood plies, yet it weighs only 90 grams. Another powerful weapon you can depend on. FL,AN,ST / Wt 90 gms / Plies 17W / Item SYDYN

OFF+ 96 55 Blade \$71.95

X1

The NEW Yasaka X1 is constructed of a combination of light, soft plies and thin, hard plies with a special gluing process developed at Yasaka's blade factory in Sweden. This results in a fast, offensive blade with dynamic feeling. Handle FL,AN,ST / Wt 93 grams / Plies 11W / Item SYX1

OFF 93 62 Blade \$54.95

Advance 3D

Powerful, innovative blade integrating synthetic fibres within the plywood. Two-directional synthetic fibre glued into veneers gives offensive attack new dimension. 3D technology guarantees flexibility for faster ball speed. FL,AN,ST / Wt 86 gm / Plies 5W / Item SYADV

OFF 91 59 Blade \$45.95

Offensive 40

Developed from the successful Yasaka OFFENSIVE blade but faster! Light + fast with large sweet spot. Center layer is thicker and harder, giving additional power. Factory surface sealer improves speed and durability. FL,AN,ST / Wt 85 gms / Plies 7W / Item SYOFF

OFF 90 59 Blade \$43.95

Synergy

Powerhouse design for the 40mm ball. 11 plies of wood might feel heavy normally, but the Balsa wood inner plies and thin outer plies produce a low weight of 82 grams. Very fast. Handle FL, AN, ST / Wt 82 gm / Plies 9W, 2S / Item SYSYN

OFF- 89 63 Blade \$62.95

Yasaka Balsa

Strong outer veneer with inner Balsa = light weight powerful blade, with excellent control for allround game! Handle FL, AN, ST / Wt 69gm / Plies 5W / Item SYBAL

OFF 89 61 Blade \$52.95

Allround Plus

Awesome for allround players that want more power. Two hard veneers with a light middle veneer is the base for the additional speed. Special gluing process and the unique know how in Yasaka's Swedish blade factory guarantees the control characteristics. Handle FL, AN, ST / Wt 88 gms / Plies 5W / Item SYALP

ALL+ 81 67 Blade \$43.95

Balsa +

Created for the many players who love low weight and special feeling for ball touch. Some players find traditional Balsa blades too slow, so Yasaka combined the best Balsa wood with Scandinavian Pine for faster speed, but keeping the light weight. Handle FL, AN, ST / Wt 68 gms / Plies 5W / Item SYBAP

OFF 91 59 Blade \$45.95

ALL ON BLADE SPECIAL

BLADE SPECIAL \$74⁹⁵

Carbon Extreme

Unique 7-ply combination of balsa, carbon, abachi and limba. Balsa gives speed and a layer of the special carbon veil on top gives excellent control. Result: a lightning fast blade with good control and a massive sweet spot for over the table play. Has Hallmark's new ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wgt 80 gm / Plies 3W, 2C / Item SHCAE

OFF+ 99 53 Blade \$97.95

BLADE SPECIAL \$57⁹⁵

Enigma

Oversize blade with thick double balsa core that's excellent for attacking play, even with pimples rubbers. Outstanding control, incredible attacking properties with long pimples. Very light in weight. Three plies of wood is thick in width. Has Hallmark's new ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wgt. 63 / Plies 3W / Item SHENI

OFF- 84 72 Blade \$67.95

BLADE SPECIAL \$45⁹⁵

Aurora

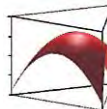

The Aurora is a great combination blade, with faster forehand side for attacking and slower backhand side for defense. Light blade with thick 5-ply wood construction. Has Hallmark's new ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wgt. 70 / Plies 5W / Item SHAUR

OFF-/DEF+ 88/67 68/84

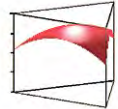

Blade \$58.95

ACT = Anti-Vibration Cork Technology

Conventional Blade Speed/spin/control rapidly degenerates due to small surface area of sweet spot.

ACT Blade has consistently high results for speed/spin/control. Enlarged sweet spot

BLADE SPECIAL \$57⁹⁵

Ultra COMBO SPECIAL & BLADE SPECIAL

Five-ply large oversize blade with thick balsa core for the offensive player looking for a "club". Large handle and head size, with thick blade, but lightweight. Great attacking properties, but is very easy to hit any ball consistently. Devastating effect when used with long pips rubber. ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wt 73 / Plies 5W / Item SHULT

OFF 90 60 Blade \$67.95

COMBO SPECIAL with 2 rubbers \$102⁹⁵
 Item XSHCOU

BLADE SPECIAL \$44⁹⁵

Strategy

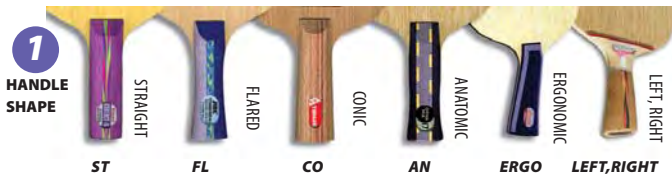

A five ply slow oversized blade, great for use with long pips rubbers for close-to-the-table play. This blade increases the effect of long pips when blocking close to the table. Reverse rubber can be used on the other side for good contrast between attack and defence. The blade is very popular with Super Special and Original users. Has Hallmark's new ACT system (Anti-Vibration Cork Technology). Handle FL, AN, ST / Wt 93 / Plies 5W / Item SHSTR

ALL- 66 84 Blade \$57.95

NIGEL ECKERSLEY, England mens team commonwealth gold medallist and highly ranked Veteran player, recently won a European medal using the Hallmark Strategy blade with Hallmark Super Special rubber.

HOW TO READ THE SHAKEHAND BLADES COMPARISON CHART

1 HANDLE SHAPE

2 PLY [Number of layers or plies] W=Wood, C=Carbon, G=Glass Fibre, X=Texalium, T=Titanium, U=Aluminum, K=Kevlar, S=Synthetic, A=Arylate, R=Aramid, Z=Zylon

3 THICKNESS [Thickness of blade, shown in millimeters.]

4 BLADE MEASUREMENTS: LENGTH/WIDTH/HANDLE LENGTH
The length, height, and width of the blade and handle length are shown in centimeters.

5 WEIGHT: The average weight of each blade is indicated in grams. Individual weights may vary.

6 SPEED: The higher the number, the greater the speed, meaning bounce per force input. Use to compare relative blade speeds.

7 CONTROL: The higher the number, the greater the control. Use to compare relative blade control. Naturally, control ultimately is most dependent on player's skill.

8 CLASS: OFF = offensive blade ALL = allround blade DEF = defensive blade. The class of blade ranges from fastest [OFF+] to slowest [DEF-]. The rubber sheet that is applied to the blade will naturally affect the speed of the paddle.

Paddle Palace is happy to assemble new blades with rubber at no extra charge upon request. One rubber sheet will cover one side of a blade. Rubber comes in red and black. No returns on custom-made paddles.

See page 8 for Blade Selection Guide

COMBO SPECIALS

Good through 11/30/2011

Combo Specials are custom-made racquets which include the shakehand blade of your choice plus two rubbersheets of your choice* from any of these brands:

- NITTAKU
- TIBHAR
- STIGA
- JUIC
- DONIC
- HALLMARK
- DR NEUBAUER
- YASAKA

* Extra charge for each rubber priced over \$40.
Up to \$40 = no extra charge
(\$40 - \$45) = \$10
(\$45 - \$50) = \$15
(\$50 - \$55) = \$20
(\$55 - \$60) = \$25
(\$60 - \$65) = \$30

PRO SPECIALS
Pro Specials include a specific combination of a professional blade with two rubbers pre-assembled at Paddle Palace. See pages 2-3 for details.
PRO This icon indicates Blades or Rubbers that are available with a Pro Special.

ABOUT PENHOLD BLADES

T There are two main styles of penhold blades: Chinese and Japanese. The Chinese style normally has a rounded head, similar to a shakehand blade head but often somewhat smaller. The Chinese-style handle is smaller and shorter than a shakehand handle. The Japanese-style penhold has a handle with a protrusion on one or both sides around which the player wraps the index finger. The Japanese-style blade head is often more squarish in shape than the Chinese-style penhold, but it can vary from roundish to squarish, so check the image. Penhold-style blades are used by fewer than 10% of players in

North America, although the popularity in Asia is 20% to 40%, with the younger players favoring the shakehand style.

All Chinese-style penhold blades (C) are suitable for putting either one or two rubbers on the blade. Some Japanese-style penhold blades are designed for applying just one rubber (J-1), and some are suitable for applying either one or two rubbers (J-2).

See the Blade Selection Guide on page 8 for information about choosing Blades and Combo Specials, and see page 44-45 for the Penhold Blades Comparison Chart.

JUC® PENHOLDS

Penhold Combo Specials are offered with either 1 or 2 rubber sheets. See page 44 for details

Stellan Bengtsson Alpha

This is the Chinese-style penhold version of the blade designed and used by former World Champion Stellan Bengtsson ("71"). Stellan is a world-renowned coach and one of the most highly respected players in table tennis. This is an ALL+ allround blade, medium in weight, fast allround in speed, with 5 plies wood and two layers of carbokev (carbon/kevlar). It has very little vibration and a fantastic, huge sweet spot. Excellent for virtually all players. Handle C / Wt 82 gms / Plies 5W, 2C / Blade only \$78.95 / Item PJBEA
ALL+ / Speed 82 / Control 76

Top-Carbo COMBO SPECIAL
Carbon offensive blade!
Two carbon+three wood layers creates this dream blade for offensive players looking for a light blade. Hard surface, great feel. Cork grip. Back side is black. Handle Japanese/Plies 3W,2C/Wgt 79 gm/Blade \$66.95/ Item PJTOCJ
OFF / Speed 90 / Control 66

Iseki Carbon

Chinese-style penhold version. The Iseki Carbon blade is an allround blade with two plies wood and 2 plies carbon. A very consistent bounce, a stable well-balanced feeling, and a large sweet spot results in this blade with both control and power for the allround and offensive player. Medium in weight and superlative in performance. If you are looking for an allround blade with the great feeling and performance of carbon, this is the one! Handle C / Wt 84 gms / Plies 5W, 2C / Blade only \$69.95 / Item PJISC
ALL+ / Speed 80 / Control 79

NEW

HOW TO READ THE PENHOLD BLADES COMPARISON CHART

- 1 HANDLE** C=Chinese style. J-1=Japanese style designed for one rubber. J-2=Japanese style designed for either one or two rubbers. Ergo FL = Ergonomic.
- 2 PLY** [Refers to number of layers or plies] W=Wood, C=Carbon, G=Glass Fibre, X=Texalium, T=Titanium, U=Aluminum, K=Kevlar, S=Synthetic, A=Arylate, R=Aramid, Z=Zylon
- 3 THICKNESS** [Thickness of blade, shown in millimeters.]
- 4 BLADE MEAS.: LENGTH / WIDTH**
The length [height] and width of the blade are shown in centimeters.
- 5 WEIGHT:** The average weight of each blade is indicated in grams. Individual weights may vary.
- 6 SPEED:** The higher the number, the greater the speed, meaning bounce per force input. Use to compare relative blade speeds.
- 7 CONTROL:** The higher the number, the greater the control. Use to compare relative blade control. Naturally, control ultimately is most dependent on player's skill.
- 8 CLASS:** OFF = offensive blade ALL = allround blade DEF = defensive blade. The class of blade ranges from fastest [OFF+] to slowest [DEF-]. Rubber sheets that are applied will affect the speed of the paddle.

COMBO SPECIALS

Combo Specials include penhold blade plus a choice of 1 or 2 rubber sheets, as indicated, from any of these brands: NITTAKU, JUIC, STIGA, TIBHAR, DONIC, HALLMARK, DR NEUBAUER, YASAKA. Good Through 12/1/11

Up to \$40 = no extra charge (\$55 - \$60) = \$25
 (\$40 - \$45) = \$10 (\$60 - \$65) = \$30
 (\$45 - \$50) = \$15 Extra charge for each rubber
 (\$50 - \$55) = \$20 priced over \$40

ABOUT RUBBER: HOW TO CHOOSE

About Rubber

Rubber sheets come as a square in a sealed package. The rubber is custom-assembled to a blade after the player makes their blade and rubber choices. Paddle Palace will assemble rubber to the blade as a free service upon request. One rubber sheet covers one side of a blade, so a shakehands blade requires two rubbers. ITTF regulations require red rubber on one side and black on the other.

Rubber Types

There are four main types of rubber sheets: Smooth, Short Pips, Long Pips, and Anti-Topspin.

- Smooth

Most players in the modern game of table tennis use smooth rubber, also called “inverted” rubber. The surface of the rubber is smooth with a layer of sponge underneath. Smooth rubber provides the most spin and is used by over 85% of tournament players. Hitters, loopers, all-around players and defensive players all use smooth inverted rubber.

- Short Pips

Short pips rubber, also called “pimpled” rubber, has a bumpy surface and usually has a layer of sponge underneath. It is used by players who do not execute a great deal of spin in their game. Some close-to-the-table hitters, all-around players, and defensive players use short pips. Short pips often provide more control for players who have difficulty playing against spin. “Hard rubber” is the term for short pips rubber with no sponge, and it is used primarily for the old-fashioned “Classic” or “Hardbat” play.

- Long Pips

Long pips rubber has extra-long pips that reverse the spin of the opponent. The unpredictability of the spin from long pips can give the long pips player an advantage over the opponent who has not learned to read the spin. It is difficult to play offensively with long pips, so most players who use long pips only use it on one side.

- Anti-Topspin

Anti-Topspin rubber has a smooth surface but does not generate much spin and it is slow in speed. Anti rubber neutralizes the spin of

the opponent. Most players who use anti block with it on one side and use a different rubber on the other.

Choosing Rubber

- Speed and Spin

With so many rubber sheets to choose from, how do you choose? The Paddle Palace Rubber Ratings are a good place to start. Look at the speed and spin ratings of the rubber and match one to your playing style. Offensive players who use topspin, drive, loop, and smash usually prefer rubber with a high speed rating, while defensive players who primarily use underspin, chop, push, and block usually prefer slower rubber. Loopers and choppers prefer rubber with a high spin rating. Keep in mind that the faster or spinnier a rubber is, the harder it is to control. Rubber that is spinnier also is more affected by the opponents’ spin.

- Sponge Thickness

Sponge Thickness affects the speed of the rubber. Thicker sponge provides more speed and somewhat more spin. Thinner sponge provides more control. Thicker sponge adds weight to the paddle, and also gives a more cushioned feeling. Thinner sponge is lighter and gives a woodier feeling. Offensive players prefer 1.8 to 2.5mm. Allround players prefer 1.5 to 2.0mm. Defensive players prefer OX (no sponge) to 1.6mm. Loopers prefer thicker sponge. Choppers prefer thinner sponge. Developing players or players who need more control should choose a sponge thickness that is on the thinner end of the range that fits their playing style.

MORE DONIC RUBBER ▶

Champion Jörgen Persson plays with the Donic Persson Power Carbon blade, and Acuda S1 rubber

NEW ACUDA S1 TURBO AND TRACTION RUBBER FROM DONIC

Acuda S1 Turbo

Spiny, accurate, top class rubber for performance oriented attack. Maximum built-in speed glue effect enhances speed and acceleration. To offer unbeatable rubber technology for top players, DONIC included Turbo in the manufacture of its bestseller Acuda S1 series. This is a precision rubber designed for accuracy at high speeds. Despite the rubber being dynamic and fast, it has perfect feel -like earlier speed glue days. You get good length when playing fast loops, despite a characteristic high arc. Sponge 1.8, 2.0, MAX. Item RDACT

97 96 70 \$64.95

DONIC has attained new dimensions of progress with their brand new TRACTION rubbers. This innovative TRACTION TECHNOLOGY ensures better adhesion and stronger friction. Similar to satellite navigation, the new TRACTION rubbers will dispatch your top spin loops in the right direction.

Traction MS Soft

Softer version, intended for the player who requires spin and control. Great as a back-hand rubber for top players. Compared to the harder Traction MS Pro, TRACTION MS SOFT is somewhat more flexible. This rubber offers outstanding control, with a pleasant elasticity, yet it is very spiny. The sponge color is yellow. Sponge 2.1. Item RDTRS

93 97 70 \$59.95

Acuda S1

Very fast rubber with outstanding spin qualities. Close to or away from the table it is possible to play "loop-loop" as in the days of speed-glued rubbers. Despite a medium-hard sponge, ACUDA S1 is easily controllable and great feel, even in an awkward situation. Basic character: spin-focused, high precision fast rubber. Play style: aggressive, first ball attack, close to the table. Sponge 1.8, 2.0, MAX. Item RDACU

96 97 72 \$49.95

Traction MS Pro

This is the harder alternative for top class players. The taut top rubber surface and relatively hard sponge guarantee steep penetration and length with all top spin strokes. TRACTION MS PRO is ideal for aggressive services and returns due to the grippy top surface of the rubber. It also gives sufficient control for more defensive strokes. Sponge color is pink. Sponge 2.1. Item RDTRP

94 91 70 \$69.95

Acuda S2

Ideal for attacking players who have used soft rubbers with speed glue. Spin-optimized and fast, with medium-soft, large-pored sponge, and precise feel. You get speed and a uniquely loud sound. Great for close to- and away from- the table game. An advantage in topspin/topspin duels. Recommended for power allrounders and attacking players. Sponge 1.8, 2.0, MAX. Item RDAC2

92 98 69 \$49.95

Acuda S3

Acuda S3 is spin-optimized, fast, paired with perfect sound. The very soft sponge increases feel and sound, and offers sufficient speed for powerful spin and a positive block game. Unique sound! Recommended for players with an allround style who require excellent control. Price \$49.95. Sponge 1.8, 2.0, MAX. Item RDAC3

90 98 70 \$49.95

Baracuda: The Rubber with vicious spin!

Baracuda Big Slam

Now even more vicious - with more sound and control due to softer sponge. Built-in speed glue effect produces fantastic spin. Ball leaves blade in a higher arc, with increased rotation to stabilize the flight and increase speed and more accurate placement even for top players. New topsheet minimizes abrasion for more playing hours, remaining intact longer without noticeable wear. Sponge 1.8, 2.0, MAX. Item RDBAB

89 98 73 \$46.95

Baracuda

Built-in speed glue effect produces fantastic spin. When the ball leaves the blade, higher arc results in increased spin + rotation. The ball is stabilized, fast and accurate. Top rubber surface is more durable than similar rubbers and less prone to damage. Sponge 2.0, MAX. Item RDBAR

91 98 71 \$46.95

DONIC RUBBER COMPARISON CHART
 pages 69 & 70

Champion Jan-Ove Waldner plays with the Donic Senso Carbon blade, and Coppa X1 Gold and Coppa X1 Turbo rubbers

SMOOTH RUBBER

COPPA SERIES

Coppa X1 Turbo (Platin)

Compared to its predecessors, the new Donic Coppa series, including Coppa X1 Turbo (Platin), produces more spin and a higher arc at maximum speed. Effective for topspin away from the table. Like all in the FD3 series, Coppa X1 Turbo will ensure accuracy in your game. Basic character: speed-focused, high precision spinny. Play style: offensive, fast counterspin, half-distance play. Sponge 1.8, 2.0, MAX. Item RDCXP

97 95 71 \$49.95

Coppa X1 (Gold)

Variation of the Donic Coppa X series with medium-hard sponge. Better ball control/feel with high speed and spin for precision and control. Ideal for most attacking players. Basic character: fast, high precision spinny, perfect touch. Play style: offensive with fast topspin, half-distance play. Sponge 1.8, 2.0, MAX. Item RDCXG

95 96 73 \$49.95

Coppa X2 (Platin Soft)

Excellent balance between attack and aggression. Speed, spin, and control come naturally whether close or away from the table. Also well suited for producing power for a strong backhand player. Soft-medium sponge. Outstanding for Power-Allround play, spin, block, and smash. Sponge 1.8, 2.0, Max. Item RDCX2

93 96 69 \$49.95

Coppa X3 (Silver)

Evoking best memories from speed glue times! Coppa X3 Silver's mega-loud sound and easily controlled speed is a great pleasure to use. With soft sponge, it offers perfect control for an active topspin game from all positions. Outstanding for allround style with good control plus speed. Sponge 1.8, 2.0, Max. Item RDCX3

91 97 70 \$49.95

Coppa

For aggressive offensive play with top spin, counter top spin and block, & winning points with hard strokes. High-elastic, spinny surface with soft, dynamic sponge = outstanding ball control. One of Donic's best-selling rubbers. Used by J.O. Waldner and Jörgen Persson to win the World Champs titles in men's singles. Sponge 2.1, MAX. Item RDCOP

88 83 77 \$37.95

Coppa Tenero

Well liked soft-sponge version of the bestseller World Champion rubber, COPPA. Coppa Tenero has the same outstanding spin abilities. Due to its soft sponge it grants an absolute ball control with a slightly reduced speed. Excellent ball feeling. Sponge 2.1, MAX. Item RDCOT

83 89 79 \$44.95

Coppa Speed

Enjoy the flight! Advanced players like a taut, grippy top surface for maximum spin on serve, return and topspin. With topspin, Coppa Speed produces a higher arc to the ball flight. Perfect for players who value a varied spin game. Also, this rubber has excellent long-lasting qualities. Taut Japanese rubber topsheet is extremely fast and spinny. Sponge 1.9, 2.1. Item RDCOS

98 93 68 \$53.95

VARIO SERIES

Variation is the key to winning the game. VARIO is the key rubber! Recommended for players who used to play with classical soft to medium rubbers and now want to switch to the perfect feeling of the NEW FORMULA DONIC rubber sheets.

NEW

Vario Sound

Unique sound system! This latest development of the VARIO rubber family has incorporated a soft sponge and extremely elastic top surface rubber with a distinctive loud sound when top-spinning. This rubber is the softest of the three Japanese Vario rubbers and is very spinny. It produces a high arc of the ball with fast topspin. Suitable for attackers who like to combine a stiff blade with soft rubbers or allrounders who place value on spin, control plus good when striking the ball. Sponge 1.8, 2.0, MAX. Item RDVAO

85 91 84 \$59.95

Vario Big Slam

Perfect feeling with fantastic sound!

First Vario rubber to be made in Germany, with the world famous Formula Donic technology with built in speed glue effect. Donic's rubber experts developed this soft Vario rubber sheet to match modern demands of the sport. The result is a whole new playing level! Due to extremely soft 35 degree sponge, you get perfect feeling on the blade. Suitable for controlled all around play, with a tendency to an offensive game. Also ideal for spin/rotation players who prefer soft rubbers and like to hear a fantastic sound when hitting the ball. Sponge 1.8, 2.0, MAX. Item RDVAB

83 93 74 \$41.95

Vario

One of the best selling rubbers world-wide. Semi hard sponge, high grip, outstanding spin elasticity, high speed, good control. As its name indicates, this rubber is recommended for all modern playing strategies. Sponge 2.0, MAX. Item RDVAR

87 87 78 \$37.95

Vario Soft

Pioneer rubber of the soft generation. Rubber topsheet identical to regular Vario, but the sponge is softer. The results are better control, somewhat less speed and identical spin characteristics. Sponge 2.0, MAX. Item RDVAS

86 89 83 \$37.95

Akkadi Taichi

Very grippy top surface for maximum spin, and rotation. Used by many world top ranked Asian players on the forehand. Special black sponge makes this harder and stiffer than the red version. Red Akkadi Taichi is more elastic and produces an even better bounce of the ball. This black version is recommended for the forehand. Great for serve and the first top spin in the rally. Sponge 1.5, 1.8, 2.0. Item RDAKK

82 96 73 \$33.95

DESTO SERIES

All DONIC DESTO rubber sheets have the latest, improved DONIC FORMULA technology with strengthened inbuilt speed glue effect. Even faster and more spinny. Especially the DESTO F1 has even more speed. Improved durability.

Desto F3 Big Slam

Loud sound, without speed glue! Distinctive sound is permanently incorporated into the rubber. BigSlam is somewhat softer but not significantly slower than the popular DESTO F3. It has the same amazingly simple ball control, but with the same effect as optimum speed glue. For players who previously used speed glue and those who value sound and outstanding ball control qualities rather than maximum speed. Sponge 2.0, MAX. Item RDDFB

85 94 72 \$44.95

Desto F1

This is the fastest rubber from the DESTO Formula series. Improved speed and maximum spin due to built-in speed glueing effect! A high-tech weapon for well trained players of ability, who require more speed from their rubber. The built-in speed glueing effect produces good sound, softness, plus speed and spin. Additional speed glueing is not recommended - added glue presents the danger of over-glueing. Sponge 2.0, MAX. Item RDDF1

93 91 70 \$44.95

Desto F2

The bridge between F3 and F1, giving great control at high speed. F2 is soft, has a good feel and the full sound of speed glue. It produces more speed than traditional spin elastic rubber. Slower than F1. Sponge 2.0, MAX. Item RDDF2

91 92 71 \$44.95

Desto F3

Built-in speed glue effect, with same speed but more control. Desto F3 is somewhat faster than a traditional spin elastic rubber. Soft, dynamic, w/excellent control, and great sound of speed glue. Speed glue must not be used. Sponge 2.0, MAX. Item RDDF3

89 93 73 \$44.95

Quattro Formula

Classic allround rubber incorporating speed glue effect. Speed glueing makes rubber faster but the dominant effect is to make the rubber softer and produce better ball control, despite being spinnier and faster. The addition of Formula tuning to the Quattro rubber improves performance, but limits speed for control. You get advantages of speed glue with more precision. Ideal for allround play. Sponge 2.0, MAX. Item RDQUF

83 93 74 \$45.95

Liga

Moderately priced allround rubber, designed with a longer lasting top sheet and a somewhat more noticeable amount of grip and spin. Outstanding control. Sponge 1.8. Item RDLIG

67 60 73 \$25.95

Slice 40

Smooth rubber with a sophisticated pips-in design, with a soft rubber surface tuned for defensive strategies. Quicker than the standard version Slice rubber. It offers more chop possibilities and more trickiness when defending with the 40 mm ball. Great control, but very good offensive characteristics for top-spin and counter attacks. Sponge 1.2, 1.5. Item RDLSI

66 91 80 \$43.95

SHORT PIPS

Baxter D-25

Short pips-out rubber with Spin-Control-System! Do you have problems controlling your opponent's serve or problems controlling your backhand? Do you have problems returning heavy topspins? The Donic Baxter rubber masters easily every kind of topspin and underspin variation. With 25% speed moderation for the safe and controlled pips-out player. Sponge 1.9. Item RDBAD

70 64 84 \$42.95

Baxter F1-A

Fast short pips-out rubber. The typical softness of the sponge gives a superb feeling for the ball. Baxter F1-A masters ball control in slow rallies, yet gives explosive power for fast strokes. This is the result of the integrated molecular tension of Formula Donic technology. Sponge 2.0. Item RDBAF

91 64 72 \$44.95

LONG PIPS

Piranja Tec

The technic defense long pips rubber for classical defenders. Formula DONIC technology was introduced into a long pimped rubber, resulting in an exceptional long pips rubber which is soft, very elastic, with excellent gripping qualities. Enables the player to impart far more backspin against topspin than has been possible with other current rubber technology. The pimples are faster but easier to control because of their inbuilt "speed glue" effect, ensuring more accurate blocking, counter attacking and variations of spin. The best weapon for the technically gifted classic defender, particularly effective when paired with modern sponge rubber on the other side. Sponge OX, 1.2. Item RDPiR

50 72 69 \$45.95

ANTI-TOPSPIN

NEW

Alligator Anti

This is anti-loop rubber that is very troublesome for the opponent—it has a bite! The taut anti-spin top sheet and the hard sponge ensure that the ball is returned with speed, therefore putting the opponent under pressure. It enables using effective variations and dropping the ball short with good touch. The opponent's shots can be returned short or long with this effective weapon. Attack and counter-attack are easily possible. Sponge 1.0, 1.5. Item RDALL

47 83 \$39.95

SPEED CONTROL

NEW

Anti Classic

The elastic anti-spin top surface and the soft sponge make this the classic among anti-spin rubbers. Great for defenders who play with variety as well as allround players who attack close to the table. The outstanding control is apparent in all playing situations. Made in Japan. Sponge 1.5, 2.0. Item RDANC

39 88 \$44.95

BOOST RUBBERS

Built-in Speed Glue Effect

BOOST TX is the answer for the player who wants optimum acceleration without speed glue, because of its outstanding combination of speed and spin. TransTension Sponge generates maximum tension and provides high acceleration returns for a fast spin/speed game. The sponge hardness of Boost TX rubber is between Boost TC and Boost TP. Boost TX is recommended for attackers with good technical know-how. Sponge: 1.8, 2.0, MAX. Item: RSBOX

95 94 68 \$54.95

BOOST TS is outstanding for offensive players of all levels who like soft sponge. Boost TS gives a crisp clear sound when striking the ball. Although the sponge is soft, it generates very good speed. The Boost TS sponge is softer than Boost TC. The sound and feeling of Boost TS is unsurpassed! It enables offensive players of all abilities to play to full potential. Sponge: 1.8, 2.0, MAX. Item: RSBOX

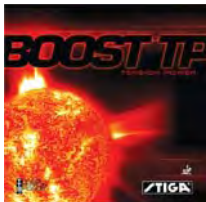

92 97 71 \$54.95

PRO Available with STIGA Hypertech blade as part of a professional blade/rubber PRO SPECIAL. See page 2

BOOST TC Thanks to the TransTension Sponge, new exciting material and a new formula, your game will be enhanced with maximum tension and power. Boost TC is for leading players who demand ultimate spin, speed plus a sensitive touch. Soft sponge for sensational touch and feel, plus crisp clear sound on striking the ball. Sponge: 1.8, 2.0, MAX. Item: RSBOC

94 97 69 \$54.95

BOOST TP TransTension Sponge and new exciting material to generate maximum tension and power. TransTension sponge will transform your game and bring out your individual characteristics. Boost TP rubber is for the leading players who want maximum spin/speed plus a sensitive touch. Boost TP offers a soft sponge, this creates a truly sensational touch and feel for the player. Sponge: 1.8, 2.0, MAX. Item: RSBOP

96 93 68 \$54.95

INNOVA RUBBERS

Innova and Innova Ultra Light

Revolutionary ACS technology combines very high speed with maximum springiness/elasticity in an ultra-light rubber with outstanding control. Innova is approx. 10% lighter and Innova Ultra Light is approx. 15% lighter than regular rubber sheets. Sponge: 1.8, 2.0, MAX.

Innova Item: RSINN
 88 91 74 \$31.95

Innova Ultra Light Item: RSINL
 86 91 77 \$31.95

Innova Premium

STIGA's ACS technology combined with a 2.4 or 2.6mm sponge and ultra-thin top sheet = the ultimate extra thick rubber sheet! A perfect combination of sponge and surface rubber results in maximum speed/spin on offensive attacks, and feeling on all touch shots. Sponge: 2.0, 2.2, 2.4, 2.6. Item: RSINP

86 82 76 \$34.95

Innova Ultra Light Synergy Tech

Synergy tech gives players what they want: More speed, spin, control, sound and elasticity. The X Factor is how we got everything to interact at the nano molecular level to give you the complete package on all your shots: Speed, Spin, Control, Sound, and Elasticity make Innova Synergy Tech Rubber Unbeatable. Sponge 1.8, 2.0, MAX. Item: RSINS

88 84 75 \$34.95

ALMANA RUBBERS

Almana and Almana Sound

Revolutionary NC "Nano Composite" technology. An exclusive mixing technique creates extremely small grains (50-100 nanometers) in the sponge for stronger, tighter bonds for maximum dynamic effect. Sponge 1.8, 2.0, MAX.

Almana Item: RSALM
 92 90 69 \$36.95

Almana Sound Item: RSALS
 90 92 71 \$36.95

Almana Sound Synergy Tech

Almana Synergy Tech gives players what they want: More speed, spin, control, sound and elasticity. The X Factor is how we got everything to interact at the nano molecular level to give you the complete package on all your shots that makes Almana Sound Synergy Tech Rubber Unbeatable. Sponge 1.8, 2.0, MAX. Item: RSASS

92 92 66 \$39.95

NEOS RUBBERS

Mega Tension Technology

STIGA's innovative Air-Capsule System has been applied to the top sheet, creating a more responsive rubber sheet with more tension. The results of this new technology - Mega Tension - are amazing! The "molecule-walls" are thinner than ordinary top sheets, creating more tension without increasing the weight of the rubber, causing quicker rubber recovery.

Neos

STIGA Neos, with Mega Tension Technology gives you extra speed. Approx. 10% lighter than a regular rubber sheet. Sponge: 1.8, 2.0, MAX. Item: RSNEO

90 85 73 \$33.95

Neos Sound

STIGA Neos Sound is ultra light for extra speed. Approximately 15% lighter than a regular rubber sheet. Sponge: 1.8, 2.0, MAX. Item: RSNEO

88 86 74 \$33.95

Neos Tacky

STIGA Neos Tacky gives you offensive tacky spin. Approximately 10% lighter than a regular rubber sheet. Sponge: 1.8, 2.0, MAX. Item: RSNET

80 93 73 \$36.95

Neos Synergy Tech & Neos Sound Synergy Tech

Players want their rubber to do it all: More speed, spin, control, sound and elasticity. STIGA's Neos Synergy Tech rubber combines all these goals. The X Factor is how we got everything to interact at the nano molecular level to give you the complete package on all your shots: Speed, Spin, Control, Sound, and Elasticity make Neos Synergy Tech Rubber Unbeatable. Sponge 1.8, 2.0, MAX. **Neos Synergy Tech.** Item: RSNSY

MORE SMOOTH RUBBER

The champion's choice

Mendo

Mendo is a great rubber for attacking and offensive players. Because of the extremely resilient sponge, it gives the extra players are looking for. Four-time World Champ Peter Karlsson plays with Mendo. Sponge 1.5, 1.8, 2.0, MAX. Item RSMEN

82 80 82 ~~\$29.95~~

Mendo Energy

The Stiga research laboratory and the World's leading players have together developed Power-Soft-Rubber for absolute world class performance. Special Mendo Energy sponge creates maximum friction on the ball. Sponge 1.8, 2.0, MAX. Item RSMEE

79 84 80 ~~\$29.95~~

Mendo MP

High-tech rubber that revolutionizes touch and sets new standards in transforming energy. Faster than conventional rubbers but with excellent touch and control. Sponge 2.0, MAX. Item RSMEP

86 85 79 ~~\$29.95~~

Carbo and Carbo Sound

Carbon + Titanium have revolutionized blade production for a new generation of players. Now STIGA extends its carbon fiber technology to rubber sheets, with fantastic results. Although carbon is a very stiff material, the elasticity of these rubbers is maintained, offering a tremendous catapult effect, with added speed and a loud sound. The surface has STIGA's Mega Tension properties and the sponge uses STIGA's ACS technology. Sponge 1.8, 2.0, MAX

Carbo Item RSCAR

94 85 69 ~~\$36.95~~

Carbo Sound Item RSCAS

92 87 71 ~~\$36.95~~

Magna SPECIAL

Magna is erupting on the market! Stiga ACS system increases speed and spin without sacrificing control. Smooth inverted rubber gives more spin in serves & returns. You dominate in topspin vs topspin rallies, and get better spin control in all situations. Sponge 1.8, 2.0, MAX. Item RSMAG

90 92 71 ~~\$44.95~~

Optimum MP SPECIAL

STIGA's two highest-tech technologies: MP and Nano Composite. The MP (Molecule Power) system top sheet, a 50-50 mix of natural and synthetic rubbers for tension and spin. Medium sponge uses STIGA's Nano Composite technology to create 50-100 nanometer size grains, for stronger, tighter bonds for greater dynamic effect. Sponge 1.8, 2.0, MAX. Item RSOPT

94 86 64 ~~\$33.95~~

Check PaddlePalace.com
for Late-Breaking Specials!

Chop and Drive SPECIAL

Great ball control. Its unique sponge absorbs the ball, thus increasing the contact time that the ball is on the bat. This creates a "can't miss" feeling for the player. Sponge 1.1, 1.5, 1.8. Item RSCHO

54 90 89 ~~\$22.95~~

China Extreme

One of the World's foremost rubbers for maximum spin. With macromolecules and optimized pimple structure STIGA has developed one of the best tacky rubbers for competition play. Sponge 1.8, 2.1. Item RSCHI

68 84 84 ~~\$27.95~~

J.M.S. EVO 1 SPECIAL

An exceptional allround rubber for players wanting to develop their game. Evo 1 guarantees ease in learning all modern offensive strokes. Evo 1 is suited for a powerful attacking style of play with a focus on control. From the J.M. Saive signature series. Sponge 2.0 Black. Item RSSE1

65 66 90 ~~\$23.95~~

SHORT PIPS RUBBER

Royal

STIGA's fastest pips-out rubber. Built for speed! Nano Composite technology in a medium sponge. NC's mixing technique creates 50-100 nanometer sized grains, producing stronger, tighter bonds for greater dynamic effect. You get great spin with the control you need. If you want to finish the point fast, Royal will deliver with its explosive power and sting! Sponge 1.5, 1.8, 2.0. Item RSROY

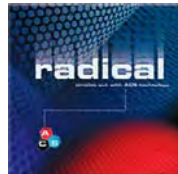

85 56 85 ~~\$35.95~~

Radical

ACS Technology is now available for pips out players! Combines the shock absorption of ACS sponge for control and extra ACS power for smashes and attacks. Great for passive and active blocking, and power in counter and smashes. Extra thin sticky surface w/very elastic base. Sponge 1.8, 2.0, MAX. Item RSRAD

80 58 83 ~~\$32.95~~

Clippa

Clippa is an offensive world class pips out rubber. Clippa's pips-out surface rubber is combined with a hard sponge. Ideal for fast, attacking play near to the table. Sponge 1.8, 2.0. Item RSCLI

80 54 86 ~~\$28.95~~

LONG PIPS RUBBER

Destroyer

A revolutionary long pimple rubber that has been developed by the World's leading players. Destroyer has exceptional unique long pimple characteristics that are soft and specially shaped to get a maximum response from individual techniques. Sponge 1.0, 1.5, OX. Item RSEDES

Made in Germany

Fastarc G-1

This is the "Grip First" version of Fastarc. It features a Tension Spin top sheet and Strong Sponge, Ideal new technology rubber for players who desire high speed balls, ideal arc, powerful topspin, and touch for all strokes of your game. Sponge thickness 1.9, 2.1. Item RNFG1

97 99 66 \$49.95

Fastarc S-1

This is the "Speed First" version of Fastarc. It features a Tension Speed top sheet and Soft Strong Sponge. This rubber is high spec quality, but it is also suitable for a broad range of high level players. It is great for high speed balls, ideal arc, powerful topspin, and excellent touch for all strokes of your game. Sponge thickness 1.4, 1.8, 2.0. Item RNFS1

99 97 65 \$49.95

Tension Spin Top Sheet

Tension Spin Top Sheet... presents an excellent grip feeling and strong top spin balls, created by unique compound chemical materials and special pimple design.

+

Strong Sponge

= **Fastarc G-1**

Strong Sponge... produces excellent hard hitting feeling with powerful speed balls at the same time.

Tension Speed Top Sheet

Tension Speed Top Sheet... produces excellent speed. The combination of rubber ingredients and texture produces speed that overwhelms your opponent.

+

Soft Strong Sponge

= **Fastarc S-1**

Soft Strong Sponge... produces excellent speed and power and gives you an excellent feeling for the ball.

Fastarc is "Fast" with an "Arc". This is the new technology rubber for players who desire high speed balls, ideal arc, and powerful topspin, and touch for all strokes of your game.

NODIAS A-1 HARD and NODIAS A-1 SOFT ON SPECIAL!

High grade natural rubber + Japanese rubber technology fused to create the ideal top sheet for table tennis. Features Active Charge technology with built in energy, resulting in outstanding speed and high friction. A-1 Hard with harder sponge for powerful play and A-1 Soft with softer sponge for softer touch and extra finesse.

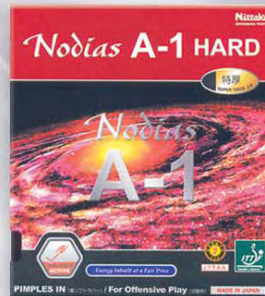

\$36⁹⁵

Nodias A-1 Hard

Nittaku's updated version of Nodias, Nodias A-1, uses high grade natural rubber and Japanese technology to create the ideal top sheet. Inbuilt energy with Nittaku's Active Charge technology insures outstanding speed and high friction. The Hard version of Nodias A-1 is optimized for power and speed. Sponge: 2.0. Item RNNOH

94 96 68 \$42.95

\$36⁹⁵

Nodias A-1 Soft

Nittaku's updated version of Nodias, Nodias A-1, uses high grade natural rubber and Japanese technology to create the ideal top sheet. Inbuilt energy with Nittaku's Active Charge technology insures outstanding speed and high friction. The Soft version of Nodias A-1 is optimized for spin and control. Sponge 2.0. Item RNNOS

93 97 70 \$42.95

Built-InEnergy at a Fair Price!

Prices listed are for one rubber. One rubber covers one side of a blade. Rubbers are available in both red and black unless otherwise noted.

Moristo DF

AMAZING FEELING! For defensive and allround play.

Super elastic topsheet and sponge. Ball goes deep into sponge for a great spring effect, but with slower speed it also provides a "hang effect" with excellent control. Sponge: 1.3, 1.5, 1.7, 1.9. Item: RNMOD

68 96 79 \$37.95

Narucross GS Hard

Narucross GS Soft

Narucross GS Super Soft

Narucross GS

Narucross GS has the most spin of all the Narucross series rubbers. Designed with "Max Tension Technology" for maximum tension in the topsheet and sponge. Superb balance of exceptional spin and speed makes this the chosen rubber of the top players. Recommended for players with a powerful and offensive game.

NARUCROSS GS is available in three sponge choices: HARD, SOFT, and SUPER SOFT.

The HARD sponge is faster and favored by the quick, powerful, driving players.

The SOFT sponge has the most equal balance of speed and spin, and is favored by powerful driving and spin players.

The SUPER SOFT sponge has good spin with outstanding touch and control.

The Hard sponge is cream in color. The Soft and Super Soft sponge is yellow in color. Available in Sponge thickness 1.9 & 2.1.

Narucross GS Hard Item RNNGH

\$38.95

Renanos Hard & Renanos Soft

Very fast offensive rubber made from a good balance of synthetic and natural rubber, so it can grip the ball firmly for great spin and make a powerful shot without speed glue. Made with "Active-Tuning" technology for increasing the speed performance of the sponge. Renanos will satisfy you whether you use speed glue or not. Available in hard or soft sponge.

Renanos Hard Sponge 2.0, 2.2. Item RNRHE

96 93 69 \$37.95

Renanos Soft Sponge 1.6, 2.0, 2.2. Item RNRSE

94 96 69 \$37.95

Renanos Hold

Very spinny high-quality rubber. Enables a topspin shot with severe spin, and excellent speed for fast topspin play. With a well-executed loop, the ball drops quickly as it crosses the net then leaps forward when landing on the table. Sponge: 1.9, 2.1. Item: RNRHO

96 98 71 \$49.95

Hammond Pro Beta
New Horizons in Speed Performance!
 This Beta version of Hammond Pro has the latest IE (Integrated Energy) technology, enabling new horizons in speed performance. Also outstanding for hitting topspin from any distance from the table. Hammond Pro Beta is the must-have rubber for the most enthusiastic table tennis players.
 Sponge: 1.9, 2.1 Item: RNHAB

96 97 72 \$46.95

Available with NITTAKU Kasumi Basic blade as part of a professional blade/rubber PRO SPECIAL. See page 2

Hammond Pro Alpha
Choice of Champions!
This is the magic rubber you have been waiting for!!!
 Extremely fast and spinny, with amazing feel. You get more power than other rubber on the market and it has fantastic control. Ver soft power sponge combined with top rubber of maximum elasticity. Sponge: 1.9, 2.1. Item: RNHAP

94 93 74 \$37.95

Available with NITTAKU Tesura blade as part of a professional blade/rubber PRO SPECIAL. See page 2

Hammond X
If you prefer spinny rubbers, you will love HAMMOND X.
 Based on HAMMOND, with "integrated Energy (ID), but with "nano-composite," where the chemical component, ground up to nano level, is compounded to enhance the characteristics of each component. Hammond X sponge is 70% synthetic to maximize the spring effect. Sponge: 1.9, 2.1. Item: RNHAX

94 96 72 \$42.95

Hammond
Extremely soft but fast rubber sheet with a maximum spin.
 Very fast but with outstanding control. Made in Japan with the finest production methods. Hammond is well-liked by top players for fast play: smash, attack and topspin. With the right sponge this is the ideal rubber sheet for all offensive and allround players. Sponge: 1.9, 2.1. Item: RNHAM

96 87 70 \$35.95

Nodias
Powerful topspin and Pin-Point Control! Careful mix of natural rubbers in the topsheet, results in superior "bite" (or "grab") feeling. Even in counter attack, the rubber grabs the ball firmly with control. Combined with highly elastic sponge, you get powerful topspin, slow shots, and pin-point control in a variety of shots.
 Sponge: 2.0, 2.2. Item: RNNOD

92 93 74 \$38.95

Spiral
All-Around + Defense! Outstanding spin, with the control you need for a devious and consistent all-around or defensive game. Used by Jie Schopp of Germany. Sponge: 1.0, 1.3, 1.6. Item: RNSPI

71 90 81 \$38.95

Micro
Outstanding Control for the All-Around Player! Designed for the all-around player who wants loads of control. Good reliable medium spin and speed. Sponge: 1.3, 1.5, 1.9. Item: RNMIC

71 71 92 \$22.95

Anti Topspin Rubber

Best Anti
 This could be just the rubber for you! Excellent for neutralizing your opponent's spin, this is the dream anti for the combination player. Pair Best Anti on one side with a spinny rubber on the other side and you will have a super tool for strategic play. Quality rubber 100% made in Japan. Price: \$23.95. Sponge: 1.3, 2.0. Item: RNBES

TIBHAR

AURUS

NEWEST RUBBER FROM TIBHAR!

\$42⁹⁵

Aurus

For the ambitious player striving to play topspin strokes in any situation. The new technology combines with ultra soft rubber surface to provide outstanding spin and playing sensation, allowing a secure and aggressive game. The integrated SPI (Speedglue-Effect-Inside) technology confers an extreme catapult reaction to the ball. Although you will use very little strength, the ball will have a lot of spin and speed. The exclusive rubber surface confers stability and a long-life-expectancy. You will notice the energy of this rubber after only a few exchanges. Sponge 1.7, 1.9, 2.1. Item RTAUR

96 97 66 ~~\$49.95~~

\$42⁹⁵

Aurus Soft

Softer version of Aurus, offering better control with a high ball rebound. An energy-loaded rubber ideal for spin-rich strokes and secured topspins with good control. Aurus Soft is very well adapted to each game level for an optimal performance. Sponge 1.7, 1.9, 2.1. Item RTAUS

95 98 67 ~~\$49.95~~

\$42⁹⁵

Aurus Sound

The softest version of Aurus produces a great sound and pure playing pleasure. Balanced playing sensation of the soft sponge and the elastic rubber surface were adapted to players who do not want to give up energy-loaded strokes, although missing some training hours. SPI technology combined with soft sponge confers an extraordinary sound. Aurus Sound combines sound, dynamics, and highest possible energy. Sponge 1.7, 1.9, 2.1. Item RTAUO

93 99 68 ~~\$49.95~~

NIMBUS RUBBER

Nimbus VIP

Answer to the Speed Glue Ban! Used by Vladimir Samsonov. Best rubber for winning under the new regulations, with even greater advantages than fresh glued rubber. Hard VIP sponge gives a great speed boost, while allowing the spin and finesse needed for the modern game. Sponge MAX. Item RTNIV

95 94 69 ~~\$42.95~~

\$34⁹⁵

Nimbus Medium SPECIAL

Softer than Nimbus rubber but with same performance. High End rubber surface plus soft sponge for speed on offense. Optimal symbiosis of surface and sponge = performance, sensation and sound. Best replacement for speed glue or tuning products. Sponge 1.8, 2.0, Max. Item RTNIE

94 94 68 ~~\$42.95~~

Nimbus Sound

Very light sponge. Provides excellent blend between spin and sound and offers the player extraordinary playing flexibility. Sponge 1.8, 2.0, MAX. Item RTNIO.

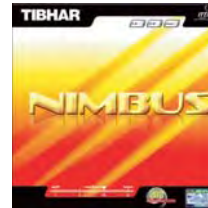

88 96 74 ~~\$42.95~~

Nimbus Soft

The soft version of Nimbus will definitely impress players who like very soft offensive rubbers. Exceedingly perceptive ball control, and developed in such a way that, even in extreme playing situations it provides a large margin for technical error. Sponge 1.8, 2.0, MAX. Item RTNIS

91 96 73 ~~\$42.95~~

Nimbus

No need for speed glue! NIMBUS -SPI includes TIBHAR's newly developed 'speedglue integrated configuration' giving you all the essential factors of speedglued rubber. Incredible spin-speed dynamic plus typical sound and ball contact feeling. Sponge 1.8, 2.0, Max. Item RTNIM.

95 93 69 ~~\$42.95~~

SINUS RUBBER

Sinus
NO LIMITS! Developed for high-performance with harder sponge for powerful play. Unsurpassable, with tremendous ball speed. Great rotation during topspin, service and short exchanges. Also provides the ever popular fresh-glove sound. Sponge 1.8, 2.0, Max. Item RTSIN

97 95 68 \$59.95

Sinus Alpha
Softer sponge than Sinus provides even better control. Not as fast as its harder twin but it gives unequalled precision during fast topspins and blocking balls. Balls have longer, evenly curved trajectory, for more pressure on the opponent. Ideal for players looking for dependability in addition to acceleration. Sponge 1.8, 2.0, Max. Item RTSIA

96 96 69 \$59.95

Sinus Sound
The "loud" variety of the SINUS series. Great sound with ball contact + amazing speed glue effect! Pronounced ball curve forgives mistakes. Integrated speed-glue-effect sponge is softer than Sinus or Sinus Alpha. You get great game sensation, optimal contact, and maximum spin + speed, even during slow topspin exchanges. Ideal for players who want ball sensation. Sponge 1.8, 2.0, Max. Item RTSIS

93 98 71 \$59.95

\$49⁹⁵

Primus SPECIAL!

Primus rubber's new gluing technique adheres the top sheet and sponge, making the combination of medium soft sponge and flexible, spin elastic surface even more dynamic. The result is an extraordinary playing sensation, control, speed, rotation and precision. Primus is optimal for all types of offensive play. Use Primus for greater playing possibilities. Sponge 2.0, Max. Item RTPRI

92 98 69 \$50.95

The new GRIP-S was used by Vladimir Samsonov to win the World Cup in Moscow in October, 2009. Samsonov defeated China's Ma Long in the Semi-finals and China's Chen Qi in the finals. The World Cup is the third most important tournament after the World Championships and Olympics.

Grip-S

From TIBHAR's Optra development, (Optimizing Trajectory), GRIP-S is born. Its extreme adhering surface and powerful sponge enables a perfect ball trajectory. You will be the master of every situation with a feeling that every mistake is forgiven. You determine the speed and rotation! Grip-S comes with a layer of glue already on the sponge. Remove the protective sheets, spread a layer of glue on the blade and let dry, then press the rubber onto the blade. Simple! Sponge Max only. Item RTGRI

92 98 65 \$49.95

Nianmor

Perfect for the mid-distance offensive game, allowing topspin and counter topspin strokes. Thanks to a mix of natural and synthetic caoutchouc in the sponge composition and a new arrangement of the pips, Nianmor offers the newest standards of Japanese rubber technology, giving you topspin strokes with high catapult level + speed and rotation. Nianmor is simply the best suited rubber for the new offensive game! Sponge 2.0, Max. Item RTNMM

98 96 66 \$54.95

GENIUS RUBBER

Genius+ Optimum

This is a premium rubber from TIBHAR, based on the Optra and Speed Effect Inside Technologies and its further developments. The pimple structure of Genius+ Optimum is a little bit different and smaller than the pimple structure of Genius, thus conferring more rotation and an unbelievable dynamic in topspin games. Are you looking for a rubber for your double-sided topspin game? If so, Genius+ Optimum is made for you! Sponge 1.8, 2.0, Max. Item RTGOP

96 98 66 \$54.95

Genius+ Optimum Sound

Soft version of Genius+ Optimum. Extremely strong catapult effect paired with a light playing sensation. You'll feel how the energy transfers from your bat to the ball. A weapon for players who favor a soft attack but do not want to give up explosive strokes in an open game near or far from the table. Energy-loaded sponge and rubber surface offers an optimal mixture of dynamism, playing sensation, sound and control. Sponge 1.8, 2.0, Max. Item RTGOS

94 99 67 \$54.95

Genius Sound

Softer and reworked version of Genius. Ideal for a very dynamic game, and allowing a brand new variety of strokes at mid-distance. Genius Sound confers the sufficient security to realize great-quality shots in any playing situation. From the combination of its newly developed sponge and spin-rich surface Genius Sound was born. Experience a rubber rich in sensation, with great sound, fast and full of spin. Sponge 1.8, 2.0, Max. Item RTGES

91 99 69 \$54.95

Genius

Rich in spin for the offensive game!

Tibhar Genius is obviously focused on spin, and more spin in this case also signifies more speed. More spin also means that the angle of the ball rebound is more upright, conferring a bow-formed ball curve, giving more precision to your strokes and putting your adversary under pressure. The new inverted pips enable a more dynamic, spin-rich game. Thanks to the new caoutchouc composition, the rubbers last longer. Sponge 2.0, Max. Item RTGEN

94 98 68 \$54.95

page 69 & 70

MORE SMOOTH RUBBER

\$36⁹⁵

Rapid D. TecS

Speed Glue Effect...without the glue! A progressive rubber with incredible rotation and speed. You get the effect of speed gluing, i.e. the sound, speed and rotation of a speed glued rubber without applying speed glue. Sponge 1.8, 2.0, Max. Item RTRADT

93 90 69 \$44.95

\$36⁹⁵

Rapid DTecS Soft

Dynamic Technology! SOFT version is even more advanced than the normal D.TecS rubber. The sound is fantastic and the speed is extreme, even without speed glue. Sponge 1.8, 2.0, Max. Item RTRADS

92 94 71 \$44.95

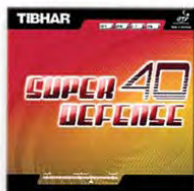

Available with TIBHAR Samsonov Alpha blade
as part of a professional blade/rubber PRO
SPECIAL. See page 3

Rapid A BEST SELLER!

Vladimir Samsonov helped develop this rubber. Soft sponge+very elastic rubber provide speed, spin and lots of ball feeling with optimum control. Sponge 1.6, 1.8, 2.0, Max. Item RTRAP

90 88 76 \$35.95

Super Defense 40

The best super defense! Developed expressly for defense with pimple geometry and extremely thin smooth rubber surface, plus special sponge. Definitive ball control allows you to cut the ball spin with extra spin. Item RTDEF. Sponge 0.5, 0.9, 1.3, 1.6.

58 96 70 \$43.95

Super Defense 40 Soft

The soft version of Super Defense 40 offers even better control with excellent spin variations. Effective for close-to-table strategies. Put your adversary under pressure, applying even more tactical force in Allround defensive play. Sponge 1.3, 1.6. Item RTDES

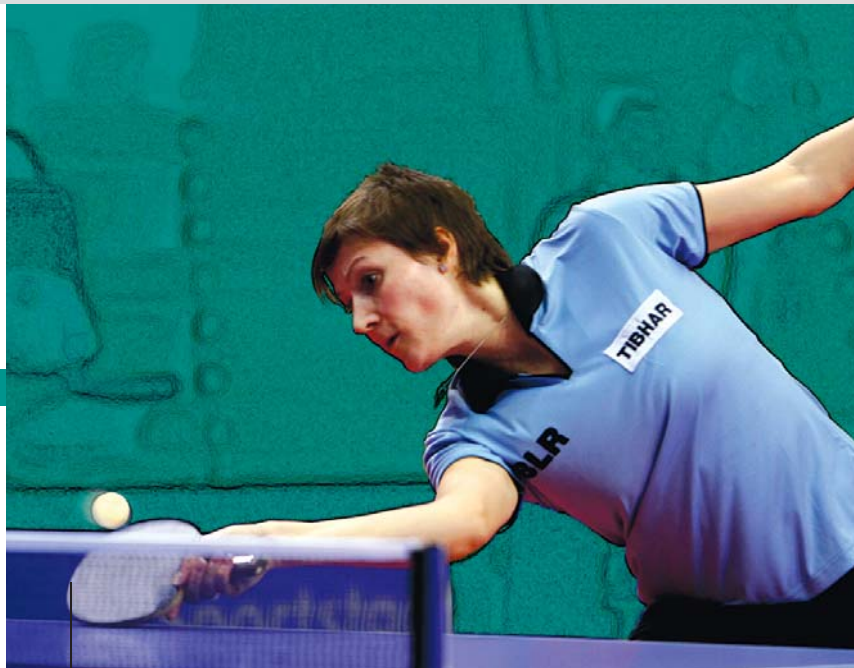

56 97 71 \$43.95

Speedy Spin

Classic Japanese rubber - #1 choice of attacking players who demand the highest qualities. Use with or without speed glue. Best for catapult, and the grippy rubber surface gives a wonderful combination of speed, spin and control, for the fast attacking game with spin. Sponge 1.0, 1.5, 1.8, 2.0, Max. Item RTSPE

88 83 73 \$39.95

Legend

An extremely adhering surface, which when combined with a very soft sponge allows this high quality Chinese rubber to play more like its European counterparts. This then makes it the ideal rubber for players looking to produce much rotation and benefit from feeling. Sponge 2.0, MAX Item RTLEG

89 91 74 \$27.95

Volcano

A high quality Allround attacking rubber at a competitive price. But do not let the excellent price mislead you! Volcano is top-notch with its superior adhering surface and typical "characteristics" of rubbers made in Germany. Sponge 1.8, 2.0, MAX. Item RTVOL

84 87 74 \$23.95

Vari Spin

The "allround expert" among the Tibhar rubbers is easily managed even when training is reduced. Excellent spin-control rubber that has a firmly resilient strong and lasting surface. Thick sponge gives you a controlled offensive spin game; with thin sponge it is ideal for safe defense. Sponge 1.2, 1.5, 1.8, 2.0, Max. Item RTVAR

76 87 77 \$37.95

Vari Spin D.TecS

Control + Spin An "I can do everything" feeling! Very mild tension enhances ball control in most styles of play. With D.TecS version ball speed increases a little but ball control is significantly emphasized. Like each of Tibhar's D-TecS rubber sheets, Vari Spin D.TecS also comes in Tibhar's "airtight pack" that ensures longevity and keeps the rubber "intense" and ready to play. Sponge 1.5, 2.0. Item RTVAD

78 89 78 \$39.95

Dang

Dang was developed for Tibhar by Chinese technological experts and adapted to European play by European top coaches. The grippy rubber surface is ideal for players who pursue consistent spin attack by a lot of control and at the same time are looking for excellent touch. Sponge 1.5, 2.0. Item RTDAN

78 80 80 \$31.95

LONG PIPS RUBBER

Mythik

TIBHAR Mythik is a multifaceted long-pimple rubber. In a time where pimples with a high disturbing effect are legend, it is important to also offer to players long pimpled rubbers with a wide range of playing possibilities. Mythik's relatively soft pimples offer high control, the possibility of extreme undercuts, and the option for an effective defensive game distant from the table. And with OX and 0.5mm sponge, Mythik is the ideal rubber for playing a potent long-pimped disturbing game at the table.

Sponge OX, 0.5, 1.0, 1.5 Item RTMYT

40 66 49 \$42.95

\$46⁹⁵

Grass Flex (half-long pips) SPECIAL!

Half-long pips rubber with soft sponge - very good control on serve return and block and tricky returns. Counter your opponent's undercut and dangerous balls and to respond to them through the attacking game. Sponge OX, 1.3, 1.6. Item RTGRFL

55 51 65 \$53.95

Grass Ultra (Long pips)

Long-pips rubber with an adhering surface (complies w/new ITTF regulations). The surface enables a variety of undercut balls in defensive game, plus unpredictable attacks at the table. Very well adapted to defensive and block game style. Sponge OX, 0.5, 1.0, 1.5. Item RTGRUL

44 65 66 \$53.95

Grass Defense & Grass Offense

The wave of the longest (and legal) Japanese long pips is similar to waving grass in the wind. The Def version w/soft sponge is easy to play with. The Offense version w/hard sponge is best for an active combination game.

GRASS DEFENSE 1.0 or OX [no sponge] Item RTGRDE

39 60 51 \$41.95

GRASS OFFENSE 1.5 or 2.0 sponge. Item RTGRDF

42 54 52 \$41.95

Grass D.TecS

D.TecS effect integrated into classical long pips rubber. You get new ways to cut the ball and counter destabilizing strokes. Softer pips provide amazing control plus speed to destabilize the opponent with nervous aggressive shots during attacks.

Sponge 1.2, 1.6, OX [no sponge]. Item RTGRDT

41 65 48 \$44.95

PIPS OUT RUBBER

Speedy Soft

Broad, short pips for highest speed on counter attack or block at the table. Soft sponge gives maximum ball control, without affecting the popular "naps effect." Sponge 1.0, 1.5, 2.0. Item RTSSO

89 58 79 \$39.95

Speedy Soft D.TecS

D.TecS (Dynamic Technology with Samsonov) results in more speed and more danger for your opponent on block or counter balls! Sponge 1.5, 2.0. Item RTSSD

91 56 81 \$41.95

Speedy Soft D.TecS VIP

Tibhar combined the short pimples of Speedy Soft with the proven D.TecS technology. The result is astonishing because the short pips not only deliver speed during the open game, but additionally an increased disturbing effect for the adversary, especially during the counter and block balls.

Sponge 2.1. Item RTSSV

92 61 77 \$41.95

ANTI TOPSPIN RUBBER

Ellen Defense & Ellen Offense

ELLEN DEFENSE-Soft sponge for defense players sensitive to topspin. Has a distinct braking effect, to give unsurpassable ball control. Sponge 1.5, 2.0. Item RTELD

SPEED **43** CONTROL **97** **\$26.95**

ELLEN OFFENSE-Hard sponge for active anti game. Very strong against opponents' spin, w/distinct braking effect, resulting in unsurpassable ball control. Sponge 1.5, 2.0. Item RTELO

SPEED **52** CONTROL **85** **\$26.95**

COACH'S CORNER

by Massimo Constantini

Head Coach, ICC Table Tennis Center

Group or Private Lessons?

Since I started working here in America, I have always wondered: is it better to let our youth work in groups or individually? In my experience I would say, without doubt, that our boys and girls should work in groups. However, at the same time I cannot say that individual lessons are useless; in fact they are very important. The key question is what kind of methodology does the coach intend to undertake?

Let's analyze the various aspects of this question.

I'll start with a very clear concept: in order to hone their skills, kids need to grow up technically and tactically rallying with their peers. The rallies they have during these training sessions will be exactly the same as they will face in competition. They will have the similar characteristics as their practice rallies and will result in the players being much more familiar and comfortable when confronting them in competitions.

Of course the kids should not be left to themselves. They need to be monitored continuously and the coach, who oversees the group, must be well trained and understand all the nuances of the positive or negative play that occurs during training.

Working in groups is widespread throughout the world. In Europe, clubs are organized so athletes play with each other during daily training sessions. The coach decides who should play with whom, whether to use a sparring partner or whether to set up "multi ball" sessions, or a mix of these options. The coach takes care of individual players who may need particular assistance with technique or tactics or any other aspect of their game on a weekly basis.

Every player needs to develop his/her strategy, tactical designs or style of play. These can best develop when kids are allowed to grow from and out of peer practice. The coach will be at the kids' side and will be there to guide them like a beacon light guides sailors.

If a player development system is based only on individual coaching, then training takes on different dynamics. For example, I think we all accept that table tennis requires a high confidence level to perform well. If this is true, then imagine what can happen to a player who plays with a coach who mercilessly and constantly resends the ball always in the field? What kind of self-confidence will the player produce? How can he develop what we call "killer instinct" or the ability to score quickly? How can he develop a solid tactical sense?

But there's more. I've noticed, along with other coaches I've known, that playing the ball in competition against one's fellows is a real surprise and learning experience for the player. Why? It's obvious. If a player becomes accustomed to practicing with a coach who hits a clean ball, a precise ball, always the same quality ball, how can s/he learn to be ready for the irregular shots and bounces of

competition? Often times in competition kids have to deal with a very "weird" ball. How many times have we heard them say "that ball is so weird".

The sport of table tennis is a situation game, it is very important that this point remain a constant during the player's development. Let's not forget, a coach can be the best coach

Massimo Constantini at ICC with Ariel Hsing, U.S. No 1 women's player, and Lily Zhang, No. 1 in U21 women.

As a player Massimo Constantini played in 11 World Championships, with an attained ranking of 39th in the world. He also played in 11 European Championships, and the Olympic Games. In 1995, Massimo became full time coach and is certified ITTF high performance coach.

In the past 16 years, his coaching career has included Olympic and national teams, plus many of the best players in the world, such as Jan-Ove Waldner, Jorgen Persson, Peter Karlsson, Vladimir Samsonov, Werner Schlager, Chen Weixing, Jindrak, and Patrick Chila, to name a few. He currently is Head Coach at the India Community Center in California, where there is a world-class training program for young players.

in the world but he cannot be the ideal sparring partner. My point of view is simple; kids need to play in groups. Of course they also need the continued support of their coach, to guide them, to correct their defects and to emphasize their merits.

To support my opinion, it is well to remember the roles of the coach. Those who have participated in courses for ITTF Level One know there are many roles: friend, planner, organizer, teacher, observer, trainer, fundraiser and so on. But ITTF does not consider the coach as a sparring partner. Now you can agree or not, in any case, this helps us understand what the coach might be able to do.

Here is another important aspect. Quality. Many players wrongly think that playing with their coach may be the best practice. As a coach/sparring partner I sometimes feel observation is limited. This is because as a sparring partner, I have to: keep the ball in the field; playing in the most appropriate way; control the movements of the player; look for the faults of rhythm; look for the faults of impact; look for the faults in preparing the strokes; ensure the player looks carefully at the

We'd like to hear from you!

Please visit our Paddle Palace "News" page and comment on Mr. Constantini's position on group practices.

Go to PaddlePalace.com and click on "News" at the top of the page. Then click on his article and add your thoughts to the comments section at the bottom of the posting. Massimo will respond to your questions.

DR. NEUBAUER

ON SPECIAL

ANTI TOPSPIN RUBBER

New Gorilla

Gorilla with a slow dampening sponge = better control, while producing very good spin reversal in blocking spinny topspin balls. The 1.2mm sponge is the slowest and most effective for short blocking close to the table, while the 1.5 and

1.8mm give a decisive disruptive effect while blocking but with better attack through aggressive pushing and lifting. Sponge: 1.2, 1.5, 1.8 (PINK color). Item: RUGON

SPEED **39** CONTROL **88** ~~\$62.95~~

\$52.95

Gorilla with Special Sponge

Gorilla Anti topsheet with a 1.8mm special sponge. Thicker, and slower than regular Gorilla sponge for a high level of control and increase of disturbing effect of the rubber. Sponge: 1.8 (YELLOW color). Item: RUGOS

SPEED **40** CONTROL **91** ~~\$68.95~~

\$52.95

Gorilla

Revolutionary rubber for a highly effective blocking game w/excellent block + chop + control. Sponge: 0.6, 1.0, 1.3 (CREAM color) Item: RUGOR

SPEED **42** CONTROL **86** ~~\$68.95~~

Grizzly ABS Sponge

Slower than the original version, topsheet produces good spin reversal on topspin balls with a lot of rotation. The ball bounces very low on the other side of the table. A.B.S. has a dampening effect to reduce rubber speed but with remarkable control. Sponge: 1.2, 1.5, 1.8 (PEACH color). Item: RUGRN

SPEED **40** CONTROL **87** ~~\$55.95~~

\$49.95

Grizzly

Innovative Anti-Spin rubber, adapted to an all-round game, offers good control and a great disruptive effect. Sponge: 1.0, 1.6, 2.0 (WHITE color). Item: RUGRI.

SPEED **44** CONTROL **89** ~~\$68.95~~

• Please note: Packaging for original and new versions of Grizzly are the same. The sponges are different colors – original sponge is white, new A.B.S. sponge is peach.

A.B.S.

Control + good spin reversal! For close to the table blocking. Distinctly slower than Gorilla and Grizzly and offers much better control. Very good spin reversal and attacking possibilities through aggressive pushing and lifting, especially against chopshots. Sponge: 1.2, 1.5, 1.8 Item: RUABS

SPEED **36** CONTROL **90** ~~\$64.95~~

Anti Special

Slower than Dr Neubauer's Gorilla and Grizzly, but with better control. Very good for spin reversal for an effective blocking game close to the table. Also provides good attack through aggressive pushing and lifting. Sponge: 1.2, 1.5, 1.8. Item: RUANT

SPEED **38** CONTROL **89** ~~\$57.95~~

LONG PIPS RUBBER

NEW

Inferno Classic

New long pimple rubber with friction offering a very good disruptive effect and surprising attacking possibilities. Enables dangerous returns both through passive and active blocking ("chop-blocking") since the ball bounces very low on the other side of the table. Good control and surprising attacking possibilities through aggressive pushing and lifting, and also through classical defense since the rubber produces a lot of backspin. Sponge: OX, 0.6, 1.0 Item: RUINC

41 43 55 \$51.95

Fighter

Innovative rubber composition provides excellent control with good attacking possibilities through aggressive pushing and counter-attacking at the table. Sponge: OX, 1.2 Item: RUFIG

42 45 57 \$36.95

\$42.95

Go to PaddlePalace.com for details on these Dr. Neubauer rubbers

Boomerang Classic

40 48 59 \$53.95

Monster Classic

44 52 62 \$53.95

\$42.95

SMOOTH RUBBER

Special Defense

High friction surface without being sticky. Effective in combination with pips or anti-spin rubber. Sponge 1.0, 1.2, 1.5. Item: RUSPE

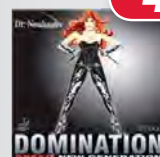

\$43.95 **79 92 76 \$51.95**

Goliath

Speed glue effect without speed glue, for an extremely dynamic attacking game. Harder sponge allows more speed for attacks. Sponge: 1.5, 1.8, 2.1. Item: RUGOL

\$44.95 **95 91 69 \$57.95**

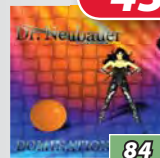

\$46.95

Domination Speed

Inverted smooth rubber with "speed glue" tension in sponge & top sheet. Sponge 1.5, 1.8, 2.1. Item: RUDOS

94 92 69 \$54.95

\$43.95

Domination

"Speed glue" tension in sponge and the top sheet. Elasticity and tension create acceleration. Sponge 1.2, 1.5, 1.8, 2.1. Item: RUDDOM

84 89 74 \$46.95

SHORT PIPS RUBBER

Diamant [Half-Long Pips]

A multi-purpose weapon for serve return, block, attack and defense. Also great against chops: any backspin can be smashed for winner points. Sponge: 1.2, 1.5, 1.8, 2.1 Item: RUDIA

\$42.95 **76 61 84 \$57.95**

\$39.95

Leopard [Short Pips]

Supreme for blocking, counter-attack. Sponge 1.0, 1.5, 2.0. Item: RULEO

70 63 82 \$45.95

Pistol [Short Pips]

Fast, powerful, dynamic for fast attack - especially straight hitting and fast looping. Enormous speed with a disturbing "flat" effect. Sponge: 1.0, 1.6, 2.0. Item: RUPIS

\$39.95 **94 69 70 \$45.95**

\$39.95

Tornado Ultra [Short Pips]

Big spin/speed and tactically dynamic for blocking and counter-attack. Creates wobbling balls. Sponge: 1.5, 2.0. Item: RUTOR

93 58 81 \$45.95

RAKZA 7

Natural rubber gum in the top sheet dramatically improves the level of grip and spin. Top sheet is combined with the new Power Sponge to produce Yasaka's newest Hybrid Energy rubber. When you hit the ball hard, the rubber grips the ball so the stroke can place the ball accurately, both in direction and length. Serve and short returns are very sharp and easy to control. Due to the increased percentage of natural gum the durability is improved. A winning combination! Sponge: 1.8,2.0,MAX Item: RYRAK

94 95 67 \$47.95

RAKZA 7 SOFT

Yasaka Rakza 7 Soft uses the same top sheet as Rakza 7, but with softer sponge, giving the rubber more sound and built-in speed glue effect plus increased control. After hitting a topspin shot, the curve of the ball is slightly higher, giving little bit bigger margins in the game. In the short return play, the ball feel is better. Sponge: 1.8,2.0,MAX Item: RYRAK

93 96 68 \$47.95

Mark V HPS & Mark V HPS Soft

This outstanding top-of-the-range fast rubber gives you all the characteristics required for advanced offensive play. The HPS (Hybrid Power Sponge) technology used in this rubber is the result of the newest advances in Japanese rubber technology. It provides improved dynamics in the sponge, and more speed and spin, without higher weight.

MARK VHPS has a medium-hard sponge, suitable for aggressive play close to the table. Sponge: 2.0, MAX. Item: RYMKH

90 88 71 \$43.95

Mark V HPS SOFT has a slightly softer sponge than the regular Mark V HPS, suitable for offensive allround players.

88 89 72 \$43.95

Mark V is available with STIGA Allround blade as part of a professional blade/rubber PRO SPECIAL combination. See page 3

PRO

Mark V:

Used by 2008 Olympic Gold Medalist Ma Lin

A Best Selling Rubber from Yasaka! Many championships have been won with Mark V, which represents the absolute highest quality of rubber production. For the aggressive player who masters the modern, fast technique close to the table, Mark V gives unique possibilities. Sponge: 1.0, 1.5, 1.8, 2.0, MAX. Item: RYMKV

86 84 76 \$34.95

Mark VXS

Newest rubber sheet from Yasaka: Mark V XS. This highest quality rubber is ideal for the aggressive player who masters the modern, fast technique close to the table. Sponge: 1.8, 2.0, MAX. Item: RYMKX

88 84 73 \$41.95

Mark V M2

Made for Maximum Speed. Based on the incomparable technical features of Mark V, but with slightly harder sponge. Gives the ball sharp spin and ultimate speed. Sponge: 1.8, 2.0, MAX. Item: RYMKM

91 79 72 \$36.95

Mark V GPS

Same quality surface rubber as Mark V with softer sponge, giving more "feeling" and "control". Sponge: 1.8, 2.0, MAX. Item: RYMKG

82 86 77 \$34.95

Mark V 30

Double glue absorption, improved spring capacity due to maintaining the sponge hardness levels at 30 degrees. Sponge: 2.0, MAX. Item: RYMK3

79 85 78 \$34.95

X-Tend HS

The Spin Machine! No speed glue needed! STS (Spin-Tension-System) technology by Yasaka gives 2/3 of the tension energy to spin and 1/3 to speed. Topsheet and sponge have been completely re-designed to deliver high-power speed with easy handling--just what the players asked for. Do NOT apply speed glue, as it will destroy the rubber. X-tend HS is made to be fast without speed glue. Sponge: 2.0, MAX. Item: RYXTH

84 87 75 \$43.95

X-Tend

The Spin Machine! No speed glue needed! "Tension increase" gives you 2/3 more spin and 50% more speed. Sponge: 2.0, MAX. Item: RYXTE

82 88 75 \$39.95

LONG PIPS & ANTI TOPSPIN RUBBERS

Anti Power [Anti] Sponge: 2.0. Item: RYANT

SPEED 48 CONTROL 88 \$32.95

Phantom Infinity [Long Pips]

Regulation length long soft pips: Deadly weapon for any defensive player. Neutralize opponent's spin and use the effect of the spin to benefit your own returns. Design of the top of the pips aid attack.

0011 Sponge: 1.0. Item: RYPH1

35 58 51 \$31.95

0012 No sponge. Item: RYPH2

28 64 55 \$29.95

Fusion

Three different synthetic rubbers are mixed with natural rubber, each with unique characteristics for speed, spin and durability—"Energy Fusion Rubber". Fusion contains synthetic rubber for speed glue effect - very elastic feeling and strong sound! Sponge: 1.8, 2.0, MAX. Item: RYFUS

90 86 74 \$38.95

V-Stage

For players looking for powerful spin and speed. V-Stage is produced by simultaneously vulcanizing high-friction coefficient rubber to improve spring and high elasticity. Sponge: 2.0, MAX. Item: RYVST

93 92 68 \$47.95

Pryde 40

Feel the speed, recognize the sound! Pryde 40 is a superb new rubber from Yasaka using the latest technology. Newly developed medium-soft sponge creates better speed and bigger sound for a fast attacking game. Power Tension rubber does what traditional rubbers and other tension rubber cannot do: gives you outstanding performance without the need for speed glue. It's the perfect mix of speed, spin, sound and feeling. You will love it! Sponge: 2.0, Max Item: RYPR4

93 94 70 \$46.95

Pryde 30

Maximum sound and spin! Pryde 30 is a new, softer sponge version of Yasaka Pryde. Combines the built in speed glue effect of Yasaka's Power Tension technology with an elastic sponge for maximum sound and spin, with great built-in speed-glue effect, plus more control for greater variation in offensive play. Sponge: 2.0, Max Item: RYPR3

92 95 71 \$46.95

Pryde

Delivering the devastating energy of POWER TENSION! Yasaka's powerful reply to the speed glue ban. The characteristic speed and touch of speed glue - without speed glue. You feel the powerful speed and you'll recognize the sound! Sponge: 2.0, MAX. Item: RYPRY

94 93 69 \$46.95

HALLMARK

Phoenix [Long Pips] SPECIAL

LONG PIPS & LEGAL! Designed for close-to-table play against topspin. Special rubber formulation and geometry + Hallmark super anti sponge = high level of control. Returns are low over the net with some spin reversal obtained. Spin serves can be returned with ease and push and float balls can be attacked aggressively without problem with some spin generated from the rubber. Sponge: OX, 1.0, 2.0. Item: RHPHO

\$42.95

38 67 58 \$51.95

Green Power SPECIAL

[Smooth] A fast attacking smooth rubber for players who used speed glue before the ban. The special formula introduces tension between the molecules to produce a rubber ideal for the modern fast attacking game. Excellent speed and spin are generated, combined with high levels of control which is sure to give your opponent plenty of problems. Sponge: 1.5, 1.8, 2.1, MAX. Item: RHGRE

\$22.95

89 88 75 \$25.95

Power Spin SPECIAL

SMOOTH & LEGAL! This smooth inverted rubber produces very high levels of spin. The 2.0mm version is faster and better for top spin, 1.0 gives good control when chopping away from the table but still produces high level of back spin!!!! Sponge 1.0, 1.5, 2.0. Item: RHPOW

\$33.95

88 90 73 \$42.95

Panther [Medium Pips] SPECIAL

MEDIUM PIPS & LEGAL! Medium pips rubber. Get the tricky advantage of long pips and the offensive potential of short pips rolled into one rubber. Relatively wide pips. Slightly improved control and slightly reduced effect when compared to Half Long. Sponge OX, 1.0, 1.5, 2.0. Item: RHPAN

\$33.95

70 58 89 \$42.95

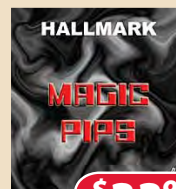

NEW HALLMARK RUBBER (LONG PIPS)

Friction Special 2 [Long Pips]

This long pimple rubber has full friction but still gives a good level of disruption to the flight of the ball and is slower than other long pimple rubbers. Ideal for defensive players and for combination bat players who block with their backhand. Sponge 1.8, 2.0, Max Item RHFR2

31 59 55 \$54.95

Magic Pips [Short Pips] LEGAL

The 2.0mm version produces great top spin + excellent control for close to the table hitting and blocking. The 1.0mm produces less rotation but great blocking against topspin. Sponge OX, 1.0, 1.5, 2.0. Item: RHMAG

\$33.95

82 63 80 \$42.95

Frustration [Long Pips] SPECIAL

LONG PIPS & LEGAL! A long pips rubber with a slightly sticky surface, it actually produces some rotations of the ball. Sponge OX, 1.0, 1.5, 2.0. Item: RHFRU

\$42.95

39 69 46 \$47.95

Mirage [Anti] SPECIAL

Anti spin rubber with long pips effect! For combination players to combat speed/spin of the modern game. Super slow sponge slows the ball, increasing effects of the playing surface. You get mega-backspin when chopping away from the table. Pushing gives the ball forward rotation, perfect for attack. Ideal replacement rubber for Hallmark Original and Super Special. Sponge: 1.0, 2.0. Item: RHMIR

\$42.95

SPEED 43 CONTROL 87 \$54.95

HOW TO READ THE RUBBER COMPARISON CHART

The Rubber Comparison Chart lists **SMOOTH RUBBER** on pages 68 & 69. **SHORT PIPS, LONG PIPS,** and **ANTI-TOPSPIN RUBBERS** are on page 70. For more info on rubber types and how to choose rubber, see page 46.

SPONGE THICKNESS is shown in millimeters. The measurement includes only the sponge (not the topsheet). Often the manufacturer indicates "MAX" for the thickest sponge available for a rubber. MAX thickness can vary from brand to brand, but it usually means the sponge thickness is approximately 2.3 to 2.5mm. Often MAX means the sponge and topsheet together measure 4.0mm, since this is the maximum thickness allowed under ITTF regulations. All rubber sheets at Paddle Palace are produced with ITTF legal sponge thickness.

The **SPEED/SPIN/CONTROL RATINGS** are on a scale of 1.0 to 9.9, with

the higher the rating, the higher that attribute. These ratings use a universal scale which differs from the manufacturers' ratings so that the rubbers from all the brands can be compared. Ratings are meant only as a tool for helping to select rubber. Naturally, speed, spin, and control are all factors that are greatly affected by an individual player's skill, strokes, and playing style.

Rubber sheets are available in red and black unless otherwise indicated. One rubber covers one side of a blade. Paddle Palace will apply rubber to the blade for no extra charge upon request. ●

S = SPECIAL **PRO** = PRO SPECIAL

PRO SPECIALS
 Pro Specials include a specific combination of a professional blade with two rubbers pre-assembled at Paddle Palace. See pages 2-3 for details.
 This icon indicates Blades or Rubbers that are available with a Pro Special.

TABLE TENNIS NEWS

from Paddle Palace

Read All About It! At PaddlePalace.com

The Paddle Palace News Page is up and running! We have been featuring many articles by players and coaches with info about choosing equipment and playing. Just go to PaddlePalace.com and click on "News" at the top of the page to browse through the many topics.

We invite you to ask questions of top coaches Stellan Bengtsson and Massimo Constantini, among others. You are welcome to leave your comment or question in the comments section at the bottom of each article. We'll pass it along to the author for reply. If you are asking a coaching or equipment question, we ask that you tell us what equipment you use, your style of play, and your rating. This information is helpful to the to the pro and will make their answer much more appropriate for your situation. We'll be looking for you on the Paddle Palace "News" page!

USA Table Tennis 2011 Nationals: December 13-17 in Virginia Beach

The USA Table Tennis National Championship is the premier event held by USA Table Tennis, annually drawing hundreds of competitors from around the country. It will take place Dec. 13-17, 2011 at the new Virginia Beach Convention Center, located just blocks from the beautiful Virginia Beach Oceanfront. There will be continuous, free shuttle service to all partner hotels. Parking is free if you want to drive. You are invited to come and enjoy the best table tennis in the United States! Come to watch or come to play. There are novice and hardbat events in addition to events for nationally ranked players. Deadline to enter is Oct. 20, 2011, and late entry deadline is Nov. 1. Entry forms are available at www.PaddlePalace.com and www.usatt.org

COACH'S CORNER [Continued from page 64]

ball; and calculate the position of their legs. As a sparring partner I cannot notice all of these elements and be able to determine, in few moments, the reason for the errors the player is committing. You can easily understand that quality is something that demands undivided attention.

The coach is and must remain the only one able to create the best possible conditions so that the kids can grow, improve and give the best performance.

So, the question is: how many paddlers can a coach simultaneously monitor? Of course it depends on the capabilities and observation powers of the coach. In my experience, the groups may be formed with a minimum of 2-3 (mini group). If the coach intends to enter training modules that include "multi ball" drills, a maximum number of players would be 10. Having more players' means the coach will need the support of assistant coaches.

When the coach gives the various exercises to the group, he will immediately realize how, day after day, the kids improve and so he will act in the best way, giving all kids the equal and highest quality coaching.

Last but not least we have one more aspect: how many hours per week should we devote for practicing? The answer is, as much as you can. If we want to make the US greater and greater we should ask parents to let the kids play more, much more unless they say "I'm happily tired cause I've given my best to improve".

Once you have given your best, you also will be ready for the life.

Paddle Palace S4W Pro Robot

Taking Robot Technology to the Next Level

The Paddle Palace S4W Pro has two heads, each with two throw wheels. Both heads, and the four throw wheels, are all independently programmable, allowing you great flexibility in designing playing patterns and practice options. You can program a seamless combination of topspin and underspin (or side-spin or no-spin) shots in the same play sequence. The S4W Pro comes with an easy to use, comprehensive control box that is conveniently located at the player's end of the table. This heavy duty robot is durable for club and home use. It is ready to use right out of the box.

The S4W Pro provides a player the option to use either one or both heads to produce their desired practice patterns. Use the single head to set up a specific serve or volley, or employ both heads to alternate seamlessly between types of spin, short and long balls, strong and weak balls, or high and low balls. Plus, you choose the landing spots, as well as the speed and throw frequency. Another advantage is you can set up one head to reproduce a realistic serve that hits the robot side of the table first, then complete the sequence with volleys from the 2nd head. The S4W is easy to use, yet provides the sophisticated technology and flexible programming to be your ultimate training machine.

See PaddlePalace.com for details and owner's manual.

- Free Ball Pick-up Net
- Free Robot Training DVD
- Free shipping to contiguous USA
- 30-day money-back Guarantee
- One year limited Warranty

Paddle Palace G2W Pro Robot

Putting Robot Technology to Work for You

The Paddle Palace G2W Pro robot is everything you need in a robot! This robot has two throw wheels with independently programmed motors, allowing a great variety and degree of spins, including topspin, underspin, sidespin, and no-spin. Plus, a new technological advancement allows the robot to shoot consecutive shots with different spins. You can program your own sequences including 11 landing spots with combinations of short and long balls. Or, you can choose from 30 pre-programmed sequences which have combinations of spins, short and long balls, and with a variety of landing spots.

The remote control box can be set on the player's side of the table, and it controls all functions of the robot, including the movement of the robot head up or down for higher or lower balls, and rotating the head for topspin, underspin, and sidespin. The G2W is designed for the player who wants a high-quality long-lasting robot that is easy to use, yet offers the sophisticated technology for practicing the ideal training patterns to take your game to the next level.

Oscillation - Random (R), Controlled (C), Programmable (P)
Controlled Oscillation means you can set the robot to hit alternately only to the two widest points in the angle range, plus you can set the width of the angle. With Random Oscillation, the robot hits to the inner angles as well as the widest angles. With Random Oscillation, where the ball lands depends on the frequency and speed settings you have chosen. Programmable Oscillation is the most versatile. It achieves everything Controlled and Random Oscillation does, plus you can program sequences of your choice for where the ball lands!

Serve & Volley Sequences
The Robot can be set to serve and volley in the same sequence. So, for example, you can set a sequence to begin with a serve, then shoot volleys to specific landing spots with spins of your choice for a realistic training pattern.

Topspin/Underspin Sequences
The robot can shoot topspin shots and underspin shots (and other spins) in consecutive shots in the same sequence.

Throw Wheels – One, Two, or Four?
Robots with one throw wheel can shoot topspin, underspin, and sidespin. With two throw wheels, the two independently controlled motors makes it possible for the spin setting to be independent from the speed setting. This results in a great range of spin options; from light to heavy topspin, light to heavy underspin, and light to heavy sidespin. And you can set it for no spin shots. Four throw wheels provides the greatest versatility of all, including serve and volley in the same training sequence.

ROBOTS FROM PADDLE PALACE at affordable prices!

\$695⁹⁵

Item OPVA3

Paddle Palace A32W Pro

The Paddle Palace A32W Pro has many outstanding advanced robot features, but is offered at a very affordable price! Unlike other robots in this price range, it has two throw wheels controlled by two independent motors. This gives you great control over setting the variety and degree of spins including topspin, underspin, sidespin and no-spin. It includes an automatic ball recycle and net collection system. It has multiple oscillation options, and has convenient robot controls on the player's side of the table. The A32W Pro is high quality, sturdy, reliable. It comes ready to play with virtually no assembly required, and it rolls from storage to table for very quick setup/take-down.

- Two throw wheels, for multiple spin options
- Multiple Oscillation Options
- Very durable, made with high quality materials
- Ball Recycling and Net Collection System
- Rolls easily from table for easy storage
- No-Jam, easy-feed engineering

FREE shipping to contiguous USA!

FREE 120 Nittaku Super Training Balls

Go to PaddlePalace.com for more details and the owner's manuals.

Paddle Palace Table Top Pro

The Paddle Palace Table Top Pro is an affordable and quality robot that delivers strong and consistent topspin, underspin, and sidespin shots. It is simple to use and is jam free. The frequency and speed of the shots are controlled by convenient robot controls on the player's side of the table. It can be set to hit to one spot on the table, and it also has multiple oscillation options, both controlled and random. It can be set to shoot serves or rally shots. It can be placed on any location on the table, or it can be set on a stand behind the table (stand not included). A ball collection net is available for an extra charge. The Paddle Palace Table Top Pro is the easiest robot to set up and use that we have ever seen!

\$499⁹⁵

Item OPVTT

- Versatile, shoots from any location on the table
- Outstanding topspin, underspin, sidespin
- Multiple Oscillation Options
- Set for serves or rallies
- Easiest robot to set up and use
- Net not included. Nets available. See p.81

FREE shipping to contiguous USA!

FREE 48 Nittaku Top Balls

PC not required for use.

The world's **ONLY** digital robots.

Precise, Programmable, User Friendly

- Precisely set and control ball speed, landing spot and frequency!
- Make robot more unpredictable with the best randomization controls of any robot at any price.
- Use drill software on your PC to create new drills, customize old drills, or swap drill files with your coach or friends.
- Quickly find what you're looking for with the easy to use cell-phone-like menu system in 6 languages.
- PC not required unless you want to modify drills or create new ones.

Like a 2040 on steroids!

- Simple to operate
- Wider oscillation
- Precise ball placement
- Faster speeds
- Expanded frequency range
- Enhanced randomization
- Create & run drills

- Manually control each function in Normal Mode. Stop ball delivery by time, ball count, or press of a button.
- Select a drill number, press start, and begin a drill instantly in Drill Mode. Easy!
- Program and run your own custom drills by connecting to a Windows PC. Drill writing software included, FREE!
- Set the playing hand option for Righty or Lefty so drills run correctly.
- Comes with 64 pre-programmed drills for various playing levels. Train strokes, footwork, transitions, and other skills.

- The affordable alternative to Robo-Pong 2050. Identical in every way except it doesn't have the Recycling Net System. Purchase the inexpensive Ball Catch Net II separately for ball capture and manual recycling. Or later on, upgrade to full 2050 capabilities with the Recycling Net Upgrade Kit. Position robot anywhere on top of table or mount it in our optional Robo-Caddy to get a variety of angles and trajectories.

- Convert your Robo-Pong 2040 or 2000 into a 2050! This upgrade kit consists of a 2050 robot body, digital control box, 100v-240v power supply, shielded connector cable, 2050 Owner's DVD & Owner's Manual. Cost effective way to bring your older Robo-Pong into the digital age!

Newgy items do not qualify for free shipping. For shipping charges, call Paddle Palace or go to paddlepalace.com.

Each product comes with a 30 day money-back guarantee, 1 year warranty and free 5 year service policy.

ABOUT PURCHASING YOUR TABLE

Table Top

Look for tables with thicker tops. Thicker tops give a more consistent bounce and are less likely to warp after years of use. The Paddle Palace recommends table tops of 3/4 inches or more.

Net Set

Some tables have net posts permanently attached to the frame. These make setup and takedown a little quicker but may not be as adjustable or sturdy as separate net posts. Table price includes net set.

Frame

Look for tables that have larger, sturdier legs and support frames. Sturdier frames contribute to a more consistent ball bounce and also help prevent top warpage. If you set up and store your table regularly, a larger frame increases durability.

Wheels

Larger and stronger wheels are important particularly if you set up and store your table frequently.

Table Shipment

Tables are shipped directly from the manufacturer by freight line. Delivery generally takes 2-3 weeks from the date of order. The delivery person will need assistance in unloading your table and will leave table at the curbside. Some tables require some assembly.

Shipping Charge:

Price includes shipping!
Some locations incur extra shipping charges. In that case, Paddle Palace will contact you before processing the order.

Folded position

Playback position

The Stiga Optimum 30 sets a new standard for consistency and design in table tennis tables. With a 30 millimeter (1.2 inch) top, the thickest in the sport and 20% thicker than its closest competitor, the Optimum 30 has the most even and consistent bounce of any table. ITTF approved and made in Germany, this table represents the pinnacle of current table tennis tables.

The playing surface of the Optimum 30 is coated with a special varnish for the ideal amount of friction and the truest bounce. The edge and center lines are silk screened for even placement and professional appearance. The undercarriage features a 2.4 inch steel apron and 2.4 inch by 1.6 inch steel legs with levelers. The table separates into two halves, each with their own set of four 4 inch casters for easy movement and the two halves allow compact storage as well as use in playback position. The Optimum 30 also comes with a high-quality Stiga VM net set. Measures 61" x 60" x 26" in folded position. Item: TEOP3

Folds for playback and storage positions. Measures 74" x 60" x 34" in folded position. Item: TEAER

TABLE TENNIS IN THE PARK HENGE Tables Building Community

It's a ping pong table, but it's not just any ordinary table. The Henge table is made from a slab of polished reinforced concrete—hand ground stone finish top, sculptural base below; a work of art. It has the standard ITTF-mandated dimensions and ball bounce, but it is built to withstand the turmoil of nature. It's a People's Table, inviting all passers-by to pick up a paddle and play. Old and young, rich and poor, athletically gifted or not, the table reaches out and says, "Try me!" As the USA is experiencing a table tennis revolution, with new clubs such as Susan Sarandon's chain of chic SPiN ping pong parlors taking over the night club scene, the Henge revolution is taking over our great outdoors. Perfect for back yard, poolside, campus, and park, the future for HENGE tables and USA Table Tennis is sunny and bright (with a chance of showers).

See more information and read the media releases at www.hengetables.com and on our Paddle Palace News at www.PaddlePalace.com.

Contact HENGE and mention Paddle Palace to receive a special discount. Non-profits are eligible for an additional discount.

NO ASSEMBLY REQUIRED!! SUPER-STURDY & FOLDS COMPACTLY!

\$1925⁹⁹

Butterfly Centrefold 25 Sky Rollaway

Our top of the line Centrefold 25 gets a makeover. The official table of the 2004 U.S. Open ITTF Pro Tour Championships. These preassembled tables are a one piece, fold and roll, design that are perfect for those with minimal storage space and easy enough for one person to maneuver. The new look red legs are placed 400mm inward which complies with the ITTC ruling for wheelchair competitors. Blue one inch scratch-proof top surrounded by a hard PVC band and strong two inch steel rim. Red steel frame with adjustable feet for leveling the table. Includes Europa Net Set. USATT and ITTF approved. Measures 63" x 60" x 15" in folded position. Item: TBCEN. NO ASSEMBLY REQUIRED!

\$874⁹⁹

Butterfly Premium Rollaway

A heavier Butterfly institutional table, the Premium Rollaway is well-suited for schools, institutions, and places where durability and storage space are a prime concern. Each table half folds up separately and can be rolled to fit snugly into the other half during storage, especially saving storage space when multiple tables are stored together due to their ability to overlap. Also has Playback feature. Measures 67 1/2" x 60" x 24" in folded position. Item: TBPRE

\$1349⁹⁹

Butterfly Nippon Rollaway

The Butterfly Nippon Rollaway is a world-class table built to last. It is the table of choice for many national and international tournaments. The scratch-free 1" green top is protected by a strong metal rim. Folds and rolls easily with large sturdy wheels for easy movement. Supported by two-inch wooden legs. Measures 70" x 60" x W30" in folded position. Item: TBNIP

SCOREBOARDS

PongTrac Electronic Scorekeeper \$59.95

This innovative digital electronic scorekeeper has wireless sensors placed under each end of the table, enabling the players to easily keep the score. PongTrac displays the game score, and it tracks and indicates which player is serving and the number of games each player has won in the match. It automatically adjusts for deuce games and can be used for both singles and doubles play. Players easily update and correct the score by simply swiping the paddle under the table. Visible up to 50 feet. Note: For more than one PongTrac at a location, there is an extra \$20 for separate programming of each additional PongTrac to ensure signals do not interfere. If needed, please request this at the time of order. Item: MMSP0

Stiga Scoreboard Large \$39.95

Stiga Scoreboard Large is made of durable soft plastic. Scoring 0-21 points and game score from 0-5. Folds and snaps easily for storage. Length 49cm x width 23cm x height 27.5 cm. Color: Navy or Black. Item: MSSCL

Tibhar Score Counter Time Out \$29.95

Foldable plastic coated board with PVC numbers from 0 to 20 and 0 to 5 (sets). Item: MTSCT

BARRIERS

Price of all barriers includes shipping with minimum order of 3. If ordering fewer than 3, shipping charges will apply.

Stiga Surrounds \$24.95

Stiga Surround barrier measures 6.5 feet long x 28 inches tall [2 meters x 70cm]. Black with gray logo or Navy with blue logo. Item: MSBA

Tibhar Full Cover Surrounds \$34.95

Great quality Surrounds! The Tibhar Full Cover Barrier features new surround construction. Unlike most barriers, the cloth completely covers the steel pipes on all sides. Made with robust 210D nylon cloth. Available in blue, green, or black. Item: MTBAR

Measures 7.5 feet long x 28 inches tall [2.3 meters x 70cm]

Tibhar TT Tables Clean \$11.95

Dust repellent agent especially for cleaning table tennis tables. Pour onto cloth or sponge and wipe table. 500ml bottle. Can be sent by airmail. Item: ETTAB

NOTE: Use table cleaner only on tournament quality tables.

FOR THE TABLE

Paddle Palace Rolling Ball Collection Net with Stand \$119.95

Perfect for clubs, schools, and home. Great for serve practice or for use with a table top robot or other robots. It is attached to a metal rolling stand, allowing you to quickly move the net to the table and away again as needed. Light weight, durable metal frame has four caster wheels, two on each side, allowing it to roll easily. The base of the net is made of durable nylon. Assembly tools are included -- just bolt it together and start practicing! The net is 86" w x 25" tall. Horizontal nylon base: 25" from the floor and 17" deep. Item: OPNES

Paddle Palace Ball Collection Net \$79.95

The Paddle Palace Ball Collection Net clamps to the table with metal brackets at each corner and includes side nets that extend to the center of the table. Place a container of your choice under the opening and hit away! Great for practicing serves or for using with a table top robot. Net extends 24 inches above the table top and 12 inches off the back of the table. Very portable -- folds to 15" x 32" x 1". Item: OPNET

Stiga Table Cover \$39.95

Stiga table cover fits both folded or unfolded table. Royal blue color with STIGA logo. Item: MSTCO

Kettler Table Cover \$59.95

(Not pictured) For table in folded position. 67" tall, 63" long, by 31 1/2" at the base. Item: MKCO

Tibhar Net Gauge \$1.75

Net gauge measures the net height. Also measures maximum thickness of the rubber sheet. Item: MTNM

Nittaku Net High \$1.95

Handy for measuring the correct height of your net for regulation table tennis. Also has a height for the Large Ball Game, and measure for maximum 4.0 thickness of rubber. Item: MNNM

Umpire Net Measure \$8.95

Heavy 100 gram steel net measure is your tool for measuring the regulation net height, 44mm Large Ball game net height, and net tension. Item: MNNU

Nittaku Umpire Set \$29.95

Includes Stop Watch, 100 gm steel Umpire Net Measure, three Referee Cards (Red, Yellow, and Time Out), and Toss Coin (white on one side, orange on the other). Comes with super Shoulder Pouch with four zip sections & organizing flaps. Black/maroon trim. Item: MNUS

JUIC Ball Catcher \$29.95

Juic's Ball Catcher folds for storage, and has a telescoping adjustable handle. This is a great item for picking up balls -- and it saves your back! Plus it folds for easy storage and includes a storage bag. Color: Black. Size: 102cm long when completely open. 52 cm when folded. Item: MJBC

Stiga Ball Catcher \$17.95

Stiga Ball Catcher is handy for picking up balls. Saves stress on your back! Especially useful when using a robot or practicing drills. Item: MSBC

VOC-FREE WATER-BASED GLUE

These Water-Based glues contain no VOC's, are legal under the new ITTF regulations, and can be sent by air shipping methods. All water-based glues must be kept at room temperature. When water-based glues freeze, they harden and are no longer usable.

Nittaku Finezip

Water-based glue. VOC-free and legal under the new ITTF regulations. Apply Finezip to both blade and rubber, dries in about 5 minutes, then apply rubber to blade. Can be sent by air shipment. Available in 50ml or 100ml plastic tube. Item: GNZIP

50ml **\$11⁹⁵** 100ml **\$19⁹⁵**

Tibhar Clean Fix

Water-based, VOC-free, according to ITTF guidelines. Easily applied to blade and rubber thanks to sponge applicator. Relatively fluid glue requiring a drying period of about 5 minutes depending on the environment. Recommended to apply one layer on both blade and rubber.

\$9⁹⁵ 25g bottle w/sponge applicator
Item: GTFIX

Tibhar Clean Fix Extra

20g bottle. Water-based, VOC-free, according to ITTF guidelines. To apply only on rubbers. For a long-lasting fixation of the rubber to the blade. One layer is sufficient. Lasts for 3 to 4 bats. Dries in about 5 minutes.

\$9⁹⁵ 20g bottle Item: GTFIE

Tibhar VS Top Glue

80 ml. Quick-drying VOC-free glue made from 100% liquidized natural caoutchouc. After a drying period of 10 - 15 minutes it allows you to stick the rubber to the blade. Easy to remove the rubber from your blade and any remaining particles of glue are easily peeled away from the sponge. Comes in a 80ml bottle with two sponges and clip for spreading the glue.

\$17⁹⁵ 80ml bottle

150 ml can
\$25⁹⁵

Stiga Aqua Energy Glue

Water-based, VOC-free glue for attaching rubber sheets to your blade. 150 ml can with a brush applicator attached to the lid. Item: GSAQU

\$4⁹⁵

Stiga Glue Applicator Set

Set includes ten cylinder-shaped sponge applicators for water-based glue, and a reusable clip. Item: MSGLA

Stiga Syncro BTG Glue

Easy to use, fast to dry, easy to remove, and VOC-free!

This thin water-based glue provides both excellent bonding and easy removal! Normally with water-based glues the glue is very difficult to remove from the blade and sponge. But with the unique new formula of Syncro BTG (Bond Technology Glue), these problems are over! Thin, soft, and flexible, it spreads very easily in a thin and even layer on the blade and rubber. It provides excellent attachment, but when it is time to remove the rubber from the blade, the glue and rubber come off very easily. Item: GSSYN

100ml with built-in sponge. **\$19⁹⁵**

150ml with built-in brush. **\$25⁹⁵**

Stiga Attach Power Glue

A new water-based glue, formulated to eliminate glue buildup. Very adhesive, so one application is all that is needed. Available in 50 and 100 ml. Item: GSATT

50ml
Reg. **\$19⁹⁵**

TECHNIQUES OF BASIC STROKES

with European Champion Vladimir Samsonov \$34.95 Item: VTDS

Top world-ranked player Vladimir Samsonov demonstrates table tennis techniques. Learn the secrets of the master! Narrated with excellent studio fast-mo and slow-mo demonstrations of basic and advanced techniques, with outstanding illustrating video segments from international competitions. 13 easy to access chapters. The most thorough and advanced instruction in the market. See paddlepalace.com for more details. 70 minutes.

PRO TABLE TENNIS SERVES

\$29.95

Program features 29 players and 140 serves!

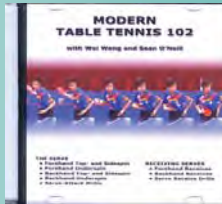

Alpha Productions has captured the serves of some of the world's best players during practice. This program clearly shows each detail in their movement and reveals the secrets of the contact.

Covers serves of all styles - shakehand, penhold, righthanders, lefties -- organized in the basic categories of underspin, topspin and no spin, with a special mention if the side spin component becomes significant. Each serve is presented at full speed, half speed and an extra-slow "analysis speed". On some serves, the use of a super slow motion camera reveals even more detail of motion. Item: VADSE

TABLE TENNIS 101 DVD

Learn all basic strokes of Olympic level Table Tennis plus a clear overview of the skills of competitive play. Access each of them directly by a click of the remote control. U.S. Champions Wei Wang and Sean O'Neill illustrate each stroke in video clips shot from three different angles. Audio commentary supports visual presentation, and the user can study the strokes from three angles. See paddlepalace.com for more details. Item: VADV1

MODERN TABLE TENNIS 102 DVD

\$34.25 By Alpha, 35 minutes. 1996 Olympic Team member Wei Wang and five time U.S. Men's Champion Sean O'Neill explain serve motion & strategy, receive motion, footwork & strategy. See paddlepalace.com for more details. Item: VADM2

DR. NEUBAUER TABLE TENNIS TECHNIQUE \$14.95

BOOKS

Table Tennis Tales & Techniques \$19.95

by Larry Hodges
274 pages
Table Tennis Tales & Techniques contains the best published work of USATT Hall of Famer Larry Hodges. This well-known author, coach, editor, promoter, and club, tournament, and league director has penned some of the best table tennis writings you will find.

Contains excellent table tennis instruction including: Serving, Receiving, Rallying, Footwork, Tactics, How to Improve, Miscellaneous Coaching, and Hardbat. Also compiled here are Larry's most humorous and insightful writings

about table tennis, such as his essays "How Marty Reisman Ruined My Life", and "Death of a Backhand". Item: MMBO

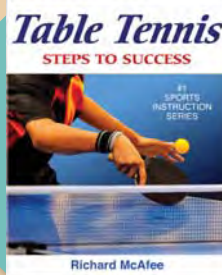

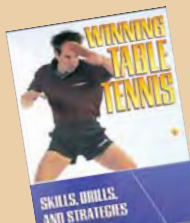

Table Tennis Steps to Success \$18.95

by Richard McAfee
204 pages. Measures 8.5" x 11" NEW as of May 2009!

This new book combines the knowledge and experience of master instructor Richard McAfee with essential table tennis techniques and strategies for today's player. With a unique 11-step approach designed to maximize table tennis instruction, you'll learn the proper grip for your style of play, execution of the basic strokes, and the correct way to apply spin to the ball. Then, build on these core techniques with masterful footwork, serves, returns, and stroke combinations.

Best of all, learn how and when to apply those skills in match play. With competitive strategies—adapted for both you and your opponent's playing style—you'll raise your game to a new level. And with clear instruction, comprehensive coverage, detailed photo sequences, and drills to ensure mastery of every technique, you'll be playing—and winning—in no time. Item: MMBM

CELEBRATE PING PONG DIPLOMACY!!

Celebrating the 40th Anniversary of Ping Pong Diplomacy!

In 1971, the US Table Tennis Team was attending the World Championships in Nagoya, Japan, when they received a surprise invitation to travel to China. The visit of the 15-member US delegation helped to open relations with China and created a media sensation around the world. Paddle Palace owner Judy (Bochenski) Hoarfrost was the youngest (15-year-old) member of the Ping Pong Diplomacy delegation. Watch the news for the upcoming 40th Anniversary events planned between China and USA!

Paddle Palace Ping Pong Diplomacy Case

PRICE
\$11⁹⁵

The Paddle Palace Ping Pong Diplomacy paddle case from Paddle Palace is paddle shaped and has a ball pocket on the back side that holds 3 balls. This unique designer case celebrates the 40th Anniversary of Ping Pong Diplomacy. This red case features a large design of crossed Chinese and USA paddles, with the words, "Ping Pong Diplomacy, 40 Years". Item: CPDIPPS

Paddle Palace Case

PRICE
\$10⁹⁵

Very popular design! Seven great colors!

The Paddle Palace Case has a sturdy zipper that zips all the way around the handle, so there is no need to handle the rubber when inserting your paddle. It has plenty of room so there are no worries of nicking or scraping your rubber when taking it in or out of the case. Thick, padded, high-quality fabric provides great protection for your most precious possession! Ball pocket on outside can hold three balls. Colors: Black, Gray, Violet, Blue, Light Blue, Red and Green. Item: CPPADPS

Paddle Palace Rectangular Case

This great rectangular-shaped case holds two paddles. Ball pocket on exterior holds three balls. Case is padded for excellent protection. The zipper zips from both ends, plus the case zips open around three sides so putting your paddle in and out of this case is quick and easy. Case can lie flat when open. Inside, there are flaps on each side for securing your paddles or other items. A divider down the middle separates your paddles and adds extra protection. Colors: Black, Gray, Blue, Red, Green. Item: CPPADR

PRICE
\$15⁹⁵

Exterior ball pocket holds 3 balls" (balls not included).

Paddle Palace Backpack

PRICE
\$36⁹⁵

- Completely padded, mesh back
- Padded adjustable straps

GREAT SHOES FROM STIGA

Stiga Master SPECIAL

Reg \$49.95 Excellent table tennis shoe for the player who wants to look good while they perform at the highest level. Combines intelligent fabric technology with functional design details. Alumeson on the outside of the toe evacuates moisture. Outer sole has special design similar to a car tire, providing maximum grip in all directions. Middle part of outer sole has "STIGA Shock Absorb Module" with a special material that gives maximum support under the whole foot and absorbs vibrations that can hurt the foot. White with blue accents. European sizes 35-46. Item: HSMA

Stiga Focus

An elite table tennis shoe with high-impact cushioning and adaptable grip of the outsole. Elastic and breathable mesh panels stretch and flex with the foot for comfort and support. Specific features allowing for customized support around the arch and width accommodation through the forefoot. SMS (Side Movement Support) on the outsole. Extra soft EVA at the forefoot of the insole for genuine floor feeling and EVA stabilizer for mid foot control. Sorbo foam front foot absorbents for extra comfort and feeling and arch support on the insole. European sizes 35-46. Item: HSFO

Stiga Pro Delux Shoes

Flexible, supple upper designed to adapt to the foot's motion, providing firm contact to the floor and enabling instant direction change. Split outsole for optimized weight and flexibility. SAV (STIGA Air Ventilation) from the upper part to the outsole. SMS (Side Movement Support) on the outsole. Shock absorbing heel points. Breathable mesh upper, breathable outsole, and breathable insole. Shock absorbing innersoles with Sorbo foam zones in heel and front for less stress. Arch support on the insole. Special split tongue with elastic band for extra comfort. European sizes 36-46. Item: HSPD

TIBHAR NEW FROM TIBHAR

Basic Shoes

Light weight for table tennis. The grippy sole is made from natural rubber for optimum floor contact. Upper is made from breathable cotton fabric, with suede reinforcement. White with blue accent color. European Sizes 36-46. Item: HTBA

TT Energy Shoes

Stable and supportive table tennis shoe. Breathable mesh fabric and a grippy sole are combined for optimum comfort. European sizes 36 to 47, white with black and grey trim. Item: HTTE

Speed Move

Light and flexible shoes, constructed with breathable leather and elastic mesh fabric. Natural rubber outer sole. Designed to allow foot movement in all directions with no negative impact on comfort. European sizes 36 to 46, white with red trim. Item: HTSM

OFFICIAL BALL FOR USA TABLE TENNIS & TABLE TENNIS CANADA

OFFICIAL EQUIPMENT sponsor of the Chinese National Team

BEST BALLS IN ANY DIMENSION

Nittaku 3-Star Premium Balls

Highest grade of Nittaku 3-Star balls. Manufactured in Japan to higher specifications with higher quality material than any other ball! It stands in a class of its own. The Nittaku 3-Star Premium is more consistent in hardness and lasts longer than any other ball in the world. Label on ball says "Premium 40, Made in Japan". Packaged in boxes of 3 balls each. Item BNPR

\$6.95 for 3 balls / \$13.50 for 6 balls / \$25.95 for 12 balls.

Nittaku 3-Star Premium Bulk Pack

Same 3-Star Premium ball, but packaged as 10 dozen loose balls in bulk box. White or orange. Item BNPK **\$208.95 for 10 dozen**

Nittaku 3-Star

The Nittaku 3-Star 40mm ball is a high quality 3-star ball, exceeding the highest standards for ITTF approval. Made in China, as are virtually all 3-Star balls of the major brands. Label on ball says "40" and "Japan". Packaged in boxes of 3 balls. Available in white or orange. Item BNCH

\$4.95 for 3 balls/\$9.50 for 6 balls/\$17.95 for 12 balls

Nittaku Super Training Balls

10 Dozen bulk pack. Outstanding practice ball at outstanding price! These top quality 40mm practice balls are great for training, matches, multi-ball drills, robots, and using in any case where your more expensive balls could get lost, damaged, or stolen. Ten dozen balls (120 balls) in one box. Available in white or orange. Item BNSK

\$54.95 for 10 dozen

Nittaku Top Ball

Best practice ball in the world! This 40mm ball is made in Japan with the same quality material and process and in the same Nittaku factory as the Premium ball. These balls did not pass all the very strict tests to become designated as Premium. Packaged loose in a bulk-pack of two dozen (24) or ten dozen (120). Available in white or orange.

**\$17.95 for 2 dozen Item BNT0
\$75.95 for 10 dozen Item BNTK**

Nittaku Large 44mm 3-Star

44mm Nittaku 3-Star balls. Standard size is 40mm. These are extra-large 44mm balls for the 44mm game. Slower speed, less spin—easier to see, hit, and control. Top quality, made in Japan by Nittaku. Orange only. Item BN44

\$25.95 for 12 balls
